#### Yes √ No

#### Kindly note that:

- 1. This application form is current as of 1 April 2016. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been published or produced by the competent authority.
- 2. The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
- 3. Where applicable **black out** the boxes that are not applicable in the form.
- 4. The use of the phrase "not applicable" in the form must be done with circumspection.
- 5. This application must be handed in at the offices of the National Department of Environmental Affairs where the Minister is the competent authority in respect of the application.
- No faxed or e-mailed applications will be accepted. An electronic copy (in the form of a CD) of the signed application form must be submitted together with two hardcopies (one of which must contain the original signatures).
- 7. Unless protected by law, all information filled in on this application form may become public information on receipt by the competent authority.
- Should a specialist report or report on a specialised process be submitted at any stage for any part
  of this application, the terms of reference for such report and declaration of interest of the specialist
  must also be submitted.
- 9. Proof of payment must accompany this application. The application will not be processed without proof of payment unless one of the exclusions provided for the Fee Regulations (Fees for consideration and processing of applications for environmental authorisations and amendments thereto Government Notice No.141, published on 28 February 2014) is applicable AND such information in section 1 of this application form has been confirmed by this Department.

#### 2. PROJECT DESCRIPTION

#### Please provide a detailed description of the project.

#### Project Background

The North West Province sources its generation supply from Matimba and Grootvlei power stations, as well as from the Apollo DC converter station. Within the province, the two Customer Load Centres (CLC) are Rustenburg and Carletonville. The Carletonville CLC consists of Hermes, Pluto, Midas, Watershed substations as well as the newly-built Mookodi substation. However, the existing Watershed substation is currently un-firm and has insufficient capacity to support the forecasted load in the area, which includes Lichtenburg and extends to Mahikeng town. There is also anticipated load growth in the Mafikeng area indicating a need for further enhancement of capacity in the area.

Hence there is a need for further network expansion through establishing a new transmission substation in Mahikeng. There are several projects underway to alleviate the constraint problems and this is referred to as the Watershed Strengthening Scheme. As part of establishing the site for the proposed Mahikeng substation, Mahikeng substation will be designed with an end state of 3x 500MVA 400/132kV transformers and install 2x 500MVA 400/132kV transformers initially. A 1x 160km Pluto – Mahikeng 400kV line will also be established. These two project components are currently undergoing a separate Environmental Impact Assessment (EIA) Process. The proposed project as part of this EIA Process is for the approximate 180km Mookodi - Mahikeng 400kV Powerline.

#### **Project Location:**

The proposed project is located within the Naledi Local Municipality (LM), Kagisano-Molopo LM, Ratlou LM, and Mahikeng LM in the North West Province. Four alternative routes have been considered for the Scoping and EIA Process. The proposed alternative routes for the line start in Vryburg at the existing Mookodi substation and travel in a north-east direction where the line ends near Mahikeng at the proposed Mahikeng substation site (**Figure 1**).

#### Figure 1: Locality map

#### Project Description:

The scope of the project includes a 400kV transmission line, approximately 180km in length. A 2km corridor for each route alternative applies (1km on each side). Following a contractual agreement with a landowner, an application for registration of the 55m servitude is lodged with the Provincial Deeds Office against the property deed. The towers types have not been finalised as yet, as the type of structure is

dependent on the final route of the power line.

Does the project form part of any of the Strategic Infrastructure Projects (SIPs) as described in the National Development Plan, 2011?

If YES, please indicate which SIPs are applicable in **Appendix 2**. You are also required to provide confirmation of SIP applications from the relevant sector representative which must be attached in **Appendix 2**.

In instances where there is more than one landowner, please attach a list of those landowners with their contact details as Appendix 4. Unless the application is in respect of linear activities or strategic

integrated projects as contemplated in the Infrastructure Development Act, 2014, written consent of landowner/s must be submitted in Appendix 4.

According to Regulation 39(1) of GN No. 982 of the 2014 EIA Regulations, as amended, if the proponent is not the owner or person in control of the land on which the activity is to be undertaken, the proponent must, before applying for an environmental authorisation in respect of such activity, obtain the written consent of the landowner or person in control of the land to undertake such activity on that land. This requirement does not apply inter alia for linear developments (e.g. pipelines, power lines, roads). Landowner consent was thus not required.

Please note that any authorisation that may result from this application will only cover activities specifically applied for. Co-ordinate points indicating the location of each listed activity must be provided with the relevant report (i.e. either BAR or EIR).

Please provide a project map indicating any sensitive areas (e.g. critical biodiversity area, World Heritage Site, etc.) overlaid by the study area in **Appendix 6**.

Refer to Appendix 6.

A project schedule, indicating the different phases and timelines of the project, must be attached as **Appendix 7**.

Refer to Appendix 7.

#### 7. PUBLIC PARTICIPATION

Provide details of the public participation process proposed for the application as required by Regulation 41(2) of GN R .982, dated December 2014.

The EIA Public Participation Process will consist of the following three phases:

- 1. Announcement Phase;
- 2. Scoping Phase; and
- 3. EIA Phase.

An overview of the Public Participation is outlined below that allowed the public to engage throughout the application process and project implementation phases:

#### First Public Notification

The directly affected and adjacent landowners and occupiers of the four alternative routes will be notified and encouraged to register as Interested and Affected (IAPs). First notification of the public regarding the proposed project will take place through the following methods:

- Background Information Documents (BIDs) and Reply Forms will be emailed and hand delivered to all landowners/occupiers and possible IAPs identified that may have an interest in the project. The BID includes a Comments Form to allow IAPs to register and raise queries or concerns regarding the project;
- Onsite notices, which also serve as notification of the project, will be placed in strategic locations on and around the proposed route alternatives; and
- Newspaper advertisements will be placed in local and regional newspapers.

A database of IAPs, which includes Authorities, different spheres of government (national, provincial and local), the Local Ward Councillors, stakeholders, landowners, interest groups and members of the general public, will be prepared by Nemai Consulting. Nemai Consulting will update and maintain the database of IAPs during the Scoping and EIA Process.

#### Second Notification - Public Review of the Draft Scoping Report

Registered IAPs will be granted an opportunity to review and comment on the Draft Scoping Report (DSR). A hard copy of the report will be made available for the public. Copies of the DSR will be provided to the Municipalities, as well as Provincial and National Governmental Departments. Notices will be prepared and forwarded to registered IAPs recorded in the database containing the following information:

- DSR review period IAPs and Commenting Authorities will be given 30 days to submit comments on the report;
- Venues/electronic links of where hard copies of the DSR can be reviewed;
- Date, time and venue of the Public Meetings; and
- Details of the review process for the DSR.

The purpose of the public meetings will be to introduce the project and to share information, to present the Scoping and EIA Process and an overview of the DSR, and to provide a platform for project-related discussions. Nemai Consulting will capture all comments into the Comments and Responses Report which will be included in the Final Scoping Report.

#### Third Notification - Public Review of the Draft EIA Report

Registered IAPs will be granted an opportunity to review and comment on the Draft EIA Report. The same process as above for the Scoping Phase applied for the Draft EIA Report.

#### Final Public Notification

Nemai Consulting will notify all the registered IAPs of the Departments decision and the Appeal period. These notifications will include the appeal procedure to the decision and key reasons for the decision. A copy of the decision will also be provided to the registered IAPs on request. Notification letters will be prepared and sent to the registered IAPs contained in the database. These letters will contain the following information:

- The outcome of the application and reasons for decision;
- Details on where the decision can be accessed; and
- An explanation of the appeal procedure and timeframes.

Newspaper advertisements will also be placed highlighting the same information as above.

 A Water Use Licence Application (WULA) for Section 21 (c) and (i) water uses will be undertaken once a route has been authorised. The WULA will be submitted to the Department of Water and Sanitation once compiled.

 $\checkmark$ 

 A Heritage Impact Assessment (HIA) will be undertaken to determine whether any heritage resources will be impacted and submitted to the relevant heritage resources agency. Should any heritage be identified, the relevant permits in terms of the National Heritage Resources Act will be obtained.

If authorisation is necessary in terms of the National Environmental Management: Waste Act, please contact the Department for guidance on the Integrated Permitting System.

Note that in terms of sections 7B and 7C of the National Environmental Management: Integrated Coastal Management Act, 2008 (Act No. 24 of 2008) ICMA, a pre-approval for a reclamation application in terms of the ICMA should first be issued by the Minister prior to the submission of a NEMA Chapter 5 EA application to the NEMA competent authority (CA).

#### APPENDIX 2 STRATEGIC INFRASTRUCTURE PROJECTS

#### SIP 1: Unlocking the northern mineral belt with Waterberg as the catalyst

- Unlock mineral resources
- Rail, water pipelines, energy generation and transmission infrastructure
- Thousands of direct jobs across the areas unlocked
- Urban development in Waterberg first major post-apartheid new urban centre will be a "green" development project
- Rail capacity to Mpumalanga and Richards Bay
- Shift from road to rail in Mpumalanga
- Logistics corridor to connect Mpumalanga and Gauteng.

#### SIP 2: Durban-Free State-Gauteng logistics and industrial corridor

- Strengthen the logistics and transport corridor between SA's main industrial hubs
- Improve access to Durban's export and import facilities
- Integrate Free State Industrial Strategy activities into the corridor
- New port in Durban
- Aerotropolis around OR Tambo International Airport.

#### SIP 3: South-Eastern node & corridor development

- New dam at Mzimvubu with irrigation systems
- N2-Wild Coast Highway which improves access into KwaZulu-Natal and national supply chains
- Strengthen economic development in Port Elizabeth through a manganese rail capacity from Northern Cape
- A manganese sinter (Northern Cape) and smelter (Eastern Cape)
- Possible Mthombo refinery (Coega) and transshipment hub at Ngqura and port and rail
  upgrades to improve industrial capacity and performance of the automotive sector.

#### SIP 4: Unlocking the economic opportunities in North West Province

- Acceleration of investments in road, rail, bulk water, water treatment and transmission infrastructure
- Enabling reliable supply and basic service delivery
- · Facilitate development of mining, agricultural activities and tourism opportunities
- Open up beneficiation opportunities in North West Province.

#### SIP 5: Saldanha-Northern Cape development corridor

- Integrated rail and port expansion
- Back-of-port industrial capacity (including an IDZ)
- Strengthening maritime support capacity for oil and gas along African West Coast
- Expansion of iron ore mining production and beneficiation.

#### SIP 6: Integrated municipal infrastructure project

Develop national capacity to assist the 23 least resourced districts (19 million people) to address all the maintenance backlogs and upgrades required in water, electricity and sanitation bulk infrastructure. The road maintenance programme will enhance service delivery capacity thereby impacting positively on the population.

#### SIP 7: Integrated urban space and public transport programme

Coordinate planning and implementation of public transport, human settlement, economic and social infrastructure and location decisions into sustainable urban settlements connected by densified transport corridors. This will focus on the 12 largest urban centres of the country, including all the metros in South Africa. Significant work is underway on urban transport integration.

| SIP 8: Green energy in support of the South African economy<br>Support sustainable green energy initiatives on a national scale through a diverse range of clean<br>energy options as envisaged in the Integrated Resource Plan (IRP2010) and support bio-fuel<br>production facilities.  |   |
|---|---|
| Indicate capacity in MW:  |   |
| SIP 9: Electricity generation to support socioeconomic development<br>Accelerate the construction of new electricity generation capacity in accordance with the IRP2010<br>to meet the needs of the economy and address historical imbalances. Monitor implementation of<br>major projects such as new power stations: Medupi, Kusile and Ingula.   |   |
| Indicate capacity in MW:  |   |
| SIP 10: Electricity transmission and distribution for all<br>Expand the transmission and distribution network to address historical imbalances, provide<br>access to electricity for all and support economic development.<br>Align the 10-year transmission plan, the services backlog, the national broadband roll-out and the<br>freight rail line development to leverage off regulatory approvals, supply chain and project<br>development capacity.   | ~ |
| SIP 11: Agri-logistics and rural infrastructure<br>Improve investment in agricultural and rural infrastructure that supports expansion of production<br>and employment, small-scale farming and rural development, including facilities for storage (silos,<br>fresh-produce facilities, packing houses); transport links to main networks (rural roads, branch<br>train-line, ports), fencing of farms, irrigation schemes to poor areas, improved R&D on rural issues<br>(including expansion of agricultural colleges), processing facilities (abattoirs, dairy infrastructure),<br>aquaculture incubation schemes and rural tourism infrastructure. |   |
| SIP 12: Revitalisation of public hospitals and other health facilities<br>Build and refurbish hospitals, other public health facilities and revamp 122 nursing colleges.<br>Extensive capital expenditure to prepare the public healthcare system to meet the requirements of<br>the National Health Insurance (NHI) system. The SIP contains major builds for 6 hospitals.   |   |
| SIP 13: National school build programme<br>A national school build programme driven by uniformity in planning, procurement, contract<br>management and provision of basic services. Replace inappropriate school structures and<br>address basic service backlog and provision of basic services under the Accelerated School<br>Infrastructure Delivery Initiative (ASIDI). In addition, address national backlogs in classrooms,<br>libraries, computer labs and admin buildings. Improving the learning environment will strengthen<br>outcomes especially in rural schools, as well as reduce overcrowding.   |   |
| SIP 14: Higher education infrastructure<br>Infrastructure development for higher education, focusing on lecture rooms, student<br>accommodation, libraries and laboratories, as well as ICT connectivity. Development of university<br>towns with a combination of facilities from residence, retail to recreation and transport. Potential to<br>ensure shared infrastructure such as libraries by universities, FETs and other educational<br>institutions. Two new universities will be built - in Northern Cape and Mpumalanga.   |   |
| SIP 15: Expanding access to communication technology<br>Provide for broadband coverage to all households by 2020 by establishing core Points of<br>Presence (POPs) in district municipalities, extend new Infraco fibre networks across provinces<br>linking districts, establish POPs and fibre connectivity at local level, and further penetrate the<br>network into deep rural areas.   |   |
| While the private sector will invest in ICT infrastructure for urban and corporate networks, government will co-invest for township and rural access, as well as for e-government, school and health connectivity.<br>The school roll-out focus is initially on the 125 Dinaledi (science and maths-focussed) schools and   |   |
| 1525 district schools. Part of digital access to all South Africans includes TV migration nationally  |   |

from analogue to digital broadcasting.

#### SIP 16: SKA & Meerkat

SKA is a global mega-science project, building an advanced radio-telescope facility linked to research infrastructure and high-speed ICT capacity and provides an opportunity for Africa and South Africa to contribute towards global advanced science projects.

#### SIP 17: Regional integration for African cooperation and development

Participate in mutually beneficial infrastructure projects to unlock long-term socio-economic benefits by partnering with fast growing African economies with projected growth ranging between 3% and 10%.

The projects involving transport, water and energy also provide competitively-priced, diversified, short and medium to long-term options for the South African economy where, for example, electricity transmission in Mozambique (Cesul) could assist in providing cheap, clean power in the short-term whilst Grand Inga in the DRC is long-term.

All these projects complement the Free Trade Area (FTA) discussions to create a market of 600 million people in South, Central and East Africa.

#### SIP 18: Water and sanitation infrastructure

A 10-year plan to address the estimated backlog of adequate water to supply 1.4m households and 2.1m households to basic sanitation.

The project will involve provision of sustainable supply of water to meet social needs and support economic growth. Projects will provide for new infrastructure, rehabilitation and upgrading of existing infrastructure, as well as improve management of water infrastructure.

NAUD AMICHIE declare that -

- I am, or represent<sup>1</sup>, the applicant in this application;
- I have appointed an Environmental Assessment Practitioner (EAP) to act as the independent EAP for this application / have obtained exemption from the requirement to obtain an EAP<sup>2</sup>;
- I will take all reasonable steps to verify whether the EAP and specialist/s appointed are
  independent and have expertise in conducting environmental impact assessments or undertaking
  specialist work as required, including knowledge of the Act, the EIA Regulations and any guidelines
  that have relevance to the proposed activity;
- I will provide the EAP and the competent authority with access to all information at my disposal that is relevant to the application;
- I will be responsible for the costs incurred in complying with the Regulations, including but not limited to –
  - costs incurred in connection with the appointment of the EAP or any person contracted by the EAP;
  - costs incurred in respect of the undertaking of any process required in terms of the Regulations;
  - costs in respect of any fee prescribed by the Minister or MEC in respect of the Regulations;
  - · costs in respect of specialist reviews, if the competent authority decides to recover costs; and
- the provision of security to ensure compliance with conditions attached to an environmental authorisation, should it be required by the competent authority;
- I will inform all registered interested and affected parties of any suspension of the application as well as of any decisions taken by the competent authority in this regard;
- I am responsible for complying with the conditions of any environmental authorisation issued by the competent authority;
- I hereby indemnify the Government of the Republic of South Africa, the competent authority and all its officers, agents and employees, from any liability arising out of the content of any report, any procedure or any action which the applicant or EAP is responsible for in terms of these Regulations;
- I will not hold the competent authority responsible for any costs that may be incurred by the applicant in proceeding with an activity prior to obtaining an environmental authorisation or prior to an appeal being decided in terms of these Regulations;
- I will perform all obligations as expected from an applicant in terms of the Regulations;
- all the particulars furnished by me in this form are true and correct; and
- I am aware of what constitutes an offence in terms of Regulation 48 and that a person convicted of an offence in terms of Regulation 48(1) is liable to the penalties as contemplated in section 49B of the Act.
- I am aware that in terms of Section 24F of the National Environmental Management Act, Act No 107 of 1998, as amended, that no listed activity may commence prior to an environmental authorisation being granted by the Competent Authority.

## APPENDIX 9 9.1 DECLARATION OF THE EAP

I, KRISTY ROBERTSON, declare that -

- I act as the independent environmental assessment practitioner in this application;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, Regulations and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, Regulations and all other applicable legislation;
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant;
- I will take into account, to the extent possible, the matters listed in Regulation 18 of the Regulations when preparing the application and any report relating to the application;
- I undertake to disclose to the applicant and the competent authority all material information in my
  possession that reasonably has or may have the potential of influencing any decision to be taken
  with respect to the application by the competent authority; and the objectivity of any report, plan
  or document to be prepared by myself for submission to the competent authority, unless access to
  that information is protected by law, in which case it will be indicated that such information exists
  and will be provided to the competent authority;
- I will perform all obligations as expected from an environmental assessment practitioner in terms of the Regulations; and
- I am aware of what constitutes an offence in terms of Regulation 48 and that a person convicted of an offence in terms of Regulation 48(1) is liable to the penalties as contemplated in section 49B of the Act.

# Disclosure of Vested Interest (delete whichever is not applicable)

- I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Regulations;
