BEOOGDE PEKEL- EN GRONDWATER-SUWERINGSWERKE BY TUTUKA KRAGSENTRALE, MPUMALANGA

OMGEWINGSINVLOEDBEPALING PROSES VAN OPENBARE DEELNAME

Datum van advertensie: 29 Januarie 2010

Eskom is van voorneme om 'n bykomende suilveringsaanleg by die bestaande Tutuka kragsentrale, ongeveer 22 km noord-oos van Standerton, Mpumalanga, op te rig. Die suilveringsaanleg sal uit twee dele bestaan; naamlik 'n pekel-konsentreeraanleg en 'n sülveringsaanleg vir grondwater.

Die pekel-konsentreeraanleg sal die pekel afkomstig van 'n bestaande tru-osmose watersuilveringswerke op die terrein verder konsentreer. Die grondwatersuilveringsaanleg sal die besoedelde grondwater sülver wat vanuit strategiese boorgate langs die kragsentrale se asfordingsterrein ontrek word, sowel as vanuit enige ander nabijgeleë besoedelde grondwaterbronne. Die water vanaf die grondwatersuilveringswerke sal in die pekel-konsentreeraanleg verder behandel word.

Die beoogde projek word in terme van die Wet op Nasionale Omgewingsbestuur (NEMA) (Wet Nr 107 van 1998) en die Wet op die Omgewing: Afvalbestuur (NEMWA) (Wet Nr 59 van 2008) as'n gelyste aktiwiteit beskou. Dit verg dus 'n magtiging van die bevoegde omgewingsowerheid, naamlik die Departement van Omgewingsake, by wyse van 'n Omgewingsinvloedbepalingsproses (OIB) (GK Nr R385 van 21 April 2006).

Die beoogde projek het bedrywighede 1(e) van GK Nr. 387 en bedrywighede 1(k), 1(m) en 13 van GK Nr. 386, afgekondig in terme van die NEMA tot gevolg, asook Kategorie B-bedrywighede 4, 5, 7, 9 en 11 van die NEMWA.

Eskom doen ook aansoek vir vrystelling van 'n OIB vir die uitbreiding van die pekel-verdampingsproses wat tans in Tutuka kragsentrale se ses stoomketels plaasvind.

Aurecon (Edms.) Bpk. (Aurecon) is aangestel om die vereiste omgewingsmagtigingsproses te onderneem.

Kennis geskied hiermee van die aanvang van 'n proses van openbare deelname kragtens NEMA se OIB-regulasies, 2006.

Indien u verdere inligting verlang, of enige aanvanklike geskilpunte of kwessies wil lug, word u versoek om voor 1 Maart 2010 in verbinding te tree met:

**PROPOSED BRINE AND GROUNDWATER
TREATMENT WORKS AT TUTUKA POWER STATION,
MPUMALANGA**

**ENVIRONMENTAL IMPACT ASSESSMENT
PUBLIC PARTICIPATION PROCESS**

Date of advert: 29 January 2010

Eskom is proposing to construct additional wastewater treatment facilities at the existing Tutuka Power Station, approximately 22 km north east of Standerton, Mpumalanga. The treatment facilities would consist of two components; namely a reject concentrator plant and a groundwater wastewater treatment works (WWTW).

The reject concentrator plant would concentrate reject produced by an existing reverse osmosis water treatment process on site. The groundwater WWTW would treat polluted groundwater, which would be abstracted from strategic boreholes adjacent to the power station's ash dump, and from other nearby sources of groundwater pollution. Water from the groundwater WWTW would be processed further in the reject concentrator plant.

The proposed project is listed in terms of the National Environment Management Act (NEMA) (No. 107 of 1998) and the National Environmental Management: Waste Act (NEMWA)(No. 59 of 2008). As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via the Environmental Impact Assessment (EIA) process (GN No. R385 of 21 April 2006) is necessary.

This proposed project triggers activity 1(e) of GN No. 387 and activities 1(h), 1 (m) and 13 of GN No. 388 published in terms of NEMA, and Category B activities 4, 5, 7, 9 and 11 of NEMWA.

Eskom is also applying for an exemption from undertaking an EIA for the proposed expansion of a reject evaporation process, which currently takes place within three of Tutuka Power Stations six boilers.

Aurecon (Pty) Ltd (Aurecon) has been appointed to undertake the required environmental authorisation process.

Notice is hereby given of the commencement of a public participation process in terms of the NEMA EIA Regulations 2006.

If you would like further information, to raise any initial issues or concerns or register as an interested and affected party, please contact Aurecon:
