Dear Mr Gildenhuys

ACACIA POWER STATION'S MONTHLY EMISSIONS REPORT FOR THE MONTH OF SEPTEMBER 2020

This serves as the monthly report required in terms of Section 5.4.1 and Sections 8.1.1 of Acacia Power Station's Atmospheric Emission License **WCCT023**. The information is applicable for the month of September 2020.

1. Raw Materials and Products (Licence 5.4.1)

Quantity of Raw Materials and Products used/produced for the month

| Element | Performance | Reporting Unit |
|-------------------------------|-------------|----------------|
| Fuel type : Kerosene | | |
| Total Fuel Consumption | 0 | Tons |
| Electricity Produced | 0 | MWh |
| Average Fuel Consumption | 0 | Tons / MWh |
| Maximum fuel consumption rate | 0 | Kg per hour |

2. Operating times of units (Licence 5.4.1)

a. Total Hours

| | Hours operated | Total Fuel Consumption | Energy Production |
|------------|-------------------|------------------------|-------------------|
| | Hours and minutes | Litres | MWh |
| Unit One | 0 | 0 | 0 |
| Unit Two | 0 | | 0 |
| Unit Three | 0 | | 0 |

b. Detailed operating times

Not applicable

3. Complaints Register (Licence reference 8.1.1)

No complaints were registered for the month of September 2020.

4. General

Acacia was not requested to generate for the grid to supplement power availability and minimise national load shedding.

There was no monthly ambient air quality monitoring at the Acacia AQM station for September, as the new 5 year AQM contract is expected to start within the next week or week thereafter upon successful negotiations with the awarded service provider. An update will be sent to your office, once the start date is known.

The Eskom owned NOx analyser is in for a major component repair to which a Sole Source procurement application is currently in progress.

We trust that the above information complies with your requirements.

Yours sincerely

Pamela Mrubata
Plant Manager
ACACIA POWER STATION
