ATTENTION: NICOLENE VENTER

Dear Madam,

COMMENTS ON THE DRAFT SCOPING REPORT FOR THE PROPOSED HENDRINA ASH DAM.

The Environmental Management Department of Transnet Freight Rail: (Eastern Region), has perused the Draft Scoping Report for the proposed Hendrina Ash Dam.

It is our view that the issues of concern have been adequately identified in the above mentioned documentation.

Transnet Freight Rail would however like to highlight the following concerns/comments:

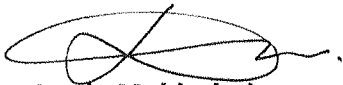

- Where the preferred site is in close proximity to Transnet Freight Rail infrastructure, the impact of Ash dust fall out and its deposition on Transnet Freight Rail infrastructure (specifically Overhead Electrical wires) must be investigated and mitigation measures proposed.
- Where the preferred site is in close proximity to Transnet Freight Rail infrastructure and spraying of water on the dam is a possibility. The impact of possible spray drifts towards Transnet Freight Rail overhead electrical wires should be investigated and mitigation measures is provided.
- The need for rerouting of powerlines which could lead to powerlines crossing over Transnet Freight Rail's infrastructure should be outlined. It should also be noted that Transnet Freight Rail would therefore need to be consulted for approval of crossing overhead wires.

- In a case where the ash dam is placed in close proximity to the Transnet Freight Rail infrastructure (site E or C), which could lead to significant hydrological changes around Transnet Freight Rail infrastructure, such should be brought to Transnet Freight Rail's attention, to ensure that infrastructure is protected from increased runoff around the area.
- Where site selection leads to the need for pipes transporting ash to traverse Transnet Freight Rail railway lines, it should be indicated how accidental spillages on Transnet property will be prevented and/or addressed.
- The potential for seepage of contaminated water, from the dam, onto Transnet Freight Rail property should also be reported.

It is hoped that the issues of concern highlighted above, will be given adequate consideration.

Transnet Freight Rail will provide further comments as and when further investigation reports, for the project, are made available for comments.

Yours truly,

Louis Makhubele

Re: ACKNOWLEDGEMENT OF THE DRAFT ENVIRONMENTAL SCOPING REPORT FOR THE PROPOSED EXPANSION OF ASH DAMS AT HENDRINA POWER STATION.

- The Department confirms having received the above mentioned project on the 09th June 2011. The Department has reviewed the project and here are the comments.
- The Department would like to know about the sustainability of the project as you have indicated that the life span of the power station will go up until 2035, will therefore the expansion of the dams have the capacity until to the end of the lifespan of the power station.
- The Department would like to know about the water source of the power station.
- Which dams are going to be expanded as there are five dams mentioned but the two is in operation and the three are having different conditions. If

it is ash dam 3, 4 and 5 then what will happen to dam 1 as it has reached full capacity.

- o In terms of the related infrastructures such as the expansion of the pipeline, storm water trenches, can you please state the proposed length to be expanded.

The responsible officer is Charity Mthimunye and all correspondence must be directed to: Environmental Impact Management Section marked for the attention of the responsible officer. Please draw the applicant's attention to the fact that the activity may not commence prior to an environmental authorization being granted by the Department

Yours Faithfully

Subject: RE: URGENT NOTICE: Change of POD-PM venue (Tuesday 19 July 2011) - EIA Hendrina Ash Dam

Hallo Nicolene
For some reason I've been getting your urgent notices.
Please note I've retired from the Environment business, and if you're looking for a C.Malamse (not sure exactly how the surname is spelled), this person has never worked for Wetland Rehab and Erosion Control. The best person to contact will be Andre Breetge from SANBI's Working for Wetlands, he will be able to give you contact details for the relevant stakeholders. Unfortunately I don't have his contact details, but I'm sure you can Google him to find his details.

Kind Regards
Anni Schwirzer

Good day

Can we assist with any advertising for this week? We deal with all local, national and international Newspapers and Magazines, providing one invoice for all media and charge the same as dealing directly with the newspapers. We will set the advert for you, so there are no production costs. The way we bring in revenue is that the publication houses pay us a 16.5% commission. We are also able to suggest/recommend and offer information on publications (i.e. distribution, area coverage etc) and payment only needs to be made 30 days from invoice.

To whom it may concern

Dear Mrs / Mr

I have recently completed my National Diploma in Electro Mechanical Engineering at Tshwane University of Technology.

I intend to apply, this year, at UNISA to achieve a Degree in Electro Mechanical Engineering, on part time basis. I am confident that I could manage my time effectively to work and study at the same time.

I evaluate every situation systematically, thoroughly and to the best of my ability to enable me to respond according to the required needs of task at hand. I am a responsible and trustworthy person who will see the job through to the end.

I am also a determined and hard working person who ensures the end-goal is successfully achieved for the organization. I have a passion to excel in what I do and make a success of my future. My life-goal is to be a competent worker and that my work always achieves the full potential.

I hope you will consider my application favourably to give me the opportunity to add value to your organization.

I highly appreciate your time to consider my application. I am looking forward to hear from you soon.

Please feel free to contact me for any enquires in this regard.

Kind regards

Anton Dreyer

Subject: May i please have a second of your time...

Goodday

May i please have a second of your time, maybe i might interest you in a product that you are in need of or interested in...

I am Daniel Mndebele a Nashua mobile representative. I have sent this email just to inform you of the product that Nashua mobile can offer you as a client...

A lot of people think Nashua mobile just offers cellphones on contract... It may seem like it but in actual fact we offer more than just cellphone contracts. Cellphones are one of the major items that we offer clients, since every person needs a way to communicate we offer them that way.

We offer different contracts for different individuals and we also do offer contracts to companies... The best thing about Nashua is that we offer you more than what you are looking for, we house up to 4 networks namely Vodacom, Mtn, Cellc and we shall soon offer the latest network to hit the market 8-ta powered by Telkom...

The question your asking yourself is why should u leave your Service Provider to join Nashua mobile, with your current SP are you really getting what you paying for? Are you getting the full plate or are they giving you what they think you want? Are you being over charged for upgrades and every service they offer you? Think about how much you or your company would have saved if you were told what to expect from the minute you walked into the door.

Do you know exactly what your paying for? Do you read your terms and conditions everytime you sign a new contract??? Maybe it is about time you read what you are signing for. Most of the time you never get what your paying for since you do not know what you have signed. At Nashua mobile we do allow our customers to read through their contracts, we even allow them to take it home so that they know what they are signing for... We offer fair and just terms and conditions which make our clients comfortable with what they are signing...

The best thing about Nashua Mobile Witbank you do not have to come to the shop to get a contract, i will personally deliver the contract to you and if all goes well after that we, i will also personally hand deliver the phone to you or your company...!

Nashua Mobile also offers:

Data contracts

Data contracts with a laptop

Cellphone accessories

Printing paper

Faxing and Copying services

Landline services with Neotel

Routes

C-trac

We offer every cellphone range available on the legal cellphone market. All the devices we offer are GMS approved by ICASA.

1- Blackberry (its not just a phone--- its a blackberry).

2- Nokia (what can it do for you)

3- Motorola

4- Samsung

5- Htc

6- LG (lifes good)

7- Sony Ericsson

8- Acer

9- Dell

10- MacBooks

11- HP

Subject: job application
Attachments: my_C.V.doc

I am here by applying for any environmental consultant position. I am a post graduate and I have completed BSc honours of Geography and Environmental science with the University of Limpopo in 2011 majoring in GIS, Elements of environmental management and sustainable resource development.

I have experience working as an Environmental consultant responsible for conducting EIA, drafting scoping, basic assesment report,environmental management plan & conducting public participation

I believe I'm the right candidate for any position because of the key strength that I possess for success which include but not limited to, the following: Provide exceptional contributions to the management of our environment, Strive for continued excellence, I am a self-starter and Eager to learn new things. I know that the combination of my education and motivation to excel will make me an asset to your department.This position will provide me with the ideal opportunity to assist at your organization and to expand my environmental skills.

Your positive response towards this application will be highly appreciated

Yours respectfully
M, Makherana
