

IMPACT PHASE  
Re-submission Notification

Sent to all registered I&APs on  
project database

19 February 2019

Dear Stakeholder,

---

**PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED  
INFRASTRUCTURE NEAR RICHARDS BAY, KWAZULU NATAL PROVINCE  
DEA REF: To be Issued  
NOTIFICATION OF RE-SUBMISSION OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION**

---

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

As a registered Interested and Affected Party (RI&AP) you and/or the organization which you represent, would have received notification in June 2018 regarding the status of the Environmental Authorisation (EA) application for the above-mentioned project, as follows:

- that the Scoping Report and Plan of Study for Environmental Impact Assessment (EIA) was submitted to the Department of Environmental Affairs (DEA) in October 2017;
- that the Scoping Report was accepted and the Plan of Study for EIA was approved by the DEA in November 2017;
- that a study for an Offset Strategy for biodiversity and wetlands was initiated by independent specialists;
- as a result of the above-mentioned study, a request for an extension of the EIA timeframe accordance with Section 3(7) of the EIA Regulations, 2014, as amended was submitted to the DEA; and
- the DEA did not approve an extension, and therefore, the application lapsed in March 2018.

In light of the above, as a RI&AP, you and/or the organization which you represent, are hereby notified that it is the intention of Eskom to resubmit the application to continue at the initiation of the Environmental Impact Assessment Phase, in accordance with Regulation 21(2)(a) of the EIA Regulations 2014, as amended, since the findings of the scoping report remain valid and the environmental context has not changed.

The release of the draft EIAr (DEIAR) will be communicated to you and/or the organization that you represent in due course and we look forward to your participation in this proposed project.

Kind regards,

**Nicolene Venter**

**Public Participation and Social Consultant**

Dear Stakeholder,

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province.

This e-mail serves to inform you as a registered Interested and Affected Party (RI&AP) and/or the organisation which you represent, that it is Eskom's intent to re-submit the application for Environmental Authorisation to continue at the initiation of the Environmental Impact Assessment Phase.

The attached letter will provide you with more information regarding the re-submission of the application for Environmental Authorisation.

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards,

**Nicolene Venter**

INVITATION TO PUBLIC MEETING

and

NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL  
IMPACT ASSESSMENT REPORT FOR REVIEW AND  
COMMENT

Sent to all registered I&APs on  
project database

18 March 2019

Dear Interested and Affected Party,

**PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED  
INFRASTRUCTURE NEAR RICHARDS BAY, KWAZULU NATAL PROVINCE  
DEA REF: To be Issued**

**INVITATION TO PUBLIC MEETINGS and NOTIFICATION OF AVAILABILITY OF THE DRAFT ENVIRONMENTAL  
IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**

This letter serves to cordially invite you to attend any one (1) of the two (2) Public Meetings to be held on:

	<b>PUBLIC MEETING #1</b>	<b>PUBLIC MEETING #2</b>
<b>DATE</b>	Tuesday, 26 March 2019	Wednesday, 27 March
<b>TIME</b>	18h00	10h00
<b>VENUE</b>	Premier Hotel The Richards 3 Hibberd Drive RICHARDS BAY	Auditorium Empangeni Public Library Cnr Union and Maxwell Street EMPANGENI

The Public Meeting is part of the Environmental Impact Assessment (EIA) process being undertaken by Savannah Environmental for the proposed development of the Richards Bay Combined Cycle Power Plant (CCPP) Project in Richards Bay.

The purpose of the Public Meeting is to provide you, as an interested and affected party, with:

- a brief background of the proposed project;
- an overview of the Impact Assessment process followed;
- feedback on the key environmental findings as documented in the Environmental Impact Assessment Report (EIAR);
- an opportunity to raise any additional comments and/or concerns not yet raised; and
- an opportunity to liaise with the project team members.

To ensure that sufficient seating is provided, we kindly request you to please complete the attached registration form (Appendix A) and submit it to the public participation office at the e-mail address provided below, before or on **Friday, 22 March 2019**.

We encourage you to attend the Public Meeting and to participate in the Public Participation Process during the impact phase of the EIA and would like to thank you in anticipation of your active and meaningful contribution to the EIA process.

**NOTIFICATION OF AVAILABILITY OF DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**

We herewith inform you that the draft Environmental Impact Assessment Report (DEIAR) will be available for your review and comment from **Sunday, 24 March 2019** to **Friday, 26 April 2019** at the following public places:

<b>VENUE</b>	<b>ADDRESS</b>	<b>CONTACT DETAILS</b>
Richards Bay Public Library	No 5 Kruger Rand Road, Richards Bay	035 907 5846
Empangeni Public Library	Cnr Union & Maxwell Streets, Empangeni	035 907 5592

The report will also be available for downloading from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>) and Eskom website (<http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/RichardsBayCCPP/Pages/default.aspx>). The due date for written comment is **Friday, 26 April 2019**.

Please do not hesitate to contact us should you require any additional information at this stage of the EIA process.

## Projects

Subject: EXTENSION OF REVIEW PERIOD: PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLAN

Body: Dear Stakeholders and Interested and Affected Parties,

The public participation process for the above-mentioned project has reference.

Please note that the original review period on the draft EIAr, as communicated, is being extended by 2 weeks until **Friday, 10 May 2019** in order to accommodate requests from various parties.

You are kindly requested to please submit your written comments before, but no later than **Friday, 10 May 2019**.

Thank you to those stakeholders and Interested and Affected Parties who submitted their written comments on the draft EIAr.

Kind regards,

Richards Bay Combined Cycle Power Plant Project  
>

Dear Interested and Affected Party,

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlathuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province.

This e-mail serves to invite you to the Public Meeting to be held on:

**Public Meeting #1:**

**DATE:** Tuesday, 26 March 2019

**TIME:** 18h00

**VENUE:** Premier Hotel The Richards, 3 Hibberd Drive, Richards Bay

and

**Public Meeting #2**

**DATE:** Wednesday, 27 March 2019

**TIME:** 10h00

**VENUE:** Auditorium, Empangeni Public Library, Cnr Union & Maxwell Street, Empangeni

Please find attached your invitation letter and registration form.

**NOTIFICATION OF AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**

Please be informed that the draft Environmental Impact Assessment Report will be available for your review and comment from **Sunday, 24 Maart 2019** to **Friday, 26 April 2019**. More information available in the attached letter.

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards, ■

Dear Wayne,

Thank you for your e-mail below sent to us on behalf of Mr/Ms K Peter.

Please be informed that Savannah Environmental has been appointed by Eskom Holdings SOC Ltd as the independent Environmental Assessment Practitioner responsible only for assessing all environmental impacts (positive and negative) regarding the proposed Combined Cycle Power Plant and Associated Infrastructure in Richards Bay.

Savannah Environmental, therefore is not responsible for facilitating employment opportunities for the proposed development.

Mr/Ms K Peter CV will however be forwarded to the client. Please note that it will be up to the client to make contact should they wish to do so.

Kind regards,

**Nicolene Venter**

Good day Nicolene.

I am inquiring for K Peters as we seen you notice on the wall at the RBIDZ.  
She would like to find out if there would be any vacancies for admin staff in your Richards Bay branch,  
She had lived and worked in Richards Bay all her life and feel she will be a great asset to your company.  
This is K Peter CV .  
Thanks you  
wayne

Dear Nicolene,

Further to comments raised at the public meeting on 27<sup>th</sup> March 2019.

As previously communicated the query is to do with the site screening considerations and assessment in arriving at the conclusion that site 7 is the preferred site from an environmental perspective.

Please explain why site 4a was deemed to be 'not preferred' with regard to Wetland, Aquatic Ecology, Socio-Economic, Noise and Air Quality. It must be noted that site 4a is approximately 300 hectares in extent and off the floodplain.

Your response will be appreciated.

Regards

Luke Harel

**Subject:** Richards Bay CCPP Project: Request for Public Meeting Minutes

Dear Siphesihle,

We are in the process of finalising the draft minutes of the two public meetings and once ready for distribution, we will send you a copy.

The draft minutes will include a list of attendees (name, surname & organisation).

Siphesihle, according to the project database, Ms Jacolette Adam from Exigent Engineering is a registered I&AP. Would you like to register formally on the project database as a registered I&AP?

Kind regards,

**Nicolene Venter**

**Subject:** Richards Bay CCpp: 2nd Engagement enquiry

Dear Stakeholders,

As was discussed at the Key Stakeholder Workshop (KSW) held on Tuesday, 26 March 2019, this e-mail serves to enquire whether there is a need to hold a 2<sup>nd</sup> engagement to take place by using video conferencing.

It was decided that a decision will be taken after you had an opportunity to review the Environmental Impact Assessment Report (EIAR) and taking the information of the key environmental findings as presented at the KSW into consideration.

Please indicate by return e-mail whether a 2<sup>nd</sup> engagement is required.

Kind regards

**Nicolene Venter**

Dear Mr Smits,

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlathuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province.

This e-mail serves to invite you to the Key Stakeholder Workshop to be held on:

**DATE:** Tuesday, 26 March 2019

**TIME:** 10h00 - 12h00 (registration from 09h30 to 10h00)

**VENUE:** Richards Bay Environmental Committee Conference Room, 4 Harbour Arterial Road, Old Bayside Smelter (South 32), Richards Bay Industrial Development Zone, Richards Bay

Please find attached our formal invitation letter and registration form.

Should you not be able to attend the Key Stakeholder Workshop, you are most welcome to send a representative to attend the Workshop on your behalf.

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards,

**Nicolene Venter**

Impact Assessment Report for Review and Comment

Proof to be included in the  
Final Environmental Impact Assessment Report

Scoping Phase

11 August 2017

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENT AND  
PUBLIC PARTICIPATION PROCESS  
DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND  
ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY,  
KWAZULU-NATAL PROVINCE**

---

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

---

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words, gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. These hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity.

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

You and/or the organisation which you represent has been identified as an I&AP for the proposed project. Should you have an interest in this project, please register yourself as an I&AP by completing and returning the attached stakeholder registration/comment form. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the Impact Assessment process.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENT AND  
PUBLIC PARTICIPATION PROCESS  
DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND  
ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY,  
KWAZULU-NATAL PROVINCE**

---

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

---

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlathuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. This hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity.

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

You and/or the organisation which you represent have been identified as a directly affected or adjacent property owner that could be impacted by the proposed project. The 2014 EIA Regulations, as amended on 07 April 2017, require that the owner or person in control of the land as well as occupiers of the affected and adjacent properties, which could be impacted by the project, are informed of the environmental assessment process in writing. In this regard, please could you kindly inform any other persons (tenants, employees, farm managers and workers etc.) residing on your property of this EIA process. Should you or any other occupier of your property have an interest in this project, please register yourselves as I&APs by completing and returning the attached

stakeholder registration/comment form. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the EIA process.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Subject: DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY, KWAZULU-NATAL PROVINCE - NOTIFICATION OF EIA PROCESS

Body: Dear Stakeholder

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process. Please refer to the attached notification letter and background information document for further details regarding the project. Please complete and return the attached Reply Form to register as an I&AP on the project's database.

Please do not hesitate to contact me if you have any queries in this regard.

Kind regards,

**Gabriele Stein**

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENT AND  
PUBLIC PARTICIPATION PROCESS  
DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND  
ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY,  
KWAZULU-NATAL PROVINCE**

---

**NOTICE OF AVAILABILITY OF THE SCOPING REPORT FOR PUBLIC REVIEW  
AND INVITATION TO THE PUBLIC MEETING**

---

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

## **AVAILABILITY OF THE SCOPING REPORT AND INVITATION TO THE PUBLIC MEETING**

A Scoping Report is available for review and comment. The report can be viewed at the Richards Bay Public Library, Civic Centre, 05 Mark Strasse, from **21 August 2017 – 20 September 2017**. The report is also available for download on [www.savannahsa.com/projects](http://www.savannahsa.com/projects). The due date for written comment is **20 September 2017**. Comments must be made as written submission via fax, post or email.

All interested and affected parties are invited to attend a public meeting on one of the following days:

<b>Public Meeting 1:</b>	<b>Date: Wednesday 30 August 2017</b> <b>Time: 18:00</b> <b>Venue: New Life Church, 2 Hedge Hunt Rd, Brackenham, Richards Bay</b>
<b>Public Meeting 2:</b>	<b>Date: Thursday 31 August 2017</b> <b>Time: 09:00</b> <b>Venue: Richards Bay Public Library, 03 Krugerrand Grove, Richards Bay</b>

Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards
