ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

PROPOSED NEW 400kV TRANSMISSION LINE BETWEEN MATIMBA SUBSTATION (NEAR ELLISRAS) AND THE WITKOP SUBSTATION (PIETERSBURG), NORTHERN PROVINCE

Notice is given in terms of Regulation 4(6) of the regulations published in Government Notice No R1183 under Section 26 of the Environment Conservation Act (No. 73 of 1989) of Eskom Transmission Group's intent to carry out the following activity:

The establishment of a second 400kV Transmission line between the Matimba Substation (near Ellisras) and the Witkop Substation (Pietersburg), a distance of approximately 250 km. Eskom Transmission seek to secure a 55m wide servitude between these two substations within a broader study area, possibly parallel to the existing Matimba-Witkop No 1 400 kV Transmission line. In addition, both the existing Matimba and Witkop Substations will be extended within the Eskom property boundaries.

Bohlweki Environmental, as independent consultants, are to undertake the necessary Environmental Studies and public participation required for the establishment of the proposed 400kV Transmission line. In order to ensure that you are registered as an interested and affected party, please submit your name, contact information and interest in the matter to:

OMGEWINGSINVLOEDSTUDIEPROSES

VOORGESTELDE NUWE 400kV TRANSMISSIELYN TUSSEN MATIMBA-SUBSTASIE (NABY ELLISRAS) EN DIE WITKOP- SUBSTASIE (NABY PIETERSBURG), NOORDELIKE PROVINSIE

Hiermee word kennis gegee van Eskom Transmissie Groep se voorneme om die volgende bedrywigheid ingevolge Omgewingsinvloedstudie Regulasies R1182 tot R1184, soos in die Staatskoerant van 5 September 1997 gepubliseer, kragtens Artikel 26 van die Omgewingsbewaringswet (Nr. 73 van 1989), uit te voer:

Die oprigting van 'n tweede 400 kV Transmissielyn tussen die Matimba-substasie (naby Ellisras) en die Witkop-substasie (naby Pietersburg), 'n afstand van ongeveer 250 km. Eskom Transmissie beoog om 'n servituut van 55m breed tussen die twee substasies binne 'n groter studiegebied te verkry. Die servituut sal waarskynlik parallel wees aan die bestaande Matimba-Witkop Nr. 1 400 kV Transmissielyn. Verder sal die bestaande Matimba- en Witkop-substasies albei ook uitgebrei word binne die bestaande grense van Eskom se eiendom.

Bohlweki Environmental sal as onafhanklike konsultant die nodige omgewingstudies en openbare deelnameproses vir die oprigting van die voorgestelde 400 kV Transmissielyn onderneem. Om te verseker dat u as geïnteresseerde en belanghebbende party geregistreer word, stuur asseblief u naam, kontakligting en belang by die projek aan:
