Application for authorisation in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), (the Act) and the Environmental Impact Assessment Regulations, 2014 (the Regulations)

PROJECT TITLE

ENVIRONMENTAL IMPACT ASSESSMENT FOR THE BLANCO 400KV TO DROERIVIER TRANSMISSION LINE, AND SUBSTATION UPGRADE

Indicate if the **DRAFT** report accompanies the application

Yes	<input checked="" type="checkbox"/>
No	<input type="checkbox"/>

Kindly note that:

1. This application form is current as of 1 April 2016. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been published or produced by the competent authority.
2. The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
3. Where applicable **black out** the boxes that are not applicable in the form.
4. The use of the phrase "not applicable" in the form must be done with circumspection. Should it be done in respect of material information required by the competent authority for assessing the application, it may result in the rejection of the application as provided for in the Regulations.
5. This application must be handed in at the offices of the relevant competent authority as determined by the Act and Regulations.
6. No faxed or e-mailed applications will be accepted. An electronic copy of the signed application form must be submitted together with two hardcopies (one of which must contain the original signatures).
7. Unless protected by law, all information filled in on this application form will become public information on receipt by the competent authority. Any interested and affected party should and shall be provided with the information contained in this application on request, during any stage of the application process.
8. Should a specialist report or report on a specialised process be submitted at any stage for any part of this application, the terms of reference for such report and declaration of interest of the specialist must also be submitted.

9. Proof of payment must accompany this application. The application will not be processed without proof of payment unless one of the exclusions provided for the Fee Regulations (Fees for consideration and processing of applications for environmental authorisations and amendments thereto Government Notice No.141, published on 28 February 2014) is applicable AND such information in section 1 of this application form has been confirmed by this Department.

2. PROJECT DESCRIPTION

Please provide a **detailed** description of the project.

Eskom Holdings SOC Ltd has submitted an application to the Department of Environmental Affairs (DEA) for the proposed construction of the Blanco-Droërvier 400kV Power line and the infrastructure upgrade of the Droerivier substation in Western Cape Province. The application has been assigned a reference number (**DEA Reference: 14/12/16/3/3/2/922¹**.) The proposed 400kv power line will be about 178km running from the Blanco Substation to the existing Droërvier Substation at Beaufort West in the Western Cape Province. Two alternative routes have been provided by Eskom for assessment in the Environmental Impact Assessment. A Preferred Alternative 1 (red route) and an Alternative 2 route (blue route) have been proposed for the 400 kV transmission line between Narina and Droërvier, The two alternative alignments are proposed within a corridor of 2 km, as indicated in Figure 1 but the actual servitude required will be 55m wide

- **Alternative 1:**
Alternative 1 (Red) is estimated at about 178 km and is a relative straight line connection (shortest route) between Blanco and Droërvier. The line passes about 16.8km east of Oudtshoorn and crosses over the Groot Swartberg Nature Reserve approximately 14km north-west of De Rust (the nature reserve is stretching over the Swartberg for over 200 km). It loosely runs in a corridor west of the N12 towards the Droërvier substation.
- **Alternative 2:**
Alternative 2 (blue corridor) is 270 km long. It will exit the Narina substation and at the intersection of the N9 and N12, the proposed corridor will turn east and follow the N9/R62, running very close to the western side of Uniondale. It will cross the R339 and the R407, and run 14 km to the west of Willowmore and 8 km to the west of Rietbron. This small section of the line falls within the Eastern Cape Province. The section of lands between the R407 and the Droërvier substation appears to be untransformed Karoo veld.

The proposed 400kV transmission power line from the Blanco Substation to the Droerivier Substation forms part of the power corridors that will connect generation pools to one another and to the major load centres in the country. This backbone and regional power corridor network structure will allow the increasing system demand to be supplied and the power from new power stations to be integrated more efficiently into the transmission network and distributed where required, both under system-healthy and system-contingency conditions.

¹ **NB:** This application (DEA ref: 14/12/16/3/3/2/922) has lapsed as the FEIR was not submitted in the prescribed timeframes it is therefore anticipated that a new reference number will be allocated to this project.

Figure 1: Locality map for the proposed Blanco-Droërvier 400kV Power line and Substations upgrade.

*NB: A separate application will be submitted for the construction of the 400kV Transmission power line from the Gourikwa Substation at Mossel Bay to the Blanco (Narina) Substation at George, and that **impact assessment will be presented in a separate report.***

6. ACTIVITIES TO BE AUTHORISED

For an application for authorisation that involves more than one listed activity that, together, make up one development proposal, all the listed activities pertaining to this application must be indicated.

Detailed description of listed activities associated with the project	
Listed activity as described in GN R 983, 984 and 985	Description of project activity that triggers listed activity
GR 983 Listing Notice 1 (12): The development of (xii) infrastructure or structures covering 50 square metres or more Where such construction occurs- (c) if no development setback line, within a watercourse or within 32 metres of a watercourse, measures from the edge of a watercourse,	The proposed power line pylons will impede upon watercourses or pylon structures situated within 32 metres of a watercourse.
GR 983 Listing Notice 1 (19): The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 5 cubic metres from- i.) a watercourse	The power line will require the removal or infilling of material more than 5 cubic metres from a watercourse.
GR 983 Listing Notice 1 (24): The development of- ii) a road with a reserve wider than 13,5 meters, or where no reserve exists where the road is wider than 8	The project entails the development of temporary access roads of approximately 6m wide to allow vehicles to access the areas of construction. These roads will be required in areas where the alignment will

Please note that any authorisation that may result from this application will only cover activities specifically applied for. Co-ordinate points indicating the location of each listed activity must be provided with the relevant report (i.e. either BAR or EIR).

Please provide a project map indicating any sensitive areas (e.g. critical biodiversity area, World Heritage Site, etc.) overlaid by the study area in **Appendix 6**.

A project schedule, indicating the different phases and timelines of the project, must be attached as **Appendix 7**.

7. PUBLIC PARTICIPATION

Provide details of the public participation process proposed for the application as required by Regulation 41(2) of GN R .982, dated December 2014.

Interested and Affected Parties, including surrounding and affected landowners, Provincial, National and Local Governments Departments were involved during the Public Participation Process (PPP). The summary of the PPP that commenced in March 2015, and continued up to date is summarised as follows:

- Written notice was given to owner or person in control of land via registered mail or hand delivery, if the applicant is not the owner or person in control of the land the occupiers of the site where the line is planned and to owners and occupiers of land adjacent to the site where the line is to be erected and to any alternative sites where the line is to be erected. The PPP practitioner visited landowners between March 2015 and May 2015. During the Review period of the DEIA Report, focus group meetings were held at potential risk areas (19-23 September 2016).
- Flyers were distributed to I&APs accompanied by a Background Information document (BID). A registration form with map was distributed. (Knock and drop) from March 2015 to end May 2015
- A Newspaper advertisement was placed in The Herald (Eastern cape) on 8 April 2015, "Die Courier

<p>“ (Western Cape) on 2 April 2015 & Sunday Times (National) on 29 March 2015 requesting Interested and Affected Parties (I&APs) to register, and submit their comments.</p> <ul style="list-style-type: none"> • <u>Site notices</u> were displayed within the boundaries of the study area from 5 March 2015. • A pre-assumed institutional I &APs <u>database</u> was developed. The database was expanded through networking and fieldwork throughout the process. Background Information Document (BID) and registration form were compiled and forwarded to I&APs registered on the database. These documents were also distributed at various venues along the route. • <u>Municipal councillors of the wards</u> in which project alternatives are situated, and the other known organisations that represent the community in the area were informed of the project. This was done by means of invitations to attend the public meetings, where information regarding the project was presented, and opportunity was given for all to raise their concerns. The municipalities with jurisdiction in the project area include the Municipality of Beaufort West, Uniondale, George, and the Eden District Municipality. • <u>Organs of state and other parties</u> that were informed have included Cape Nature, the Eastern Cape DEADP, the Department of Water Affairs and Sanitation, the Western Cape and Eastern Cape Heritage Agencies. The latter departments have received Notifications of Intent to Develop (NIDs). • Members of the Public Participation Team did <u>site visits</u> from March 2015 to end May 2015, and the technical team visited certain areas in August 2016. <u>Focus group meetings</u> were held with the local councillors and various stakeholder groups to discuss the proposed project. These meetings were documented. The PPP and project team will visit the area for focus group meetings again during the public review period for the EIA draft report (September 2016) • Comments/ issues during the registration period, during the Scoping and EIA phases were captured into a <u>Comment and Response Report</u> (CRR). All registered I&APs were afforded an opportunity to scrutinise the draft SR documents for a review period of 30 days plus additional time to incorporate the Public Holidays (April) and December Holidays (2015). Dates and venues of the availability of the report were communicated to registered IAPs by means of e-mail and SMS. I&APs were notified of the comment period and given an update of the process. The link to the website (and/or Dropbox) was given on which the Draft Scoping Report and Appendices were made available for download. Comments and issues received during the above mentioned commenting period were to the Final Scoping Report (FSR). Issues and comments raised during registration period (from notification of the project), during the public review period of the Draft Scoping Report and to date were included in the DEIA report <p>The way forward: Because the current application has lapsed, the following PPP will be conducted</p> <ul style="list-style-type: none"> • Notification letter will be sent to I&APs informing them of the lapsing of the application, • A notification letter will be sent to registered I&APs, landowners, stakeholders and organs of state to inform them of the availability of the Draft Scoping and EIA Reports • DEA decision on Environmental Authorisation: • The registered I&APs, stakeholders and organs of state will be notified of the Department's decision.

Dear Sir/Madam,

MOTIVATION FOR EXCLUSION FROM PAYING FEES FOR BLANCO TO DROERIVIER 400KV TRANSMISSION LINE, AND SUBSTATION UPGRADE, WESTERN CAPE AND EASTERN CAPE PROVINCE

This letter serves as motivation for exclusion of the payment of application fees for the abovementioned Environmental Authorisation process for the proposed project.

For the abovementioned application, Eskom Holdings (SOC) Limited, as the applicant, is an organ of state and is thus excluded from the payment of application fees according to Regulation 2(b) of GN R584 of 28 February 2014.

Should you require additional information, please do not hesitate to contact Eskom.

Yours sincerely,

Ms Martina Phiri
