14 June, 2007

Dear Stakeholder

A BASIC ENVIRONMENTAL ASSESSMENT (BEA) FOR THE REFURBISHMENT OF THE PROPOSED APOLLO SUBSTATION FOR ESKOM

- ***Invitation to comment on the Basic Assessment Report***

We trust that you have received the Background Information Document (BID) and comment sheet which was distributed in April 2007 to allow you the opportunity to contribute to the Basic Environmental Assessment for the refurbishment of the existing Apollo substation which is situated between Kungwini Local Municipality and Ekurhuleni Metro, close to the R21.

We wish to extend our sincere thanks to those stakeholders who have submitted contributions. Please be assured that the issues you have raised have already been passed on to the technical team. Your issues will appear, linked to your name, in the Draft Basic Environmental Assessment Report.

- **Draft Basic Assessment Report available for public comment**

A period of three weeks is available for public review of the Draft Basic Assessment Report (**Friday, 15 June to Friday, 6 July 2007**). Thereafter, the report will be updated and submitted to the lead authority for the Basic Environmental Assessment to review the findings.

We look forward to your further participation in the Basic Environmental Assessment (BEA) Process. Should you have any questions, or would like to obtain more information, or if you wish to raise issues of concern, you are welcome to contact me or my colleague Wilheminah Mosupye at tel (011) 254-4855/4905, fax (011) 805-2100 or email aodendaal@zitholele.co.za / wmosupye@zitholele.co.za.

Sincerely

ANELLE ODENDAAL

Public Participation Office: Basic Environmental Assessment (BEA)
