Eskom Holdings SOC Ltd Reg No 2002/015527/30

b. Detailed operating times

Not applicable

3. Complaints Register (Licence 7.6)

No complaints were registered for the month of January 2022.

4. General

4.1 Station usage

Port Rex was not requested to generate for the grid to supplement power availability. Port Rex operated in SCO mode. No start and finish times recorded operating in SCO mode, as opposed to generating mode.

A Unit was started after trip from SCO mode for testing following to a fire valve closed signal and fault finding on fire system circuit.

4.2 MES

Eskom Holdings SOC Ltd application for suspension of the PM and NOx new plant Minimum Emissions Standards (MES) and Atmospheric Emission Licence (AEL) Variation Request for the Port Rex Power Station in Westbrook, East London was approved by the National Air Quality Officer (NAQO).

Notice of Decision (DFFE Reference: EC/ES-PR /BCM/20200901)

4.3 AEL Variation Request:

This decision will have to be reflected in Eskom's Atmospheric Emission License (AEL) to be of force and effect. Therefore, Eskom will liaise with yourselves so that the required amendments, variations, and additions to the AEL can be affected.

We trust that the above information complies with your requirements.

Yours sincerely

pp
