**Subject:** May i please have a second of your time...

Goodday

May i please have a second of your time, maybe i might interest you in a product that you are in need of or interested in...

I am Daniel Mndebele a Nashua mobile representative. I have sent this email just to inform you of the product that Nashua mobile can offer you as a client...

A lot of people think Nashua mobile just offers cellphones on contract... It may seem like it but in actual fact we offer more than just cellphone contracts. Cellphones are one of the major items that we offer clients, since every person needs a way to communicate we offer them that way.

We offer different contracts for different individuals and we also do offer contracts to companies... The best thing about Nashua is that we offer you more than what you are looking for, we house up to 4 networks namely Vodacom, Mtn, Cellc and we shall soon offer the latest network to hit the market 8-ta powered by Telkom...

The question your asking yourself is why should u leave your Service Provider to join Nashua mobile, with your current SP are you really getting what you paying for? Are you getting the full plate or are they giving you what they think you want? Are you being over charged for upgrades and every service they offer you? Think about how much you or your company would have saved if you were told what to expect from the minute you walked into the door.

Do you know exactly what your paying for? Do you read your terms and conditions everytime you sign a new contract??? Maybe it is about time you read what you are signing for. Most of the time you never get what your paying for since you do not know what you have signed. At Nashua mobile we do allow our customers to read through their contracts, we even allow them to take it home so that they know what they are signing for... We offer fair and just terms and conditions which make our clients comfortable with what they are signing...

The best thing about Nashua Mobile Witbank you do not have to come to the shop to get a contract, i will personally deliver the contract to you and if all goes well after that we, i will also personally hand deliver the phone to you or your company...!

Nashua Mobile also offers:

Data contracts

Data contracts with a laptop

Cellphone accessories

Printing paper

Faxing and Copying services

Landline services with Neotel

Routes

C-trac

We offer every cellphone range available on the legal cellphone market. All the devices we offer are GSM approved by ICASA.

1- Blackberry (its not just a phone--- its a blackberry).

2- Nokia (what can it do for you)

3- Motorola

4- Samsung

5- Htc

6- LG (lifes good)

7- Sony Ericsson

8- Acer

9- Dell

10- MacBooks

11- HP

Nashua Mobile

Saving you time Saving you money. Putting you first

**Subject:** job application  
**Attachments:** my\_C.V.doc

I am here by applying for any environmental consultant position. I am a post graduate and I have completed BSc honours of Geography and Environmental science with the University of Limpopo in 2011 majoring in GIS, Elements of environmental management and sustainable resource development.

I have experience working as an Environmental consultant responsible for conducting EIA, drafting scoping, basic assesement report,environmental management plan & conducting public participation

I believe I'm the right candidate for any position because of the key strength that I possess for success which include but not limited to, the following: Provide exceptional contributions to the management of our environment, Strive for continued excellence, I am a self-starter and Eager to learn new things. I know that the combination of my education and motivation to excel will make me an asset to your department. This position will provide me with the ideal opportunity to assist at your organization and to expand my environmental skills.

Your positive response towards this application will be highly appreciated

Yours respectfully  
M, Makherana
