Please note that all shaded areas will be times when the power will be off. Schedules are cumulative, i.e. stage 3 will include the times as scheduled for the preceding stages 1 and 2.

**E.g. of how to read the schedule (i.e. example date and blocks shed)**

If load shedding is declared for the 1st of month in this example then someone in Blouberg, Alldays Dorp would look at the corresponding date (as depicted in the picture below):

- if Eskom declared Stage 1, this would mean he/she would be shed from 01:00 - 03:30
- if Eskom declared Stage 2, this would mean he/she would be shed from 01:00 - 03:30
- if Eskom declared Stage 3, this would mean he/she would be shed from 01:00 - 03:30 AND 17:00 - 19:30
- if Eskom declared Stage 4, this would mean he/she would be shed from 01:00 - 03:30 AND 09:00 - 11:30 AND 17:00 - 19:30
- if Eskom declared Stage 5, this would mean he/she would be shed from 01:00 - 05:30 AND 09:00 - 11:30 AND 17:00 - 19:30
- if Eskom declared Stage 6, this would mean he/she would be shed from 01:00 - 05:30 AND 09:00 - 11:30 AND 17:00 - 19:30
- if Eskom declared Stage 7, this would mean he/she would be shed from 01:00 - 05:30 AND 09:00 - 11:30 AND 17:00 - 21:30
- if Eskom declared Stage 8, this would mean he/she would be shed from 01:00 - 05:30 AND 09:00 - 13:30 AND 17:00 - 21:30

**Notes:**

1. The load shedding timetable starts when there is a formal announcement from Eskom
2. To check what the position is of load shedding at any time, go to <http://www.loadshedding.eskom.co.za>
3. This is a monthly time table for load shedding.
4. Load shedding will begin with the declaration from Eskom. If you are scheduled from 16:00 to 18:30, but loadshedding is declared at 17h00, you will only be load shed from 17h00 to 18h30.
5. If you are scheduled on a lower stage and a higher stage is declared, then your current time slot will be included in the higher stage
