Mr Petrus (PJ) Badenhorst	Private (T1311746/1998)	Faure 72KQ/5, Faure 72KQ,106 KQ, Leeudrif 78KQ	Agriculture		Yes	Yes	Yes		Contacted Marti Moolman regarding advert in newspaper. Received information from Marti Moolman on 14/08/06. JB also sent email on 08/02/07 with SR and maps. Also requested contact details of official at DEAT - JB emailed to him on 21/02/07. JB sent email on 06/03 for PM and POD. Visited PBA office - meeting with JMB. Following concerns: lines to be kept together; this is better for safety for microlights; this is also better for ecology; game management takes place in air, with microlights - power lines are a safety concern for these microlights; tourist rides in hot air balloons - power lines also pose a problem for this. Sent letter 18/09 refers: Mmamabula and Matimba to be in one corridor to minimise all impacts. Safety of planes will be better with one corridor. JB acknowledge receipt of letter on 06/10 via email.

Following comments: the report does not address why existing infrastructure cannot be used; there is an existing servitude next to railway line - why is this not used, and the report does not address this; experience of farmers that if new infrastructure is built in the area, the crime escalates due to influx of foreigners; maintenance of lines and servitude after construction is very poor; local people are not used for maintenance and construction - this leads to influx of foreigners who include illegal immigrants; Eskom vehicles are used by thieves to steal on property, from farm workers and owners - the Eskom people are intimidated by the thieves and crime escalates; airstrip on property that is being used and also registered with Defence Force, Airforce and Police to be able to use if needed - lines are next to airstrip; power lines are flight risk for airplanes being used; already has existing line on property boundary - telephone line on boundary as well - two lines need to be certain distance away - if this rule is followed the line will move onto his farm (game farm) and not onto neighbour's farm who has grazing and a 'spilpunt'; Eskom must make a stipulation if

									Attended meeting of Rooibokkraal FU on 06/09/06 Received Reply sheet on the 28/10/0 from Mr. R Els. Comment Too little Public Participation and input, especially from land owners. Other Comment. Thaba Tholo was never invited nor informed of any of the meetings, despite being a major land owner and role player (35 000HA) in the area. The One meeting we attended, was discovered purely by chance if Thaba Tholo can be bypassed so easily, what about tha other smaller land owners/ Can you really claim fair presentation and input from the land owners? We received this Questionnaire on 27/10/2006 3 days after your proposed deadline.

"It is with regret that i discovered that my farm, Portion 138 of the farm Dooomhoek 318KQ, is directly in the way of one of the suggested routes for the above lines. I have to object in the strongest possible way to this routes being followed for the following reasons: 1. This part of the area is a green part where echo tourism is starting to flourish and this is going to carry this whole region economically in the very near future. 2. It is an area that is being exposed to the outside world and for the first time in its history is bing discovered by people from all over the world, and thus you will be killing off a livelihood for thousands of people. 3. I have spent the last year planning an eco and game housing development on this farm, with a partner, which at my age will allow me to retire. the cost of this developement is estimated at R500 million. We have already spent aprox, R1 million on all the planning that goes into a development of such a scheme and the loss of income could

Received letter dated 29/08 - refers: Iron Age Tswana nedersettings on farm; Anglo Boerwar remnants on farm; Trust Shalom - youth camp, catering for all children to teach them about nature (about 20 000 people have attended activities by Trust Shalom); infrastructure built up over years for eco-tourism; in process of establishing protected area; astrologers also visit farm as stargazing is very good; planning a horse-endurance course that the power lines will negatively influence; Swartruggens is tourism area - power lines will impact this negatively. Suggests that power lines not go over their farm, but move a bit.

Comment We have existing Eskom power lines by searching our property, we also have the Thabazimbi/grootgeluk railway line as well as the matjifontein road bisearching the above property. Any additional electricity lines will have a severely negative impact on our farming activities, which consist mainly of game farming, we would urgently request the above to be taken into consideration in your planning procedures.

He is in Germany, owns two farms in Steenbokpan area. Has appointed attorney - Deon van Dyk - to represent him. Concerns are: when he bought the property he wasn't aware of the power lines and would not have bought property if he had known; power lines influence a buyer when wanting to buy property. 22/09/06 - e-mailed request for contact details and farm name. Met with JMB and JB At PBA in August re project. Obtainted contact details from him. Visited PBA in first week of Dec to discuss projects - also sent email on 04/12 with co-ordinates of lodges on his farm. Please contact lawyer - Dean van Dyk for all correspondence. 									Would like to be involved in process as they assist people with social issues. Contact details confirmed on 16/08/06. Belang – Besit 'n wildplaas in Ellisras Distr. Impakte – nuwe lyne vernietig die ongeskonde natuur. Te veel lyne reeds in bosveld. Received reply sheet for scoping report on 19/10/06. Comments: All issues are not addressed: What about solar power, wind power, etc. Defaling the country further with powerlines should be the last consideration. Specialist reports: No costs can be too high when the face of the country is at stake (underground cables to expensive) Other comments: (1) There is an existing railway line from Matimba. Why not upgrade it and build the new power station where the power is needed (2) There is already numerous powerlines from Matimba and why not upgrade them to carry more power instead of defacing the country further with more lines.

Comment Indien gedeeld 3 van plaas pony KQ 395 gebruik gaan word vir lyn bou will ons graag by vergaderlings wees waar besluite geneem sal word. Ons sal bly wees indien die lyn nie oor die plaas loop nie want dit is n' klein plaas en sal moeilik wees om verder te kan boer. Sal dit wardeer word as dit in Afrikaans is anngesien die meeste beer Afrikaans is

Mr Gerhard (GH) Laufs	Private								Received Reply sheet on the 19/09/06 from Mr. Laufs. Comment I am a property owner in the Kwaggasvlakte area where I am also residing. I am doing an Echo Development in the area and if the project were to go ahead would defend the purpose of having an echo-development next to a national park.
