To 'renee@roomswithaviewgroup.co.za'

Dear Renee

At this stage of the project, there are four alternative routes being considered. A 2km corridor is being assessed for each route as part of the EIA, therefore the centreline of the route can be altered based on sensitivities (such as environmental, social, economic, etc) that are found from the Specialist Studies and public consultation. A comparative analysis of the alternatives is then done in the EIA Phase, ultimately selecting the Best Practicable Environmental Option (BPEO).

Please provide your reasons or concerns for why you oppose the powerline on your property, so that they can be incorporated in to the Comments and Responses Report where the entire project team, including Eskom, must provide adequate responses to the concerns raised.

Kindly find attached a map as requested which shows how your property (Portion 2 of Farm Biesjes Laagte 545 IN) is affected by the proposed Route 1 Option.

The actual servitude around the centreline of the powerline will be 55m (27.5m on each side). However, the map shows a 2km corridor which the Specialist Studies will assess, in case the centreline needs to be moved as a result of any structures or sensitives found through the studies. But the line can only move within the 2km corridor and that is why we have informed you about the project.

We would be happy if you can attend the Vryburg Public Meeting, so that we can discuss any of your concerns that you may have at this stage with the proposed project.

Groete,

Soos bespreek met Christian, vind asseblief aangeheg die kaart wat wys hoe jou plaas (Gedeelte 2 van Farm Dublin 341 IN) geaffekteer word.

Al die voorgestelde roetes het n 2km korridor, wat geasseer sal word deur spesialis studies om enige bestaande strukture of omgewingsensitiwiteit te identifiseer. As daar beperkings op die roetes gevind word, maak die korridor dit moontlik om die kraglyn te skyf sodat dit die bestaande strukture of omgewingsensitiwiteit kan vermy. Die werklike ESKOM servituut van die kraglyn sal net 55m wees (27.5m aan elke kant van die kraglyn).

Dear Debre

I have checked on the database and there is no farm by the name of Naudespan affected by the proposed powerline.

I have checked the properties we have for: sarahharris111@gmail.com, and this is Portion 6 of Farm Ring Vlake 578 IN **and** Portion 3 of Farm Verdwaal Vlake 540 IN. Would you like me to make maps for these two affected properties?

Is there any other property I can search for you to see if it is affected?

RE: Proposed Eskom power line

To: 'A H VERCUEIL'

Hi Anton

The actual servitude around the centreline of the powerline will be 55m (27.5m on each side). However, the map shows a 2km corridor for which the Specialist Studies will assess, in case the centreline needs to be moved as a result of any structures or sensitives found through the studies.

Thus the Department of Environmental Affairs (DEA) approve the 2km corridor (if they decide to grant the Environmental Authorisation), so the centreline can only move within the 2km corridor. Eskom then liaise with the landowner at that stage on where the centreline will actually run.

Kind Regards,

RE: Proposed Eskom power line

To: 'A H VERCUEIL'

Hi Anton

I completely understand. Your comments will be sent to Eskom to be addressed, and they will be included in the Final Scoping Report.

If the project moves into the EIA Phase, the impacts on your property will need to be assessed and your objection will form part of the route selection process for the powerline that has the overall least impact.

Proposed Mookodi-Mahikeng 400kV Powerline, North West

Dear Landowner

Eskom have proposed a 180km 400kV powerline that starts in Vryburg at the existing Mookodi substation and ends near Mahikeng at the future Mahikeng substation site. Kindly find the attached **Background Information Document (BID)** for more details on the proposed development, currently in the Draft Scoping phase.

Nemai Consulting are undertaking the public participation process for the proposed development as per Government Notice 982 of the amended 2014 Environmental Impact Assessment (EIA) Regulations, in terms of the National Environmental Management Act (No. 107 of 1998).

The Draft Scoping Report is available for a 30-day public review period will commence from 12 February 2018 to 13 March 2018. Hard copies of the report are available at the following venues:
