APPLICATION FORM FOR INTEGRATED ENVIRONMENTAL AUTHORISATION AND WASTE MANAGEMENT LICENCE

	(For official use only)
File Reference Number:	
NEAS Reference Number:	
Date Received:	

Application for integrated environmental authorisation and waste management licence in terms of the-

- (1) National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2010; and
- (2) National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) and Government Notice 921 of 2013.

PROJECT TITLE

Proposed development of a 60 year ash disposal facilities for Kusile Power Station

PART A: INFORMATION AND APPLICATION PROCESS

1. DEFINITIONS

Definitions in this form are as per the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), the Environmental Impact Assessment ("EIA") Regulations, 2010, the National Environmental Management: Waste Act, 1998 (Act No. 59 of 2008) ("NEMWA") and the Schedule contained in Government Notice 921, published on 29 November 2013 in terms of section 19 of NEMWA.

2. APPLICABILITY OF INTEGRATED ENVIRONMENTAL AUTHORISATION PROCESS

The integrated environmental authorisation process will only apply in instances where the Minister is both the-

- (a) competent authority for the environmental authorisation applied for in terms of NEMA and the EIA Regulations, 2010; and
- (b) the licencing authority for the waste management licence in terms of NEMWA.

Kindly refer to paragraph 3.2 of this part of the application to determine in which instances the Minister would be the competent authority in terms of NEMA and the licencing authority in terms of NEMWA.

3. APPLICATION PROCESS EXPLAINED:

3.1 Integrated environmental authorisation process:

3.1.1 The environmental authorisation process prescribed for listed activities under Listing Notices 1, 2 and 3 published in *Government Gazette* Numbers R544, R545 and R546 respectively and the waste licensing process for listed activities contained in the Schedule in Government Notice 921, 2013 published in terms of section 19 of NEMWA are as defined in the Environmental Impact Assessment (EIA) Regulations made under section 24(5) of the National Environmental Management Act, 2008 (Act No. 107 of 1998) ("NEMA").

3.1.2 This integrated application form is the official form in terms of regulation 12(2)(a) of the EIA Regulations, 2010 and must accompany every integrated environmental authorization application pertaining to-

- listed activities in terms of NEMA; and
- waste activities in terms of NEMWA.

3.2 Competent Authority (Where to submit applications)

3.2.1 The Minister of Water and Environmental Affairs is the-competent authority in respect of the activities listed in Listing Notices 1, 2 and 3, published in *Government Gazette* numbers R544, R545, and R546 respectively, in terms of NEMA if the activity-

(a) has implications for international environmental commitments or relations;

(b) will take place within an area protected by means of an international environmental instrument, other than-

(i) any area falling within the sea-shore or within 150 meters seawards from the high-water mark, whichever is the greater;

(ii) a conservancy;

(iii) a protected natural environment;

(iv) a proclaimed private nature reserve; (v) a natural heritage site; and

(vi) the buffer zone or transitional area of a world heritage site;

(c) has a development footprint that falls within the boundaries of more than one province or traverses international boundaries;

(d) Is undertaken, or is to be undertaken by-

(i) A national department;

(ii) A provincial department responsible for environmental affairs or any other organ of state performing a regulatory function and reporting to the MEC; or

(iii) A statutory body, excluding any municipality, performing an exclusive competence of the national sphere of government; or

(e) Will take place within a national proclaimed protected area or other conservation area under control of a national authority.

3.2.2 The Minister of Water and Environmental Affairs is the licencing authority in respect of all activities listed in both Category A and Category B of the Schedule contained in Government Notice 921, 2013 published in terms of section 19 of NEMWA where –

- (a) Unless otherwise indicated by the Minister by notice in the *Gazette*, the waste management activity involves the establishment, operation, cessation or decommissioning of a facility at which hazardous waste has been or is to be stored, treated or disposed of;
- (b) The waste management activity involves obligations in terms of an international obligation, including the importation or exportation of hazardous waste;
- (c) The waste management activity is to be undertaken by-
 - (i) A national department;
 - (ii) A provincial department responsible for environmental affairs; or
 - (iii) A statutory body, excluding any municipality, performing an exclusive competence of the national sphere of government;
- (d) The waste management activity will affect more than one province or traverse international boundaries; or
- (e) Two or more waste management activities are to be undertaken at the same facility and the Minister is the licencing authority for any of those activities.

3.2.3 However, despite the above-mentioned legislative provisions, the Minister and an MEC may agree that an application for a waste management activity or an environmental authorisation in respect of the above-mentioned activities, where the Minister is the competent/licencing authority, may be dealt with by the relevant MEC within whose province the activity(ies) will take place. Similarly the Minister and the MEC may agree that an application for an environmental authorisation or a waste management activity where the MEC has been identified as the competent/licencing authority, may be dealt with by the Minister. [Section 24C(3) of NEMA and section 43(3) of NEMWA]

3.2.4 The integrated application for environmental authorisation must be addressed to
The Chief Directorate: Integrated Environmental Authorisations at:

Postal address:

Department of Environmental Affairs
Attention: Director: Integrated Environmental Authorisations
Private Bag X447
Pretoria
0001

Physical address:

Department of Environmental Affairs
Environment House
473 Steve Biko Road
Arcadia
Pretoria

Queries must be addressed to the contact below:

Tel: 012 399 9372

E-mail: EIAAdmin@environment.gov.za

Please note that this form must be copied to the relevant provincial environmental department/s.

View the Department's website at <http://www.environment.gov.za> for the latest version of the documents.

3.3 Making an Application

- 3.3.1 This application form is current as of 1 August 2014. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been published or produced by the competent authority. It is the applicant's responsibility to download the current version of the application form from the website of the Department at <http://www.environment.gov.za>.
- 3.3.2 The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
- 3.3.3 The applicant must clearly mark confidential sections of the information submitted in the application form and supporting documents. Unless protected by law, all information filled in on this application will become public information on receipt by the competent authority. Any interested and affected party should be provided with the information contained in this application on request, during any stage of the application process.
- 3.3.4 The applicant must fill in all relevant sections of this form. Incomplete applications will not be processed. The applicant will be notified of the missing information in the acknowledgement letter that will be sent within 14 days of receipt of the application.
- 3.3.5 Incomplete applications may be returned to the applicant for revision.
- 3.3.6 Sections in the form that do not apply to the applicant must be marked "not applicable". However, the use of the phrase "not applicable" in the form must be done with circumspection. Should it be done in respect of material information required by the competent authority for assessing the application, it may result in the rejection of the application as provided for in the Regulations.
- 3.3.7 Where applicable **black out** the boxes that are not applicable in the form.
- 3.3.8 This application form, must be handed in at the offices of the relevant competent authority as determined by the relevant Acts and Regulations and as indicated in this application form. All application forms must be signed as stipulated in the form. Applications that are not signed or completed accordingly will not be considered.
- 3.3.9 No faxed or e-mailed applications will be accepted. An electronic copy of the signed application form must be submitted together with two hardcopies (one of which must contain the original signatures).
- 3.3.10 Proof of payment must accompany this application. The application will not be processed without proof of payment unless one of the exclusions provided for the Fee Regulations (Fees for consideration and processing of applications for environmental authorisations and amendments thereto Government Notice No.141, published on 28 February 2014) is applicable AND such information in section 1 of this application form has been confirmed by this Department.

3.4 Appointment of an EAP

The applicant must appoint an EAP in terms of EIA Regulations, 2010;
The EAP must comply with general requirements as given in EIA regulations, 2010;
and
The EAP may be disqualified in terms of EIA Regulations, 2010.

3.5 Criteria for determining whether basic assessment or scoping is to be applied to applications

3.5.1 NEMA activities

- (a) Basic assessment must be applied to an application if the authorisation applied for is in respect of an activity listed in Listing Notices 1 and/or 3 published in *Government Gazette* Numbers R544 and R546, 2010 respectively and which must follow the process described in sections 21-25 of the EIA Regulations, 2010; and
- (b) Scoping and Environmental Impact Reporting Process (“S&EIR”) must be applied to an application if the authorisation applied for is in respect of an activity listed in Listing Notice 2 published in *Government Gazette* Number R545, 2010 and which must follow the process described in sections 26-35 of the EIA Regulations, 2010.

3.5.2 NEMWA activities

- (a) Basic assessment, in terms of sections 21-25 of the EIA Regulations, 2010, must be applied to an application if the authorisation applied for is in respect of an activity listed in Category A of the Schedule contained in Government Notice 921, published on 29 November 2013, in terms of section 19 of NEMWA; and
- (b) S&EIR, in terms of sections 26-35 of the EIA Regulations, 2010, must be applied to an application if the authorisation applied for is in respect of an activity Category B of the Schedule contained in Government Notice 921, published on 29 November 2013, in terms of section 19 of NEMWA.

3.5.3 Combination of NEMA and NEMWA activities

Should any of the NEMA or NEMWA activities applied for require the application of the S&EIR process, the S&EIR process will be applied to this application for integrated environmental authorisation.

PART B: PROOF OF PAYMENT

Applicants are required to tick the appropriate box below to indicate that either proof of payment is attached or that, in the applicant's view, an exclusion applies. Proof and a motivation for exclusions must be attached to this application form in **Appendix 1**.

Proof of payment attached as **Appendix 1**

Exclusion applies

An applicant is excluded from paying fees if:

The activity is a community based project funded by a government grant; or
The applicant is an organ of state.

TYPE OF EXCLUSION	Tick where applicable. Proper motivation must be attached to the application
The activity is a community based project funded by a government grant	
The applicant is an organ of state	X , this application is an amendment of an existing integrated EIA and WML application that commenced before the fee regulations came into effect

FEE AMOUNT	Fee
Applications for an environmental authorisation for which basic assessment is required in terms of the Environmental Impact Assessment Regulations	R2 000
Application for an environmental authorisation, for which S&EIR is required in terms of the Environmental Impact Assessment Regulations	R10 000

Department of Environmental Affairs' details for the payment of application fees:

<p>Payment Enquiries: Tel: 399 9119 Email: eiafee@environment.gov.za</p> <p>Banking details: ABSA Bank Branch code: 632005 Account number: 1044 2400 72 Current account Reference number : Reference number to be provided in the specific format indicating centre point coordinates of site in decimal degrees to 5 or 6 decimal places: latitude/longitude eg. -33.918861/18.423300</p> <p>Proof of payment must accompany the application form: Indicate reference number below.</p> <p>Tax exemption status: Status: Tax exempted</p> <div style="text-align: right; margin-top: 20px;">  </div>

Reference number:

PART C: GENERAL

1. DESCRIPTION OF PROJECT

The entire project will entail the following (full detail of the project can also be appended):

Kusile Power Station is a coal fired power station which Eskom is presently under construction and that will be operating as part of its power generation fleet. The power station will employ dry ashing for the disposal of its ash. To this end, an ash disposal site was approved as part of the station's Environmental Authorisation. Recent studies have revealed that the current ash disposal facility is not adequate to accommodate all the ash to be generated by the station during its operational life. In order for the station to continue with ashing in an environmentally responsible manner, a new site has to be identified, designed and licensed for the construction of a new ashing facility, which will be able to accommodate the life of station's ashing. To ensure that the facility operates for the remaining operational life of Kusile Power Station, an ash facility with a ground footprint of approximately 1100 ha, including associated infrastructure, will be required.

The ash disposal facility (ADF) will include the following infrastructure:

- The construction of an ash disposal facility through the used of a double stacker system;
- Construction of a conveyor belt system to transport ash from the station to the ADF;
- Pollution Control Dams and contaminated water management infrastructure;
- Temporary storm water holding and management infrastructure;
- Electrical infrastructure to deliver power to the conveyor system and ADF, and realignment of existing 132, 22 and 11 kV power line infrastructure;
- Construction and maintenance roads;
- Contractors site camp; and
- Fencing and access control infrastructure

Detailed descriptions of the project activities are provided in Chapter 8 and 9 in the FEIR.

Purpose of application:

The purpose of this application is to obtain environmental authorisation (licencing) for the development of a new 60 year ash disposal facilities for Kusile Power Station in order for the station to dispose of the ash in a sustainable and environmentally responsible manner.

Does the project form part of any of the Strategic Infrastructure Projects (SIPs) as described in the National Development Plan, 2011?

YES
X

If YES, please indicate which SIPs are applicable in **Appendix 2**.

Please note that you may be requested to provide confirmation of SIP applications from the relevant sector representative.

Please indicate which sector the project falls under by crossing out the relevant block in the table below:

Table 1

Green economy + "Green" and energy-saving industries		Greenfield transformation to urban or industrial form (including mining)
Infrastructure – electricity (generation, transmission & distribution)	X	Biodiversity or sensitive area related activities
Oil and gas		Mining value chain
Biofuels		Potential of metal fabrication capital & transport equipment – arising from large public investments
Nuclear		Boat building
Basic services (local government) – electricity and electrification		Manufacturing – automotive products and components, and medium and heavy commercial vehicles
Basic services (local government) – area lighting		Manufacturing – plastics, pharmaceuticals and chemicals
Infrastructure – transport (ports, rail and road)		Manufacturing – clothing textiles, footwear and leather
Basic services (local government access roads)		Forestry, paper, pulp and furniture
Basic services (local government) – public transport		Business process servicing
Infrastructure – water (bulk and reticulation)		Advanced materials
Basic services (local government) – sanitation		Aerospace
Basic services (local government) – waste management		Basic services (local government) - education
Basic services (local government) water		Basic services (local government) - health
Agricultural value chain + agro-processing (linked to food security and food pricing imperatives)		Basic services (local government) - housing
Infrastructure – information and communication technology		Basic services (local government) security of tenure
Tourism + strengthening linkages between cultural industries and tourism		Other
Basic services (local government) – public open spaces and recreational facilities		

2. FLOW CHART OF OPERATIONS

Please provide a brief description of the activities and operations at the site. Provide a flow chart of the operation showing all inputs and outputs of the process. Give particulars of the source, location, nature, composition and quantity of emission to the atmosphere, surface water, sewer, and ground-water including noise emissions. Solid waste must be in tons and specify units for liquids and gases.

A brief description of the activities and operations at the site is described below:

The ash disposal facility (ADF) will include:

- The construction of an ash disposal facility through the used of a double stacker system;
- Construction of a conveyor belt system to transport ash from the station to the ADF;
- Pollution Control Dams and contaminated water management infrastructure;
- Temporary storm water holding and management infrastructure;
- Electrical infrastructure to deliver power to the conveyor system and ADF, and realignment of existing 132, 22 and 11 kV powerline infrastructure;
- Construction and maintenance roads;
- Contractors site camp;
- Fencing and access control infrastructure;
- Sterilising of some wetlands; and
- Diversion of a stream.

Detailed descriptions of the project activities are provided in Chapter 8 and 9 in the FEIR.

Simplified flowchart of operation

[Handwritten signature]

3. BACKGROUND INFORMATION

Company Trading name (if any):	Eskom Holdings SOC (Pty) Ltd		
Company Registration no (if any):	2002/015527/06		
Responsible person:	Mr. Johan Prinsloo		
Responsible person ID number:			
Responsible position, e.g. Director, CEO, etc.:	Kusile Power Station Manager		
Contact person (if different to responsible person):	Ms Deidre Herbst		
Physical address:	Megawatt Park, Maxwell Drive, Sunninghill, Sandton, Johannesburg, 2157		
Postal address:	PO Box 1091, Johannesburg		
Postal code:	2000	Cell:	083 660 1147
Telephone:	011 800 3501	Fax:	086 663 6092
E-mail:	HerbstDL@eskom.co.za	BBBEE status	

Provincial Authority:	Department of Economic Development, Environment and Tourism (Mpumalanga)		
Contact person:	Mr Sam Maluleka		
Postal address:	PO Box 2777, Ermelo		
Postal code:	2350	Cell:	082 776 1784
Telephone:	013 766 4581	Fax:	013 766 4614
E-mail:	smaluleka@mpg.gov.za		

Local municipality:	Emalahleni Local Municipality		
Contact person:	Mr Jonny Makena		
Postal address:	PO Box 3, eMalahleni		
Postal code:	1035	Cell:	
Telephone:	013 690 6350	Fax:	086 215 2973
E-mail:	makenamj@emalahleni.gov.za		

In instances where there is more than one landowner, please attach a list of those landowners with their contact details as **Appendix 3**. If the applicant is not the owner or person in control of the land, proof of notice to the landowner or person in control of the land on which the activity is to be undertaken must be submitted in **Appendix 3**.

Ownership of the property (mark only one with an X)

Property owned by applicant (100% Share value)	<input type="checkbox"/>	Property leased by applicant	<input type="checkbox"/>
Property owned by applicant (Share value less than 100%)	<input checked="" type="checkbox"/>	The property is communal land	<input type="checkbox"/>

*At present the properties are not all owned by Eskom, but they will be acquired as soon as the EIA is approved. Please refer to the list of properties in Appendix B.

Please note that a complete list of all organs or state and or any other applicable authority with their contact details must be appended to this application as Appendix 4.

Identified Competent Authority to consider the application:
Reason(s) in terms of S 24C of NEMA and S 19 of NEMWA

The Minister of Environmental Affairs has been identified as the Competent Authority (CA).
Eskom Holdings SOC Limited is wholly owned by the government and as such is regarded as a parastatal. Furthermore Eskom Holdings SOC Limited is also a statutory body. Therefore as stipulated in Section 24C (2)(d)(ii) of the National Environmental Management Act, 1998 (Act 107 of 1998) as amended the Minister is identified as the CA if the activity is undertaken by a statutory body.

4. ENVIRONMENTAL ASSESSMENT PRACTITIONER (EAP) INFORMATION

EAP:	Mathys Vosloo		
Professional affiliation/registration:	Professional Member of the South African Council for Natural Scientific Professions (Registration Number: 400136/12)		
Contact person (if different from EAP):	No Applicable		
Company:	Zitholele Consulting (Pty) Ltd		
Physical address:	Building 1, Maxwell Office Park, Magwa Crescent West, cnr Allandale Road and Maxwell Drive, Waterfall City, Midrand		
Postal address:	PO Box 6002, Halfway House		
Postal code:	1685	Cell:	084 748 3018
Telephone:	011 207 2079	Fax:	086 676 9950
E-mail:	mathysv@zitholele.co.za		

If an EAP has not been appointed please ensure that an independent EAP is appointed as stipulated by Regulation 16 of GN R.543, dated June 2010, prior to the commencement of the process.
The declaration of independence and the Curriculum Vitae (indicating the experience with environmental impact assessment and the relevant application processes) of the EAP must also be submitted to the Department.

5.-SITE DESCRIPTION

Provide a detailed description of the site involved in the application.

Province	Mpumalanga Province
District Municipality	Nkangala District Municipality
Local Municipality	Victor Khanye Local Municipality
Ward number(s)	9
Nearest town(s)	Ogies, Phola, Witbank
Farm name(s) and number(s)	Klipfontein 566 JR
Portion number(s)	9, 10, 11, 19, 21, 25, 26, 30, 43, 44, 45, 47, 48, 49, 50, 51, 52, 53, 54, 66

Current land use where the site is situated:

Industrial	<input checked="" type="checkbox"/>	Recreation	<input type="checkbox"/>
Agriculture	<input checked="" type="checkbox"/>	Commercial	<input type="checkbox"/>
Residential	<input type="checkbox"/>	Mining & quarrying	<input checked="" type="checkbox"/>
Forestry	<input type="checkbox"/>	Wilderness areas	<input type="checkbox"/>
Wetlands	<input checked="" type="checkbox"/>	Nature area	<input type="checkbox"/>
Open spaces	<input checked="" type="checkbox"/>		

Other current land use

Current land-use zoning:

Agricultural

In instances where there is more than one current land-use zoning, please attach a list of current land use zonings that also indicate which portions each use pertains to, to this application.

Is a change of land-use or a consent use application required?

YES ✓

Must a building plan be submitted to the local authority?

NO ✓

Locality map: An A3 locality map must be attached to this document, as **Appendix 5**. The scale of the locality map must be relevant to the size of the development (at least 1:50 000. For linear activities of more than 25 kilometers, a smaller scale e.g. 1:250 000 can be used. The scale must be indicated on the map.) The map must indicate the following:

- an accurate indication of the project site position as well as the positions of the alternative sites, if any;
- road access from all major roads in the area;
- road names or numbers of all major roads as well as the roads that provide access to the site(s);
- all roads within a 1km radius of the site or alternative sites; and a north arrow;
- a legend; and
- locality GPS co-ordinates (Indicate the position of the activity using the latitude and longitude of the centre point of the site for each alternative site. The co-ordinates should be in degrees and decimal minutes. The minutes should have at least three decimals to ensure adequate accuracy. The projection that must be used in all cases is the WGS84 spheroid in a national or local projection).

PART C: LISTED ACTIVITIES APPLIED FOR IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 AND THE ENVIRONMENTAL IMPACT REGULATIONS, 2010

1. ACTIVITIES APPLIED FOR TO BE AUTHORISED

For an application for authorisation that involves more than one listed or specified activity that, together, make up one development proposal, all the listed activities pertaining to this application must be indicated.

Indicate the number and date of the relevant notice:	Activity No (s) (ito the relevant or notice) :	Describe each listed activity as per the detailed project description (and not as per wording of the relevant Government Notice):
GN R. 545 of 2010	Activity 6	The construction of facilities or infrastructure for the bulk transportation of dangerous goods – (iii) in solid form, outside an industrial complex, using funiculars or conveyors with a throughput capacity of more than 50 tons per day. <u>The ash has been classified as low hazardous waste (Type 3 waste, but a hazardous waste nonetheless, and will be transported via conveyor to the ash disposal facility. The conveyor is expected to deliver approximately 800 tons of ash per day to the ADF once all units are operational.</u>
GN R. 545 of 2010	Activity 15	Physical alteration of undeveloped, vacant or derelict land for residential, retail, commercial, industrial or institutional use where the total area to be transformed is 20 hectares or more. <u>The direct footprint of the ADF and Ash Water Return Reservoir will be significantly greater than 20 ha.</u>
GN R. 544 of 2010	Activity 9	The construction of facilities or infrastructure exceeding 1000 metres in length for the bulk transportation of water, sewage or storm water – (i) With an internal diameter of 0.36 metres or more; or (ii) With a peak throughput of 120 litres per second or more. <u>Pipes with an internal diameter of 360 mm or infrastructure that allows a peak throughput of 120 litres per second may be used during the construction and operation of the ADF.</u>
GN R. 544 of 2010	Activity 10	The construction of facilities or infrastructure for the transmission and distribution of electricity (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts. <u>Two 88 kV power line running across the site, and a 22 kV and 11 kV line in the north-eastern corner of the site will be relocated and constructed adjacent to the ADF site.</u>
GN R. 544 of 2010	Activity 11	The construction of: (i) Canals; (ii) Channels; (iii) Bridges; (iv) Dams; (v) Weirs; (vi) Bulk storm water outlet structures; (xi) Infrastructure or structures > 50m ² , where such construction occurs within a watercourse or 32 metres of a watercourse, measured from the edge of the watercourse. <u>Canals, channels, bridges, dams and other associated infrastructure will be constructed within 32 m or in a watercourse within the ADF footprint. A bridge containing the conveyance system, roads, and electrical infrastructure will be constructed over tributaries of the Wilge River.</u>
GN R. 544 of 2010	Activity 12	The construction of facilities for the off-stream storage of water, including dams and reservoirs, with a combined capacity of 50 000 cubic metres or more, unless such storage falls within the ambit of Activity 19 of GNR 545. <u>A number of clean and dirty water dams will be constructed to manage pollution and storm water around the ADF. Run-off originating from the catchment and flowing into streams will be stored in the clean water dam. The combined capacity of all these dams will be in the order of 1 100 000 m³.</u>
GN R. 544 of 2010	Activity 13	The construction of facilities or infrastructure for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80 but not exceeding 500 cubic metres. <u>The establishment of the contractor's camp is likely to include the</u>

Indicate the number and date of the relevant notice:	Activity No (s) (ito the relevant or notice) :	Describe each listed activity as per the detailed project description (and not as per wording of the relevant Government Notice):
		<u>erection of fuel tank/s for the storage of fuel and diesel exceeding 80m³ but less than 500 m³.</u>
GN R. 544 of 2010	Activity 18	The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock from: (i) a watercourse. <u>The site preparation and construction phase of the ADF will result in the depositing of material within watercourses and wetlands within the development footprint. The relocation of the Klipfonteinspruit will also excavating and backfilling of materials from the water course.</u>
GN R. 544 of 2010	Activity 22	The construction of a road outside urban areas (i) With a reserve wider than 13,5 metres, (ii) Where no reserve exists where the road is wider than 8 metres. <u>Access and maintenance roads will need to be constructed around the developing ADF and along the conveyor route that can allow two trucks to pass one another comfortably. The road surface is thus very likely to be wider than 8 metres.</u>
GN R. 544 of 2010	Activity 24	The transformation of land bigger than square 1000 metres in size, to residential, retail commercial, industrial or institutional use, where at the time of coming into effect of this Schedule or thereafter such land was zoned as open space, conservation or has an equivalent zoning. <u>It is submitted that the wetlands and watercourses, and natural grasslands on site can be considered an equivalent zoning to open space as the area covered by site A does support natural populations of fauna and flora.</u>
GN R. 544 of 2010	Activity 26	Any process or activity identified in terms of section 53(1) of the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004). <u>Construction of the ADF may necessitate the need to undertake a search and rescue of plant species protected in terms of the NEM:BA.</u>
GN R. 544 of 2010	Activity 28	The expansion of or changes to existing facilities for any process or activity where such expansion or changes to will result in the need for a permit or license in terms of national or provincial legislation governing the release of emissions or pollution, excluding where the facility, process or activity is included in the list of waste management activities published in terms of section 19 of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) in which case that Act will apply. <u>The proposed activities will likely result in an amendment of the existing Waste Management Licence for the Kusile Power Station.</u>
GN R. 544 of 2010	Activity 47	The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre i) With a reserve wider than 13,5 metres; ii) Where no reserve exists where the road is wider than 8 metres, Excluding widening or lengthening inside urban areas. <u>Some of the existing access and farm roads will probably be used for hauling construction material and plant etc. It may become necessary to upgrade these roads through widening in order to maintain these roads in a good condition during construction and operation of the ADF.</u>
GN R. 546 of 2010	Activity 4	The construction of a road wider than 4 metres with a reserve less than 13.5 meters (a) in Mpumalanga (ii) outside urban areas in (ee) Critical Biodiversity Areas as identified systematic biodiversity plans adopted by the competent authority or in bioregional plans. <u>Access and maintenance roads may have to be constructed through critical biodiversity areas as identified in the Gauteng Conservation Plan ver 3.3 and the Mpumalanga Biodiversity Conservation Plan (2007)</u>

Please note that any authorisation that may result from this application will only cover activities specifically applied for.

2. TYPE OF APPLICATION REQUIRED FOR ABOVE-MENTIONED ACTIVITIES

2.1 Application for Basic Assessment

Is this an application for conducting a basic assessment (as defined in the Regulations)?

	NO
	X

Please indicate when the basic assessment report will be submitted:

--

2.2 Application for Scoping and Environmental Impact Reporting (S&EIR) assessment

Is this an application for S&EIR (as defined in the Regulations)?

YES	
X	

Please indicate when the S&EIR Report (including the Plan of Study for EIA) will be submitted:

The Scoping Report was submitted to the department of Environmental Affairs in January 2012 and accepted, and the EIR will be submitted to the DEA by 27 October 2014

The S&EIR report will be submitted after consultation with the competent authority:

YES	
X	

PART D: ACTIVITIES APPLIED FOR IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT: WASTE ACT, 2008 AND THE ENVIRONMENTAL IMPACT REGULATIONS, 2010

SECTION 1: TYPE OF APPLICATION AND FACILITY:

1.1 Indicate the type of facility/operation and fill in the required sections only

TYPE OF ACTIVITY	MARK	SECTIONS OF THE FORM TO BE FILLED IN
Recycling and/or recovery Facility		All except Section 5
Storage and or transfer Facility		All except Section 5
Treatment facility		All except Section 5
Disposal facility	X	All

1.2 Activities applied for:

An application may be made for more than one listed or specified activity that, together, make up one development proposal. All the listed activities that make up this application must be listed.

INDICATE THE NO. & DATE OF THE RELEVANT NOTICE:	ACTIVITY NUMBERS (AS LISTED IN THE WASTE MANAGEMENT ACTIVITY LIST) :	DESCRIBE EACH LISTED ACTIVITY (and not as per the wording of the relevant Government Notice):
GN 921 Category B, 2013	7	The dry ash generated by the combustion of coal in the electricity generation process will be disposed of at the Kusile 60 year Ash Disposal Facility. Owing to the nature and composition of the ash that is generated by the combustion of coal, it is considered to be hazardous waste.
GN 921 Category B, 2013	10	A new ash disposal facility will be constructed to receive ash from the Kusile Power Station via a conveyor system.
GN 921 Category C, 2013	2	Ash return water will be stored in Pollution Control Dams that will have a combined capacity of approximately 700 000m ³ .

NB: Authorisation issued will only cover activities applied for and listed above. Activities added in the middle or after the processing of this authorisation may mean a totally new application.

1.3 TYPE OF APPLICATION REQUIRED FOR ABOVE-MENTIONED ACTIVITIES

1.3.1 Application for Basic Assessment

Is this an application for conducting a basic assessment (as defined in the Regulations)?

	NO
	X

Please indicate when the basic assessment report will be submitted:

[REDACTED]

1.3.2 Application for Scoping and Environmental Impact Reporting (S&EIR) assessment

Is this an application for S&EIR (as defined in the EIA Regulations, 2010) reporting?

YES	
X	

Please indicate when the S&EIR Report (including the Plan of Study for EIA) will be submitted:

The Scoping Report was submitted to the department of Environmental Affairs in January 2012 and accepted, and the EIR will be submitted to the DEA by 27 October 201

The scoping report will be submitted after consultation with the competent authority:

YES	
X	

1.4 Size of Site and Classification

Size of facility for a waste management activity
 Area where the waste management activity takes place
 Classification of facility in terms of climatic water balance
 Classification of Facility in terms of the type and the quantity of waste received

~1100 ha in footprint
~1100 ha in footprint (inside a 10km radius from power station)
B-
The waste is ash which has been classified as a Type 3 (Low hazardous) waste. Quantity of waste received is expected to be 534 million m ³ .

1.5 Operational times

PERIOD	FROM	UNTIL
Weekdays	12:00 AM	12:00 AM
Saturdays	12:00 AM	12:00 AM
Sundays	12:00 AM	12:00 AM
Public holidays	12:00 AM	12:00 AM

SECTION 2: WASTE QUANTITIES

2.1 Indicate or specify types of waste and list the estimated quantities expected to be managed daily (should you need more columns, you are advised to add more)

Hazardous waste	Non hazardous waste	Total waste handled (tonnes)
Ash (Type 3, Low Hazard Waste)	-	19440 t/day

Source of information supplied in the table above Mark with an "X"

Determined from volumes

Determined with weighbridge/scale

Estimated

2.2 Recovery, Reuse, Recycling, treatment and disposal quantities:

Indicate the applicable waste types and quantities expected to be disposed of and salvaged annually:

TYPES OF WASTE	MAIN SOURCE (NAME OF COMPANY)	QUANTITIES		ON-SITE RECOVERY REUSE RECYCLING TREATMENT OR DISPOSAL	OFFSITE RECOVERY REUSE RECYCLING TREATMENT OR DISPOSAL	OFFSITE DISPOSAL
		TONS/MONTH	M ³ /MONTH	method & location	method location and contractor details	
Ash	Kusile Power Station	19944	739125	No recovery, reuse or recycling of waste is anticipated		
Ash contaminated water	Ash disposal facility	-	< 100000	No recovery, reuse or recycling of waste is anticipated		

SECTION 3: GENERAL

3.1 Prevailing wind direction (e.g. NWW)

November – April

N - NW
NW - WNW

May - October

3.2 The size of population to be served by the facility

	Mark with "X"	Comment
0-499		
500-9,999		
10,000-199,999		
200,000 upwards	X	This ash disposal facility forms part of the infrastructure for the Kusile Power Station and the power station cannot become operational without an authorized ash disposal site. Therefore indirectly the ADF will ensure the Kusile Power Station will generate 4800 MW of power that will enter the national electricity grid. The entire country will thus benefit from the electricity generated at Kusile Power Station.

3.3 The geological formations underlying the site:

Granite		Quartzite	
Shale	X	Dolomite	
Sandstone	X	Dolerite	

Other _____

SECTION 4: COMPETENCE TO OPERATE SITE

It is imperative that the holder of the waste management licence is a fit person in terms of section 59 of the NEMWA (59 of 2008). To assess the holder's competence to operate the site, please disclose the following:

4.1 Legal compliance

Has the applicant ever been found guilty or issued with a non compliance notice in terms of any national environmental management legislation?

Has the applicant's licence in terms of the Waste Act 2008 ever been revoked?

Has the applicant ever been issued with a non compliance notice or letter in terms of any South African Law?

YES/NO	DETAILS
NO	
NO	
NO	

NB: Details required above include any information that the applicant wants the Department to take into

consideration in determining whether they are a “fit person” and this includes reasons why the offence happened and measures in place to prevent recurrence

4.2 Technical competence

What technical skills are required to operate the site?

Eskom currently has operators on site operating the same kind of plant however should additional staff be required the following will apply:

- Eskom shall ensure that all key positions are advertised in the newspaper and filled by competent and suitably qualified people.
- Eskom shall ensure that all personnel on site undergo specific waste management training e.g. in the courses highlighted above as well as other waste management courses to ensure continuous professional development (CPD).
- Eskom shall ensure that personnel on site are inducted through the operations manual and through specific training prior to commencement of work on the site.
- Eskom shall ensure that all staff are properly trained and qualified to operate the plant

How will the applicant ensure and maintain technical competency in the operation of the site?

Eskom will follow its standard operating and training procedures as those currently implemented at the power station, to ensure that the staff remains appropriately qualified.

4.3 Details of applicant’s experience and qualification along with that of relevant employees must be summarised as shown in the table below:

NAME	POSITION	DUTIES AND RESPONSIBILITIES	QUALIFICATIONS AND EXPERIENCE
The applicant is Eskom Holding SOC Limited, whose main business is the generation and distribution/transmission of electrical power. Eskom therefore possess the necessary resources that are appropriately skilled and experienced, and which are currently developing new and operating existing power stations and ash disposal facilities in South Africa. Since the facility is not in operation yet, some of the resources that might be required are tabulated below, but will be firmed up when the facility will be operated.			
To be appointed when required	Engineering Manager	Management of all engineering Operations	Civil or Mechanical Engineering Degree with 10 years Power Station Experience
To be appointed when required	Auxiliary Engineering manager	Management of auxiliary operations aspect for Kusile Power station	Civil or Mechanical Engineering Degree with 10 years Power Station experience
To be appointed when required	Senior Engineer	Management of Bulk materials Handling for Kusile Power station	Mechanical Engineering Degree with 7 years Power Station experience
To be appointed when required	Engineer	Resident civil engineer on Kusile PS	Civil Engineering Degree with 5 years Power Station experience
To be appointed when required	Engineer	Resident mechanical engineer on Kusile PS	Mechanical Engineering Degree with 5 years Power Station experience
To be appointed when required	Senior Environmental Advisor	Management of environmental aspects for Kusile Power station	Environmental management related degree with 7 years experience

4.4 Financial Provisions

Provide a plan of estimated expenditure for the following:

	ATTACHED/NOT ATTACHED	SECTION OF THE REPORT WHERE IT IS ATTACHED
Environmental Monitoring	Not Attached	The Eskom SOC Limited Environmental department which comprises the manager and four environmental practitioners will assume responsibility of environmental monitoring for the ADF.
Provision and replacement of infrastructure	Not Attached	Provision and replacement of infrastructure is replaced when necessary and is based on plant performance and life of plant operational strategies. Major replacement is done under the capital budget and evaluated on a yearly basis. There is no fixed capital budget. Every project is motivated on economic, safety and environmental merits.
Restoration and aftercare	Not Attached	A budget will be put aside for rehabilitation as the project continues.

SECTION 5: LANDFILL PARAMETERS

5.1 The method of disposal of waste:

Land-building Land-filling Both

The dimensions of the disposal site in metres

	At commencement	After rehabilitation
Height/Depth	0 m	100 m at highest point
Length	0 m	3350 m long
Breadth	0 m	2825 m wide

5.2 The total volume available for the disposal of waste on the site:

Volume Available	Mark with "X"	Source of information (Determined by surveyor/ Estimated)
Up to 99		
100-34 999		
35 000- 3,5 million		
>3,5 million	X	534 million m ³ estimated

5.3 The total volume already used for waste disposal:

(a) Will the waste body be covered daily

(b) Is sufficient cover material available

(c) Will waste be compacted daily

YES X
YES X

NO X

If the answers (a) and/or (b) are No, what measures will be employed to prevent the problems of burning or smouldering of waste and the generation of nuisance?

Ash from the power station is an inert waste that cannot burn or smoulder. Nuisance dust from the facility can be prevented by installing dust suppression systems to prevent windblown dust. This will be addressed in detail in the operating plan for the facility.

5.4 The Salvage method

At source

Recycling installation

Formal salvaging

Contractor

No salvaging planned

X

5.5 Fatal Flaws for the site:

Indicate which of the following apply to the facility for a waste management activity:

Within a 3000m radius of the end of an airport landing strip

Within the 1 in 50 year flood line of any watercourse

Within an unstable area(fault zone, seismic zone, dolomitic area, sinkholes)

Within the drainage area or within 5 km of water source

Within an area with shallow and/or visible water table

Within an area adjacent to or above an aquifer

Within an area with shallow bedrock and limited available cover material

Within 100 m of the source of surface water

Within 1km from the wetland

Indicate the distance to the boundary of the nearest residential area

Indicate the distance to the boundary of the industrial area

	NO
YES	
YES	
__ 6000 __metres	
__ 6634 __metres	

5.6 Wettest six months of the year

5.7 For the wettest six month period indicated above, indicate the following for the preceding 30 years

	Total rainfall for 6 months	Total A-pan evaporation for 6 months	Climatic water balance
For the 1 st wettest year	322.4	1025.1	B-
For the 2 nd wettest year	275.6	823	B-
For the 3 rd wettest year	261	815.7	B-
For the 4 th wettest year	236	955.8	B-
For the 5 th wettest year	226	833.5	B-
For the 6 th wettest year	225	953.2	B-
For the 7 th wettest year	195	901.5	B-
For the 8 th wettest year	190	967.8	B-
For the 9 th wettest year	183.6	988.7	B-
For the 10 th wettest year	174.4	984.4	B-

5.8 Location and depth of ground water monitoring boreholes:

Codes of boreholes	Borehole locality	Depth (m)	Latitude		Longitude			
			°	'	°	'	"	
....KAM10	...KPS		-25°	59'	33.5"	28°	51'	48.2"
...KAM9-1.		-25°	57'	45.9"	28°	52'	41.3"
...KABH7....		-25°	59'	32.8"	28°	53'	21.4"
...KABH8....		-25°	59'	09.8"	28°	53'	18.7"
...KABH92....		-25°	57'	50.0"	28°	51'	45.5"
... KABH94....		-25°	58'	42.9"	28°	51'	31.3"
...KAMP1.		-25°	57'	15.8"	28°	52'	36.8"
... KAMP 2....		-25°	58'	12.5"	28°	52'	44.6"
...CAMP3.		-25°	58'	40.3"	28°	52'	51.4"
...KAMP4		-25°	56'	52.5"	28°	52'	30.8"
...KAMP5.		-25°	56'	23.0"	28°	52'	25.9"

5.9 Location and depth of landfill gas monitoring test pit: *Not applicable*

Codes of boreholes	Borehole locality	Latitude			Longitude		
		°	'	"	°	'	"
.....	°	'	"	°	'	"
.....	°	'	"	°	'	"

APPENDIX 1: PROOF OF PAYMENT/MOTIVATION FOR EXCLUSION

APPENDIX 2: STRATEGIC INFRASTRUCTURE PROJECTS

<p>SIP 1: Unlocking the northern mineral belt with Waterberg as the catalyst</p> <ul style="list-style-type: none"> • Unlock mineral resources • Rail, water pipelines, energy generation and transmission infrastructure • Thousands of direct jobs across the areas unlocked • Urban development in Waterberg - first major post-apartheid new urban centre will be a “green” development project • Rail capacity to Mpumalanga and Richards Bay • Shift from road to rail in Mpumalanga • Logistics corridor to connect Mpumalanga and Gauteng. 	
<p>SIP 2: Durban-Free State-Gauteng logistics and industrial corridor</p> <ul style="list-style-type: none"> • Strengthen the logistics and transport corridor between SA's main industrial hubs • Improve access to Durban's export and import facilities • Integrate Free State Industrial Strategy activities into the corridor • New port in Durban • Aerotropolis around OR Tambo International Airport. 	
<p>SIP 3: South-Eastern node & corridor development</p> <ul style="list-style-type: none"> • New dam at Mzimvubu with irrigation systems • N2-Wild Coast Highway which improves access into KwaZulu-Natal and national supply chains • Strengthen economic development in Port Elizabeth through a manganese rail capacity from Northern Cape • A manganese sinter (Northern Cape) and smelter (Eastern Cape) • Possible Mthombo refinery (Coega) and transshipment hub at Ngqura and port and rail upgrades to improve industrial capacity and performance of the automotive sector. 	
<p>SIP 4: Unlocking the economic opportunities in North West Province</p> <ul style="list-style-type: none"> • Acceleration of investments in road, rail, bulk water, water treatment and transmission infrastructure • Enabling reliable supply and basic service delivery • Facilitate development of mining, agricultural activities and tourism opportunities • Open up beneficiation opportunities in North West Province. 	
<p>SIP 5: Saldanha-Northern Cape development corridor</p> <ul style="list-style-type: none"> • Integrated rail and port expansion • Back-of-port industrial capacity (including an IDZ) • Strengthening maritime support capacity for oil and gas along African West Coast • Expansion of iron ore mining production and beneficiation. 	
<p>SIP 6: Integrated municipal infrastructure project</p> <p>Develop national capacity to assist the 23 least resourced districts (19 million people) to address all the maintenance backlogs and upgrades required in water, electricity and sanitation bulk infrastructure. The road maintenance programme will enhance service delivery capacity thereby impacting positively on the population.</p>	
<p>SIP 7: Integrated urban space and public transport programme</p> <p>Coordinate planning and implementation of public transport, human settlement, economic and social infrastructure and location decisions into sustainable urban settlements connected by densified transport corridors. This will focus on the 12 largest urban centres of the country, including all the metros in South Africa. Significant work is underway on urban transport integration.</p>	
	

<p>SIP 8: Green energy in support of the South African economy Support sustainable green energy initiatives on a national scale through a diverse range of clean energy options as envisaged in the Integrated Resource Plan (IRP2010) and support bio-fuel production facilities.</p> <p>Indicate capacity in MW:</p>	
<p>SIP 9: Electricity generation to support socioeconomic development Accelerate the construction of new electricity generation capacity in accordance with the IRP2010 to meet the needs of the economy and address historical imbalances. Monitor implementation of major projects such as new power stations: Medupi, Kusile and Ingula.</p> <p>Indicate capacity in MW: <i>This project is for an ash disposal facility without which the Kusile Power Station may not become operational. Kusile Power Station will generate 4800MW of power</i></p>	✓
<p>SIP 10: Electricity transmission and distribution for all Expand the transmission and distribution network to address historical imbalances, provide access to electricity for all and support economic development. Align the 10-year transmission plan, the services backlog, the national broadband roll-out and the freight rail line development to leverage off regulatory approvals, supply chain and project development capacity.</p>	
<p>SIP 11: Agri-logistics and rural infrastructure Improve investment in agricultural and rural infrastructure that supports expansion of production and employment, small-scale farming and rural development, including facilities for storage (silos, fresh-produce facilities, packing houses); transport links to main networks (rural roads, branch train-line, ports), fencing of farms, irrigation schemes to poor areas, improved R&D on rural issues (including expansion of agricultural colleges), processing facilities (abattoirs, dairy infrastructure), aquaculture incubation schemes and rural tourism infrastructure.</p>	
<p>SIP 12: Revitalisation of public hospitals and other health facilities Build and refurbish hospitals, other public health facilities and revamp 122 nursing colleges. Extensive capital expenditure to prepare the public healthcare system to meet the requirements of the National Health Insurance (NHI) system. The SIP contains major builds for 6 hospitals.</p>	
<p>SIP 13: National school build programme A national school build programme driven by uniformity in planning, procurement, contract management and provision of basic services. Replace inappropriate school structures and address basic service backlog and provision of basic services under the Accelerated School Infrastructure Delivery Initiative (ASIDI). In addition, address national backlogs in classrooms, libraries, computer labs and admin buildings. Improving the learning environment will strengthen outcomes especially in rural schools, as well as reduce overcrowding.</p>	
<p>SIP 14: Higher education infrastructure Infrastructure development for higher education, focusing on lecture rooms, student accommodation, libraries and laboratories, as well as ICT connectivity. Development of university towns with a combination of facilities from residence, retail to recreation and transport. Potential to ensure shared infrastructure such as libraries by universities, FETs and other educational institutions. Two new universities will be built - in Northern Cape and Mpumalanga.</p>	
<p>SIP 15: Expanding access to communication technology Provide for broadband coverage to all households by 2020 by establishing core Points of Presence (POPs) in district municipalities, extend new Infracore fibre networks across provinces linking districts, establish POPs and fibre connectivity at local level, and further penetrate the network into deep rural areas. While the private sector will invest in ICT infrastructure for urban and corporate networks, government will co-invest for township and rural access, as well as for e-government, school and health connectivity.</p>	

<p>The school roll-out focus is initially on the 125 Dinaledi (science and maths-focussed) schools and 1525 district schools. Part of digital access to all South Africans includes TV migration nationally from analogue to digital broadcasting.</p>	
<p>SIP 16: SKA & Meerkat SKA is a global mega-science project, building an advanced radio-telescope facility linked to research infrastructure and high-speed ICT capacity and provides an opportunity for Africa and South Africa to contribute towards global advanced science projects.</p>	
<p>SIP 17: Regional integration for African cooperation and development Participate in mutually beneficial infrastructure projects to unlock long-term socio-economic benefits by partnering with fast growing African economies with projected growth ranging between 3% and 10%. The projects involving transport, water and energy also provide competitively-priced, diversified, short and medium to long-term options for the South African economy where, for example, electricity transmission in Mozambique (Cesul) could assist in providing cheap, clean power in the short-term whilst Grand Inga in the DRC is long-term. All these projects complement the Free Trade Area (FTA) discussions to create a market of 600 million people in South, Central and East Africa.</p>	
<p>SIP 18: Water and sanitation infrastructure A 10-year plan to address the estimated backlog of adequate water to supply 1.4m households and 2.1m households to basic sanitation. The project will involve provision of sustainable supply of water to meet social needs and support economic growth. Projects will provide for new infrastructure, rehabilitation and upgrading of existing infrastructure, as well as improve management of water infrastructure.</p>

APPENDIX 8: DECLARATION BY THE APPLICANT

1. The Applicant

I, Deldre Herbst, declare that I -

Eskom Holdings SOC (on behalf of)

am, or represent¹, the applicant in this application;

have appointed / will appoint (delete that which is not applicable) an environmental assessment practitioner to act as the independent environmental assessment practitioner for this application / will obtain exemption from the requirement to obtain an environmental assessment practitioner²;

will provide the environmental assessment practitioner and the competent authority with access to all information at my disposal that is relevant to the application;

will be responsible for the costs incurred in complying with the Environmental Impact Assessment Regulations, 2010, including but not limited to -

- costs incurred in connection with the appointment of the environmental assessment practitioner or any person contracted by the environmental assessment practitioner;
- costs incurred in respect of the undertaking of any process required in terms of the Regulations;
- costs in respect of any fee prescribed by the Minister or MEC in respect of the Regulations;
- costs in respect of specialist reviews, if the competent authority decides to recover costs; and
- the provision of security to ensure compliance with conditions attached to an environmental authorisation, should it be required by the competent authority;

will ensure that the environmental assessment practitioner is competent to comply with the requirements of these Regulations and will take reasonable steps to verify whether the EAP complies with the Regulations;

will inform all registered interested and affected parties of any suspension of the application as well as of any decisions taken by the competent authority in this regard;

am responsible for complying with the conditions of any environmental authorisation issued by the competent authority;

hereby indemnify the Government of the Republic, the competent authority and all its officers, agents and employees, from any liability arising out of the content of any report, any procedure or any action which the applicant or environmental assessment practitioner is responsible for in terms of these Regulations;

will not hold the competent authority responsible for any costs that may be incurred by the applicant in proceeding with an activity prior to obtaining an environmental authorisation or prior to an appeal being decided in terms of these Regulations;

will perform all other obligations as expected from an applicant in terms of the Regulations;

all the particulars furnished by me in this form are true and correct; and

¹ If this is signed on behalf of the applicant, proof of such authority from the applicant must be attached.

² If exemption is obtained from appointing an EAP, the responsibilities of an EAP will automatically apply to the person conducting the environmental impact assessment in terms of the Regulations.

I realise that a false declaration is an offence in terms of regulation 71 and is punishable in terms of section 24F of the Act.

Date:

³ If the applicant is a juristic person, a signature on behalf of the applicant is required as well as proof of such authority.

APPENDIX 9: EAP DECLARATION OF INTEREST

The Environmental Assessment Practitioner

I, Mathys Vosloo, declare that –

General declaration:

I act as the independent environmental practitioner in this application

I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant

I declare that there are no circumstances that may compromise my objectivity in performing such work;

I have expertise in conducting environmental impact assessments, including knowledge of the Act, regulations and any guidelines that have relevance to the proposed activity;

I will comply with the Act, regulations and all other applicable legislation;

I will take into account, to the extent possible, the matters listed in regulation 8 of the regulations when preparing the application and any report relating to the application;

I have no, and will not engage in, conflicting interests in the undertaking of the activity;

I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing - any decision to be taken with respect to the application by the competent authority; and - the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;

I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;

I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;

I will keep a register of all interested and affected parties that participated in a public participation process; and

I will provide the competent authority with access to all information at my disposal regarding the application, whether such information is favourable to the applicant or not

all the particulars furnished by me in this form are true and correct;

will perform all other obligations as expected from an environmental assessment practitioner in terms of the Regulations; and

I realise that a false declaration is an offence in terms of regulation 71 and is punishable in terms of section 24F of the Act.

Disclosure of Vested Interest (delete whichever is not applicable)

I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Environmental Impact Assessment Regulations, 2010;

~~I have a vested interest in the proposed activity proceeding, such vested interest being:~~

I have no vested interest
