Yusuf Jassat (B Com) is a University graduate with 7 years of IT experience, 5 of which have been spent at a leading GRC/ERM software development company.

Yusuf has gained most of his experience while employed at a leading GRC/ERM software development house where he was a senior project manager. He oversaw both international and locally registered projects in the organisation and ensured that these were completed within budget and on time. He has managed projects for clients in various sectors of industry including mining, petroleum, banking, freight, telecommunication and government. Being involved in the various industries provided Yusuf with a wide range of risk management experience and its practical application in the various industries.

Yusuf was previously a project manager at one of the 4 major banks in South Africa where he was responsible for the planning, mobilisation, management and execution of large business change projects through the entire Business Change Lifecycle, using the bank's internal risk based project management process.
