

URTLING YOUR FINANCIAL PROBLEMS

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

It is a condition of any licence issued in terms of the Environmental Impact Assessment Act (Act No. 25 of 2004) that the licence holder must submit an Environmental Impact Assessment (EIA) report to the Department of Environmental Affairs and Forestry (DEAF) for approval before commencing any activity. Limited funds are available to assist with the EIA process, but the licence holder must contribute towards the cost of the EIA process.

The establishment of a pumped storage scheme and associated infrastructure in the Steelburg area, in the Mpumalanga and Limpopo Provinces.

A pumped storage scheme supplies power during peak demand times and generates surplus power during off-peak periods. The proposed scheme will consist of an upper and lower reservoir, an underground power house complex and associated waterways, as well as ancillary infrastructure such as roads, transmission lines and other associated infrastructure.

WHO SHOULD YOU CONTACT?

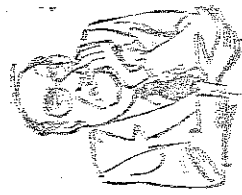

Dobivoko Environmental has been appointed as an independent environmental impact assessment consultant to undertake the required environmental impact assessment process and the associated public participation process for the proposed project.

To register as an interested and affected party (I&AP), please submit your name, contact information and your interest in the project to:

Sikongile Bhoraka or Louise Aggenberg at Dobivoko Environmental
 P.O. Box 11794, Vermeulen Valley, Midrand, 1606
 Tel: 011 485 3641 Fax: 011 485 3649
 E-Mail: steelburg@dobivoko.co.za
