Item No	Item Description	Response / Comment
1.	<b>JF:</b> Welcome and Introduction	
2.	<b>MXM:</b> Presentation 1	
3.	<b>JF / FB:</b> Presentation 2	
4.	<b>DISCUSSION</b>	
	<b>Community member:</b> Are there going to be any jobs available?	<b>FB:</b> I am not sure. It depends on the number of people that the contractors are going to bring and how many they will require from the local community. I do not have the actual figures. It is still in the future.
	<b>Community member:</b> Would the local businesses be involved when the construction starts? And are they going to need machinery?	<b>FB:</b> It is a requirement that Eskom brings their own contractors along. However, there is a policy that requires the involvement of local businesses. This policy is country wide. It is a policy requirement for skilled and unskilled labour. That would happen when the contractor comes to work and finds out how much labour is required from surrounding areas. They will engage with the communities and the local suppliers of the services required.
		When the time comes prior to construction phase, Eskom would put out the project for tendering.
