NOTICE OF ENVIRONMENTAL
IMPACT ASSESSMENT PROCESS

PROPOSED CONVERSION OF THE GOURIKWA
OCGT POWER STATION (IN MOSSEL BAY) TO
A CCGT POWER STATION AND
AN ASSOCIATED 400kV TRANSMISSION
POWER LINE BETWEEN GOURIKWA POWER
STATION & PROTEUS SUBSTATION

AN ESKOM INITIATIVE

In order to increase the generating capacity of the existing Gourikwa Open Cycle Gas Turbine (OCGT) Power Station (located near Mossel Bay) by approximately 400 MW through a more efficient process, Eskom Holdings Limited is proposing the conversion of the five (5) OCGT units at this existing Power Station to a Combined Cycle Gas Turbine (CCGT) Power Station. The proposed conversion involves the establishment of infrastructure associated with CCGT units and will be developed on the site of the existing Gourikwa OCGT power station in Mossel Bay.

In order to transmit the additional power generated at this power station to the national electricity grid, Eskom Holdings Limited is proposing the construction of a 400kV transmission power line between the Gourikwa Power Station and the existing Proteus Substation, a distance of approximately 11 km.

In terms of sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notices R385 (Regulations 27-36) and R387, a Scoping and Environmental Impact Assessment are required to be undertaken for the proposed project. The project has been registered with the National Department of Environmental Affairs and Tourism under Application Reference Numbers 12/12/20/1141 (power station conversion) and 12/12/20/1142 (proposed power line).

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required environmental impact assessment and public participation for the proposed project. To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

Shawn Johnston of Sustainable Futures ZA
 PO Box 749, Rondebosch, Cape Town, 7701
 Tel: 083 325 9965
 Fax: 086 510 2537
 E-mail: swjohnston@mfweb.co.za

Please register your interest in the project within 30 days of this notice.

KENNISGEWING VAN OMGEWINGSIMPAK EVALUERINGSPROSES

**VOORGESTELDE OMSKAKELING VAN DIE
GOURIKWA OPSIKLUS GASTURBINE KRAGSTASIE
(IN MOSSELBAAI) NA 'N GEKOMBINEERDE SIKLUS
GASTURBINE TESAME MET 'N GEASSOSIEERDE
400kV TRANSMISSIELYN TUSSEN GOURIKWA
KRAGSTASIE EN PROTEUS SUBSTASIE**

'n ESKOM ONDERNEMING

Eskom Holdings Limited is van voorneme om die vyf (5) bestaande Gourikwa Opsiklus Gasturbine (OSGT) eenhede om te skakel na Gekombineerde Siklus Gasturbines (GSGT) om, deur verbetering in die doeltreffendheid van die proses, die opwekkingskapasiteit van die bestaande Gourikwa GSGT Kragstasie (geleë in Mosselbaai) met 400 MW te verhoog. Die voorgestelde omskakelingsproses behels die oprigting van infrastruktuur geassosieer met GSGT eenhede wat op die terrein van die bestaande Gourikwa OSGT kragstasie ontwikkel sal word.

Ten einde die addisionele elektrisiteit wat deur die betrokke kragstasie opgewek sal word, na die nasionale elektrisiteitsnetwerk te geleë, is Eskom Holdings Limited van voorneme om 'n 400kV transmissiekraglyn tussen Gourikwa Kragstasie en die bestaande Proteus Substasie, oor 'n afstand van sowat 11 km, op te rig.

Ingevolge artikels 24 en 24D van die Nasionale Wet op Omgewingsbestuur (No. 107 van 1998) soos gelees met Staatsaankondigings R385 (Regulasie 27-36) en R387 word 'n Bestekopname en Omgewingsimpak Evalueringsproses vereis vir die voorgestelde projek. Hierdie projek is geregistreer by die Nasionale Departement van Omgewingsake en Toerisme met aansoekverwysingsnommers van onderskeidelik 12/12/20/1141 (kragstasie omskakeling) en 12/12/20/1142 (voorgestelde transmissielyn).

Savannah Environmental is aangestel as onafhanklike konsultant om die vereiste omgewingsimpak evaluering en openbare deelname prosesse van die voorgestelde projek te onderneem. Sou u verdere inligting en registrasie by die projekdatabasis verlang, stuur u naam, kontakbesonderhede en belang in die projek aan:

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

PROPOSED GOURIKWA POWER STATION CONVERSION AND TRANSMISSION INTEGRATION PROJECT, MOSSEL BAY AN ESKOM INITIATIVE

In order to increase the generating capacity of the existing Gourikwa Open Cycle Gas Turbine (OCGT) Power Station (located near Mossel Bay) by approximately 400 MW through a more efficient process, Eskom Holdings Limited is proposing the conversion of the 5 OCGT units at this existing Power Station to a Combined Cycle Gas Turbine (CCGT) Power Station. The proposed conversion involves the establishment of infrastructure associated with CCGT units and will be developed on the site of the existing Gourikwa OCGT power station in Mossel Bay.

In order to transmit the additional power generated at this power station to the national electricity grid, Eskom Holdings Limited is proposing the construction of a 400kV transmission power line between the Gourikwa Power Station and the existing Proteus Substation, a distance of approximately 11 km.

This project was registered with the National Department of Environmental Affairs and Tourism under Application Reference Numbers 12/12/20/1141 (power station conversion) and 12/12/20/1142 (transmission line).

DRAFT SCOPING REPORT AVAILABLE FOR REVIEW
A Draft Scoping Report has been prepared by Savannah Environmental and is now available for public review. You are invited to review the report at one of the following:

- www.eskom.co.za/eia
- www.savannahSA.com
- Marsh Street Library
- Mossel Bay Municipal Offices
- D'Almeida Library
- TNPA Offices
- Kwanaoqba Library
- Farm Patryfontein (Mr Muller)

The period for review is **30 May 2008 to 30 June 2008**. Please submit written comment by 30 June 2008 to the relevant contact person below.

PUBLIC MEETING:
All interested and affected parties are invited to attend a public meeting to be held on **Thursday, 19 June 2008 at Die Skuur Dias Museum, Mossel Bay at 18:00 to 20:00.**

To obtain further information, please submit your name, contact information and interest in the project to:

WAAR JY ALTYD IETS UITKRY

Vrydag 30 Mei

Advert placed in Die Burger, 30 May 2008

04 April 2008

Dear Stakeholder,

**GOURIKWA POWER STATION CONVERSION AND TRANSMISSION
INTEGRATION PROJECT**

Eskom Holdings Limited is proposing the conversion of the to existing Gourikwa Power Station (An Open Cycle Gas Turbine – OCGT-Plant) to a Combined Cycle Gas Turbine (CCGT) Plant and construction of an associated 400kV transmission power line from Gourikwa Power Station to Proteus Substation. The project includes:

- » Conversion of 5 units to CCGT units at Gourikwa Power Station;
- » Construction of a new water pipeline between the PetroSA facility and Gourikwa Power Station;
- » Construction of a new 400 kV transmission power line between Gourikwa Power Station and Proteus Substation; and,
- » Construction of a new access road to Gourikwa Power Station.

In terms of the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, No 107 of 1998), Eskom requires authorisation from the National Department of Environmental Affairs and Tourism (DEAT) (in consultation with the Western Cape Department of Environmental Affairs and Development Planning) for the undertaking of the proposed project. In order to obtain authorisation for this project, comprehensive, independent environmental studies must be undertaken in accordance with the EIA Regulations. This project has been registered with National DEAT under Application Reference numbers 12/12/20/1141 (power station conversion) and 12/12/20/1142 (transmission line).

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required environmental impact assessment and public participation for the proposed project. Savannah Environmental has appointed Sustainable Futures ZA to assist in the process of facilitating the public participation process.

You are invited to participate in this process and register as an interested and/or affected party (I&AP). As a stakeholder or organisation in the region, you can get involved in the process by:

- » Registering as an interested and affected party (by completing the attached reply form);
- » Requesting a meeting with the public participation team;
- » Attending the upcoming open house/public meeting scheduled in your region;
- » Commenting on the draft Scoping Report, draft Environmental Impact Assessment (EIA) report and the Environmental Management Plan (EMP) once its has been completed and made available for comment;
- » Informing other stakeholders of the process.

Please find enclosed a copy of the Gourikwa Power Station Conversion and Transmission Integration Briefing Paper and a reply form to register as an interested and affected party. As a registered stakeholder you will be notified of dates and venues of the planned public meetings to be held throughout the process, as well as the availability of reports for review and comment.

For more information on the mentioned process and EIA, please do not hesitate to contact Shawn Johnston (083 325 9965). Registration as an interested and affected party as well as written comments can be sent to:

P.O. Box 749, Rondebosch, 7701
Tel: 083 325 9965 (Shawn Johnston)
E-mail: swjohnston@mweb.co.za
Fax: 086 510 2537

Our team welcomes your participation and look forward to your involvement throughout this process.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Shawn Johnston', is written over a light blue rectangular stamp. The signature is fluid and cursive.

Shawn Johnston
Process Facilitator

30 May 2008

Dear Stakeholder,

**PROPOSED GOURIKWA POWER STATION CONVERSION AND TRANSMISSION INTEGRATION PROJECT:
ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS**

**INVITATION TO REVIEW THE DRAFT SCOPING REPORT
AND ATTEND A PUBLIC FEEDBACK MEETING: 19 JUNE 2008**

Eskom Holdings Limited is proposing the conversion of the to existing Gourikwa Power Station (An Open Cycle Gas Turbine – OCGT-Plant) to a Combined Cycle Gas Turbine (CCGT) Plant and construction of an associated 400kV transmission power line from Gourikwa Power Station to Proteus Substation. The project includes:

- » Conversion of 5 units to CCGT units at Gourikwa Power Station;
- » Construction of a new water pipeline between the PetroSA facility and Gourikwa Power Station;
- » Construction of a new 400 kV transmission power line between Gourikwa Power Station and Proteus Substation; and,
- » Construction of a new access road to Gourikwa Power Station.

In terms of the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, No 107 of 1998), Eskom requires authorisation from the National Department of Environmental Affairs and Tourism (DEAT) (in consultation with the Western Cape Department of Environmental Affairs and Development Planning) for the undertaking of the proposed project. In order to obtain authorisation for this project, comprehensive, independent environmental studies must be undertaken in accordance with the EIA Regulations. This project has been registered with National DEAT under Application Reference numbers 12/12/20/1141 (power station conversion) and 12/12/20/1142 (transmission line).

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required environmental impact assessment and public participation for the proposed project. Savannah Environmental has appointed Sustainable Futures ZA to assist in the process of facilitating the public participation process.

PUBLIC REVIEW OF THE DRAFT ENVIRONMENTAL SCOPING REPORT

In accordance with the EIA Regulations, a draft Scoping Report has been prepared and will be made available for review and comment by Interested and Affected Parties (I&APs) and stakeholders. The **30-day period for review is 30 May 2008 to 30 June 2008**. The draft Environmental Scoping Report will be available for review at:

Websites:	www.eskom.co.za/eia	www.savannahSA.com
Physical locations:	Marsh Street Library - Mossel Bay	D'Almeida Library - Mossel Bay
	Kwanoqaba Library - Mossel Bay	Residents Association of Dana Bay Conservancy
	Mossel Bay Environmental Forum	SANCO Mossel Bay

Comments can be made as written submissions via fax, post or e-mail.

Please submit your comments to
Shawn Johnston of Sustainable Futures ZA PO Box 749, Rondebosch, Cape Town, 7701 Fax: 086 510 2537 E-mail: swjohnston@mweb.co.za
The due date for comments on the Draft Environmental Scoping Report is 30 June 2008

PUBLIC MEETING

In order to facilitate comments on the draft Environmental Scoping Report, a public meeting will be held during the review period. All interested and affected parties are invited to attend a public meeting:

DATE: Thursday, 19 June 2008
TIME: 6h30-8h30
VENUE: Die Oude Skuur at the Diaz Museum - Mossel Bay

The aim of the public meeting is to provide you with more information regarding the proposed project, to provide a summary of the findings of the environmental scoping undertaken, and to invite comment on the proposed project.

Our team welcomes your participation and looks forward to your continued involvement.

Yours sincerely,

Shawn Johnston
Process Facilitator
