Importance: High

Dear Sir,

Our telephone conversation this morning bears reference.

The PPP is being undertaken as per the requirements of the legislation.

I wish to emphasise that we are not shying away from meetings as per your request, however, we would like to provide our I&AP (yourself included) with an opportunity to review and comment on the draft amendment report. Once you have received and reviewed the report, we will be more than willing to engage on a one on one meeting. We believe that this will allow for well-informed discussion and more meaningful engagements.

Hope that all is in order.

Regards

Munyadzi Rikhotso

Dear Alexa-Rae,

Kindly note that this is an amendment of the already authorised EIA, amending from 275kV to 400kV.

It must be noted that the servitude will increase from 47m to 55m and the pylon footprint may be bigger, however, the proposed upgrade from 275kV to 400kV will not have a significant bearing on the severity of the impact.

Please find attached relevant document at this stage.

Subject: RE: NOTICE OF ENVIRONMENTAL AUTHORISATION OF THE PROPOSED ± 130KM ESKOM_FOSKOR-MERENSKY_POWERLINE_FROM_275KV_TO_400KV_AND_ASSOCIATED_SUBSTATION_WORKS

Dear Stakeholder,

NOTICE OF AMENDMENT OF ENVIRONMENTAL AUTHORISATION FOR THE PROPOSED ±130KM ESKOM FOSKOR – MERENSKY POWERLINE FROM 275KV TO 400KV AND ASSOCIATED SUBSTATION WORKS WITHIN THE MOPANI AND SEKHUKHUNE DISTRICT MUNICIPALITIES IN THE LIMPOPO PROVINCE

Notice is hereby given in terms of Regulation 41 (2) of the Environmental Impact Assessment (EIA) Regulations of December 2014, published in terms of Chapter 5 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) for the purpose of applying for Environmental Authorisation for the aforementioned activity.

This email serves to inform you that the Department of Environmental Affairs issued Eskom Holdings SOC Limited (Eskom) with an Environmental Authorisation (EA) for construction of ±130KM Foskop – Merensky 275kV powerline and associated substation works on 18 June 2013 with reference number 12/12/20/2411. Subsequently Eskom proposes to amend the EA in order increase the powerline capacity from 275kV to 400kV . It must be noted that the servitude will increase from 47m to 55m and the pylon footprint may be bigger, however, the proposed upgrade from 275kV to 400kV will not have a significant bearing on the severity of the impact. The proposed powerline will be built at 400kV specification and operated at 275kV.

The project will follow the process stipulated under Chapter 5, Part 2 of the EIA Regulations of December 2014. The proposed powerline will traverse various farms within the Mopani and Sekhukhune District Municipalities in the Limpopo Province, attached is the locality map for refence.

As a pre-identified stakeholder, you are invited to submit any comments relating to this project to the contact details below.

Warm Regards,

**Rejoice Aphane

Dear Mrs Aphane,

See email below dated 06 December 2016 – please confirm receipt of email.

The Minister of Agriculture approved our application for township establishment (Burgersfort X75) on 12 January 2017. We are in progress to continue with the township establishment procedure, i.e. surveying of township, submission of general plan to Surveyor-General and registration of township. If ESKOM intends to make amendments to the approved layout plan of Burgersfort X75 to accommodate the proposed Foskor-Merensky Powerline, it should be done before we commence surveying of the township.

You are requested to urgently give attention to the attached letter and contact me to discuss the way forward – thanks.

Subject: F010-16 Foskop - Merensky Powerline

Importance: High

Good day

John McCormick has received notice in the post of the amendment of the EIA authorization of the ±130km Eskom Foskop – Merensky Powerline. Please can you forward it to me in digital format as I need to see where the line is running.

Thank you.

Kind Regards

Marlette Ferreira

Subject: NOTICE OF ENVIRONMENTAL AUTHORISATION OF THE PROPOSED ± 130KM
ESKOM FOSKOR-MERENSKY POWERLINE FROM 275KV TO 400KV AND
ASSOCIATED SUBSTATION WORKS
Attachments: Site Notice_English. Rev 1.pdf; Locality Map_01.11.2016_Merensky.jpg

Dear Juliet Nkomi,

NOTICE OF AMENDMENT OF ENVIRONMENTAL AUTHORISATION FOR THE PROPOSED ±130KM ESKOM FOSKOR – MERENSKY POWERLINE FROM 275KV TO 400KV AND ASSOCIATED SUBSTATION WORKS WITHIN THE MOPANI AND SEKHUKHUNE DISTRICT MUNICIPALITIES IN THE LIMPOPO PROVINCE

Notice is hereby given in terms of Regulation 41 (2) of the Environmental Impact Assessment (EIA) Regulations of December 2014, published in terms of Chapter 5 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) for the purpose of applying for Environmental Authorisation for the aforementioned activity.

This email serves to inform you that the Department of Environmental Affairs issued Eskom Holdings SOC Limited (Eskom) with an Environmental Authorisation (EA) for construction of ±130KM Foskor – Merensky 275kV powerline and associated substation works on 18 June 2013 with reference number 12/12/20/2411. Subsequently Eskom proposes to amend the EA in order to increase the powerline capacity from 275kV to 400kV. The proposed powerline will be built at 400kV specification and operated at 275kV.

The project will follow the process stipulated under Chapter 5, Part 2 of the EIA Regulations of December 2014. The proposed powerline will traverse various farms within the Mopani and Sekhukhune District Municipalities in the Limpopo Province, attached is the locality map for reference.

As a pre-identified stakeholder, your community is invited to submit any comments relating to this project to the contact details below within 30 days from the date of this email.

Warm Regards,

Rejoice Aphane

Environmental Consultant
