

**ENVIRONMENTAL IMPACT ASSESSMENT – ENVIRONMENTAL SCOPING REPORT**

**ISSUES TRAIL**

**PROPOSED CONSTRUCTION OF A COMBINED CYCLE GAS TURBINE (CCGT) POWER PLANT  
IN THE AMERSFOORT AREA, MPUMALANGA PROVINCE**

**ABBREVIATED SUMMARY FOR ENVIRONMENTAL COMMENTS/ CONCERNS AND  
SUGGESTIONS RAISED BY FGM (PIXLEY LOCAL MUNICIPALITY)**

**FEBRUARY 2008**

**INDEX TO ISSUES IN THIS TABLE**

- 1. LOCATION SITE COMMENTS AND CONCERNS**
- 2. TIMEFRAME ISSUES**
- 3. SOCIAL ISSUES AND COMMENTS**

Note: issues raised by potentially affected landowners are included here as general statements and principles to be borne in mind, rather than providing the exact details provided by the commentator

Issue / Comment	Raised By	Response
<b>1. LOCATION SITE COMMENTS AND CONCERNS</b>		
<b>SCOPING PHASE</b>		
1.1	If the project will be located at the current Majuba power station	Mr de Jager, Pixley Municipality Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008
1.2	If the old mining site was considered and option	A ten kilometer radius around the current Underground Coal Gasification was identified and that the ideal site will be determined through the environmental impact assessment and feasibility studies Mr. Morore Mashao, Eskom
1.2	If the old mining site was considered and option	Mr de Jager, Pixley Municipality Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008
		The mining site has been identified as a potential site for the location of the CCGT plant. He also explained that the coal in that area is not feasible to be mined but that the site will be considered to provide gas for the CCGT plant. Mr. Morore Mashao, Eskom

	<b>Issue / Comment</b>	<b>Raised By</b>	<b>Response</b>
1.3	The amount of sites to be investigated for the proposed project	Mr Giff Kgoebane, Pixley Municipality Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	Ten (10) sites were identified during the screening exercise but six (6) sites have resulted from the scoping phase. This result is because the other four (4) sites may be used for extension of the UCG operations in the future. At the end of the scoping phase, three (3) sites will be taken for specialist investigations in the EIA phase. At the end of the EIA phase, the specialist EIA studies will identify and highlight the preferred site in terms of environmental assessments. Mr Bokwe further encouraged the attendants to engage the process by completing the registration form attached and sending it to Bohlweki Environmental, with their comments and concerns. All the comments regarding the project will be captured in an issues trail, and will inform the EIA process. Mr Tobile Bokwe, Eskom
<b>2. TIMEFRAME ISSUES</b>			
<b>SCOPING PHASE</b>			
2.1	When the operation will take place	Mr Vusi Maseko, CDW Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	Plan is to have it operational within the next two years. Mr. Morore Mashao, Eskom

	<b>Issue / Comment</b>	<b>Raised By</b>	<b>Response</b>
2.2	When will the project start being functional	Mr Gift Kgoebane, Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	Project has moved into a feasibility phase. At the moment, Eskom does not have exact details but by 2011 Eskom plans to have the first units of the project functional. Mr. Morore Mashao, Eskom
<b>3. SOCIAL ISSUES AND COMMENTS</b>			
<b>SCOPING PHASE</b>			
3.1	Job opportunities	Ms Mapaseka Madonsela, Executive Mayor Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	The project has scope of work for manual workers, and the nature of the work involved does not cater for a huge number of jobs. However, there is a small number of people to be employed in the plant. In the year 2011 the numbers are anticipated to grow to 1000 as there would be higher labour requirements. The whole process of employment issues will be guided by the Accelerated Growth Initiative for South Africa (ASGISA). The contractor will also play a role in terms of employment.  Mr. Morore Mashao, Eskom

Issue/Comment	Raised By	Response
3.2 Emission gasses, what will happen to them	Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	Minimize as much as possible. There is also a proposal to sell the gasses to the suppliers interested such as companies like Sasol or Afrox. The EIA studies will look into all environmental impacts. The environmental management plan will manage the impacts and suggest mitigation measures. Mr. Morore Mashao, Eskom
3.3 Stakeholder involvement, who are they	Mandla Shabangu, Community Development Worker Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	There is a focus group meeting for provincial authority that has been scheduled. Relevant government officials would be invited to the meeting to obtain their comments.
3.4 Impact on the agricultural industry	Mr Vusi Maseko Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	Nicolette Raats, Bohlweki This aspect will be addressed during the EIA looking at the agricultural potential and suggesting mitigation measures Nico Gewers, Eskom
3.1 Mentioned that the area is the second highest polluted area in South Africa	Mr Leon Grove Focus Group Meeting, Pixel ka Seme Local Municipality, 8 February 2008	Eskom is in constant contact with DEAT and are aware of the air quality issues in the area Nico Gewers, Eskom
