Subject: 10645-Mookodi-Mahikeng 400kV Powerline: Public Notification

Proposed Mookodi-Mahikeng 400kV Powerline, North West

Dear Landowner

Eskom have proposed a 180km 400kV powerline that starts in Vryburg at the existing Mookodi substation and ends near Mahikeng at the future Mahikeng substation site. Kindly find the attached **Background Information Document (BID)** for more details on the proposed development currently in its public notification phase.

Nemai Consulting are undertaking the public participation process for the proposed development as per Government Notice 982 of the Environmental Impact Assessment (EIA) Regulations of 2014, in terms of the National Environmental Management Act (No. 107 of 1998).

We encourage you to register as an Interested and Affected Party (IAP), as outlined in the attached BID.

Mrs. Nelis van der Merwe

Date

2 November 2017.

— Thank you for your participation —

Our farm Graspan (877.67 ha) is exclusively a cattle farm. The magnificent Camel Thorn Trees over 100 years old are an outstanding feature of this farm. This tree is a protected tree. The peels of the Camel Thorn tree are a source of protein for the cattle and the trees provide shade. The farm is ideally suited for game ranching as the bushveld natural vegetation is unique.

The security of the farm owners and workers will be jeopardized as foreigners will obtain access.

Why can the powerline not be erected along the highway between Vryburg, Stella to Mahikeng? If you do a Cost/Benefit analysis then it may be a bit longer but other costs such as access will be less.

Can you provide as with a map of the proposed power line transecting our farm.

Owners

Prof W L Nieuwoudt
W. L. Nieuwoudt

Mrs Vesta (Joubert) Nieuwoudt

Legend

- Parent farms
- Option 2 (WM13)
- Option 3 (WM4a)
- 2 Km Buffer
- Gras Pan (555)
- Parent farms

MOOKODI-MAHIKENG 400 KV LINE

Dear Kristy Robertson

Thank you for your diligence in sending the maps.

The Farm shown as GRAS PAN 555 is actually divided in two equal rectangular parts. Our farm is the left and the farm indicated as Gras Pan 2 the right. The latter farm is actually Longziek Pan and belongs to Bert and Gerrit Erasmus (Tel 082 3167102).

Weltevrede belongs to Jenco Scholtz (Tel 082 3867102)

Groenvlakte belongs to Pieter Devilliers (082 6706089).

Our concern is with power line (Option 3) traversing Gras Pan 555 on the left. This line goes through 100 year old Camel Thorn Trees which we would like to be conserved. The rest of the vegetation can be cleared.

Sincerely

Prof W L Nieuwoudt

Message Terugvoeringsvorm.pdf

Goeie more mnr Kristy Robertson.

Daar was so ruk terug mense by ons gewees oor die Mookodi-Mahikeng kraglyn. Hulle het vir ons 'n vorm gegee om te voltooi.

My pa het die vorm voltooi en my gevra om dit namens hom vir u te e-pos.

Laat weet asb as dit nie mooi duidelik is nie dan sal ek dit weer stuur.

Baie dankie en vriendelike groete.

Hi Kristy
Can you send me the route around Vryburg that you want to take to Mahikeng, so that I can see if you are planning to go over my property.
Thanks
Carel

You replied to this message on 16/01/2018 07:50 AM.

Hi Kristy

Do you know that my property is a township development, extension 26/27 of Vryburg? It is going to be difficult to build over any Eskom servitude. What is going to happen with the 88kv line? The 88kv line runs over Extension 27 of the Rosendal development and I want to remove it. I have spoken to Eskom in the past and I have already organize a servitude with Mr van der Merwe for the 88kv line to be remove.

Regards
Carel

Dear Carel

I have attached a map for you that shows how your property is affected by the proposed development. Your property is affected by two of the four alternative options.

A 2km servitude is being assessed for all 4 alternative routes (as can be seen on the map) however the actual Eskom Servitude will only be 55m wide when constructed.

Hiermee verdere inligting aan u omdat ek 'n beswaar het oor die kraglyn wat oor my plase naamlik Dublin en Zoete-ival, naby die dorp Stella Noordwes Provinsie.

1. Ek bedryf 'n wildboerdery met akkomodasie vir jagters en toeriste. Van my gereelde jaarlikse kliënte het reeds aangedui dat hulle nie meer op my plaas sal kom jag indien daar 'n kraglyn deurloop nie, aangesien die kraglyn die natuurskoon nadelig sal beïnvloed en die ervaring van ongerepte natuur dan tot niet sal wees.
2. Aangesien my wildjag- en toerisme bedryf 'n winsgewende besigheid is het ek besluit om my Lodge verder uit te brei en my wildgetalle te vermeerder om sodoende my inkomste te verhoog.
3. Met bogenoemde in ag geneem gaan ek groot finansiële skade ly indien daar 'n kraglyn oor my plaas loop en sal my besigheid nie verder kan voortgaan nie.
4. Stuur asseblief vir my die inpakstudie verslag ten opsigte van die kraglyn projek.
5. Die plase Dublin en Zoete- Inval is beslis nie dieselfde as ander plase in die omgewing, aangesien dit heel anders lyk. Die topografie is golwend en die plantegroei lyk ook anders deurdat hier ander soort bome naamlik Sandgeelhout en Kameeldoringbome voorkom.
