TO WHOM IT MAY CONCERN

RE: PROPOSED CONSTRUCTION OF A NEW SUBSTATION ON THE REMAINING EXTENT OF THE FARM MIER 585 and the UPGRADE OF A 33KV METERING POINT TO A 66KV METERING POINT.

Approval was given on 29 October 2009 by the Mier Municipality that an Eskom substation may be constructed on above-mentioned property.

It is understood that the Environmental Authorisation issued on 3 August 2011 has lapsed and that a new application is being lodged with the Department of Environmental Affairs.

Please note that the approval given by the Mier Local Municipality is still valid and the construction of the substation may continue on the Remaining Extent of the Farm Mier 585.

Kind regards

Mr Josef Willemse
The Municipal Manager: Mier Local Municipality
