To whom it may concern

Dear Mrs / Mr

I have recently completed my National Diploma in Electro Mechanical Engineering at Tshwane University of Technology.

I intend to apply, this year, at UNISA to achieve a Degree in Electro Mechanical Engineering, on part time basis. I am confident that I could manage my time effectively to work and study at the same time.

I evaluate every situation systematically, thoroughly and to the best of my ability to enable me to respond according to the required needs of task at hand. I am a responsible and trustworthy person who will see the job through to the end.

I am also a determined and hard working person who ensures the end-goal is successfully achieved for the organization.

I have a passion to excel in what I do and make a success of my future. My life-goal is to be a competent worker and that my work always achieves the full potential.

I hope you will consider my application favourably to give me the opportunity to add value to your organization.

I highly appreciate your time to consider my application. I am looking forward to hear from you soon.

Please feel free to contact me for any enquires in this regard.

Kind regards

Anton Dreyer
