Johan Coetze (JC)	Landowner for Farm Sterkfontein	Cell: 082 388 0150

Speaker	Notes
Telecon with Johan Coetze	
RA	RA welcomed Johan and introduced him to the project team
JC	JC indicated that: <ul style="list-style-type: none"> - Eskom previously made an offer to him but the value has increased. - Only a line valuation was done not the property. - He has been given documents but has not signed any.
DT	DT responded by saying that: <ul style="list-style-type: none"> - The current phase of the project entails amendment of the EA for the approved corridor. - The approved route will remain. - DM will contact JC for negotiations. - He advised JC not to develop the stands that may be affected by the project. - Johan must submit his concerns in writing.
Telecon with Jaco du Plessis	

	DT added that they are expecting that Foskor area may expand and they want to cater for tourism needs. In addition, they are building 400kV line to initially operate at 275kV so that in future if they need to expand to 400kV they will just use it without having to build again.
AS / Adam Gunn Attorney Letter – Question 5.1.3.	<p>What environmental impacts are associated with the proposed increase from 275kV to 400kV?</p> <ul style="list-style-type: none"> - The letter from Adam Gunn Attorneys was submitted to Nsovo prior to distribution of the draft EA Amendment Report to the public. - AS indicated that she saw the impact assessment in the draft EA Amendment Report submitted to Adam Gunn Attorneys. - AS asked to speak to the Biodiversity and Avifauna specialists.
MR	MR responded by saying that Adam Gunn Attorneys will be given an opportunity speak with the Biodiversity and Avifauna specialists before final submission of the EA Amendment report.
MR	MR indicated that Nsovo will arrange a telecom with specialist and Alexia.
AS	AS asked that health issues (electromagnetic) will the line have on people?
MR	MR indicated that the specialist report can be sent to Alexia.
AS	AS indicated that as long as everything has been followed step by step there should not be any issues. She understands that unfortunately certain farms will be affected.
AS / Adam Gunn Attorney Letter – Question 5.1.4.	What are Eskom's long term plans associated with transmission of electricity in the area and where will the future transmission lines be placed?
DT and HN	DT and HN responded by indicating that the purpose of building the 400kV instead of 275kV is part of Eskom's long term plan (10 year plan) as well as to avoid going back to build another line at a later stage.
AS / Adam Gunn Attorney Letter – Question 5.1.5.	What other authorisations are necessary and have been applied for such as Water Use License for crossing wetlands/ streams/ rivers?
DT and MR	DT and MR responded by indicating that at the moment Eskom is applying for EA amendment, later they will need WULA, tree permit etc.
AS / Adam Gunn Attorney Letter – Question 5.1.6.	What other alternatives are available (technology and routing) and have they been properly assessed and considered?
MR	<p>MR responded by saying that alternatives were considered and assessed in detail during the initial EIA phase and this included locality, technical as well as structural alternatives. No alternatives are being considered for the EA amendment.</p> <p>She emphasized that the purpose of the amendment is to increase capacity of the approved 275kV to 400kV along the same approved corridor.</p>
AS	She requested existing 275kV map
DT and HN	<p>It was clarified that the 275kV line has been authorized but was never built. Subsequently the amendment is for the approved 275kV to be built at 400kV.</p> <p>AS then requested the map for the old line that was built before the EIA era. DT and HN indicated that Precious (from Eskom) would send the requested map to AS.</p>
MR	<p>In conclusion MR enquired with AS if she was comfortable that all the queries raised had been addressed and AS confirmed.</p> <p>MR then highlighted that the way forward would be finalization of the report for submission to the Authorities. She confirmed that the requested meeting with the avifauna specialist would be arranged</p>
