Department:
Environmental Affairs
REPUBLIC OF SOUTH AFRICA

APPLICATION FORM FOR ENVIRONMENTAL AUTHORISATION

	(For official use only)
File Reference Number:	12/12/20/
NEAS Reference Number:	DEAT/EIA/
Date Received:	

Application for authorisation in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2010

PROJECT TITLE

BA for the installation of 132kV transmission lines from Dieprivier to Kareedouw, Cacadu District

Kindly note that:

1. This application form is current as of 2 August 2010. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been published or produced by the competent authority.
2. The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
3. Where applicable **black out** the boxes that are not applicable in the form.
4. Incomplete applications may be returned to the applicant for revision.
5. The use of the phrase "not applicable" in the form must be done with circumspection. Should it be done in respect of material information required by the competent authority for assessing the application, it may result in the rejection of the application as provided for in the Regulations.
6. This application must be handed in at the offices of the relevant competent authority as determined by the Act and regulations.
7. No faxed or e-mailed applications will be accepted.
8. Unless protected by law, all information filled in on this application will become public information on receipt by the competent authority. Any interested and affected party should be provided with the information contained in this application on request, during any stage of the application process.
9. Should a specialist report or report on a specialised process be submitted at any stage for any part of this application, the terms of reference for such report must also be submitted.

TERMS OF REFERENCE FOR SPECIALIST INVESTIGATIONS AND REPORTS HAVE BEEN INCLUDED IN APPENDIX E AT THE END OF THIS APPLICATION.

Queries must be addressed to the contact hereunder:

Departmental Details

Postal address:

Department of Environmental Affairs
Attention: Director: Environmental Impact Evaluation
Private Bag X447
Pretoria
0001

Physical address:

Department of Environmental Affairs
Fedsure Forum Building (corner of Pretorius and Van der Wall Streets)
2nd Floor North Tower
315 Pretorius Street
Pretoria
0002

Queries should be directed to the Directorate: Environmental Impact Evaluation at:

Tel: 012-310-3268
Fax: 012-320-7539

Please note that this form must be copied to the relevant provincial environmental department/s.

View the Department's website at <http://www.deat.gov.za/> for the latest version of the documents.

SITE IDENTIFICATION AND LINKAGE

Please indicate all the Surveyor-general 21 digit site (erf/farm/portion) reference numbers for all sites (including portions of sites) that are part of the application.

ALL RELEVANT SURVEYOR-GENERAL 21 DIGIT SITE REFERENCE NUMBERS FOR THE FARMS AFFECTED THROUGH THIS APPLICATION IS ATTACHED IN APPENDIX A.

PROJECT TITLE

BA for the installation of 132kV transmission lines from Dieprivier to Kareedouw, Cacadu District

1. BACKGROUND INFORMATION

Project applicant:	ESKOM Holdings		
Trading name (if any):	ESKOM		
Contact person:	Tom Smith		
Physical address:	Sunilaws Office Park, Corner Bonza Bay Road and Quenera Drive, Beacon Bay, East London, 5241		
Postal address:	Private Bag X1, Beacon Bay, East London		
Postal code:	5201	Cell:	082 806 1665
Telephone:	043 703 2339	Fax:	086 538 8281
E-mail:	SmithTV@eskom.co.za		

Provincial Authority:	Department of Economic Development and Environmental Affairs		
Contact person:	Leon Els		
Postal address:	P/Bag X5001, Greenacres, Port Elizabeth		
Postal code:	6057	Cell:	
Telephone:	041 508 5800	Fax:	041 508 5867
E-mail:	leon.els@deaet.ecape.gov.za		

Landowner:	DETAILS OF ALL LANDOWNERS AFFECTED THROUGH THIS APPLICATION ARE LISTED IN APPENDIX B.		
Contact person:			
Postal address:			
Postal code:		Cell:	
Telephone:		Fax:	
E-mail:			

In instances where there is more than one landowner, please attach a list of landowners with their contact details to this application.

Local authority in whose jurisdiction the proposed activity will fall:

Kou-Kamma Local Municipality

Nearest town or districts:

Kareedouw

Contact person:

Aubrey Norman

Postal address:

Private Bag X011, Kareedouw

Postal code:

6400

Cell:

Telephone:

042 288 7271

Fax:

042 288 0797

E-mail:

koukamma@koukamma.gov.za

In instances where there is more than one local authority involved, please attach a list of local authorities with their contact details to this application.

THE DISTRICT AUTHORITY NOTIFIED THROUGH THIS APPLICATION IS LISTED IN APPENDIX C.

2. ACTIVITIES APPLIED FOR TO BE AUTHORISED

2.1 For an application for authorisation that involves more than one listed or specified activity that, together, make up one development proposal, all the listed activities pertaining to this application must be indicated.

Indicate the number and date of the relevant notice: Activity No (s) (in terms of the relevant notice) : Describe each listed activity as per project description¹:

544, 18 June 2010	10 (i)	The proposed activities include the construction of a 132kV transmission line between Melkhout and Dieprivier, and the construction of a new substation at Dieprivier.
544, 18 June 2010	11 (iii)	Routing of the transmission lines close to the R330 or close to watercourses is likely to require construction of a bridge/s across a watercourse.
544, 18 June 2010	18	The construction of access road may be required where the transmission line will occur inland of a natural depression in which water flows regularly or intermittently.
546, 18 June 2010	12 (b)	Clearing of vegetation along each route within the servitude will likely occur, which will impact on some of the CBAs occurring along the route as identified in the Eastern Cape Biodiversity Conservation Plan (ECBCP).
546, 18 June 2010	13 (a), (c) ii (ff)	Clearing of vegetation along each route within the servitude will likely occur, which will impact on some of the CBAs occurring along the route as identified in the Eastern Cape Biodiversity Conservation Plan (ECBCP).

Please note that any authorisation that may result from this application will only cover activities specifically applied for.

¹ Please note that this description should not be a verbatim repetition of the listed activity as contained in the relevant Government Notice, but should be a brief description of activities to be undertaken as per the project description

2.2 A project schedule, indicating the different phases and timelines of the project, must be attached to this application form.

A PROJECT SCHEDULE PROPOSED FOR THIS APPLICATION IS INCLUDED IN APPENDIX D.

3. OTHER AUTHORISATIONS REQUIRED

3.1 DO YOU NEED ANY AUTHORISATIONS IN TERMS OF ANY OF THE FOLLOWING LAWS?

- | | |
|--|--------------------------------|
| 3.1.1 National Environmental Management: Waste Act | <input type="checkbox"/> / No |
| 3.1.2 National Environmental Management: Air Quality Act | <input type="checkbox"/> / No |
| 3.1.3 National Environmental Management: Protected Areas Act | <input type="checkbox"/> / No |
| 3.1.4 National Environmental Management: Biodiversity Act | Yes / <input type="checkbox"/> |
| 3.1.5 Mineral Petroleum Development Resources Act | <input type="checkbox"/> / No |
| 3.1.6 National Water Act | Yes / <input type="checkbox"/> |
| 3.1.7 National Heritage Resources Act | Yes / <input type="checkbox"/> |
| 3.1.8 Other (please specify) | <input type="checkbox"/> / No |

3.2 Have such applications been lodged already? / No

4. DECLARATIONS

4.1 The Applicant

I, T.V. Smith, declare that I -

- am the applicant in this application;
- have appointed an environmental assessment practitioner to act as the independent environmental assessment practitioner for this application / will obtain exemption from the requirement to obtain an environmental assessment practitioner²;
- will provide the environmental assessment practitioner and the competent authority with access to all information at my disposal that is relevant to the application;
- will be responsible for the costs incurred in complying with the Environmental Impact Assessment Regulations, 2010, including but not limited to –
 - costs incurred in connection with the appointment of the environmental assessment practitioner or any person contracted by the environmental assessment practitioner;
 - costs incurred in respect of the undertaking of any process required in terms of the Regulations;
 - costs in respect of any fee prescribed by the Minister or MEC in respect of the Regulations;
 - costs in respect of specialist reviews, if the competent authority decides to recover costs; and
 - the provision of security to ensure compliance with conditions attached to an environmental authorisation, should it be required by the competent authority;
- will ensure that the environmental assessment practitioner is competent to comply with the requirements of these Regulations and will take reasonable steps to verify whether the EAP complies with the Regulations;
- will inform all registered interested and affected parties of any suspension of the application as well as of any decisions taken by the competent authority in this regard;
- am responsible for complying with the conditions of any environmental authorisation issued by the competent authority;
- hereby indemnify the Government of the Republic, the competent authority and all its officers, agents and employees, from any liability arising out of the content of any report, any procedure or any action which the applicant or environmental assessment practitioner is responsible for in terms of these Regulations;
- will not hold the competent authority responsible for any costs that may be incurred by the applicant in proceeding with an activity prior to obtaining an environmental authorisation or prior to an appeal being decided in terms of these Regulations;
- will perform all other obligations as expected from an applicant in terms of the Regulations;

² If exemption is obtained from appointing an EAP, the responsibilities of an EAP will automatically apply to the person conducting the environmental impact assessment in terms of the Regulations.

- all the particulars furnished by me in this form are true and correct; and
- I realise that a false declaration is an offence in terms of regulation 71 and is punishable in terms of section 24F of the Act.

Signature of the applicant³/ Signature on behalf of the applicant:

ESKOM HOLDINGS PTY LTD.

Name of company (if applicable):

10 APRIL 2012

Date:

³ If the applicant is a juristic person, a signature on behalf of the applicant is required as well as proof of such authority. An EAP may not sign on behalf of an applicant.

APPENDIX A

SITE IDENTIFICATION AND LINKAGE

The surveyor-general 21 digit site (erf/farm/portion) reference numbers for all erven included in this application are given in the table below.

APPENDIX C

LOCAL AUTHORITY JURISDICTION (CONT.)

District Authority

Local authority in whose jurisdiction the proposed activity will fall:

Cacadu District Municipality

Nearest town or districts:

Port Elizabeth

Contact person:

Howard Sikweza

Postal address:

PO Box 318, Port Elizabeth

Postal code:

6000

Cell:

Telephone:

041 5087314

Fax:

041 508 7000

E-mail:

hsikweza@Cacadu.co.za

APPENDIX E

TERMS OR REFERENCE FOR PROPOSED SPECIALIST STUDIES

Terms of Reference: Ecological Assessment

1. Carry out fieldwork to locate and describe the terrestrial vegetation on the study area, key focus on the impact footprint(s) for sensitive site(s). No faunal assessments will be undertaken within the scope of this study.
2. Determine the species present and localities within each vegetation types.
3. Determine whether the study area falls wholly or partially within the distribution range of species listed as Vulnerable, Endangered, Critically Endangered, Protected, IUCN Red Listed or Endemic.
4. Provide a description of the current state of the vegetation on site supported by relevant photographs.
5. Identify and describe the conservation value and conservation planning frameworks relevant to this site (Regional Planning) for represented vegetation units.
6. Describe the areas where indigenous vegetation has been transformed.
7. Determine alien species present; their distribution within the study area and recommended management actions.
8. Note and record the position of unusually large specimens of trees, where applicable.
9. Provide a detailed vegetation sensitivity map of the site, including mapping of disturbance and transformation on site.
10. Identify and rate potential impacts, outline mitigatory measures and outline additional management guidelines.
11. Environmental Management Plan (EMP) recommendations relating to flora and vegetation, including generic rehabilitation and revegetation guideline will be provided in the report.
12. Draft an impact statement of the proposed development on the identified vegetation units.

Terms of Reference: Avifaunal Assessment

1. Mapping of sensitive sites: The bird sensitive sections of the study area will be mapped and attached as an annexure to the main document.
2. Describe affected environment and determine status quo: The existing environment will be described and the bird communities most likely to be impacted will be identified. Different bird microhabitats will be described as well as the species associated with those habitats.
3. Indicate how a resource or community will be affected. Typical impacts that could be expected from the development will be listed as well as the expected impact on the bird communities. Impacts will be quantified (if possible) and a full description of predicted impacts (direct and indirect) will be provided.
4. Gaps in baseline data. Gaps in baseline data will be highlighted and discussed. An indication of the confidence levels will be given. The best available data sources will be used to predict the impacts, and extensive use will be made of local knowledge.
5. Assessment of impacts: The potential impact on the birds will be assessed and evaluated according to the magnitude, spatial scale, timing, duration, reversibility, probability and significance. Propose and explain mitigation measures. Practical mitigation measures will be recommended and discussed.
6. Summarise residual impacts after mitigation. An impact summary table will be provided, discussing expected impacts before and after mitigation.
7. Indicate a monitoring programme. If a need for a monitoring programme is evident, it will be highlighted and a programme proposed.
8. Draft an impact statement of the proposed development on the identified avifauna communities.

Information sources to be used include the following:

1. The Southern African Bird Atlas Project data (SABAP1 - Harrison *et. al.*, 1997) for the quarter degree squares covering the site. The Southern African Bird Atlas Project 2 data will also be consulted at <http://sabap2.adu.org.za/v1/index.php>.
2. The Important Bird Areas report (IBA - Barnes 1998) will be consulted to determine the location of the nearest IBA's and their importance for this study.
3. The conservation status of all relevant bird species will be determined using Barnes (2000).
4. The latest vegetation classification of South Africa (Mucina & Rutherford, 2006) will be consulted in order to determine which vegetation types occur on site.

Terms of Reference: Heritage Assessment (Archaeology and Palaeontology)

The emphasis of the HIA is on resources that are sensitive to visual change, and the disruption of archaeological artefacts/finds at the proposed sites. Visual resources are usually places, structures and landscapes that are or could be publicly celebrated as heritage.

1. Conduct a desktop study within a 100 metre wide servitude over various potential corridors and deviations over a distance of 90 kilometres.
2. Conduct a site visit to verify potential sites or areas that may be of heritage importance.
3. Describe and report on any site or area that may contain potential heritage resources that must be considered.
4. Assessed and evaluated the potential impact on identified heritage resources according to the magnitude, spatial scale, timing, duration, reversibility, probability and significance.
5. Propose and explain mitigation measures
6. Summarise residual impacts after mitigation. An impact summary table will be provided, discussing expected impacts before and after mitigation.
7. Draft an impact statement of the proposed development on the potential heritage resources.

Other factors to be considered:

- Electronic databases of visually sensitive heritage resources do not exist for the study area, and paper versions are extremely limited.
- In palaeontological terms the Dieprivier – Kareedouw sector is unproblematic (mainly Table Mountain Group) but the other two sections transect rock units of high palaeontological sensitivity (e.g. Early Devonian Lower Bokkeveld Group, Early Cretaceous Kirkwood Formation) and the stratigraphy is quite complex in terms of the number of rock units concerned (Dr John Almond, email communication 14 November 2011).
- In open landscape during daylight hours, transmission lines on self-supporting towers are visible (but not necessarily intrusive) from a distance of 2 to 5km. Guidelines for the development of wind energy facilities in the Western Cape have suggested that a buffer zone of 1km be established around significant visually sensitive heritage resources to minimise the change to the 'sense of place'. The point at which a transmission line may be perceived as intrusive or offensive is subjective.
- The presence of an existing transmission line in an area serves as a mitigatory factor rather than a cumulative negative impact, in terms of establishing new transmission lines in the same area (within a distance of 1km of the existing line). Electrical infrastructure is therefore best confined to an existing area or corridor of vertical visual disturbance, rather than introducing new infrastructure to an undisturbed landscape.
- Transmission power line routes should be chosen to minimise the requirements for new infrastructure such as access roads, which have the greatest permanent direct and indirect impact on the landscape. This factor supports the previous observation in that new transmission lines located close to existing lines can share access and maintenance roads.

- The linear nature of the project where tower positions can be altered (within limits) to avoid direct impacts on heritage resources such as archaeological and palaeontological sites that may have high heritage significance due to their scientific values, but are generally not publicly celebrated as resources sensitive to visual change.

APPENDIX F

PROOF OF LAND OWNER NOTIFICATION

REGISTERED LETTERS

The following pages show the receipt for the registered letters sent to landowners. The letters for the Diepriver to Kareedouw line are highlighted in red.
