

# NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

PROPOSED CONVERSION OF THE ANKERLIG OPEN CYCLE GAS  
TURBINE POWER STATION TO A COMBINED CYCLE GAS TURBINE  
AND ASSOCIATED 400KV TRANSMISSION LINE BETWEEN  
ANKERLIG POWER STATION AND OMEGA SUBSTATION

## AN ESKOM INITIATIVE

In order to increase the generating capacity of the existing Ankerlig Open Cycle Gas Turbine (OCGT) Power Station (located in Atlantis Industria) by approximately 675 MW through a more efficient process, Eskom Holdings Limited is proposing the conversion of the nine OCGT units at this existing Power Station to a Combined Cycle Gas Turbine (CCGT) Power Station. The proposed conversion involves the establishment of infrastructure associated with CCGT units and will be developed on the site of the existing Ankerlig OCGT power station.

In order to transmit the additional power generated at this power station to the National electricity grid, Eskom Holdings Limited is proposing the construction of a 400kV transmission power line between the Ankerlig Power Station and the Omega Substation (located on the Farm Groot Oliphantskop 81), a distance of approximately 20 km.

In terms of sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notices R385 (Regulations 27–36) and R387, a Scoping and Environmental Impact Assessment are required to be undertaken for this proposed project. This project has been registered with the National Department of Environmental Affairs and Tourism under Application Reference Numbers 12/12/20/1014 (power station conversion) and 12/12/20/1037 (transmission line).

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required environmental impact assessment and public participation for the proposed project. To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

Shawn Johnston of Sustainable Futures ZA  
PO Box 749, Rondebosch, Cape Town, 7701  
Tel: 083 325 9965  
Fax: 086 510 2537  
E-mail: [swjohnston@mweb.co.za](mailto:swjohnston@mweb.co.za)

Please register your interest in the project within 30 days of this notice.

# KENNISGEWING VAN OMGEWINGSIMPAK EVALUERINGSPROSES

VOORGESTELDE OMSKAKELING VAN DIE ANKERLIG OOPSIKLUS  
GASTURBINE KRAGSTASIE NA 'N GEKOMBINEERDE SIKLUS GAS-  
TURBINE TESAME MET 'N GEASSOSIEERDE 400KV TRANSMISSIE-  
LYN TUSSEN ANKERLIG KRAGSTASIE EN OMEGA SUBSTASIE

## 'n ESKOM ONDERNEMING

Eskom Holdings Limited is van voorneme om die nege (9) bestaande Ankerlig Oopsiklus Gasturbine (OCGT) eenhede om te skakel na Gekombineerde Siklus Gasturbines (CCGT) om, deur verbetering in die doeltreffendheid van die proses, die opwekkingskapasiteit van die bestaande Ankerlig OCGT Kragstasie (geleë in Atlantis Industria) met ongeveer 675 MW te verhoog. Die voorgestelde omskakelingsproses behels die oprigting van infrastruktuur geassosieer met CCGT eenhede wat op die terrein van die bestaande Ankerlig OCGT kragstasie ontwikkel sal word.

Ten einde die addisionele elektrisiteit wat deur die betrokke kragstasie opgewek sal word, na die nasionale elektrisiteitsnetwerk te gelei, is Eskom Holdings Limited van voorneme om 'n 400kV transmissiekraglyn tussen Ankerlig Kragstasie en Omega Substasie (geleë op die plaas Groot Oliphantskop), oor 'n afstand van sowat 20km, op te rig.

Ingevolge artikels 24 en 24D van die Nasionale Wet op Omgewingsbestuur (No. 107 van 1998) soos gelees met Staatsaankondigings R385 (Regulasie 27-36) en R387 word 'n Bestekopname en Omgewingsimpak Evalueringproses vereis vir die voorgestelde projek. Hierdie projek is geregistreer by die Nasionale Departement van Omgewingsake en Toerisme met aansoekverwysingsnommers van onderskeidelik 12/12/20/1014 (kragstasie omskakeling) en 12/12/20/1037 (transmissielyn).

Savannah Environmental is aangestel as onafhanklike konsultant om die vereiste omgewingsimpak evaluering en openbare deelname prosesse van die voorgestelde projek te onderneem. Sou u verdere inligting en registrasie by die projekdatabasis verlang, stuur u naam, kontakbesonderhede en belang in die projek aan:

Swartland and Weskus Herald  
21 January 2008

23 November 2007

Dear Stakeholder,

**ANKERLIG POWER STATION CONVERSION AND TRANSMISSION  
INTEGRATION PROJECT**

Eskom Holdings Limited is proposing the conversion of the to existing Ankerlig Power Station (An Open Cycle Gas Turbine – OCGT-Plant) to a Combined Cycle Gas Turbine (CCGT) Plant and construction of an associated 400kV transmission power line from Ankerlig Power Station to Omega Substation. The project includes:

- » Investigating the conversion of nine units at the existing Open Cycle Gas Turbine plant to a Combined Cycle Gas Turbine plant
- » To increase generating capacity to the existing power station by approximately 720 MW
- » a 400 kV transmission power line between Ankerlig Power Station and the already authorised Omega Substation (to be located on the Farm Groot Olifantskop 81) to transmit the additional power generated at this power station into the National electricity grid.

The proposed project is located in Atlantis Industria.

In terms of the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, No 107 of 1998), Eskom requires authorisation from the National Department of Environmental Affairs and Tourism (DEAT) (in consultation with the Western Cape Department of Environmental Affairs and Development Planning) for the undertaking of the proposed project. In order to obtain authorisation for this project, comprehensive, independent environmental studies must be undertaken in accordance with the EIA Regulations. This project has been registered with National DEAT under Application Reference numbers 12/12/20/1014 (power station conversion) and 12/12/20/1037 (transmission line).

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required environmental impact assessment and public participation for the proposed project. Savannah Environmental has appointed

Sustainable Futures ZA to assist in the process of facilitating the public participation process.

You are invited to participate in this process and register as an interested and/or affected party (I&AP). As a stakeholder or organisation in the region, you can get involved in the process by:

- » Registering as an interested and affected party (by completing the attached reply form);
- » Requesting a meeting with the public participation team;
- » Attending the upcoming open house/public meeting scheduled in your region;
- » Commenting on the draft Scoping Report, draft Environmental Impact Assessment (EIA) report and the Environmental Management Plan (EMP) once its has been completed and made available for comment;
- » Informing other stakeholders of the process.

Please find enclosed a copy of the Ankerlig Power Station Conversion and Transmission Integration Briefing Paper and a reply form to register as an interested and affected party. As a registered stakeholder you will be notified of dates and venues of the planned public meetings to be held throughout the process, as well as the availability of reports for review and comment.

For more information on the mentioned process and EIA, please do not hesitate to contact Shawn Johnston (083 325 9965). Registration as an interested and affected party as well as written comments can be sent to:

P.O. Box 749, Rondebosch, 7701  
Tel: 083 325 9965 (Shawn Johnston)  
E-mail: [swjohnston@mweb.co.za](mailto:swjohnston@mweb.co.za)  
Fax: 086 510 2537

Our team welcomes your participation and look forward to your involvement throughout this process.

Yours sincerely,

## ENVIRONMENTAL IMPACT ASSESSMENT PHASE

### PROPOSED ANKERLIG POWER STATION CONVERSION AND TRANSMISSION INTEGRATION PROJECT, WESTERN CAPE PROVINCE AN Eskom Initiative

---

In order to increase the generating capacity of the existing Ankerlig Open Cycle Gas Turbine (OCGT) Power Station (located in Atlantis Industria) by approximately 720 MW through a more efficient process, Eskom Holdings Limited is proposing the conversion of the nine OCGT units at this existing Power Station to a Combined Cycle Gas Turbine (CCGT) Power Station. The proposed conversion involves the establishment of infrastructure associated with CCGT units and will be developed on the site of the existing Ankerlig OCGT power station.

In order to transmit the additional power generated at this power station into the National electricity grid, Eskom Holdings Limited is proposing the construction of a 400kV transmission power line between the Ankerlig Power Station and the Omega Substation (to be constructed on the Farm Groot Oliphantskop 81), a distance of approximately 20 km.

This project was registered with the National Department of Environmental Affairs and Tourism (Application Reference Nos. 12/12/20/1014 (power station conversion) and 12/12/20/1037 (transmission line)).

#### ***DRAFT SCOPING REPORT AVAILABLE FOR REVIEW***

A Draft Scoping Report has been prepared by Savannah Environmental and is now available for public review. You are invited to review the report at one of the following locations:

[www.eskom.co.za/eia](http://www.eskom.co.za/eia)

Wesfleur Library

Red Door Local LED Office

Avondale Library

Melkbosstrand Library

[www.savannahSA.com](http://www.savannahSA.com)

Atlantis Residents and Ratepayers Association office

Atlantis Development Forum Office

Melkbosstrand Residents and Ratepayers Association

The period for review is **21 January 2008 to 21 February 2008**. Please submit written comment by **21 February 2008** to the relevant contact person below.

#### ***PUBLIC MEETING: 13 FEBRUARY 2008***

All interested and affected parties are invited to attend a public meeting to be held on **13 February 2008** at the **Rebecca Van Amsterdam Hall (Protea Park)** at 19h00 – 21h00.

To obtain further information, please submit your name, contact information and interest in the project to:

**Shawn Johnston by Sustainable Futures ZA**

PO Box 749, Rondebosch, Cape Town, 7701

Tel: 083 325 9965

Fax: 086 510 2537

E-mail: [swjohnston@mweb.co.za](mailto:swjohnston@mweb.co.za)

**KENNISGEWING VAN OMGEWINGSIMPAK EVALUERINGSPROSES  
ANKERLIG KRAGSTASIE-OMSKAKELINGSPROJEK,  
WESKAAPPROVINSIE  
'n ESKOM ONDERNEMING**

---

Eskom Holdings Limited is van voorneme om die nege bestaande Ankerlig Opsiklus Gasturbine (OCGT) eenhede om te skakel na Gekombineerde Siklus Gasturbines (CCGT) om, deur verbetering in die doeltreffendheid van die proses, die opwekkingskapasiteit van die bestaande Ankerlig OCGT Kragstasie (geleë in Atlantis Industria) met ongeveer 720MW te verhoog. Die voorgestelde omskakelingsproses behels die oprigting van infrastruktuur geassosieer met CCGT eenhede wat op die terrein van die bestaande Ankerlig OCGT kragstasie ontwikkel sal word.

Ten einde die addisionele elektrisiteit wat deur die betrokke kragstasie opgewek sal word, na die nasionale elektrisiteitsnetwerk te gelei, is Eskom Holdings Limited van voorneme om 'n 400kV transmissiekraglyn tussen Ankerlig Kragstasie en Omega Substasie (geleë op die plaas Groot Oliphantskop), oor 'n afstand van sowat 20km, op te rig.

Hierdie projek is geregistreer by die Nasionale Departement van Omgewingsake en Toerisme met aansoekverwysingsnommers van onderskeidelik 12/12/20/1014 (kragstasie omskakeling) en 12/12/20/1037 (transmissielyn).

***KONSEP OIE-VERSLAG BESKIKBAAR VIR INSAE***

'n Konsep OIE-verslag is deur Savannah Environmental saamgestel en is nou vir openbare insae beskikbaar. U word genooi om die verslag by een van die volgende plekke te besigtig:

[www.eskom.co.za/eia](http://www.eskom.co.za/eia)

[www.savannahSA.com](http://www.savannahSA.com)

07 January 2008

Dear Stakeholder,

**PROPOSED ANKERLIG POWER STATION CONVERSION AND TRANSMISSION INTEGRATION PROJECT:  
ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS**

---

**INVITATION TO REVIEW THE DRAFT SCOPING REPORT  
AND ATTEND A PUBLIC FEEDBACK MEETING: 13 FEBRUARY 2008**

---

Eskom Holdings Limited is proposing the conversion of the to existing Ankerlig Power Station (An Open Cycle Gas Turbine - OCGT-Plant) to a Combined Cycle Gas Turbine (CCGT) Plant and construction of an associated 400kV transmission power line from Ankerlig Power Station to Omega Substation. The project includes:

- » Investigating the conversion of nine units at the existing Open Cycle Gas Turbine plant to a Combined Cycle Gas Turbine plant to increase generating capacity to the existing power station by approximately 720 MW; and,
- » The investigation of a 400 kV transmission power line between Ankerlig Power Station and the already authorised Omega Substation (to be located on the Farm Groot Olifantskop 81) to transmit the additional power generated at this power station into the National electricity grid.

The proposed project is located in Atlantis Industria.

In terms of the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, No 107 of 1998), Eskom requires authorisation from the National Department of Environmental Affairs and Tourism (DEAT) (in consultation with the Western Cape Department of Environmental Affairs and Development Planning) for the undertaking of the proposed project. In order to obtain authorisation for this project, comprehensive, independent environmental studies must be undertaken in accordance with the EIA Regulations. This project has been registered with National DEAT under Application Reference numbers 12/12/20/1014 (power station conversion) and 12/12/20/1037 (transmission line).

In this regard, Savannah Environmental has been appointed as an independent consultant to undertake the required environmental impact assessment and public participation for the proposed project. Savannah Environmental has appointed Sustainable Futures ZA to assist in the process of facilitating the public participation process.

**PUBLIC REVIEW OF THE DRAFT ENVIRONMENTAL SCOPING REPORT**

In accordance with the EIA Regulations, a draft Scoping Report has been prepared and will be made available for review and comment by Interested and Affected Parties (I&APs) and stakeholders. The 30-day period for review is 21 January 2008 to 21 February 2008. The draft Environmental Scoping Report will be available for review at:

**Sustainable Futures ZA P.O. Box 749 Rondebosch 7701 Cape Town South Africa

#### PUBLIC MEETING

In order to facilitate comments on the draft Environmental Scoping Report, a public meeting will be held during the review period. All interested and affected parties are invited to attend a public meeting:

**DATE:** Wednesday, 13 February 2008  
**TIME:** 19h00  
**VENUE:** Rebecca Van Amsterdam Hall (Protea Park - Atlantis)

The aim of the public meeting is to provide you with more information regarding the proposed project, to provide a summary of the findings of the environmental scoping undertaken, and to invite comment on the proposed project.

Our team welcomes your participation and looks forward to your continued involvement.

Yours sincerely,

Shawn Johnston
