The Landowner Focus Group Meeting is part of the Environmental Impact Assessment (EIA) process being undertaken by Lidwala Environmental for the Integrated Environmental Assessments for the proposed Continuous Ash Disposal for Tutuka Power Station.

The purpose of the focus group meeting is to provide you, as the landowner, with:

- An overview of the Impact Phase process followed;
- Feedback on the environmental findings as documented in the draft Environmental Impact Assessment Report (DEIR);
- Another opportunity to seek clarity and raise any additional comments and/or concerns, not yet raised; and
- An opportunity to liaise with the project team members.

Lidwala Environmental believes that this meeting has value in allowing you to hear other landowners' views and issues in context with your own, thus allowing for a more integrated approach.
