Dear Mr. Kruger

ACKNOWLEDGEMENT OF RECEIPT OF THE APPLICATION FORM FOR THE PROPOSED EXTENSION OF THE EXISTING DOMESTIC WASTE DISPOSAL SITE AND ASSOCIATED INFRASTRUCTURE AT TUTUKA POWER STATION, STANDERTON

The Department confirms having received the application form for environmental authorisation of the abovementioned project on 07 July 2009. All waste related activities have been repealed from the NEMA EIA Regulations GNR386 and GNR387 as from the 3rd of July 2009 in GNR719. Therefore, as per your application form, activities 1(f) and 1(o) in GNR387 and 1(o) in GNR386, are no longer applicable to the EIA Regulations. The other activities applied for will however still be applicable and this Directorate: Environmental Impact Evaluation will process the EIA application. You may proceed with the scoping process required in terms of the Environmental Impact Assessment Regulations, 2006.

Please fill out the Waste Application form which can be found on the following website: www.sawic.org.za. Submit these applications to this Directorate: EIE and another one will be forwarded to the Waste Section for processing. In effect, you will then be issued with two decisions, one from this Directorate and one from the Waste Directorate. You would only need to compile one report covering all the listed activities, inclusive of Waste listed activities.

The application has been assigned the reference number **12/12/20/1553**. Kindly quote this reference number in any future correspondence in respect of the application.

The Applicant must ensure that all requirements of Chapter II, Section 38 of the National Heritage Resources Act, Act 25 of 1999, are complied with in this EIA process, and that the comments and /or recommendations of the relevant heritage resources authority responsible for the area in which the development is proposed, is considered.

You are hereby reminded that the activity may not commence prior to an environmental authorisation being granted by the Department.

Yours sincerely

Ms Lize McCourt
