Dear Mr Gildenhuys

# ACACIA POWER STATION'S MONTHLY EMISSIONS REPORT FOR THE MONTH OF APRIL 2020

This serves as the monthly report required in terms of Section 5.4.1 and Sections 8.1.1 of Acacia Power Station's Atmospheric Emission License **WCCT023**. The information is applicable for the month of April 2020.

## 1. Raw Materials and Products (Licence 5.4.1)

Quantity of Raw Materials and Products used/produced for the month

Element	Performance	Reporting Unit
Fuel type : Kerosene		
Total Fuel Consumption	1.874	Tons
Electricity Produced	0	MWh
Average Fuel Consumption	0	Tons / MWh
Maximum fuel consumption rate	0	Kg per hour

# 2. Operating times of units (Licence 5.4.1)

#### a. Total Hours

	Hours operated	Total Fuel Consumption	Energy Production
	Hours	Litres	MWh
Unit One	0		0
Unit Two	0	2186	0
Unit Three	0		0

### b. Detailed operating times

Not applicable

# 3. Complaints Register (Licence reference 8.1.1)

One complaint was received for the month of April 2020. On Investigation this was determined not to be related to Eskom Acacia Power Station. The complaint by an Edgemead resident related to a loud noise from an alarm coming from the direction of the station. The station manager verified the next day that no alarms were recorded on site on the day / evening in question, and the sound must have originated from another source.

#### 4. General

A VT (Voltage transformer) failure was recorded on Unit 1 that required a test run in order to requalify the unit. A unit test run was done on 21<sup>st</sup> April and again on the 23<sup>rd</sup> which resulted in the fuel usage.

The monthly Ambient Air Quality Report compiled by Argos Scientific for air quality monitoring at the Acacia AQM station, will be sent to your office as soon as it is received.

Load Factor –April 2020 0 % per Unit

We trust that the above information complies with your requirements.

Yours sincerely

Pamela Mrubata Plant Manager

ACACIA POWER STATION
