PER EMAIL / MAIL

Dear Mr Mlandu

ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, ACT NO. 107 OF 1998, AS AMENDED: FOR THE CONSTRUCTION OF A LOW-PRESSURE SYSTEM (LPS) PIPELINE AND THE 11KV POWER LINE WITHIN THE EMALAHLENI LOCAL MUNICIPALITY, NKANGALA DISTRICT MUNICIPALITY IN MPUMALANGA PROVINCE

With reference to the above application, please be advised that the Department has decided to grant authorisation. The Environmental Authorisation (EA) and reasons for the decision are attached herewith.

In terms of Regulation 4(2) of the 2014 NEMA Environmental Impact Assessment Regulations, as amended (the EIA Regulations), you are instructed to notify all registered interested and affected parties, in writing and within fourteen (14) days of the date of the decision as well as the provisions regarding the submission of appeals that are contained in the Regulations.

In terms of the Promotion of Administrative Justice Act, Act No. 3 of 2000, you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. Further your attention is drawn to the provisions of the Protection of Personal Information Act, Act No. 4 of 2013 which stipulate that the Department should conduct itself in a responsible manner when collecting, processing, storing and sharing an individual or another entity's personal information by holding the Department accountable should the Department abuse or compromise your personal information in any way.

Your attention is drawn to Chapter 2 of National Environmental Management Act, Act No. 107 of 1998 National Appeal Regulations published under Government Notice R993 in Government Gazette No. 38303 dated 08 December 2014 (National Appeal Regulations, 2014), which prescribes the appeal procedure to be followed. Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.

Appeals must be submitted in writing in the prescribed form to:

The Director: Appeals and Legal Review of this Department at the below mentioned addresses.

By email: appeals@dff.e.gov.za

By hand: Environment House
473 Steve Biko Road
Arcadia
PRETORIA
0083; or

By post: Private Bag X447
PRETORIA
0001

Please note that in terms of Section 43(7) of the National Environmental Management Act, Act No. 107 of 1998, as amended, the lodging of an appeal will suspend the environmental authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged, you may not commence with the activity until such time that the appeal is finalised.

To obtain the prescribed appeal form and for guidance on the submission of appeals, please visit the Department's website at https://www.dffe.gov.za/documents/forms#legal_authorisations or request a copy of the documents at appeals@dff.e.gov.za.

Yours faithfully

Ms Milicent Solomons

forestry, fisheries & the environment

Department:
Forestry, Fisheries and the Environment
REPUBLIC OF SOUTH AFRICA

Environmental Authorisation

In terms of Regulation 25 of the Environmental Impact Assessment Regulations, 2014, as amended

THE CONSTRUCTION OF A LOW-PRESSURE SYSTEM (LPS) PIPELINE AND THE 11KV POWERLINE WITHIN THE EMALAHLENI LOCAL MUNICIPALITY IN MPUMALANGA PROVINCE.

NKANGALA DISTRICT MUNICIPALITY

Authorisation register number:	14/12/16/3/3/1/2654
Last amended:	<i>First issue</i>
Holder of authorisation:	<i>Eskom Holdings SOC Limited</i>
Location of activity:	<i>Mpumalanga Province: The site is boarded by R555 and R545 and located on the farm Schoongezicht 218 IR and Leeuwfontein 219 IR on Ward 30 under eMalahleni Local Municipality, Nkangala District Municipality.</i>

This authorisation does not negate the holder of the authorisation's responsibility to comply with any other statutory requirements that may be applicable to the undertaking of the activity.

Decision

The Department is satisfied, based on information available to it and subject to compliance with the conditions of this Environmental Authorisation, that the applicant should be authorised to undertake the activities specified below.

Non-compliance with a condition of this Environmental Authorisation may result in criminal prosecution or other actions provided for in the National Environmental Management Act, Act No. 107 of 1998, as amended and the EIA Regulations, 2014, as amended.

Details regarding the basis on which the Department reached this decision are set out in Annexure 1.

Activities authorised

By virtue of the powers conferred on it by the National Environmental Management Act, Act No. 107 of 1998, as amended and the Environmental Impact Assessment Regulations, 2014, as amended, the Department hereby authorises –

ESKOM HOLDINGS SOC LIMITED

(Hereafter referred to as the **holder of the authorisation**)

with the following contact details –

Mr Vuysile Mlandu
Eskom Holdings SOC Limited
Private Bag X7272
EMALAHLENI
1035

Telephone Number: (013) 690 0567
Cell number: (082) 325 3508
Email Address: MlanduV@eskom.co.za

to undertake the following activities (hereafter referred to as "the activity") indicated in Listing Notice 1, and 3 of the EIA Regulations, 2014 as amended:

Activity number	Activity description
<u>Listing Notice 1, Activity 9</u> <i>The construction of facilities or infrastructure exceeding 1 000 metres in length for the bulk transportation of water, sewage, or storm water –</i> <i>(i) with an internal diameter of 0,36 metres or more; or</i> <i>(ii) with a peak throughput of 120 litres per second or more...</i>	The proposed Low-Pressure System pipeline is about 13 kilometres long and the diameter is 0.355 metres which is equivalent to 0.36 metres.
<u>Listing Notice 1, Activity 19</u> <i>The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles, or rock from a watercourse.</i>	The proposed Low-Pressure System pipeline will be buried underground, and the pipeline will be crossing water resources resulting in excavation within a watercourse that exceeds 10 cubic metres.

as described in the Basic Assessment Report (BAR) dated December 2022 at:

Surveyor General Codes

Farm Names	SG 21 Code	Latitude	Longitude

- for the construction of a Low-Pressure System (LPS) pipeline and the 11kV Power line within the eMalahleni Local Municipality, Nkangala District Municipality in Mpumalanga Province., hereafter referred to as "the property".

The proposed pipeline will include the following:

The Low-Pressure System consists of five dams of which two are Pollution Control Dams the remaining three are Clean Water Dams (CWD). Each dam is comprised of two compartments, each compartment has an intake structure that allows the pumps to draw suction. Individually, the dams have a dedicated pump to supply water to the sprinkler network located at the ash dump. The water from the clean water dams will be used for irrigation for the rehabilitated areas or dust suppression of clean areas and the water from the pollution control dams will be used for dust suppression in areas more susceptible to ash mobilization. The pumps' discharge lines connect to a ring main (355mm), the proposed pipeline, which has isolated take offs every after 300 meters. From the take off a removable 100 mm rising piping can be attached which in turn supplies a lateral piping connected to 38 flexible hoses complete with sprinklers.

Three 11/0.42 kV Type B mini substations, supplied by the 11 kV overhead powerline, shall supply power to the five 400 V ac MCC switchboards located at each of the five pump stations. The mini substations shall be connected in a ring configuration using an 11 kV overhead line and XLPE cable combination. The 400 V ac MCC switchboard shall supply the dust suppression irrigation pump motor and additional equipment for the pump station which includes: a sump pump motor, control valve, C&I equipment, UPS and small power and lighting.

Conditions of this Environmental Authorisation

Scope of authorisation

1. The preferred route option for Low-Pressure System (LPS) pipeline and the 11kV Power line within the eMalahleni Local Municipality, Nkangala District Municipality in Mpumalanga Province is approved as per the geographic coordinates cited in **Annexure 2**.
2. Authorisation of the activity is subject to the conditions contained in this Environmental Authorisation, which form part of the Environmental Authorisation and are binding on the holder of the authorisation.
3. The holder of the authorisation is responsible for ensuring compliance with the conditions contained in this Environmental Authorisation. This includes any person acting on the holder's behalf, including but not limited to, an agent, servant, contractor, sub-contractor, employee, consultant or person rendering a service to the holder of the authorisation.
4. The activities authorised must only be carried out at the property as described above.
5. Any changes to, or deviations from, the project description set out in this Environmental Authorisation must be approved, in writing, by the Department before such changes or deviations may be affected. In assessing whether to grant such approval or not, the Department may request such information as it deems necessary

to evaluate the significance and impacts of such changes or deviations and it may be necessary for the holder of the authorisation to apply for further Environmental Authorisation in terms of the regulations.

6. The holder of an Environmental Authorisation must apply for an amendment of the Environmental Authorisation with the Competent Authority for any alienation, transfer or change of ownership rights in the property on which the activity is to take place.
7. This activity must commence within a period of ten (10) years from the date of issue of this Environmental Authorisation. If commencement of the activity does not occur within that period, the authorisation lapses and a new application for Environmental Authorisation must be made for the activity to be undertaken.
8. Construction must be completed within three (03) years of the commencement of the activity on site.

Notification of authorisation and right to appeal

9. The holder of the authorisation must notify every registered interested and affected party, in writing and within 14 (fourteen) calendar days of the date of this Environmental Authorisation, of the decision to authorise the activity.
10. The notification referred to must –
 - 10.1. specify the date on which the authorisation was issued;
 - 10.2. inform the interested and affected party of the appeal procedure provided for in the National Appeal Regulations, 2014;
 - 10.3. advise the interested and affected party that a copy of the authorisation will be furnished on request; and
 - 10.4. give the reasons of the Competent Authority for the decision.

Commencement of the activity

11. The authorised activity must not commence until the period for the submission of appeals has lapsed as per the National Appeal Regulations, 2014, and no appeal has been lodged against the decision. In terms of Section 43(7), an appeal under Section 43 of the National Environmental Management Act, Act No. 107 of 1998, as amended will suspend the Environmental Authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged you may not commence with the activity until such time that the appeal has been finalised.

Management of the activity

12. The Environmental Management Programme (EMPr) "Appendix H1" and Generic Electricity EMPr "Appendix H2" dated December 2022 submitted as part of the BAR dated December 2022 are approved and must be implemented and adhered to.
13. The EMPr must be implemented and strictly enforced during all phases of the project. It shall be seen as a dynamic document and shall be included in all contract documentation for all phases of the development when approved.
14. Changes to the approved EMPr must be submitted in accordance with the EIA Regulations applicable at the time.
15. The Department reserves the right to amend the approved EMPr should any impacts that were not anticipated or covered in the EIAR be discovered.

Frequency and process of updating the EMPr

16. The EMPr must be updated where the findings of the environmental audit reports, indicate insufficient mitigation of environmental impacts associated with the undertaking of the activity, or insufficient levels of compliance with the environmental authorisation or EMPr.
17. The updated EMPr must contain recommendations to rectify the shortcomings identified in the environmental audit report.
18. The updated EMPr must be submitted to the Department for approval together with the environmental audit report, as per Regulation 34 of the EIA Regulations, 2014 as amended. The updated EMPr must have been subjected to a public participation process, which process has been agreed to by the Department, prior to submission of the updated EMPr to the Department for approval.
19. In assessing whether to grant approval of an EMPr which has been updated because of an audit, the Department will consider the processes prescribed in Regulation 35 of the EIA Regulations, 2014 as amended. Prior to approving an amended EMPr, the Department may request such amendments to the EMPr as it deems appropriate to ensure that the EMPr sufficiently provides for avoidance, management and mitigation of environmental impacts associated with the undertaking of the activity.
20. The holder of the authorisation must apply for an amendment of an EMPr, if such amendment is required before an audit is required. The amendment process is prescribed in Regulation 37 of the EIA Regulations, 2014, as amended. The holder of the authorisation must request comments on the proposed amendments to the impact management outcomes of the EMPr or amendments to the closure objectives of the closure plan from potentially interested and affected parties, including the competent authority, by using any of the methods provided for in the Act for a period of at least 30 days.

Monitoring

21. The holder of the authorisation must appoint an experienced Environmental Control Officer (ECO) for the construction phase of the development that will have the responsibility to ensure that the mitigation/rehabilitation measures and recommendations referred to in this environmental authorisation are implemented and to ensure compliance with the provisions of the approved EMPr.
 - 21.1. The ECO must be appointed before commencement of any authorised activities.
 - 21.2. Once appointed, the name and contact details of the ECO must be submitted to the *Director: Compliance Monitoring* of the Department.
 - 21.3. The ECO must keep record of all activities on site, problems identified, transgressions noted and a task schedule of tasks undertaken by the ECO.
 - 21.4. The ECO must remain employed until all rehabilitation measures, as required for implementation due to construction damage, are completed and the site is ready for operation.

Recording and reporting to the Department

22. All documentation e.g., audit/monitoring/compliance reports and notifications, required to be submitted to the Department in terms of this environmental authorisation, must be submitted to the *Director: Compliance Monitoring* of the Department.
23. The holder of the environmental authorisation must, for the period during which the environmental authorisation and EMPr remain valid, ensure that project compliance with the conditions of the environmental authorisation and the EMPr are audited, and that the audit reports are submitted to the *Director: Compliance Monitoring* of the Department.
24. The frequency of auditing and of submission of the environmental audit reports must be as per the frequency indicated in the EMPr, considering the processes for such auditing as prescribed in Regulation 34 of the EIA Regulations, 2014 as amended.
25. The holder of the authorisation must, in addition, submit environmental audit reports to the Department within 30 days of completion of the construction phase (i.e., within 30 days of site handover) and a final environmental audit report within 30 days of completion of rehabilitation activities.
26. The environmental audit reports must be compiled in accordance with Appendix 7 of the EIA Regulations, 2014 as amended and must indicate the date of the audit, the name of the auditor and the outcome of the audit in terms of compliance with the environmental authorisation conditions as well as the requirements of the approved EMPr.

27. Records relating to monitoring and auditing must be kept on site and made available for inspection to any relevant and competent authority in respect of this development.

Notification to authorities

28. A written notification of commencement must be given to the Department no later than fourteen (14) days prior to the commencement of the activity.

Operation of the activity

29. A written notification of operation must be given to the Department no later than fourteen (14) days prior to the commencement of the activity operational phase.

Site closure and decommissioning

30. Should the activity ever cease or become redundant, the holder of the authorisation must undertake the required actions as prescribed by legislation at the time and comply with all relevant legal requirements administered by any relevant and Competent Authority at that time.

Specific conditions

31. No activities will be allowed to encroach into a water resource without a water use authorisation being in place from the Department of Water and Sanitation.
32. Vegetation clearing must be kept to an absolute minimum. Mitigation measures as specified in the Biodiversity Impact Assessment must be implemented to reduce the risk of erosion and the invasion of alien species.
33. The EMPr of this proposed development must form part of the contractual agreement and be adhered to by both the contractors and the applicant.
34. Should any heritage resources be discovered apart from the possible grave noted, the proposed recommendations should be used as reference on how to handle and protect heritage resources.

General

35. A copy of this Environmental Authorisation, the audit and compliance monitoring reports, and the approved EMPr, must be made available for inspection and copying-
 - 35.1. at the site of the authorised activity;
 - 35.2. to anyone on request; and
 - 35.3. where the holder of the Environmental Authorisation has a website, on such publicly accessible website.
36. National government, provincial government, local authorities or committees appointed in terms of the conditions of this authorisation or any other public authority shall not be held responsible for any damages or losses suffered by the holder of the authorisation or his/her successor in title in any instance where construction or operation subsequent to construction be temporarily or permanently stopped for reasons of non-compliance by the holder of the authorisation with the conditions of authorisation as set out in this document or any other subsequent document emanating from these conditions of authorisation.

Date of Environmental Authorisation: 02/03/2023.

Ms Milicent Solomons

Acting Chief Director: Integrated Environmental Authorisations

Department of Forestry, Fisheries and the Environment

Annexure 1: Reasons for Decision

1. Information considered in making the decision

In reaching its decision, the Department took, *inter alia*, the following into consideration -

- a) The listed activities (Listing notice 1 and 3) as applied for in the application form received on 28 October 2022
- b) The information contained in the BAR dated December 2022.
- c) Mitigation measures as proposed in the EMPr "Appendix H1" dated December 2022, Generic Electricity EMPr "Appendix H2" dated December 2022 and the BAR dated December 2022.
- d) The sufficient public participation process for the project.
- e) The comments received from South African Heritage Resources Agency, Department of Forestry, Fisheries & the Environment (DFFE) – Biodiversity Conservation and interested and affected parties as included in the BAR dated December 2022.
- f) The information contained in the specialist studies contained within the appendices of the BAR dated December 2022 and as appears below:

Title	Prepared by	Date
Biodiversity Assessment	Nonkanyiso Zungu - Specialist Ecologist/Wetland specialist	August 2022
Traffic Impact Assessment	Goba Pty Ltd	26 July 2022
Surface water Assessment	J7 Royal Group	August 2022
Heritage Impact Assessment	Vungandze Project (Pty) Ltd	August 2022
Geohydrological Assessment	J7 Royal Group	August 2022
Air Quality Impact Assessment	ZABCOR (PTY) Ltd	10 August 2022
Noise Impact Assessment	ZABCOR (PTY) Ltd	15 August 2022
Wetland Assessment,	Nonkanyiso Zungu, Pr.Nat.Sci (Reg. No. 400194/10)	March 2022
Geotechnical Assessment.	Vhuluvhi Group	July 2022

2. Key factors considered in making the decision

All information presented to the Department was considered in the Department's consideration of the application. A summary of the issues which, in the Department's view, were of the most significance is set out below.

- a) The findings of all the specialist studies conducted and their recommended mitigation measures.
- b) The need for the proposed construction and installation of a new pipeline.
- c) The BAR dated December 2022 identified all legislation and guidelines that have been considered in the preparation of the report.
- d) The methodology used in assessing the potential impacts identified in the BAR dated December 2022 and the specialist studies have been adequately indicated.
- e) A sufficient public participation process was undertaken and the applicant has satisfied the minimum requirements as prescribed in the EIA Regulations, 2014 as amended for public involvement.

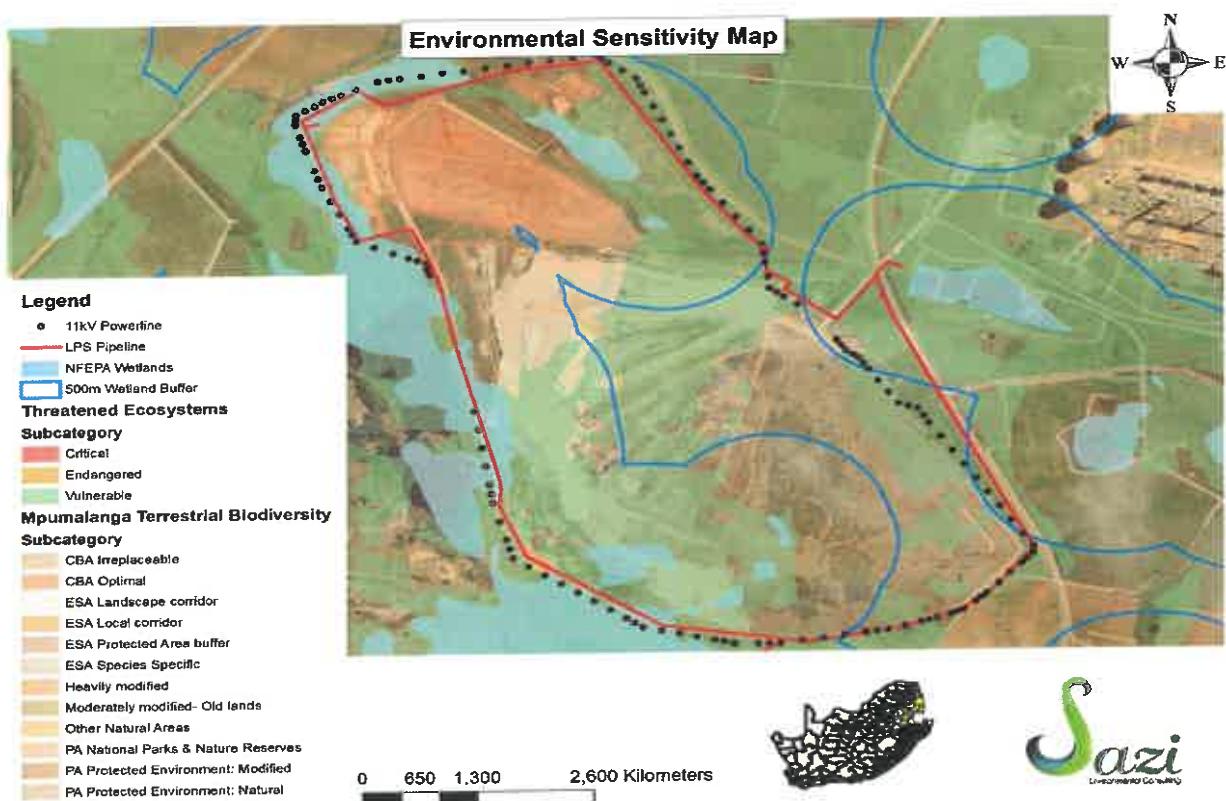

3. Findings

After consideration of the information and factors listed above, the Department made the following findings -

- a) The identification and assessment of impacts are detailed in the BAR dated December 2022 and sufficient assessment of the key identified issues and impacts have been completed.
- b) The procedure followed for impact assessment is adequate for the decision-making process.
- c) The information contained in the BAR dated December 2022 is deemed to be accurate and credible.
- d) The findings of the specialist studies, proposed mitigation measures and the recommendations are deemed accurate.
- e) The proposed mitigation of impacts identified and assessed adequately curtails the identified impacts.
- f) EMPr measures for the pre-construction, construction and rehabilitation phases of the development were proposed and included in the BAR and will be implemented to manage the identified environmental impacts during the construction phase.

In view of the above, the Department is satisfied that, subject to compliance with the conditions contained in the environmental authorisation, the authorised activities will not conflict with the general objectives of integrated environmental management laid down in Chapter 5 of the National Environmental Management Act, 1998 and that any potentially detrimental environmental impacts resulting from the authorised activities can be mitigated to acceptable levels. The environmental authorisation is accordingly **granted**.

Ms. Milicent Solomons
Director: Priority Infrastructure Projects

Dear Ms. Solomons

APPOINTMENT AS CHIEF DIRECTOR: INTERGRATED ENVIRONMENTAL AUTHORISATIONS (ACTING), FROM 01 MARCH UNTIL 31 MARCH 2023

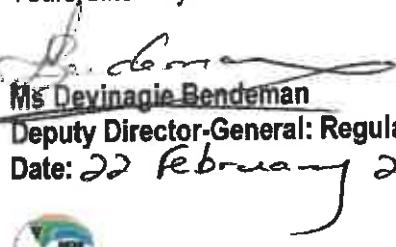

I hereby inform you that I have decided to appoint you as Acting Chief Director: Intergrated Environmental Authorisations from 01 March until 31 March 2023.

All correspondence and other documents that are usually signed by the Chief Director: Intergrated Environmental Authorisations during must be signed under Acting Chief Director: Intergrated Environmental Authorisations during the above-mentioned period.

Your appointment in the above acting position remains subject to the provisions of the Public Service Act, 1994 (Proclamation No. 103 of 1994), as amended, the Government Employees Pension Fund Act, 1996 (Proclamation No. 21 of 1998), the regulations promulgated under these Acts and relevant circulars.

In the execution of your duties and the exercising of the powers delegated to you, you will furthermore be subjected to the provisions of the Public Finance Management Act, compliance with the promotion of Access to Information Act, Promotion of Administrative Justice Act, the Minimum Information Security Standards, Departmental Policies and other applicable legislations with the Republic of South Africa. You are therefore advised to make yourself familiar with the provisions of the legislations and policies and the amendments thereof. (Copies of departmental policies can be obtained from the Human Resource Office).

Yours, Sincerely

Ms Devinagie Bendeman

Deputy Director-General: Regulatory Compliance and Sector Monitoring

Date: 22 February 2023

Batho pele- putting people first

The processing of personal information by the Department of Forestry, Fisheries and the Environment is done lawfully and not excessive to the purpose of processing in compliance with the POPI Act, any codes of conduct issued by the Information Regulator in terms of the POPI Act and / or relevant legislation providing appropriate security safeguards for the processing of personal information of others

ACKNOWLEDGEMENT

I ACCEPT / DO NOT ACCEPT
appointment as Acting Chief Director:
Intergrated Environmental Authorisations
