

1 Annexure E2

This annexure serves to document the public participation process undertaken to date (during the scoping phase) for the proposed expansion of the Kriel Ash Disposal Facility.

1.1 Scoping phase public participation process

I&APs were informed of the proposed Kriel Ash Disposal Facility EIA process through:

- Site notice (see Figure 1) at Thubelihle community centre (see Figure 2), Thubelihle tuckshop (see Figure 3), Shop inside Kriel Power Station (see Figure 4), Kriel Library (see Figure 5) and the Spar in Kriel(see Figure 6);
- Advertisements in *Die Beeld* (see Figure 7 and Figure 9) a regional newspaper on 27 October (Afrikaans) and *The Echo* (see Figure 8 and Figure 10) a local newspaper on 28 October (English);
- Emails (all had emails and no letters were required) were sent out to potential I&APs that were registered on a previous project on the same property that was withdrawn and given an opportunity to register as I&AP for this EIA.
- For those with no emails or addresses they were contacted telephonically (see phone records at the end of this annexure, page 10).
- Letters and/or emails were sent to:
 - Authorities with electronic copies of the scoping report (including DEA IEA, Waste management and Biodiversity)
 - Other potential I&APs e.g. NERSA, Emalahleni Municipality and SANRAL
 - The landowner (Eskom)
 - The adjacent landowners
- Open house meetings were held on 9 November 2016 at:
 - Thubelihle Community Hall, Next to clinic, Kriel Drive (see Figure 11, Figure 12 and Figure 13)
 - 14:00 - 17:00 (public open house meeting)
 - Methodist Church Hall, Kriel 65 Springbok Crescent and corner of Flamingo Avenue (see Figure 14, Figure 15, Figure 16 and Figure 17)
 - 18:00 - 20:00 (presentation and public open house meeting)
- A digital version of the scoping report was uploaded onto the Aurecon and Eskom websites for perusal and download (see):
 - Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
 - Eskom:
http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

I&APs were invited to register for the project, notified of the availability of the scoping report (at Kriel Power Station and Kriel Public Library) and invited to attend a public open house meeting at either the Methodist Church Hall in Kriel or Thubelihle Community Hall, Next to clinic on Thubelihle on the 9th of November 2016. I&APs were afforded the opportunity to contact Aurecon via telephone, email, fax or mail. In order to better facilitate I&APs to communication officers were provided, Dirk Pretorius for English and Afrikaans and Simamkele Ntsengwane for Xhosa and Zulu.

1.2 Site notice

<p>BEOOGDE UITBREIDING VAN DIE ASDAM FASILITEIT BY KRIEL KRAGSENTRALE, MPUMALANGA</p>	<p>KENNISGEWING/NOTICE</p> 	<p>PROPOSED EXTENSION OF THE ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA</p> <p>What is the proposed project</p>						
<p>Wat is die voorgestelde projek</p>	<p>Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. **VOORGESTELDE UITBREIDING VAN DIE ASFALITEIT
TE KRIEL KRAGSTASIE, MPUMALANGA
GEÏNTEGREERDE OMGEWINGSIMPAKSTUDIE
PUBLIEKE DEELNAME PROSES**

Kriel-kragssentrale is 'n steenkool-kragssentrale wat deur Eskom besit word. Die kragssentrale produseer as vanaf steenkool wat verbrand word om elektrisiteit te genereer. Die kragssentrale maak gebruik van 'n "nat" proses om die as weg te doen na drie as-damme wat binne die volgende paar jaar hul kapasiteit sal bereik. Eskom is dus van voorneme om 'n bykomende as fasiliteit te bou wat as sal ontvang vir die res van die kragssentrale se operasionele lewe.

Die beoogde uitbreiding van die fasiliteit val binne die bestek van verskeie gelyste bedrywighede in terme van die Wet op Nasionale Omgewingsbestuur (NEMA) (Wet Nr. 107 van 1998) Goewermentskennisgewing (GK) R983, R984 en R985; en die Wet op Nasionale Omgewingsbestuur: Afval Wet (NEMWA) (Nr. 59 van 2008) GK 921 van 29 November 2013. Sodanig word magtiging van die omgewings owerheid, nl. die Departement van Omgewingsake via 'n Geïntegreerde Omgewingsimpakbepaling (OIB) (GK Nr. R982 van Desember 2014) benodig.

Die beoogde projek het bedrywighede 10, 12, 19, 24, 45, 48, 49 en 56 van GK Nr. R983; en bedrywighede 15 en 16 van GK Nr. R984 gepubliseer in terme van NEMA; en Kategorie A bedrywigheid 1 en Kategorie B bedrywighede 1, 7, 8 en 10 van NEMWA tot gevolg.

Aurecon Suid-Afrika (Edms) Bpk is deur Eskom aangestel om die vereiste OIB en Afvalbestuurslisensie proses te onderneem.

Kennis geskied hiermee van die aanvang van 'n proses van openbare deelname in terme van die WNOB se OIB-regulasies 2014 en die **beskikbaarheid van die Bestekopnameverslag** vir kommentaar. 'n Harde kopie van die Bestekopnameverslag kan besigtig word by **Kriel Openbare Biblioteek** en **Kriel Kragstasie**.

'n Digitale kopie van die Bestekopnameverslag is ook beskikbaar op die Aurecon en Eskom Webwerf (en op versoek by persoon hieronder aangedui):
Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
Eskom: http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

Belanghebbende en Geaffekteerde Party (B & GP) word uitgenooi om 'n **opedag vergadering** op 9 November by die onderstaande plek by te woon:

Plek	Tyd
Thubelihle Gemeenskap Saal, langs die kliniek, Kriel Drive	14:00-17:00 (opedag vergadering)
Methodiste Kerk Saal, Kriel 65 Springbok Singel op hoek van Flamingo Laan	18:00-20:00 (aanbieding en opedag vergadering)

U word uitgenooi om deel te neem in hierdie proses deur te registreer as 'n B & GP by Aurecon. Indien u verder inligting verlang, of enige aanvanklike geskilpunte of kwessies wil lug, kontak asseblief Aurecon teen 28 November 2016 by:

**PROPOSED EXPANSION OF THE ASH DISPOSAL FACILITY AT KRIEL
POWER STATION, MPUMALANGA
INTEGRATED ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC PARTICIPATION PROCESS**

Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to three ash dams which will reach their capacity in the next few years. Eskom is thus proposing to construct an additional Ash Disposal Facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environment Management Act (NEMA) (No. 107 of 1998) Government Notice (GN) R983, R984 and R985; and the National Environmental Management: Waste Act (NEMWA) (No. 59 of 2008) GN 921 of 29 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary.

This proposed project triggers activity 10, 12, 19, 45, 48, and 49 of GN No. R983; and activity 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 1 and Category B activities 1, 7, 8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd has been appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence processes.

Notice is hereby given of the commencement of a **public participation process** in terms of the NEMA EIA Regulations 2014 and the **availability of the Scoping Report** for public comment.

A hard copy of the Scoping Report can be viewed at **Kriel Public Library** and **Kriel Power Station**.

A digital version of the Scoping Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below):

MTBR 2016

Groei is te stadig vir werkskepping

Hanlie Stadler

Die Suid-Afrikaanse ekonomie groei nie vinnig genoeg om die groei te sloep wat armoede sal verminder nie.

Die tesourie is in die mediantermynbegrotingsraamwerk (MTBR) "n nuwe benadering en groter beseft van dringendeheid" is nodig om die ekonomie 'n hupstoot te gee.

Die tesourie verwag dat die ekonomie vinniger met net 0,5% sal groei – veel minder as die 0,9% wat in Februarie voorspel is en waarop die jaar se staatsbegroting gebaseer is.

Die vinnige inwerkingsstelling van besluite om vinniger groei te bevorder, sal vertroue, investering en werkskepping verhoogs. Sonder beskutte optrede sal die herstel waarskynlik swak en ondoeltreffend wees.

Met verwysing na die Nasionale Ontwikkelingsplan (NOP) is die tesourie die regering by verbind tot die plan se streming na nuutskape groei en ekonomiese transformasie, maar dit ook duidelik dat die tesourie 'n aanwysing uitreus aan Cosatu en ander strome wat meer agterwaaër swaart ekonomiese begrotinge wil he.

Die tesourie wys ook uit dat die mikpunt van die NOP onrealisties is.

Die tesourie se ekonomiese oomsagtigheid het verander sedert die ambisieuse NOP in 2013 aangekondig is. Een van die NOP se mikpunte is om werk-

Pravin Gordhan

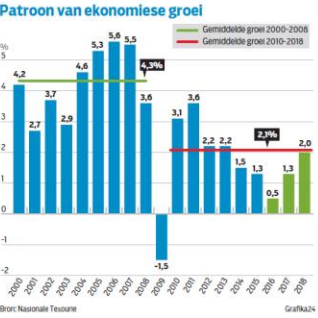

‘n Groter beseft van dringendeheid is nodig om die ekonomie 'n hupstoot te gee.

TESSOURIE

loosheid teen 2020 tot 6% te verminder. Die werkloosheidskoers is op die oomblik 26,9%.

Volgens die MTBR kan aanvaard word dat die ekonomiese siklus sy onderste draaipunt bereik het, maar die tesourie waarsku die regering kan nie te roekloos begin betoek om transformasie te probeer bevorder nie.

As die begrotingstekort nie vernou en skuldvlakke gestabiliseer word nie, “loop op die risiko dat ons die deur oopmaak vir vinnige kapitaalvlugte en verdere ekonomiese ontgating, wat 'n terugslag vir transformasie

le klenout die tesourie hoe belangrik nasioale onderlig is "om 'n groter poel vir nuutskape te houklaarvareidheid te skep soos voorsien in die NOP".

Die tesourie wys ook uit dat Suid-Afrika se bevolking baie vinniger groei as wat in die NOP voorsien is. Die NOP het voorspel dat die bevolking teen 2020 58,2 miljoen en 61,5 miljoen sal wees, maar die nuutskape voorspellings is vir 65 miljoen mense.

"Groter, oerwurdende bevolking kan die laal van die NOP-teikens bemoeilik.

Kleinsake sal gehelp word, paai regering

Die regering het weer beloe om die lewte vir kleinsake-ondernemings makliker te maak. Die omgewing vir kleinsake moet verbeter word en die departement van kleinsakeontwikkeling ditêr wetgewing op om die ondersteuning aan kleinsakeondernemings te verbeter, volgens die mediantermynbegrotingsraamwerk (MTBR). Die regering moedig ook groot ondernemings aan om meer werk te maak skappie te kontrakteer.

Die stappe is deel van die regering se pogings om groter investering in die private sektor te bevorder.

Groter investering deur die private sektor sal produktiewe ondernemings bevorder en die ekonomie laat groei, lui die MTBR.

Die regulasione las vir ondernemings aan verlaag word en dit makliker maak om in Suid-Afrika te besk. InvestSA het 'n "beestop-plek" gewestig om Suid-Afrika se bevolking te trek.

Die tyd wat bestee word aan nakoming en "papierwerk" word verminder.

Luidens die MTBR is die beskikbaarheid van finansiering 'n strukturele probleem wat verhoogs moet word, wat die verkyringsproses sal ge-moderniseer en gedigitaliseer word. Talle prosesse sal geautomatiseer word. Dit sal help om die verkyringsproses te vereenvoudig en te versnel. Koste sal verlaag word deur goedere en dienste volgens grootmarkte kontrakte vir te versnel, wat aan te koop teen voorafonderhandelnde mededingende pryse.

Die regering wil verbinde die verkyringsproses en die finansiele sektor om ontwikkelingsinstellings te werk te betrapings op finansiering vir die verkyringsproses deur byvoorbeeld krag en waterinfrastruktuur op munisipale vlak. Die tesourie veranderinge

Ses risiko's vir die staat se begroting

Hanlie Stadler

Die inwerkingsstelling van die staat se begroting hang aan verskeie baie dun draadjes. In die mediantermynbegrotingsraamwerk (MTBR) identifiseer die tesourie ses risiko's wat die staat se begroting kan bedreig. Hier is ses van die grootste risiko's.

- 1. Staatsampnere se salaris**
Die staat se salaris in die gediensheids sektor, onderwys en polisie groei net baie meer as die staat se algemene besteding. Die besteding driejaar-oorsonde loop in 2018 teen einde en die tesourie beklentoon hoe belangrik dit gaan wees dat verhogings dan binne oorbekke bly.
- 2. Ouerbesteding aan infrastruktuur**
Verl munisipaliteite en staatsondernemings, wat onderskeidelik net 81% en 08% van hul begrotings hiervoor bestee het, word geëp. "Ouerbesteding sal stremming op bestaande infrastruktuur, versnel daartoe om saam met die finansiele sektor om ontwikkelingsinstellings te werk te betrapings op finansiering vir die verkyringsproses deur byvoorbeeld krag en waterinfrastruktuur op munisipale vlak. Die tesourie veranderinge

aanbring aan die toedeling van geld vir infrastruktuur om bepaling te verbeter en instandhouding te prioriteiseer.

- 3. Die swak rand**
Die swak rand op staatsdepartemente wat goedere en dienste oorses moet loop.
- 4. Ouerwagte eise**
Die tesourie wys daarop dat die "reël van vierde op teerevoldende jaar ouerwagte besteding meebereg. Verdere eise (nie net oor onderlig) sal die staat se vermoen om sy besteding in te perk onder knaai deur kluis.
- 5. Staatsondernemings**
Die tesourie staan pa vir die "waarsborging van R80 miljard" en potensieel tot altesame R480 miljard vir Eskom, die Passasierspoortgatskap (Prasa), die Suid-Afrikaanse Nasionale Podagatenskap (Sasib), die Suid-Afrikaanse Lugdiens (SAL), die Poskantoor, die Landbank en die Padogeliefsdiens. Die tesourie sal staatsondernemings wat steun ontvang, moet bevers leryer van geonide sakeplanne en beter korporatiewe beheer en moet "bedryfsdoel-treffendheid" verminder.
- 6. Ekonomiese groei**
Ler ekonomiese groei lei onder meer tot leer-inkomste uit belastinge en te die staat se vermoen om nuwe planne te finansier aan hande. Ouerwagde aan die ekonomie is die verwagting dat die ekonomie op lang termyn na 'n gemiddelde groei van 3% sal terugkeer. Die tesourie se ag groei op lang termyn minder as 2% is, sal die regering nie sy bestaande bestedingstruktuur kan volhou en stabiele skuldvlakke kan bekke die tesourie veranderinge

Magte van staat se verkryger uitgebrei

Janet Heard

Die nasionale tesourie aan die kantoor van die hoofaankepebestuurder se magte uitbrei.

Die staat se hoofaankepebestuurder word as een van die tesourie se belangrikste wysings teen roeklose besteding en korupsie beskied.

Die tesourie het ook die kabinet sal die Konseput op Openbare Verkyring voor

April 2017 oorvee en het geann dat die voorlede van benagtinge moet op gelrike voet (aan almal) beskikbaar wees en "nie (net) beperk wees tot mense met konneksie in die binnekring nie".

"Teerly korupsie nog altyd in die openbare en die private sektor bestaan het, is daar persopies dat staatskorupsie op 'n rent seking (die gebruik van die land se hulbrone vir ekono-

nomiese bevoordeling sonder 'n teenpresasie wat voorlede vir die gemeenskap siep) in ontelinge jare gestry het.

"As dit nie met mening beveg word nie, dreig sulke praktyke om vertroue in instellings te vernietig en nasioale ontwikkeling te belemmer," se Pravin Gordhan, minister van finansies, in sy MTBR-verkyrings van 80 bladsye.

Die verkyringswet sal die raamwerk daarstel vir besteding en sal die hoofaankepebestuurder – Kenneth Brown is – die hoof van die kantoor – benagtig om lewendigheids-toedoen en transaksies in die hele openbare sektor te hersien.

Verkyringsregulasies word hersien om te verseker dat minstens 30% van openbare verkyringsprosedures moet vir aansewre groe soos kleinsakeondernemings en

Munisipaliteite moet beter werk met geld

Llewellyn Prince

Munisipaliteite sal te wille van beter dienslewering hul geld doeltreffender moet begin bestee.

"Verder sal nuwe munisipale nade, in samewerking met die nasioale regering, geïntegreerde ontwikkelingsplanne moet opstel om hul beleggings op die volgende vyf jaar te lei.

Pravin Gordhan, minister van finansies, het gister in sy mediantermynbegrotingsraamwerk-toespraak in die parlement gesê dit is te midde van die krimpende staatsinkomste en swak ekonomiese toestand die pad wat munisipaliteite oor die volgende paar jaar sal moet loop.

"Streng finansiële bestuur wat deursigtige verkyringspraktyke insluit, doeltreffende dienslewering en belastinginwendinge in die volgende belang van krediteure is 'n voorvereite om munisipale prestasie te verbeter.

"Matreëls om munisipaliteite te ondersteun, en waar nodig nasikoming af te dwing, sal versterk word.

Volgens Gordhan sal die nasioale regering ook saam met munisipaliteite werk om veral hul infrastruktuurbeleggings te beplan sodat dit ekonomies groei bevorder en apartheid se ruimtelike beplanningpatrone uitwis.

Hy het gesê dit sal gekoördineerde optrede versie in die lewering van infrastruktuur, behu-

Hulp aan vervaardiging in weegskaal

Hanlie Stadler

Die staat se aanspingsprogram vir die motorvervaardigingsbedryf (ADPP), een van die suksesvolle staatsprogramme, gaan moontlik heroorweeg word.

Die motorbedryf het in onlangse jare gestry het.

Die tesourie is by gaan die motorvervaardigingsprogram teiens teen einde Oktober 2017 afhandel.

Dit is van die min slegte mense vir ondernemings in die MTBR.

In die algemeen is die tesourie klem op maatreëls om investering aan te moedig en dit te verander, makliker te maak

Vakante poste vir staatsampnere nie gevul

Die regering beplan om koste op sy salarisrekening te seer voortaan nie staatsampnere wat afree of bedank te verwag nie.

Verder sal 'n salarisverhoging in die 2017-18-boekjaar vir staatsampnere wat in lyn is met inflasie ook toekaat dat 'n groter deel van salarisuitgawes aan ander prioriteite hertoegeweken kan word.

Pravin Gordhan, minister van finansies, se 50 in sy mediantermynbegrotingsraamwerk (MTBR) wat by gistermiddag gelewer het.

Volgens Gordhan het die regering egter sy uitgawesplan die afgelope vier jaar suksesvol gehandhaaf.

"Bestedingsplan, wat die toename van studietoelae, universiteitstudente toelae, is geakkomodeer deur die geleidelike verskuiwing en die herontkeiming van fondse."

Volgens Gordhan sal die verskuiwing van die samestelling van besteding aan kapiale beleggings die ekonomie bevoordel.

"Om dit te kan doen, vereis egter groter perke op verodingsuitgawes. Beskerpte begrotings het personeelvlakke in die openbare sektor gestabiliseer. Op gebied soos gesondheid, onderwys en die

Voormennende tenderaars word uitgenooi om vir die volgende te tender:

 The Controller of Petroleum Products
 Department of Energy
 Cnr. Haig & Rhodes Avenue, Old Absa Building, Witbank

Postal Address:
 The Controller of Petroleum Products
 Department of Energy
 P.O. Box 17851, Witbank, 1035

PROPOSED EXPANSION OF THE ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA
 INTEGRATED ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC PARTICIPATION PROCESS

Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to three ash dams which will reach their capacity in the next few years. Eskom is thus proposing to construct an additional Ash Disposal Facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environment Management Act (NEMA) (No. 107 of 1998) Government Notice (GN) R983, R984 and R985; and the National Environmental Management Waste Act (NEMWA) (No. 59 of 2008) GN 921 of 29 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary.

This proposed project triggers activity 10, 12, 19, 45, 48, and 49 of GN No. R983; and activity 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 1 and Category B activities 1, 7, 8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd has been appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence processes.

Notice is hereby given of the commencement of a public participation process in terms of the NEMA EIA Regulations 2014 and the availability of the Scoping Report for public comment. A hard copy of the Scoping Report can be viewed at Kriel Public Library and Kriel Power Station. A digital version of the Scoping Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below):
 Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
 Eskom: http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

An Environmental Impact Assessment (EIA) is a process that is undertaken in terms of the requirements of the National Environmental Management Act (Act 107 of 1998) (NEMA), as amended, and its associated regulations (i.e. Government Notice Regulation (GN R.) 982, 983, 984 and 985). The purpose of the EIA process is to evaluate the environmental and socio-economic characteristics of the proposed project and the consequences of the project on the environment and the people living in the area that would be affected by the proposed project activities. Where negative impacts are likely to result from the project, measures can be recommended to avoid or reduce these impacts to a level where the impacts are considered acceptable from an environmental and social perspective. Where positive impacts are likely to result from the project, measures can be recommended to increase these impacts.
