

Educator questionnaire on Ruby and the Powerpals book

Dear Educator

Many thanks for assisting Eskom to teach young minds about electricity, how to use it wisely, how to appreciate its value. Thank you too for helping us measure the effectiveness of the Eskom storybook – *Ruby and the Powerpals*.

Background of the book

Eskom developed this book to educate children aged between 5 and 7 years about electricity. Eskom aims to educate children on electricity, how to use it in a safe and responsible manner. The compound effect of children appreciating and valuing electricity when they are young, and then continuing the behavior into adulthood is our primary motivation.

Due to a limited budget and high printing costs, a larger format of the book has been designed to assist teachers to reach larger groups of children at one sitting. Teachers are kindly requested to **share** the book with their colleagues once they have exposed their own classes to the book's learning outcomes.

The full colour, **show-and-tell size** printed book is accompanied by **eight songs on a CD** and **four worksheets**.

The book can be downloaded as a PDF or as an animated e-book, with sound, free of charge at www.eskom.co.za/idm click on the "Schoolyard" link.

To ensure this book is an effective teaching tool for you to teach children about electricity, we would like you to answer **FOUR questions** below.

(Please feel free to support your answer with examples)

1. How would you **rate** the book and audio as a **dual sensory learning** experience?
Circle your rating: 1 = Irrelevant 2 = Weak 3 = Suitable 4 = Good 5 = Excellent

Comments _____

2. How **suitable** did you find the stories for the 5-7 years old age group?
Circle your rating: 1 = Irrelevant 2 = Weak 3 = Suitable 4 = Good 5 = Excellent

Comments _____

3. Have your learners shown a **change in behaviour** as a result of the stories?

Comments _____

4. Would you like Eskom to send you more electricity resource materials in future?

Y N

Eskom would like to keep track of the number of teachers and learners exposed to the electricity material, please fill in your details

Name:	Surname:	Telephone number:
Name of school:		Suburb:
Town:	email address:	
Grades you teach:	Number of learners you teach:	
Number of children you exposed to Ruby
