

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
PROPOSED STEELPOORT INTEGRATION PROJECT, LIMPOPO PROVINCE

Eskom Holdings Limited is planning a new Pumped Storage Scheme approximately 40 km north-west of Simplon Substation in the Mpumalanga Province. This Pumped Storage Scheme (to be known as the Steelpoort Pumped Storage Scheme) is scheduled to be in operation by 2014. In order to integrate this Pumped Storage Scheme into the electricity transmission network, Eskom Transmission is proposing the construction of the following:

1. A 400 kV substation at a site in close proximity to the Steelpoort Pumped Storage Scheme
2. 2 x 400 kV loop in and out the Duvha-Leseding 400 kV line into Steelpoort substation, a distance of approximately 40 km
3. Construction of a 400 kV powerline between Steelpoort and Merensky substations, a distance of approximately 50 km
- Associated works to integrate the station into the Transmission grid

Feasible substation and Transmission line Alternatives will be identified for investigation within a broader study area.

In terms of sections 24 and 24D of the National Environmental Management Act (No. 107 of 1998), as read with Government Notices R385 (Regulations 27–36) and R387, a Scoping and Environmental Impact Assessment (EIA) are required to be undertaken for this proposed project. This project has been registered with the National Department of Environmental Affairs and Tourism (DEAT), the Competent Authority for this proposed project, under Application Reference Number 12/12/20/866.

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required EIA, and Afrosearch has been appointed to undertake the required public participation process for the proposed project. To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

Nicolene Venter or **Marti Moolman** of Afrosearch at:

30 April 2007

Dear Stakeholder

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
PROPOSED STEELPOORT INTEGRATION PROJECT, LIMPOPO PROVINCE**

You have been identified as an Interested and Affected Party (IAP) of the PROPOSED STEELPOORT INTEGRATION PROJECT and have therefore been included in our IAP database. Please find a Background Information Document (BID) attached. This BID provides information on the proposed projects, and explains how you can become involved in the public participation process. Any comments or queries would be welcomed and should be directed to the public participation consultant. The relevant contact details are provided in the BID.

We trust that you will find the information provided useful, and we look forward to receiving your comments or queries.

Yours Sincerely

Nicolene Venter or Marti Moolman of Afrosearch at:

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
PROPOSED STEELPOORT INTEGRATION PROJECT, LIMPOPO PROVINCE**

Eskom Holdings Limited is proposing the construction of the following in order to integrate their planned Pumped Storage Scheme (PSS) into the electricity transmission network:

1. A 400 kV substation at a site in close proximity to the PSS (referred to as the Steelpoort Substation)
2. Two 400 kV loop in and out the Duvha-Leseding 400 kV line to the PSS
3. A 400 kV powerline between Steelpoort and Merensky substations
- Associated works to integrate the station into the Transmission grid

DRAFT SCOPING REPORT NOW AVAILABLE FOR REVIEW

As part of the Environmental Impact Assessment (EIA) and public participation process for this proposed project, you are invited to review the draft Environmental Scoping Report. The report will be available for review from **10 August 2007 to 10 September 2007** at the following locations:

- Offices of Elias Motsoaledi Municipality
- Offices of Greater Tubase Municipality
- Offices of Makhuduthamaga Municipality
- SAPS Burgersfort
- SAPS Roossennekal
- Laerskool Roossennekal
- Laerskool Steelpoort
- www.savannahSA.com

Please submit your written comments on this draft report by ***7 September 2007*** to the relevant contact person/s below.

PUBLIC MEETING

All interested and affected parties are invited to attend a public meeting to be held on 18 August 2007 at the Steelpoort Primary School at 10:30 – 12:30.

For further information, please contact:

Nicolene Venter or **Marti Moolman** of Afrosearch at:

International its wings

Upgraded airport development will bring vital investment by the private sector. As a result of activities found around airports inter-entage of revenue generated will be sustained on non-aeronautical means.

For the next two years. He referred to the current development of the passenger terminal scheduled for completion in 2008. Despite 747s having landed at Polokwane International several times in the past, the airport will deal with international flights with greater ease from October onwards. The cost of the development over the next two years is estimated at R123 million.

Completed, the proposed airport development will offer an opportunity for major capital investment by the private sector. As it tends to secure the kind of investment found around airports inter-entage, the biggest percentage of revenue generated will be sustained on non-aeronautical means. In order to align future activities with the proposed plans, GAAL is reviewing exciting proposals. According to Thembe they want as

many role players as possible on board once they have expanded on the bulk infrastructure.

He referred to ongoing deliberations with the Airline Association of Southern Africa, which mainly constitutes of airlines, to promote Polokwane International Airport among its members. Thembe also mentioned that they were approached to receive groups of tourists intending to catch smaller planes en route to exotic destinations in southern Africa.

As Limpopo is rich in minerals, some activity around committed transport of minerals could also be considered, he stressed.

Thembe further remarked that a Canadian company has requested a meeting to discuss the possibility of establishing an aviation maintenance school servicing the entire sub-Saharan Africa.

Plates Zille as new leader

said. DA Limpopo fully supports Zille's points to build a better future for all people through hard work and personal responsibility. Zille will grow the DA with new members in every city and every rural village to build governing coalitions with other parties that share the DA's vision. Halford ex-

ing the party during challenging times of South African politics to its current status as official opposition party in the parliament of South Africa. "The DA is humbled by his decision of not seeking office term for life. We thank Leon for that."

DA Limpopo wishes Zille a long and successful term in office as the leader

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS PROPOSED STEELPOORT INTEGRATION PROJECT, LIMPOPO PROVINCE

Eskom Holdings Limited is planning a new Pumped Storage Scheme approximately 40 km north-west of Simpon Substation in the Limpopo Province. This Pumped Storage Scheme (to be known as the Steelport Pumped Storage Scheme) is scheduled to be in operation by 2014. In order to integrate this Pumped Storage Scheme into the electricity transmission network, Eskom Transmission is proposing the construction of the following:

- A 400 kV substation at a site in close proximity to the Steelport Pumped Storage Scheme
- 2 x 400 kV loop in and out the Duvha-Leseding 400 kV line into Steelport substation, a distance of approximately 40 km
- Construction of a 400 kV powerline between Steelport and Merensky substations, a distance of approximately 50 km
- Associated works to integrate the station into the Transmission grid

Feasible substation and Transmission line alternatives will be identified for investigation within a broader study area.

In terms of sections 24 and 24D of the National Environmental Management Act (No. 107 of 1998), as read with Government Notices R385 (Regulations 27-36) and R387, a Scoping and Environmental Impact Assessment (EIA) are required to be undertaken for this proposed project. This project has been registered with the National Department of Environmental Affairs and Tourism (DEAT), the Competent Authority for this proposed project, under Application Reference Number 12/12/20/866.

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required EIA, and Afrosearch has been appointed to undertake the required public participation process for the proposed project. Eskom Holdings Limited is planning a new Pumped Storage Scheme approximately 40 km north-west of Simpon Substation in the Limpopo Province. This Pumped Storage Scheme (to be known as the Steelpoort Pumped Storage Scheme) is scheduled to be in operation by 2014. In order to integrate this Pumped Storage Scheme into the electricity transmission network, Eskom Transmission is proposing the construction of the following:

- A 400 kV substation at a site in close proximity to the Steelpoort Pumped Storage Scheme
- 2 x 400 kV loop in and out the Duvha-Leseding 400 kV line into Steelpoort substation, a distance of approximately 40 km
- Construction of a 400 kV powerline between Steelpoort and Merensky substations, a distance of approximately 50 km
- Associated works to integrate the station into the Transmission grid

Feasible substation and Transmission line alternatives will be identified for investigation within a broader study area.

In terms of sections 24 and 24D of the National Environmental Management Act (No. 107 of 1998), as read with Government Notices R385 (Regulations 27-36) and R387, a Scoping and Environmental Impact Assessment (EIA) are required to be undertaken for this proposed project. This project has been registered with the National Department of Environmental Affairs and Tourism (DEAT), the Competent Authority for this proposed project, under Application Reference Number 12/12/20/866.

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required EIA, and Afrosearch has been appointed to undertake the required public participation process for the proposed project. To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

OFFICE OF THE MUNICIPAL MANAGER

PUBLIC NOTICE

GREATER GIYANI

**PUBLIC NOTICE CALLING FOR
ROLL AND LODGING**

Notice is hereby given in terms of Section 21 of the Municipal Property Rates Act, 2004 (Act No. 107 of 2004), the "Act", that the valuation roll for the financial year 2007 is open for public inspection at Municipal Offices and 2007.

An invitation is hereby made in terms of Section 21 of the Act to the owner of property or other person who is registered in the municipal manager in respect of any municipal property to lodge an objection to the valuation roll within the above-mentioned period.

Attention is specially drawn to the fact that an objection must be in relation to a specific valuation roll as such.

The form for the lodging of an objection is available at the Municipal Revenue Offices Giyani, Civic Centre (opposite the Police Station).

The forms must be returned to the following address:

For enquiries please telephone Modjela 015 292 1111.

Six minors arrested

KGAUTSWANE- Six minors (14 - 17 years) were arrested for breaking into two schools. Three of them were charged with rape.

Two computers and stationary were stolen from one school. Nothing was taken from the other school as the alarm went off.

The SAPS had been on the lookout for the gang since last month. They were arrested on 2 August and were in possession of the stolen goods.

Two of the minors were also charged with raping a 17 year old woman. A teacher alerted the police regarding the rape.

The suspects appeared at Leboeng Periodical Court on 7 August. Four of them were released into parental custody while the other three were remanded in custody. They will appear before the Leboeng Periodical Court on 4 September.

ATM bombed

MECKLENBURG – A Nedbank ATM at Seleme filling station was the target of thieves who tried to blow it up. The incident happened on Wednesday morning.

The suspects fled the scene without taking any money.

According to the SAPS it is the third time that thieves tried to blow the ATM apart to get at the money inside.
