Dear Sir

### **BERG-OLIFANTS WATER MANAGEMENT AREA: DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED EXPANSION OF THE DIESEL STORAGE FACILITIES AT THE KOEBERG NUCLEAR POWER STATION, FARM DUYNFONTYN NO. 1552, MELKBOSSTRAND, CAPE RD**

Your correspondence dated 10 April 2017 has reference.

The Department has perused the information submitted for the proposed development of the above ground diesel storage tanks at Koeberg Nuclear Power Station and can confirm that the proposed development will not trigger any water uses as contemplated in the National Water Act, 1998 (Act No. 36 of 1998) and will not require any permission from the Department provided the following conditions are adhered to:

1. No abstraction of surface or groundwater may take place without prior authorisation from this Department, unless it is a Schedule 1 Use or an Existing Lawful Use as described in the National Water Act, 1998 (Act No. 36 of 1998).
2. No surface, ground or storm water may be polluted as a result of any activities on the site. In the event that pollution does occur, this Department must be informed immediately.
3. Solid waste must be properly managed and disposed of at an authorised solid waste site facility and must comply with relevant legislation.
4. All applicable sections of the National Water Act, 1998 (Act No. 36 of 1998) must be adhered to at all times.

Should you have any questions please do not hesitate to contact this office.

Your co-operation aimed at the protection of water resources will be greatly appreciated.

Yours faithfully

*A. Schreuder*
