Dear Mr. Bokwe

## **RE: PROPOSED PLACEMENT OF A PORTION**

Your letter dated 19 August has reference,

After carefully reviewing your letter this Department is of the opinion that the placement of Solar Photo-Voltaics Facility on an old rehabilitated ash disposal facility at Grootvlei Power Station will not trigger any waste management activities that require a waste management license. The opinion is informed by the information provided in your "**Technical scope of work for the portion of the proposed PV facility that will be placed on the platform of the ADF**" which is attached as Appendix A to your letter. However should the scope of the work that will be undertaken during the placement and operation of the Solar Photo-Voltaics Facility change and trigger waste management activities listed under in GN 718, dated 3<sup>rd</sup> July 2009 you will be required to apply for a waste management license.

Your contribution to effective and efficient environmental impact management will always be valued.

Hope you find this in order

Yours sincerely

**Mr. Mark Gordon**  
**Deputy Director-General**  
**Chemicals and Waste Management**  
**Department of Environmental Affairs**  
Letter signed by Mr. Bonginkosi Dlamini
