

Annexure E2

This annexure serves to document the public participation process undertaken during the scoping and EIA phase for the proposed expansion of the Kriel Ash Disposal Facility. Public Participation during this EIA has been guided by the 2012 Public Participation Guideline published in terms of NEMA (Act No.107 of 1998). The public participation process has exceeded the minimum requirements for public participation outline in the 2014 NEMA EIA Regulations, GN R982 (as amended).

1 Scoping Phase Public Participation

1.1 Scoping phase public participation process

I&APs were informed of the proposed Kriel Ash Disposal Facility EIA process through:

- Site notice (see Figure 1) at Thubelihle community centre (see Figure 2), Thubelihle tuckshop (see Figure 3), Shop inside Kriel Power Station (see Figure 4), Kriel Library (see Figure 5) and the Spar in Kriel(see Figure 6).
- Advertisements in *Die Beeld* (see Figure 7 and Figure 9) a regional newspaper on 27 October 2016 (Afrikaans) and *The Echo* (see Figure 8 and Figure 10) a local newspaper on 28 October 2016 (English).
- Emails (all had emails and no letters were required) were sent out to potential I&APs that were registered on a previous project on the same property that was withdrawn and given an opportunity to register as I&AP for this EIA.
- For those with no emails or addresses they were contacted telephonically (see phone records at the end of this annexure, page 10).
- Letters and/or emails were sent to:
 - Authorities with electronic copies of the scoping report (including DEA IEA, Waste management and Biodiversity)
 - Other potential I&APs e.g. NERSA, Emalahleni Municipality and SANRAL
 - The landowner (Eskom)
 - The adjacent landowners
- Open house meetings were held on 9 November 2016 at:
 - Thubelihle Community Hall, Next to clinic, Kriel Drive (see Figure 11, Figure 12 and Figure 13)
 - 14:00 - 17:00 (public open house meeting)
 - Methodist Church Hall, Kriel 65 Springbok Crescent and corner of Flamingo Avenue (see Figure 14, Figure 15, Figure 16 and Figure 17)
 - 18:00 - 20:00 (presentation and public open house meeting)
- A digital version of the scoping report was uploaded onto the Aurecon and Eskom websites for perusal and download (see):
 - Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
 - Eskom:
http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

I&APs were invited to register for the project, notified of the availability of the scoping report (at Kriel Power Station and Kriel Public Library) and invited to attend a public open house meeting at either the Methodist Church Hall in Kriel or Thubelihle Community Hall, Next to clinic on Thubelihle on the 9th of November 2016. I&APs were afforded the opportunity to contact Aurecon via telephone, email, fax or mail. In order to better facilitate I&APs to communication officers were provided, Dirk Pretorius for English and Afrikaans and Simamkele Ntsengwane for Xhosa and Zulu.

1.2 Site notice

VOORGESTELDE UITBREIDING VAN DIE ASFASILITEIT TE KRIEL KRAGSTASIE, MPUMALANGA GEÏNTEGREERDE OMGEWINGSIMPAKSTUDIE PUBLIEKE DEELNAME PROSES

Kriel-kragentrale is 'n steenkool-kragentrale wat deur Eskom besit word. Die kragentrale produseer as vanaf steenkool wat verbrand word om elektrisiteit te genereer. Die kragentrale maak gebruik van 'n "nat" proses om die as weg te doen na drie as-damme wat binne die volgende paar jaar hul kapasiteit sal bereik. Eskom is dus van voorneme om 'n bykomende as fasiliteit te bou wat as sal ontvang vir die res van die kragentrale se operasionele lewe.

Die beoogde uitbreiding van die fasiliteit val binne die bestek van verskeie gelyste bedrywighede in terme van die Wet op Nasionale Omgewingsbestuur (NEMA) (Wet Nr. 107 van 1998) Goewermentskennisgewing (GK) R983, R984 en R985; en die Wet op Nasionale Omgewingsbestuur: Afval Wet (NEMWA) (Nr. 59 van 2008) GK 921 van 29 November 2013. Sodanig word magtiging van die omgewings owerheid, nl. die Departement van Omgewingsake via 'n Geïntegreerde Omgewingsimpakbepaling (OIB) (GK Nr. R982 van Desember 2014) benodig.

Die beoogde projek het bedrywighede 10, 12, 19, 24, 45, 48, 49 en 56 van GK Nr. R983; en bedrywighede 15 en 16 van GK Nr. R984 gepubliseer in terme van NEMA; en Kategorie A bedrywigheid 1 en Kategorie B bedrywighede 1, 7, 8 en 10 van NEMWA tot gevolg.

Aurecon Suid-Afrika (Edms) Bpk is deur Eskom aangestel om die vereiste OIB en Afvalbestuurslisensie proses te onderneem.

Kennis geskied hiermee van die aanvang van 'n proses van openbare deelname in terme van die WNOB se OIB-regulasies 2014 en die **besikbaarheid van die Bestekopnameverslag** vir kommentaar.

'n Harde kopie van die Bestekopnameverslag kan besigtig word by **Kriel Openbare Biblioteek** en **Kriel Kragstasie**.

'n Digitale kopie van die Bestekopnameverslag is ook beskikbaar op die Aurecon en Eskom Webwerf (en op versoek by persoon hieronder aangedui):

PROPOSED EXPANSION OF THE ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA

INTEGRATED ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC PARTICIPATION PROCESS

Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to three ash dams which will reach their capacity in the next few years. Eskom is thus proposing to construct an additional Ash Disposal Facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environment Management Act (NEMA) (No. 107 of 1998) Government Notice (GN) R983, R984 and R985; and the National Environmental Management: Waste Act (NEMWA) (No. 59 of 2008) GN 921 of 29 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary.

This proposed project triggers activity 10, 12, 19, 45, 48, and 49 of GN No. R983; and activity 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 1 and Category B activities 1, 7, 8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd has been appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence processes.

Notice is hereby given of the commencement of a **public participation process** in terms of the NEMA EIA Regulations 2014 and the **availability of the Scoping Report** for public comment.

A hard copy of the Scoping Report can be viewed at **Kriel Public Library** and **Kriel Power Station**.

A digital version of the Scoping Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below):

PROPOSED EXPANSION OF THE ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA INTEGRATED ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC PARTICIPATION PROCESS

Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to three ash dams which will reach their capacity in the next few years. Eskom is thus proposing to construct an additional Ash Disposal Facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environmental Management Act (NEMA) (No. 107 of 1998) Government Notice (GN) R983, R984 and R985; and the National Environmental Management: Waste Act (NEMWA) (No. 59 of 2008) GN 921 of 29 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary.

This proposed project triggers activity 10, 12, 19, 45, 48, and 49 of GN No. R983; and activity 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 1 and Category B activities 1, 7, 8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd has been appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence processes.

Notice is hereby given of the commencement of a public participation process in terms of the NEMA EIA Regulations 2014 and the availability of the Scoping Report for public comment. A hard copy of the Scoping Report can be viewed at Kriel Public Library and Kriel Power Station. A digital version of the Scoping Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below):
 Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
 Eskom: http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentallImpactAssessments/Pages/Environment_Impact_Assessments.aspx

Interested and Affected Party (I&APs) are invited to attend a public open house meeting on 9 November at the following venues:

Place	Time
Thubelithe Community Hall, Next to clinic, Kriel Drive	14:00-17:00 (public open house meeting)
Methodist Church Hall, Kriel 65 Springbok Crescent and corner of Flamingo Avenue	18:00-20:00 (presentation and public open house meeting)

You are invited to participate in this process by registering as an I&AP with Aurecon. If you would like to receive further information, to raise any issues or concerns, please contact Aurecon by 28 November 2016 at:

Telephone: (021) 526 6012 (Afrikaans / English) Dirk
 Telephone: (021) 526 9560 (Xhosa / Zulu) Simamkele
 Fax: 086 723 1750

Kriel Power Station, Kriel, Mpumalanga

An Environmental Impact Assessment (EIA) is a process that is undertaken in terms of the requirements of the National Environmental Management Act (Act 107 of 1998) (NEMA), as amended, and its associated regulations (i.e. Government Notice Regulation (GN R.) 982, 983, 984 and 985). The purpose of the EIA process is to evaluate the environmental and socio-economic characteristics of the proposed project and the consequences of the project on the environment and the people living in the area that would be affected by the proposed project activities. Where negative impacts are likely to result from the project, measures can be recommended to avoid or reduce these impacts to a level where the impacts are considered acceptable from an environmental and social perspective. Where positive impacts are likely to result from the project, measures can be recommended to increase these impacts.

Authority/project reference no.: 113084 / 11081

Project status: Open for comment

2 EIA Phase Public Participation

2.1 EIA phase public participation process

The EIA phase PPP ran from 4 July to 2 August 2017. I&APs were informed of the proposed Kriel Ash Disposal Facility EIA process through:

- Advertisements in *Die Beeld* (Figure 20) a regional newspaper on 3 July 2017 (Afrikaans) and *Ridge Times* (Figure 22) a local newspaper on 7 July (English) (advertisements were placed during the EIA phase to solicit additional comment);
- Letters and/or emails were sent out to registered I&APs.
- Letters and/or emails were sent to:
 - Authorities with electronic copies of the EIA report (including DEA IEA, Waste management and Biodiversity)
 - Other potential I&APs e.g. NERSA, Emalahleni Municipality and SANRAL
 - The landowner (Eskom)
 - The adjacent landowners
- Due to a lack of interest to attend public open house meetings during the Scoping Phase. All Interested and Affected Parties (the meeting was advertised and thus not only registered I&APs were informed) were requested to please inform Mr Dirk Pretorius, in writing, by 14 July 2017 they wanted a public open house meeting to be held. By 14 July 2017 no requests were received for a public open house meeting to take place and therefore none was held.
- A digital version of the EIA report was uploaded onto the Aurecon and Eskom websites for perusal and download (see):
 - Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
 - Eskom: http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

I&APs were invited to register for the project, notified of the availability of the EIA report (at Kriel Power Station, Thubelihle Community Centre and Kriel Public Library). I&APs were afforded the opportunity to contact Aurecon via telephone, email, fax or mail. In order to better facilitate I&APs to communication officers were provided, Dirk Pretorius for English and Afrikaans and Simamkele Ntsengwane for Xhosa and Zulu.

**VOORGESTELDE UITBREIDING VAN DIE AS-FASILITEIT TE
KRIEL KRAGSTASIE, MPUMALANGA
GEÏNTEGREERDE OMGEWINGSIMPAKSTUDIE
PUBLIEKE DEELNAME PROSES
DOS:14/12/16/3/3/217**

Beskikbaarheid van die Omgewingsimpakbeoordelingverslag

Kriel-kragentrale is 'n steenkool-kragentrale wat deur Eskom besit word. Die kragentrale produseer as vanaf steenkool wat verbrand word om elektrisiteit te genereer. Die kragentrale maak gebruik van 'n "nat" proses om die as weg te doen na drie as-damme wat binne die volgende paar jaar hul kapasiteit sal bereik. Eskom is dus van voorneme om die as fasiliteit uit te brei om die as te ontvang vir die res van die kragentrale se operasionele lewe.

Die beoogde uitbreiding van die fasiliteit val binne die bestek van verskeie gelyste bedrywighede in terme van die Wet op Nasionale Omgewingsbestuur (NEMA) (Wet Nr. 107 van 1998) Goewermentskennisgewing (GK) R983, R984 en R985; en die Wet op Nasionale Omgewingsbestuur: Afval Wet (NEMWA) (Nr. 59 van 2008) GK 921 van 29 November 2013. Sodanig word magtiging van die omgewingsowerheid, nl. die Departement van Omgewingsake via 'n Geïntegreerde Omgewingsimpakbeoordeling-proses (OIB-proses) (GK Nr. R982 van Desember 2014) benodig.

Die beoogde projek het bedrywighede 10, 12, 19, 24, 46, 48, 49 en 56 van GK Nr. R983; en bedrywighede 15 en 16 van GK Nr. R984 gepubliseer in terme van NEMA; en Kategorie A bedrywigheid 1 en Kategorie B bedrywighede 1, 7, 8 en 10 van NEMWA tot gevolg.

Aurecon Suid-Afrika (Edms) Bpk is deur Eskom aangestel om die vereiste Geïntegreerde OIB-proses (wat 'n Afvalbestuurslisensie-proses insluit) te onderneem.

Kennis geskied hiermee van die verloop van openbare deelname in terme van die WNOB se OIB-regulasies 2014 en die **beskikbaarheid van die Omgewingsimpakbeoordeling verslag vir kommentaar**.

As gevolg van min belang van die publiek om die openbare vergaderings wat gedurende die omvangsbepalingsfase in Kriel en Thubelihle gehou was, word daar nie voorsiening gemaak vir openbare vergaderings tydens die OIE-fase g nie. As u egter voel dat kommunikasie in hierdie verband nodig is, kontak asseblief Dirk Pretorius (besonderhede hieronder) en ons sal graag verdere korrespondensie fasiliteer.

'n Harde kopie van die **Bestekopnameverslag** is beskikbaar by **Kriel Openbare Biblioteek, Kriel Kragstasie en Thubelihle Gemeenskapsentrum** vanaf **4 Julie tot 2 Augustus 2017**.

'n Digitale kopie van die verslag is ook beskikbaar op die Aurecon en Eskom se webwerwe (asook op versoek aan Dirk Pretorius gerig):

Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>

Eskom:

http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

U word uitgenooi om deel te neem in hierdie proses deur te registreer as 'n B&GP by Aurecon. Indien u verder inligting verlang, of enige aanvanklike geskilpunte of kwessies wil lig, kontak asseblief Aurecon teen **2 Augustus 2017** by:

Telefoon: (021) 526 6012 (Afrikaans / English) Dirk Pretorius

VACANCIES & NOTICES

NOTICE OF APPLICATION IN TERMS OF THE GOVAN MBEKI SPATIAL PLANNING AND LAND USE MANAGEMENT BY-LAW, 2016, CHAPTER 5 AND 6

L Hendrik Lochner Susan (PLS079-D), of the firm Reed Geomatics Incorporated hereby give notice in terms of section 89 of the Govan Mbeki SPLUM By-Law, that I have applied to the Govan Mbeki Municipality for the following:

Application for: The closure of a Public Place
Notification number: 2017-06-15/UP-Bylaw-PCP-Sec-7651-22
Property information: Erf 7651 (Park), Secunda Extension 22, Registration Division LS, Mpumalanga situated at the corner of PDP Kruger Avenue and Tubach Street.
Owner information: Six Time Investments (PTY) LTD, held by title deed T12196/2016

I the owner /agent hereby gives notice in terms of section 89 of the Govan Mbeki Spatial Planning and Land Use Management By-Law, of the application for the permanent closure of Erf 7651(Park). Particulars of the application will lie for inspection during normal office hours at the Office of Manager Town and Regional Planning, Room 323 3rd floor, South Wing Municipal Buildings, for the period **30 days from 07 July 2017**.

Objections to or representations in respect of the application must be lodged with or made in writing to the Municipal Manager at the above address within a period of **30 days from 07 July 2017, being 08 August 2017**.

Name and address of applicant:
Reed Geomatics Incorporated
P.O. Box 985, Secunda, 2302
Tel: 017 631 1394 Fax: 017 631 1770
Notice number: 68/17
Publication date: 07 July 2017

VAKANTE POS
 Ons benodig 'n ontvangsdame / tikster met rekenaarvaardighede en 'n minimum tikspoed van 40 woorde per minuut. Kantore geleë te Secunda.
Stuur u CV na faks: 086 684 1482
Epos: deliacoetzee@mweb.co.za

SECTRI AUTO BODY
 Well-known busy Panelbeating company in Secunda is seeking to employ a **QUALIFIED SPRAYPAINTER**. Knowledge of PPG Waterborne paints will be an advantage.

PROPOSED EXPANSION OF THE ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA INTEGRATED ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC PARTICIPATION PROCESS
 DEA:14/12/16/3/3/217

Availability of the Environmental Impact Report
 Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to these ash dams which will reach their capacity in the next few years. Eskom is thus proposing to expand the existing ash disposal facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environmental Management Act (NEMA) (No. 107 of 1998) Government Notice (GNR983, R984 and R985); and the National Environmental Management: Waste Act (NEMWA)(No. 59 of 2008)GN021 of 20 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary.

This proposed project triggers activities 10, 12, 19, 46, 48, and 49 of GN No. R983; and activities 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 14 and Category B activities 1,7,8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd was appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence process.

Notice is hereby given of the continuation of a **public participation process** in terms of the NEMA EIA Regulations 2014 and the **availability of the EIA Report** for public comment.

Public meetings were held during the scoping phase in Kriel and Thubelihle which saw very low attendance and response. Therefore no public meetings are catered for during the EIA phase. However, should you feel that communication in this regard is required, please contact the undersigned to discuss and we will happily facilitate further correspondence on this matter. A hard copy of the EIA Report can be viewed at Kriel Public Library, Kriel Power Station and Thubelihle Community Centre from 4 July to 2 August 2017.

A digital version of the EIA Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below): Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
 Eskom: http://www.eskom.co.za/DurCom/Name/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact_Assessments.aspx

You are invited to participate in this process by registering as an ISAP with Aurecon. If you would like to receive further information, to raise any issues or concerns, please contact Aurecon by **2 August 2017** at:

Telephone: (021) 526 6012/Afrikaans / English) Dirk Pretorius
Telephone: (021) 526 9560 (Xhosa / Zulu) Simamkole Ntsengwane
Fax: 086 723 1750

GERT SIBANDE DISTRICT MUNICIPALITY
 ERRATUM

Please note that the following positions were erroneously advertised last week. Candidates are advised to ignore last week's advertisement.

The Gert Sibande District Municipality (Category B), an equal opportunity employer, invites suitably qualified and experienced candidates to apply for the under mentioned positions. The Gert Sibande District Municipality is an affirmative action employer, and is committed to the implementation of its Employment Equity Plan, people from designated groups are therefore encouraged to apply.

MANAGER: SECURITY
 DEPARTMENT: CORPORATE SERVICES (2 YEAR FIXED TERM CONTRACT)
 TASK GRADE: T03 | SALARY SCALE: AS PER THE APPROVED SALARY SCALE | RES: MPEC0505070

DISASTER MANAGEMENT OFFICER
 DEPARTMENT: COMMUNITY AND SOCIAL SERVICES (2 YEAR FIXED TERM CONTRACT)
 TASK GRADE: T03 | SALARY SCALE: AS PER THE APPROVED SALARY SCALE | RES: MPEC0505070

MANAGER: LAND AND AGRICULTURE
 DEPARTMENT: PLANNING ECONOMIC AND DEVELOPMENT (PERMANENT)
 TASK GRADE: T03 | SALARY SCALE: R20 000 - R30 000 PER ANNUM EXCL. BENEFITS | RES: MPEC0505070

As part of the selection process, candidates may be tested on any requirement, skill or competency, which will include pre-employment screening, security vetting and psychometric assessment. All jobs are subject to security vetting and job evaluation.

Interested persons meeting the requirements are requested to forward a covering letter, stating clearly the position applied for, together with a detailed CV and certificates of qualifications to The Acting General Manager, Corporate Services and HR: M.A. Barnard, Gert Sibande District Municipality, P.O. Box 1746, Ermelo, 2850 on or before 7 July 2017 at 12:00.

Administrative enquiries should be directed to Ms Patricia Mankaba, tel: 017 061 7037

For more details on each post, please refer to our website www.gertsibande.gov.za

Please note that it is the responsibility of the applicant to ensure that the application reaches our District office on or before the closing date mentioned above. Should you not receive a response within 30 days of the closing date of the advertisement, please consider your application unsuccessful.

Public participation

PUBLIC PARTICIPATION |

Kriel Power Station Ash Disposal Facility

The construction of Kriel Power Station (owned by Eskom Holdings SOC Limited (Eskom)) was completed in 1979 and it was considered to be the largest coal-fired power station in the southern hemisphere at the time. The 37 year old power station, with an installed capacity of 3,000MW is situated about 7km east of the small town of Kriel (also known as Ga-nale) in the Mpumalanga Province.

Through the process of electricity generation, coarse and fine ash is produced by burning coal. At full capacity, each of the six boilers can produce up to 740,000 tonnes/year of coarse ash/ boiler bottom ash (approximately 20% of total ash produced) and 960,000 tonnes/year of fly ash/ precipator fly ash (approximately 80% of total ash produced). The Kriel Power Station makes use of a wet ashing process to dispose of its ash. Coarse ash is transferred with a small volume fine ash (fly ash, to limit pipeline wear) from the Power Station to sumps from where it is pumped as a slurry mixture to the ash dams. The fine ash is transported separately to the existing ash dam complex via two conveyors that are located southeast of Kriel Power Station. All the water collected from the Kriel ash dams are stored in the ash water return (AWR) dam. From the AWR dams, the water gravitates to a manifold and is then pumped back to a High Level/AWR dam. From there, the water gravitates to the borrow pits and to Swartpan. The power station then pumps water from Swartpan for re-use by the Power Station for ashing purposes.

The three existing ash dams will reach a limiting Rate of Rise (RoR) by end of July 2021. Eskom is thus proposing to construct and commission an additional Ash Disposal Facility before the existing ash dams reach their limiting RoR in 2021. The new dams would fulfil the ash disposal requirements for the Power Station's extended operational life, with decommissioning of the six generating units planned to commence in 2036. A five year contingency has been allowed for, thus it is assumed that the Power Plant will be operated for an additional five years at full load from 2036 to 2040, with final decommissioning date proposed for 2045.

An Environmental Impact Assessment (EIA) process is being undertaken by Aurecon South Africa (Pty) Ltd (Aurecon) on behalf of Eskom, in terms of the 2014 EIA Regulations (GN R982, as amended), pursuant to the National Environmental Management Act (Act 107 of 1998). The EIA Application includes an impact assessment of two sections of a new proposed facility referred to as Ash Dam 4.1 and 4.2. More information is available in the non-technical summary of the EIA Report below.

Current Project Phase

The draft EIA Report is now available for a 30 day public comment period from 4 July until 2 August 2017. Should you wish to provide a comment or query on the project, please do not hesitate to contact Mr Dirk Pretorius of Aurecon.

PROPOSED EXPANSION OF THE ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA INTEGRATED ENVIRONMENTAL IMPACT ASSESSMENT PUBLIC PARTICIPATION PROCESS

DEA:14/12/16/3/3/217

Availability of the Environmental Impact Report

Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to three ash dams which will reach their capacity in the next few years. Eskom is thus proposing to expand the existing ash disposal facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environment Management Act (NEMA) (No. 107 of 1998) Government Notice (GN)R983, R984 and R985; and the National Environmental Management: Waste Act (NEMWA)(No. 59 of 2008)GN921 of 29 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary.

This proposed project triggers activities 10, 12, 19, 46, 48, and 49 of GN No. R983; and activities 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 14 and Category B activities 1,7,8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd was appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence processes.

Notice is hereby given of the continuation of a **public participation process** in terms of the NEMA EIA Regulations 2014 and the **availability of the EIA Report** for public comment.

Public meetings were held during the scoping phase in Kriel and Thubelihle which saw very low attendance and response. Therefore no public meetings are catered for during the EIA phase. However, should you feel that communication in this regards is required, please contact the undersigned to discuss and we will happily facilitate further correspondence on this matter. A hard copy of the EIA Report can be viewed at **Kriel Public Library, Kriel Power Station and Thubelihle Community Centre from 4 July to 2 August 2017.**

A digital version of the EIA Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below): Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
Eskom: http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentallImpactAssessments/Pages/Environment_Impact_Assessments.aspx

You are invited to participate in this process by registering as an I&AP with Aurecon. If you would like to receive further information, to raise any issues or concerns, please contact Aurecon by **2 August 2017** at:

Telephone: (021) 526 6012 (Afrikaans / English) Dirk Pretorius

MPHRA

Case Type: Section 38 (8) - Statutory Comment Required

Development Type: Infrastructure

ProposalDescription:
PROPOSED EXPANSION OF ASH DISPOSAL FACILITY, KRIEL POWER STATION, MPUMALANGA

Expanded_Motivation:
The three existing ash dams will reach a limiting Rate of Rise (RoR) by end July 2021. Eskom is thus proposing to expand its existing ash disposal facility by constructing and commission an additional Ash Disposal Facility before the existing ash dams reach their limiting RoR in 2021. The expanded new dams would fulfill the ash disposal requirements for the Power Station's extended operational life, with decommissioning of the six generating units planned to commence in 2039. Kriel, Mpumalanga

Interim Comment

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Ms Deidre Herbst

Eskom Holdings SOC Ltd

P O Box 1091

JOHANNESBURG

2000

PROPOSED EXPANSION OF ASH DISPOSAL FACILITY, KRIEL POWER STATION, MPUMALANGA

PGS Heritage (Pty) Ltd and Palaeo Field Services (Pty) Ltd were appointed by Aurecon South Africa (Pty) Ltd on behalf of Kriel Power Station to conduct a Heritage Impact Assessment and a Palaeontological Desktop Study for the proposed Kriel Ash Dam facility. These studies are in support of an Environmental Authorisation application in terms of the National Environmental Management Act, no. 107 of 1998 (NEMA) and NEMA Environmental Impact Assessment (EIA) Regulations, 2014. The Kriel Power Station is proposing to construct an additional ash disposal facility (Ash Dam 4) to expand their ash storage facility until 2045. Construction will involve the Ash Water Return pipeline infrastructure, ash water return dam and transfer dam, power lines, access roads and clean and dirty water channels. The extent of the proposed ash dam facility will be 172 ha located on the farms Driefontein 69 IS, Kriel Power Station 65 IS and Onverwacht 70 IS in the Emalahleni Local Municipality of Mpumalanga Province.

Birkholtz, P. May 2017. Proposed Expansion of the Existing Kriel Ash Dam Facility, Kriel Power Station, Kriel (Ga-Nala), Emalahleni Local Municipality, Mpumalanga Province.

Rossouw, L. Palaeontological desktop study of the proposed new Ash Disposal Facility at the Kriel Power Station near Kriel, Mpumalanga Province.

The project area is underlain by Permian aged sandstone, mudstone and shale of the Vryheid Formation, Ecca Group, Karoo Supergroup. This formation is very highly sensitive to the occurrence of fossiliferous plant and ichno fossils. However, due to the disturbed backfilled areas from old coal mines the chances of uncovering fossils is low. If any excavations of infrastructure are in undisturbed fresh sedimentary rocks then a qualified palaeontologist must monitor the excavations and in case of fossil finds, must apply for a section 35 permit in terms of the NHRA for the collection of the fossils.

Our Ref: 11031

Email: nkhumalo@sahra.org.za

CaseID: 11031

Date: Thursday June 22, 2017

Page No: 2

No Heritage resources were identified during the field survey because the project area lays partially on an old opencast mine that has since been rehabilitated. Mr Birkholtz recommends no further mitigation if the development of the ash dam facility remains within the proposed project extent.

Interim Comment

SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit agrees and endorses the recommendations provided in HIA report referenced above. SAHRA APM Unit does not accept the palaeontological desktop study as it does not adhere to the palaeontological impact assessment minimum standards, it does not contain a geological map and the author has not included his declaration of independence. A Final Comment will only be issued to the case once the EIA report and its appendices is uploaded to the case and the amended PIA report.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Dear Sir / Madam

PROPOSED EXPANSION OF ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA: AVAILABILITY OF EIA REPORT

DEA Reference Number: 14/12/16/3/3/217

Our previous communication of 26 October 2016 regarding the commencement of the Environmental Impact Assessment (EIA) process for the above mentioned project has reference.

Availability of EIA Report

The Department of Environmental Affairs (DEA) approved the Plan of Study for the EIA Phase on 27 February 2017. Notice is hereby given of the availability of the EIA Report for public comment at the following locations:

PRINTED COPIES

- Kriel Public Library
- Kriel Power Station
- Thubelihle Community Centre

ELECTRONIC COPIES

- **Aurecon:** <http://www.aurecongroup.com/en/public-participation.aspx>
- **Eskom:**
http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentallImpactAssessments/Pages/Environment_Impact_Assessment.aspx

Public Open House

Due to a lack of interest to attend public open house meetings during the Scoping Phase, public meetings will only take place upon request. All Interested and Affected Parties are requested to please inform Mr Dirk Pretorius, in writing, by **14 July 2017 if you want to attend a public open house meeting**. The provisional date for the public open house meetings is **26 July 2017** at the locations indicated below. Should requests be received for public open house meetings to take place, all registered I&APs will be notified in writing to confirm the date, timeslots and venues.

PLACE	TIME
Thubelihle Community Hall , Kriel Drive (next to clinic)	14:00-17:00 (public open house meeting)
Methodist Church Hall, Kriel 65 Springbok Crescent and corner of Flamingo Avenue	18:00-20:00 (presentation and public open house meeting)

Please RSVP with Dirk Pretorius (contact details below) by 14 July 2017 should you wish to attend the public open house meetings.

Submission of Comments

If you would like to provide comment or raise any issues or concerns, please contact Aurecon by **2 August 2017** at:

Telephone: (021) 526 9400 (Afrikaans / English) Franci Gresse or Dirk Pretorius

Telephone: (021) 526 9560 (Xhosa / Zulu) Simamkele Ntsengwane

Fax: 086 723 1750

Email: dirk.pretorius@aurecongroup.com

Post: PO Box 494, Cape Town, 8000

Attention: Dirk Pretorius

Please note that this EIA does not assess any potential early closure or decommissioning plans of the Kriel Power Station or aspects pertaining the decommissioning of any of the facilities or infrastructure. Please contact Eskom's Media Office directly for any questions on the potential closure of the coal fired power stations at: MediaDesk@eskom.co.za

Way Forward

Following the 30 day public comment period, the EIA Report will be updated by incorporating any comments received on the report (where relevant). All comments will be recorded and responded to in a Comments and Response Report which will be circulated to all who have provided comment. The updated EIA Report will then be submitted to DEA for their decision. This report will however be made available to registered I&APs for information purposes. Once DEA has made their decision on the proposed projects, all registered Interested and Affected Parties will be notified of the outcome of the decision within fourteen (14) calendar days of the decision and the right to appeal.

Yours sincerely

Franci Gresse

Geagte Meneer Boshoff,

Dankie dat u verlede week my oproep geneem het.

Ek wil net hiermee bevestig dat u in kennis gestel is dat die vergadering nie gaan plaasvind nie weens 'n gebrek aan belangstelling van die publiek en ander geregistreerde belanghebbende partye.

Ek wil ook net die punte wat u uitgelig het (op die beoogde uitbreiding van die Kriel kragentrale se asdam-aanleg) in hierdie skrywe saamvat:

Kwessie	Opsomming van bespreking
Die vervoerband wat afgebrand het en die daarop volgende gebruik van trokke om die as te vervoer.	Ons spreek die kwessie van moontlike lug besoedeling aan in die omgewingsinvloedbepaling-verslag en sal seker maak dat dit spesifiek gemeld moet word dat wanneer as per trok vervoer word (as 'n noodsoortgemaakte) dit gedoen word op 'n wyse wat die voorkoms van stof vanaf grondpaaie beperk. Die spoed van swaar voertuie op grondpaaie sal ook beperk word. Kan u asseblief bevestig of die gebeurtenis by Matla en/of Kriel plaasgevind het?
Die moontlike impak van die stof op vee (spesifiek u beeste wat vermoedelik van die stof geaborteer het).	Die beheer van stof sal soos hierbo aangespreek word. Ons versoek u egter om enige dier vrektes of siektes wat na u mening onnatuurlik is aan te meld by die Kriel kragentrale en/of die betrokke staatsdepartement.
Ander nadelige invloede van lug besoedeling in die area wat voortgaan sonder dat iets daaromtrent gedoen word.	Die Departement van Omgewingsake moedig die publiek aan om betrokke te raak by die beskerming van die omgewing. In noodgevalle kan die omgewingsmisdad en voorval-noodlyn geskakel word deur lede van die publiek. Hierdie nommer is 0800 205 205 . Die noodlyn laat toe dat persone wat die nommer gebruik anoniem kan bly indien verkies.
Die feit dat Kriel kragentrale nou gaan oop bly nadat daar aanduidings was dat dit moontlik binnekort gaan sluit.	Eskom het aangedui dat die kragentrale tot 2045 operasioneel sal bly (vanaf 2040 sal Eskom elk van die ses kragopwekkers stelselmatig buite diens stel). Vir verdere inligting met betrekking tot die bedryf van die Kriel kragentrale, kan u Eskom per epos kontak by MediaDesk@eskom.co.za

Moet asb. nie huiwer om my te kontak indien u enige verdere vrae het. Laastens wil ek u ook daaraan herinner dat die kommentaarperiode op 2 Augustus 2017 sluit.

Vriendelike groete,

Dear Sir / Madam

**PROPOSED EXPANSION OF ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA:
AVAILABILITY OF EIA REPORT**

DEA Reference Number: 14/12/16/3/3/3/217

Our previous communication of 26 October 2016 regarding the commencement of the Environmental Impact Assessment (EIA) process for the above mentioned project has reference.

Availability of EIA Report

The Department of Environmental Affairs (DEA) approved the Plan of Study for the EIA Phase on 27 February 2017. Notice is hereby given of the availability of the EIA Report for public comment at the following locations:

PRINTED COPIES

- Kriel Public Library

- Kriel Power Station
- Thubelihle Community Centre

ELECTRONIC COPIES

- Aurecon: <http://www.aurecongroup.com/en/public-participation.aspx>
- Eskom: http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/Pages/Environment_Impact

Public Open House

Due to a lack of interest to attend public open house meetings during the Scoping Phase, public meetings will only take place upon request. All Interested and Affected Parties are requested to please inform Mr Dirk Pretorius, in writing, by **14 July 2017 if you want to attend a public open house meeting**. The provisional date for the public open house meetings is **26 July 2017** at the locations indicated below. Should requests be received for public open house meetings to take place, all registered I&APs will be notified in writing to confirm the date, timeslots and venues.

PLACE	TIME
Thubelihle Community Hall , Kriel Drive (next to clinic)	14:00-17:00 (public open house meeting)
Methodist Church Hall, Kriel 65 Springbok Crescent and corner of Flamingo Avenue	18:00-20:00 (presentation and public open house meeting)

Please RSVP with Dirk Pretorius (contact details below) by 14 July 2017 should you wish to attend the public open house meetings.

Submission of Comments

If you would like to provide comment or raise any issues or concerns, please contact Aurecon by **2 August 2017** at:

- Telephone:** (021) 526 9400 (Afrikaans / English) Franci Gresse or Dirk Pretorius
- Telephone:** (021) 526 9560 (Xhosa / Zulu) Simamkele Ntsengwane
- Fax:** 086 723 1750
- Email:** dirk.pretorius@aurecongroup.com
- Post:** PO Box 494, Cape Town, 8000
- Attention:** Dirk Pretorius

Please note that this EIA does not assess any potential early closure or decommissioning plans of the Kriel Power Station or aspects pertaining the decommissioning of any of the facilities or infrastructure. Please contact Eskom's Media Office directly for any questions on the potential closure of the coal fired power stations at: MediaDesk@eskom.co.za

Way Forward

Following the 30 day public comment period, the EIA Report will be updated by incorporating any comments received on the report (where relevant). All comments will be recorded and responded to in a Comments and Response Report which will be circulated to all who have provided comment. The updated EIA Report will then be submitted to DEA for their decision. This report will however be made available to registered I&APs for information purposes. Once DEA has made their decision on the proposed projects, all registered Interested and Affected Parties will be notified of the outcome of the decision within fourteen (14) calendar days of the decision and the right to appeal.

Dear Wilma,

This email serves as reminder of the public participation process in progress and your opportunity to comment on the Environmental Impacts Assessment (please note the comment period ends on 2 August 2017). We have sent hard and electronic copies of the EIA report to the DEA: Biodiversity Conservation.

We have received and incorporated your comments on from the scoping phase into the EIA report and from a technical point the proposed layout has not changed significantly from the scoping phase. A copy of the non-technical summary is attached herewith for ease of reference.

Generic letter to follow:

**PROPOSED EXPANSION OF ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA:

29 November 2016

PROPOSED EXPANSION OF ASH DISPOSAL FACILITY AT KRIEL POWER STATION, MPUMALANGA: REGISTRATION AS INTERESTED AND AFFECTED PARTY AND AVAILABILITY OF SCOPING REPORT

Kriel Power Station is an Eskom owned coal fired power station, which generates ash when coal is burnt to generate electricity. This ash is disposed of through a wet ashing system to three ash dams which will reach their capacity in the next few years. Eskom is thus proposing to construct an additional Ash Disposal Facility to fulfil ash disposal requirements for the remainder of the power station's operational life.

Eskom initiated the EIA process for expanding the Ash Disposal Facility at Kriel in 2009, but the process was stopped because of technical reasons in 2011. During this process you were either identified as Interested and Affected Party (I&AP) or registered as I&AP yourself. **Eskom has embarked on a new EIA process and therefore would like to afford you an opportunity to register as I&AP for the new process by contacting the undersigned. Only I&APs that register for the new EIA will form part of further consultation and notified of the process going forward. If you do not wish to be registered as an I&AP anymore no action is required.**

The proposed expansion of the ash disposal facility triggers several activities listed in terms of the National Environment Management Act (NEMA) (No. 107 of 1998) Government Notice (GN) R983, R984 and R985; and the National Environmental Management: Waste Act (NEMWA) (No. 59 of 2008) GN 921 of 29 November 2013. As such authorisation from the competent environmental authority, viz. the Department of Environmental Affairs via an Integrated Environmental Impact Assessment (EIA) process (GN No. R982 of December 2014) is necessary. This proposed project triggers activity 10, 12, 19, 24, 45, 48, 49 and 56 of GN No. R983; and activity 15 and 16 of GN No. R984 published in terms of NEMA; and Category A activity 1 and Category B activities 1, 7, 8 and 10 of NEMWA.

Aurecon South Africa (Pty) Ltd has been appointed by Eskom to complete the requisite Integrated Environmental Impacts Assessment, which includes a Waste Management Licence processes.

Notice is hereby given of the commencement of a public participation process in terms of the NEMA EIA Regulations 2014 and the availability of the Scoping Report for public comment.

A **hard copy** of the Scoping Report can be viewed at **Kriel Public Library** and **Kriel Power Station**.

A **digital version** of the Scoping Report is available on Aurecon and Eskom websites for perusal and download (or upon request from the persons indicated below):

An Environmental Impact Assessment (EIA) is a process that is undertaken in terms of the requirements of the National Environmental Management Act (Act 107 of 1998) (NEMA), as amended, and its associated regulations (i.e. Government Notice Regulation (GN R.) 982, 983, 984 and 985). The purpose of the EIA process is to evaluate the environmental and socio-economic characteristics of the proposed project and the consequences of the project on the environment and the people living in the area that would be affected by the proposed project activities. Where negative impacts are likely to result from the project, measures can be recommended to avoid or reduce these impacts to a level where the impacts are considered acceptable from an environmental and social perspective. Where positive impacts are likely to result from the project, measures can be recommended to increase these impacts.

Message  

Dear Love,

This email serves as reminder of the public participation process in progress and your opportunity to comment on the Environmental Impacts Assessment (please note the comment period ends on 2 August 2017).

We have received and incorporated your comments on from the scoping phase into the report and from a technical point the proposed layout has not changed significantly from the scoping phase. Nevertheless, a copy of the non-technical summary and agricultural assessment is attached herewith. Should you require any additional info please contact the undersigned or follow the links provided below.

Good afternoon Nokukhanya,

This email serves to notify you that we have uploaded the updated Palaeontology and EIA to the SARIS website (as requested).

I believe you will get the notification through the website as well, but just thought it good to follow up with an email. Please let us know if anything is unclear or if you require any additional info.

Kind regards,

Dirk Pretorius Pr. Sci. Nat. BSc Cons Ecol

Dear Nokukhanya,

I'm just following up on the below mail and the case in general. We uploaded the updated Palaeontology and EIA for your comment, but have not received further correspondence on the matter.

Please note that we will be submitting the Final EIA report to DEA on Monday 8 August and need to submit SAHRAs final comment with the EIA. Therefore we would appreciate if you could expedite the comment on this matter.

Yours sincerely,
 Dirk
