Dear Nicolene,
Thank you for your e-mail. My telephone number is 0836357319.
All I am looking for is the motivation justifying the development of Thuyspunt. I have not been able to find it anywhere.
Kind regards,
Geoff Hobbs

Dear Geoff

Thank you for your e-mail.

I would like to take this opportunity to inform you that SiVEST is not the EIA Consultants that can respond to your question as we are the independent consultants conducting the EIA for the proposed Eskom Transmission power lines (400kV) exiting from the proposed Thyspunt Nuclear Power Station. You are most welcome to access SiVEST's website (<http://www.sivest.co.za/Download.aspx> - go to 9520 Eskom Thyspunt EIA) for information regarding this project.

Arcus GIBB is the independent EIA Consultants conducting the EIA for the proposed Nuclear Power Station at Thyspunt. You will notice that I've CC this e-mail to Arcus GIBB (not 100% sure whether their [nuclear1@gibb.co.za](#) e-mail address is operational, but please try). They are the consultants that will be able to provide you with an answer to your question below.

Geoff, please forward me your telephone number as I would like to inform you of your rights as an interested and/or affected party by participating in an EIA process (and the public participation process), especially to the fact that you do not have to pay for any information regarding proposed projects undergoing an EIA process.

Kind regards

Dear sir,

I am a property owner at St Frances Bay and your address has been given to me as a possible person who could assist me.

I shall appreciate it very much if you could kindly make available to me a copy of the motivation provided by Escom for the building of the above station at Thuyspunt in particular, and why not at any other point in South Africa.

If there are any costs involved I shall appreciate it if you let me know in order that I can pay you.

Yours' faithfully,

Geoff Hobbs.
