Any interested and affected party should be provided with the information contained in this application on request, during any stage of the application process.

SITE IDENTIFICATION AND LINKAGE

In terms of Section 16 (3) of the EIA Regulations, Subregulation (1) regarding the obtaining of consent from the landowner to undertake the activity on their property does not apply in respect of a linear activity, provided the applicant has given notice of the proposed activity to the owners of the land on which the activity is to be undertaken as soon as the proposed route or alternative routes have been identified. The relevant site identification information is provided below for the proposed substation sites.

Please indicate all the Surveyor-general 21 digit site (erf/farm/portion) reference numbers for all sites (including portions of sites) that are part of the application.

Please note that this information can only be given once the preferred alternative alignments have been chosen. At this stage no alternative alignments have been identified. This will occur during the Scoping Phase of the Project. However the Grassridge and Dedisa Substation information is included
