(EIA: 12/12/20/944)
Comment Sheet 2: Draft Environmental Impact Report

Personal details: Mr Pieter Muller

Organisation: Kruisrivier Residents

Position: Board member

Address: P.O Box 380, Uitenhage, 6230

Telephone: 041 992 5382

Fax: 041 992 5382

Farm name: Ruimte No.G33

1. Comments on DEIR

I wish to express my strongest possible disapproval of

a. the construction of a nuclear power station at Thyspunt and

b. the proposed construction of a distribution line across or in the vicinity of Kruisrivier.

The photographs in Siv. Est. "Impakstudiebundels" are selective in the extreme and show only vallei bushveld. There are no photos illustrating the intensive farming that takes place in Kruisrivier. I refer here to game, beef, ostrich, chicken, lucerne, sheep and vegetable farming.

There has been no consultation with the farming community of Kruisrivier about the possible construction of a power line. The procedure is not transparent and may as such give rise to litigation.

The impact of such a power line in an area of intensive farming activity must be investigated and communicated to residents.

2. Any other comments

Let the nuclear power station be constructed in the proper place for it, which is north of Coega and south of Rochester. This is the cheaper option with fewer risks, because the prevailing winds will blow any nuclear fallout away over the ocean.
