Subject: RE: Eskom-Kudu Transmissie Kraglyn
 Geagte Mev Van Heerden

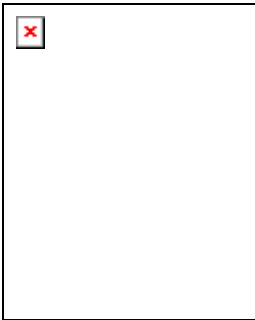

Die voorgestelde kraglyn is 'n hoogspanningslyn van 400kV wat ontwerp is om elektrisiteit oor lang afstande te vervoer. Sodanige hoogspanningskraglyne sluit gewoonlik nie enige kleiner verspreidingslyne in om elektrisiteit aan dorpe en plase in the studiegebied te versprei nie. Dit word egter in die konsep omgewingsimpakstudieverlag aanbeveel dat Eskom in gesprek tree met plaaslike owerhede om te bepaal watter voordele in terme van elektrisiteitsvoorsiening aan plaaslike gemeenskappe voorsien kan word. Eskom kan materiale vir die konstruksie van verspreidingslyne aan plaaslike gemeenskappe verskaf. Hierdie gemeenskappe sal egter self vir die konstruksiekoste van sulke verspreidingslyne verantwoordelik wees.

Antwoord dit u vrae?

Indien u enig iets ander wil weet, laat weet my gerus.

Subject: RE: Eskom-Kudu Transmissie Kraglyn

1. Is daar die moontlikheid dat die omliggende dorpe soos bv. Kotzesrust en Lepelsfontein voorsien sal word van n krag lyn.
 Indien sal die boumateriaal deur eskom verskaf word?

2. Inligtingsboeke is in Garies by n sekere instansie gegee omtrent die inligting oor die krag lyn.(Het gevra dat iemand vir my n boek hou.)

3. Belangstelling in verband met krag is ook gevra by huishoudings in die omgewing.

Geagte Mev Fransina Van Heerden

Aangeheg is die land kart wat die verskuilende alternatiewe van die voorgestelde Kraglyn wys. Kan u asseblief vir my ,n e-pos stuur met u vrae en ek sal probeer om u ,n volegide antwoord te gee.

Baie dankie vir u oproep.
