Subject: 10645-Mookodi-Mahikeng 400kV Powerline: Public Notification

Proposed Mookodi-Mahikeng 400kV Powerline, North West

Dear Landowner

Eskom have proposed a 180km 400kV powerline that starts in Vryburg at the existing Mookodi substation and ends near Mahikeng at the future Mahikeng substation site. Kindly find the attached **Background Information Document (BID)** for more details on the proposed development currently in its public notification phase.

Nemai Consulting are undertaking the public participation process for the proposed development as per Government Notice 982 of the Environmental Impact Assessment (EIA) Regulations of 2014, in terms of the National Environmental Management Act (No. 107 of 1998).

We encourage you to register as an Interested and Affected Party (IAP), as outlined in the attached BID.

Signature

Mrs. Nelis van der Merwe

Date

2 November 2017.

— Thank you for your participation —

Our farm Graspan (877.67 ha) is exclusively a cattle farm. The magnificent Camel Thorn Trees over 100 years old are an outstanding feature of this farm. This tree is a protected tree. The peels of the Camel Thorn tree are a source of protein for the cattle and the trees provide shade. The farm is ideally suited for game ranching as the bushveld natural vegetation is unique.

The security of the farm owners and workers will be jeopardized as foreigners will obtain access.

Why can the powerline not be erected along the highway between Vryburg, Stella to Mahikeng? If you do a Cost/Benefit analysis then it may be a bit longer but other costs such as access will be less.

Can you provide as with a map of the proposed power line transecting our farm.

Owners

Prof W L Nieuwoudt

- 2 Km Buffer
- Gras Pan (555)
- Parent farms

Scale 1:50000

MOOKODI-MAHIKENG 400 KV LINE

Dear Kristy Robertson

Thank you for your diligence in sending the maps.

The Farm shown as GRAS PAN 555 is actually divided in two equal rectangular parts. Our farm is the left and the farm indicated as Gras Pan 2 the right. The latter farm is actually Longziek Pan and belongs to Bert and Gerrit Erasmus (Tel 082 3167102).

Weltevrede belongs to Jenco Scholtz (Tel 082 3867102)

Groenvlakte belongs to Pieter Devilliers (082 6706089).

Our concern is with power line (Option 3) traversing Gras Pan 555 on the left. This line goes through 100 year old Camel Thorn Trees which we would like to be conserved. The rest of the vegetation can be cleared.

Sincerely

Prof W L Nieuwoudt

Terugvoeringsvorm oor kraglyni!

To: Kristy Robertson

You forwarded this message on 09/11/2017 09:04 AM.

Message Terugvoeringsvorm.pdf

Goeie more mnr Kristy Robertson.

Daar was so ruk terug mense by ons gewees oor die Mookodi-Mahikeng kraglyn. Hulle het vir ons 'n vorm gegee om te voltooi.

My pa het die vorm voltooi en my gevra om dit namens hom vir u te e-pos.

Laat weet asb as dit nie mooi duidelik is nie dan sal ek dit weer stuur.

Baie dankie en vriendelike groete.

PROPOSED MOOKODI-MAHIKENG 400KV LINE

SCOPING & EIA - REPLY FORM

Official use	Date received	Our reference	Status

Note: The purpose of the Reply Form includes the following:

1. Registration of Interested and Affected Parties;
2. Obtain contact details to include in the project database; and
3. Allow for comments and concerns to be raised regarding the proposed project.

1) GENERAL INFORMATION

Name of organisation (if applicable)	Mphelalerole farming & Projects C
Name & Surname	Dikedi Naomi Mashibane
Postal Address	P.O. Box 478 / Mabatho 2735
Physical Address	7 Khutsong flats, Golf View Mahikeng 2745
Telephone No.	071 6 241670 / 071 509 7123
Fax No.	N/A
Email Address	

Registration as an Interested & Affected Party:

 YES NO

2) COMMENTS

2.1) Potential issues or concerns associated with the project?

The extent of the area which will be used.

2.2) Specific requirements in terms of the Basic Assessment process?

Clear indication of how the servitude will affect the Property

2.3) Key stakeholders to be engaged with (provide contact details, if possible)?

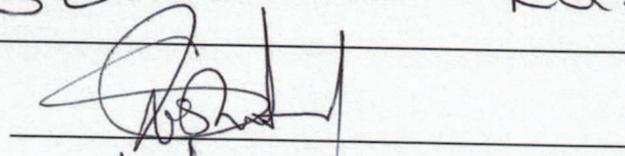

Farmers in the vicinity

2.4) General Comments

The detailed property description of the entity's property is:-

- (1) Remaining extent of the farm Stroebels Rust 343.
- (2) Portion 50 of the Farm Stroebels Rust 343.

Hi Kristy
Can you send me the route around Vryburg that you want to take to Mahikeng, so that I can see if you are planning to go over my property.
Thanks
Carel

You replied to this message on 16/01/2018 07:50 AM.

Hi Kristy

Do you know that my property is a township development, extension 26/27 of Vryburg? It is going to be difficult to build over any Eskom servitude. What is going to happen with the 88kv line? The 88kv line runs over Extension 27 of the Rosendal development and I want to remove it. I have spoken to Eskom in the past and I have already organize a servitude with Mr van der Merwe for the 88kv line to be remove.

Regards
Carel

On Friday, January 12, 2018, 8:44:39 AM GMT +2, Kristy Robertson <KristyR@nemal.co.za> wrote:

Dear Carel

I have attached a map for you that shows how your property is affected by the proposed development. Your property is affected by two of the four alternative options.

A 2km servitude is being assessed for all 4 alternative routes (as can be seen on the map) however the actual Eskom Servitude will only be 55m wide when constructed.

Hiermee verdere inligting aan u omdat ek 'n beswaar het oor die kraglyn wat oor my plase naamlik Dublin en Zoete-inal, naby die dorp Stella Noordwes Provinsie.

1. Ek bedryf 'n wildboerdery met akkomodasie vir jagters en toeriste. Van my gereelde jaarlikse kliënte het reeds aangedui dat hulle nie meer op my plaas sal kom jag indien daar 'n kraglyn deurloop nie, aangesien die kraglyn die natuurskoon nadelig sal beïnvloed en die ervaring van ongerepte natuur dan tot niet sal wees.
2. Aangesien my wildjag- en toerisme bedryf 'n winsgewende besigheid is het ek besluit om my Lodge verder uit te brei en my wildgetalle te vermeerder om sodoende my inkomste te verhoog.
3. Met bogenoemde in ag geneem gaan ek groot finansiële skade ly indien daar 'n kraglyn oor my plaas loop en sal my besigheid nie verder kan voortgaan nie.
4. Stuur asseblief vir my die inpakstudie verslag ten opsigte van die kraglyn projek.
5. Die plase Dublin en Zoete- Inval is beslis nie dieselfde as ander plase in die omgewing, aangesien dit heel anders lyk. Die topografie is golwend en die plantegroei lyk ook anders deurdat hier ander soort bome naamlik Sandgeelhout en Kameeldoringbome voorkom.

PER EMAIL / MAIL

Dear Sir/Madam

ACKNOWLEDGEMENT OF RECEIPT OF THE NEW APPLICATION FOR ENVIRONMENTAL AUTHORISATION (ENVIRONMENTAL IMPACT ASSESSMENT PROCESS) AND SCOPING REPORT FOR THE PROPOSED DEVELOPMENT OF THE MOOKODI-MAHIKENG 400KV POWERLINE WITHIN THE NORTH WEST PROVINCE

The Department confirms having received the Application for Environmental Authorisation and Draft Scoping Report for the abovementioned project on 08 February 2018. You have submitted these documents to comply with the Environmental Impact Assessment (EIA) Regulations, 2014, as amended.

Please take note of Regulation 40(3) of the EIA Regulations, 2014, as amended, which states that potential Interested & Affected Parties, including the Competent Authority, may be provided with an opportunity to comment on reports and plans contemplated in Regulation 40(1) of the EIA Regulations, 2014, as amended, prior to the submission of an application but must be provided an opportunity to comment on such reports once an application has been submitted to the Competent Authority.

Note that in terms of Regulation 45 of the EIA Regulations, 2014, as amended, this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted by the Department in terms of Regulation 3(7) of the EIA Regulations, 2014, as amended.

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Officer Hours which are available on the Departmental Website (https://www.environment.gov.za/contacts/national_office). No faxed and e-mailed applications; applications delivered to Security or applications placed in the Departmental Tender Box will be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No. 107 of 1998, as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

Mr Sabelo Malaza

Chief Director: Integrated Environmental Authorisations

PROPOSED MOOKODI-MAHIKENG 400KV LINE

SCOPING & EIA - REPLY FORM

Official use	Date received	Our reference	Status

Note: The purpose of the Reply Form includes the following:

1. Registration of Interested and Affected Parties;
2. Obtain contact details to include in the project database; and
3. Allow for comments and concerns to be raised regarding the proposed project.

1) GENERAL INFORMATION

Name of organisation (if applicable)	/
Name & Surname	DANIEL ZACHARIAS JACOBS
Postal Address	P.O. BOX 1883 VEYBURG 8600
Physical Address	86 BERNAUW PLOT VEYBURG 8601
Telephone No.	079 128 0154
Fax No.	/
Email Address	mcjacobs007@yahoo.com

Registration as an Interested & Affected Party:

YES

NO

2) **COMMENTS**

2.1) Potential issues or concerns associated with the project?

Just that no existing structures on my property need to be demolished for the project to commence.

2.2) Specific requirements in terms of the Basic Assessment process?

Just that I be notified of when assessment will take place. If it should be on my property and that I be present.

2.3) Key stakeholders to be engaged with (provide contact details, if possible)?

Just myself as the property belongs to me.

2.4) General Comments

I would like to see where the poles will be put on my property and how much of my property will be needed for this project before hand.

Mookodi-Mahikeng 400 kV line

To: Kristy Robertson

Message 180215 IAP registration.pdf

Dear Kristy,

Please find attached request to be registered as an IAP for the EIA for the proposed Mookodi-Mahikeng 400kV line.

Further, would it be possible to receive a more detailed map of the proposed routes, as the maps in your BID and DSR are not very clear. Ideally, if you have .KMZ files, it would be appreciated?

Thanks

Phil Edmunds

PROPOSED MOOKODI-MAHIKENG 400KV LINE

SCOPING & EIA - REPLY FORM

Official use

Date received

Our reference

Status

Note: The purpose of the Reply Form includes the following:

1. Registration of Interested and Affected Parties;
2. Obtain contact details to include in the project database; and
3. Allow for comments and concerns to be raised regarding the proposed project.

1) GENERAL INFORMATION

Name of organisation (if applicable)	KABI SOLAR (PTY) LTD
Name & Surname	PHIL EDMONDS
Postal Address	Po Box 2940, CRAIGHALL, 2024
Physical Address	2 GROUND FLOOR, 82 MAUDE STREET, SANDTON 2196
Telephone No.	010 0030202
Fax No.	-
Email Address	phil.edmunds@kabisolar.co.za

Registration as an Interested & Affected Party:

YES

NO

2) COMMENTS

2.1) Potential issues or concerns associated with the project?

--

2.2) Specific requirements in terms of the Basic Assessment process?

--

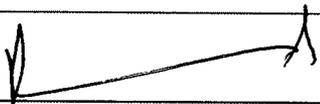

2.3) Key stakeholders to be engaged with (provide contact details, if possible)?

--

2.4) General Comments

--

Phil Edmunds <phil.edmunds@kabisolar.co.za>

RE: Mookodi-Mahikeng 400 kV line

To: Kristy Robertson

Hi Kristy,

Not to worry, I found the route co-ordinates detailed in the DSR and have plotted the sections I was interested in.

Rgds,
Phil

Goedidag Kristy,

Dankie vir die kennisgewing.

Ek wil graag weet waar oor my plaas sal die lyn gebou word. Het julle n kaart beskikbaar waar die beplande lyn opgerig sal word??

Moet ek laat weet as ek die dag wil bywoon op Vryburg aangaande die bou van die kraglyn? Want ek wil graag.

Dankie ,

Kobus Rautenbach.

Good day Kristy

Thank you for the enlarged map on route 3. This line will cross directly over our residence.

As discussed oppose E Joubert and HLC Joubert the line to cross our properties. We hereby state that both of us do not give permission for the line to cross our properties.

Please confirm by return mail that our option has been noted.

Regards

	Posbus 191 Stella 8650
	Konely Hill Stella
	Sel No 0832945391
	leroux.annelie@gmail.com

--

<input checked="" type="checkbox"/>

NO

2) KOMMENTAAR

2.1) Potensiele bekommernisse aangaande die voorgestelde projek:

Die beskadiging van Weiding,
Maandlike afkamping van Kraglyn,
Periodieke beweging van Eskom werkers op eiendom
Verknippering van 'n Klein Eilandem (170 HA)

2.2) Spesifieke vereistes in terme van die OIA Proses:

Die opruiming van terrein naabot Kraglyn voltooi is.
Verwydering van oortollige grond na insit van Krag Pale
Moet op hoogte gehou word van Projek en Verobring
Verste.
Notules van alle vergaderings word verlang

2.3) Enige ander maontlike belanghebbendes (verskef kontakbesonderhede indien maontlik):

2.4) Algemene kommentaar: (bykomende bladsye mag ingesluit word indien die ruimte wat voorsien is, te min is)

Ek stel voor dat dit meer ekonomies sal wees
as Kraglyn langs Teerpad gebou word.
Wil ook graag weet wat die vergoeding gaan wees
vir gedeepte van Kraglyn oor my eiendom

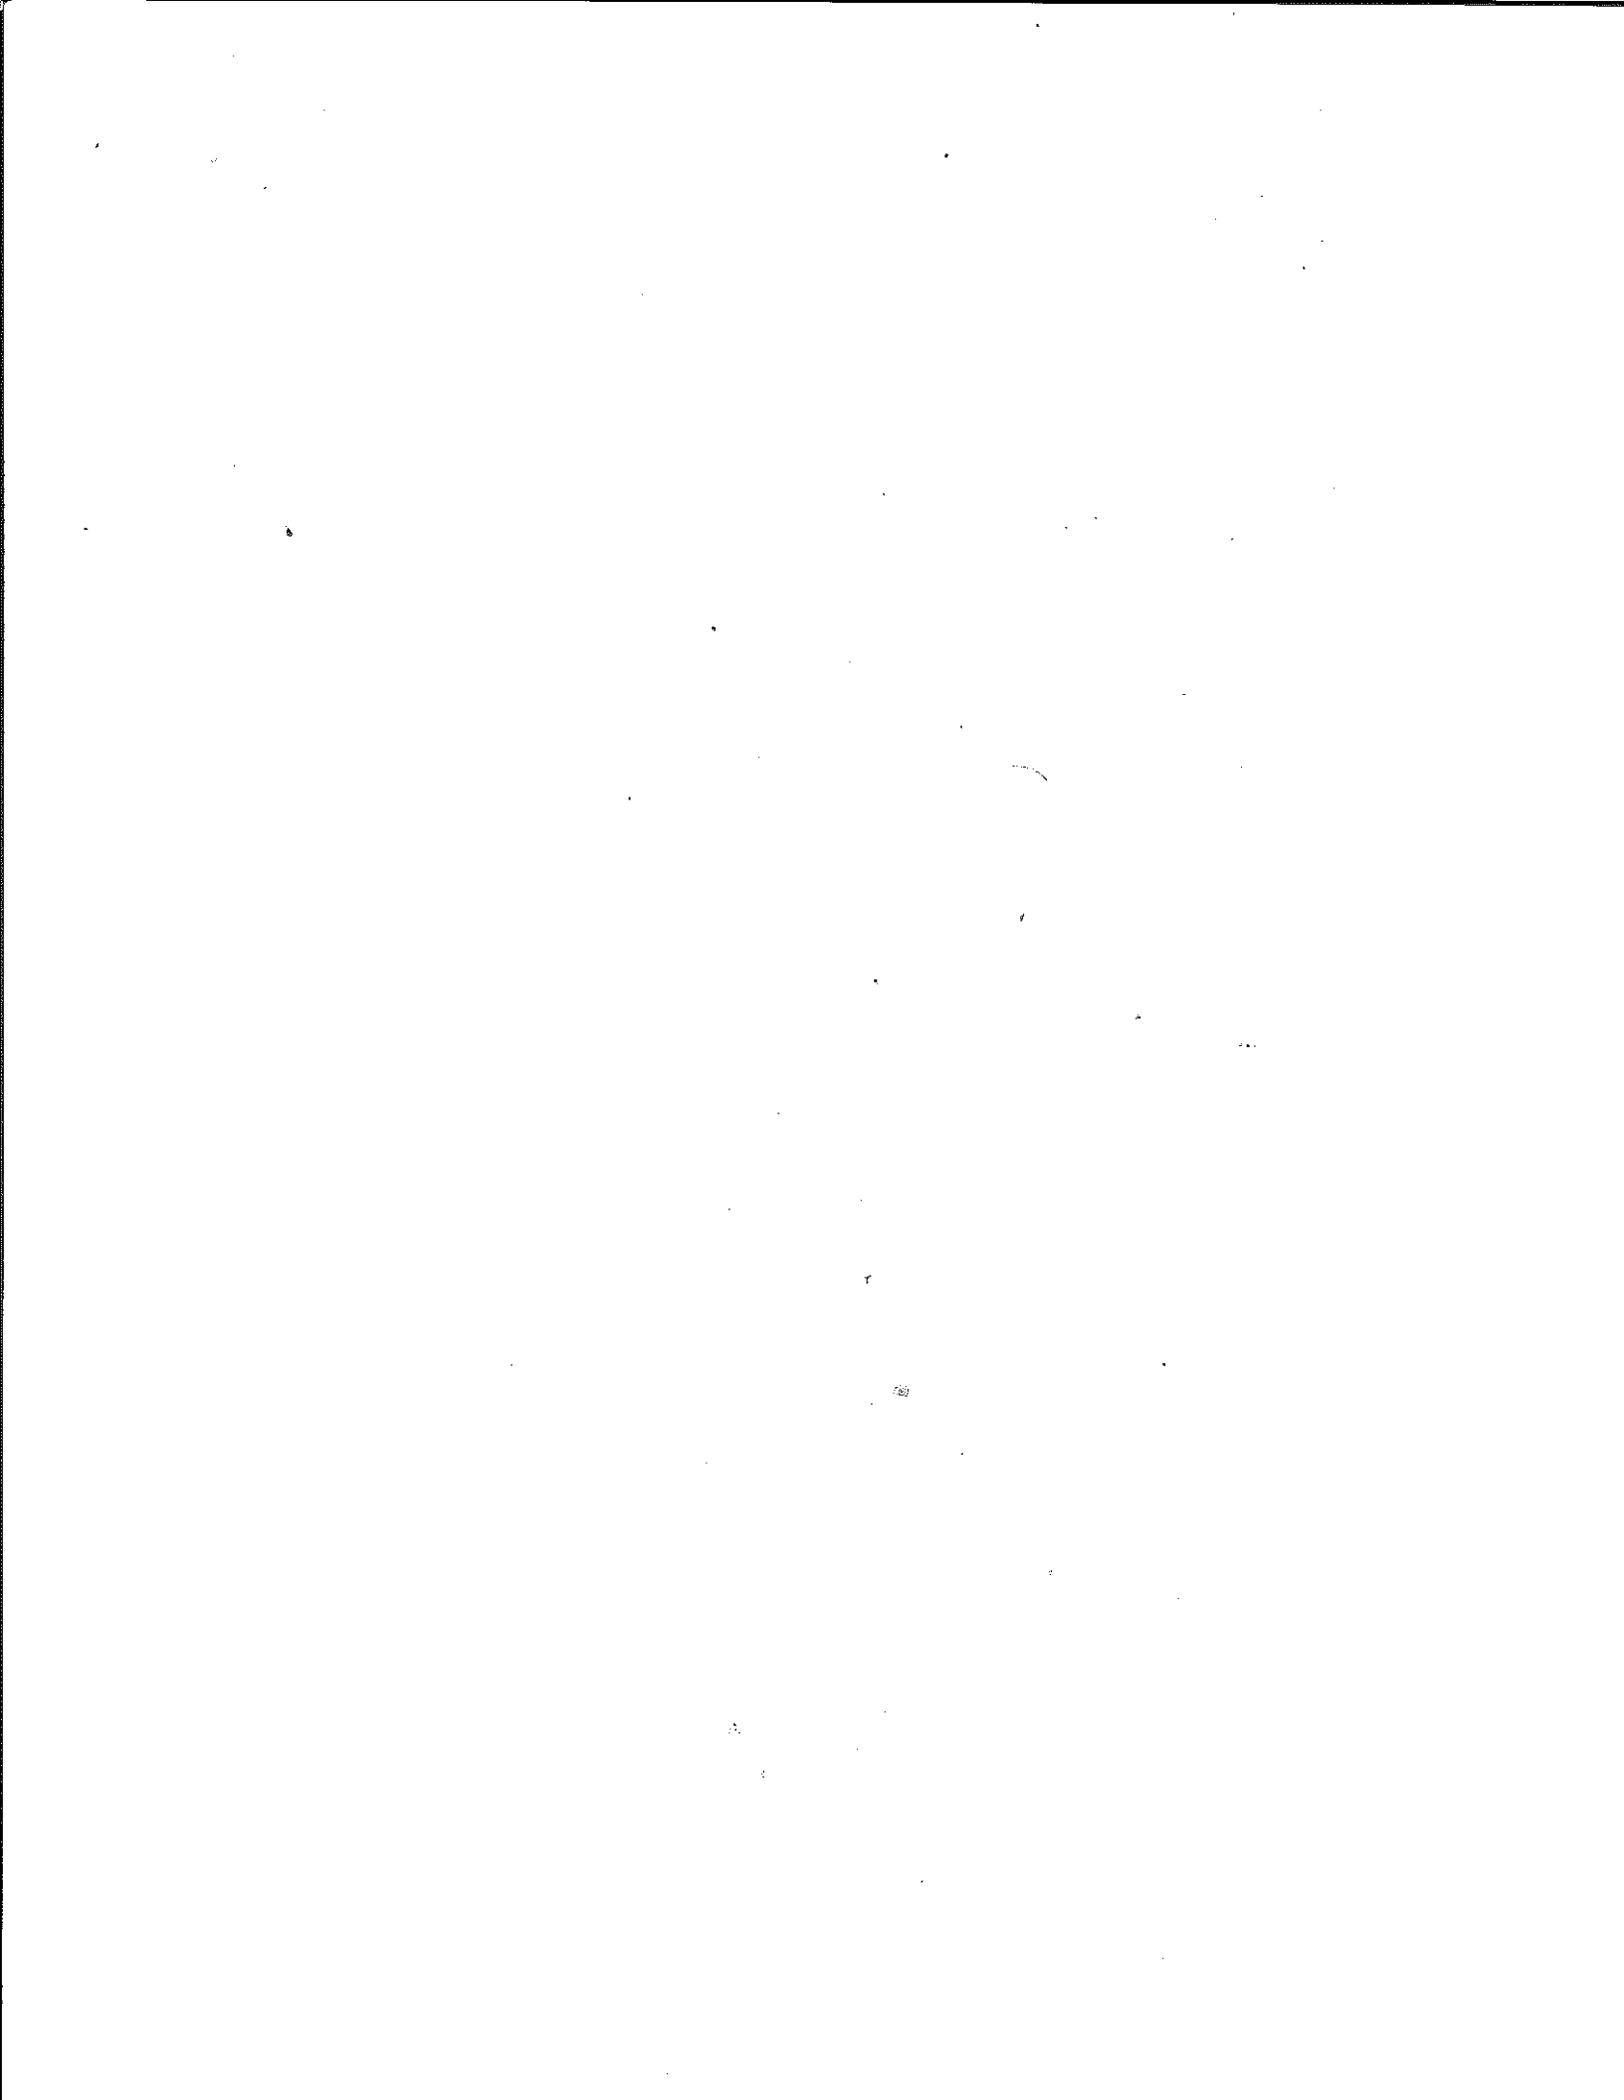

Handtekening

Message Eskomlyn oor Vryburg plot - 2018.pdf

Kristy,

Please see the attached registration form for your attention.

I am not residing at my property – leasing it to a tenant. I am staying in Pretoria and will not be able to attend the information sessions/meetings. How can I obtain information on how it will affect me? It is not clear from the maps if the intention is to have the line run over my property or next to it. Any assistance from you?

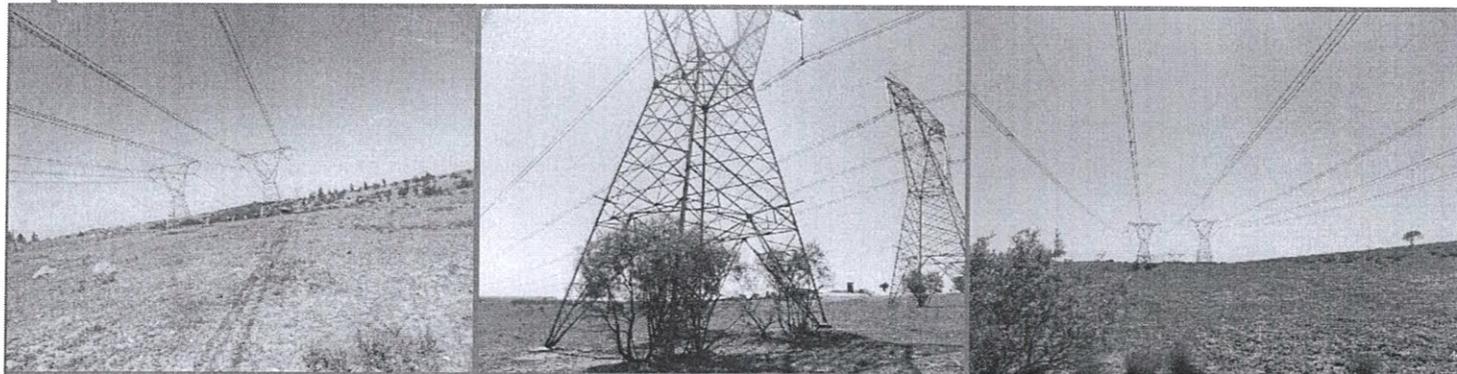

I am sending this email from my work email. Please send any correspondence to my personal email – wiesegawie@gmail.com
Regards.

Gawie Wiese

VOORGESTELDE MOOKODI-MAHIKENG 400KV KRAGLYN

AGTERGROND INFORMASIE DOKUMENT

Oktober 2017

INHOUD

1. Doel van die Dokument
2. Agtergrond en Inleiding
3. Projek Terrein
4. Projek Oorsig
5. Omgewings Impakassessering
6. Kontakbesonderhede

1. DOEL VAN HIERDIE DOKUMENT

Die doel van hierdie Agtergrond Informasie Dokument (AID) is as volg:

1. Dit dien as oorsig van die voorgestelde Mookodi-Mahikeng 400Kv kraglyn.
2. Dit gee informasie van die Omgewings impakassessering (OIA) Proses wat oor hierdie projek gedoen word; en
3. Dit verleen die geleentheid om geregistreer te word as 'n Belanghebbende en Geaffekteerde Party asook vir kommentaar oor die voorgestelde projek (sien aangehegte antwoordvorm).

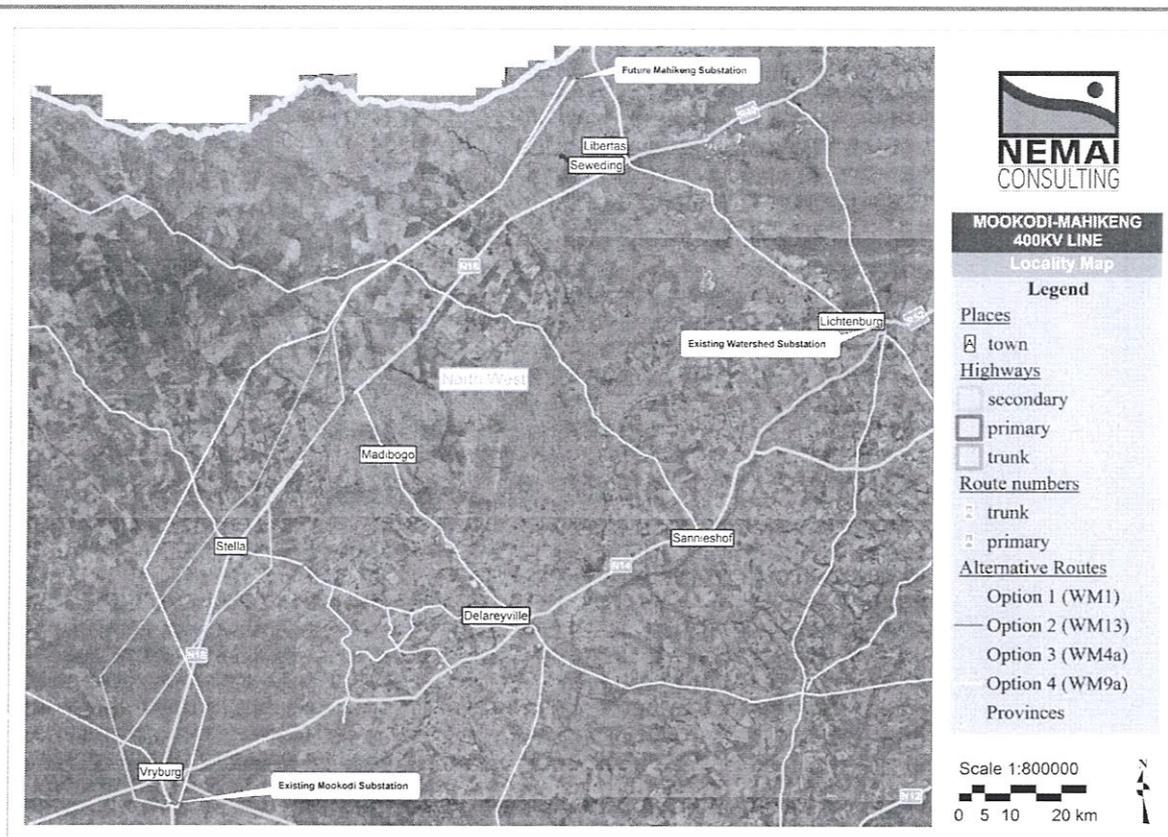

Die doel van die OIA sluit in: (1) om potensiele impak te identifiseer en te evalueer, (2) om maatreëls in te stel om negatiewe impak te vermy of te reduseer en (3) om positiewe impak te verbeter.

2. AGTERGROND & INLEIDING

Die bestaande Watershed substasie het huidige onvoldoende kapasiteit om die voorgestelde vrag in die Watershed Hoof Transmissie Substasie Area, wat Lichtenburg tot Mahikeng dorp insluit, te ondersteun. Daar ontstaan dus 'n vraag na verdere netwerk uitbreiding deur 'n nuwe transmissie substasie in Mahikeng te vestig. Die voorgestelde Mahikeng substasie sal 'n aparte OIA Proses ondergaan. As deel van die vestiging van die terrein vir die voorgestelde Mahikeng substasie, sal die substasie ontwerp word met 'n eindproduk van 3x 500MVA 400/132Kv transformators, waarvan 2x 500 MVA 400/132Kv aanvanklik geïnstalleer sal word. 'n 1x 160km Pluto - Mahikeng 400Kv kraglyn sal gevestig word ('n aparte OIA Proses sal hiervoor gedoen word) sowel as 'n 1x 180km Mookodi - Mahikeng 400Kv kraglyn wat binne die voorgestelde omvang van hierdie OIA Proses val.

3. PROJEK LIGGING

Die projek is geleë in die Naledi Plaaslike Munisipaliteit (PM), Kagisano-Molopo PM, Ratlou PM en Mahikeng PM in die Noordwes Provinsie. Die voorgestelde alternatiewe roetes vir die kraglyn begin in Vryburg by die bestaande Mookodi Hoof Transmissie Substasie en beweeg in 'n noordoostelike rigting om naby Mahikeng by die voorgestelde Mahikeng substasie terrein te eindig. (sien figuur 1)

Figuur 1: Liggingskaart

4. PROJEK OORSIG

4.1 DOEL VAN DIE PROJEK

Die Mookodi – Mahikeng 400kV kraglyn is veronderstel om elektrisiteit na die nuwe Mahikeng Substasie, oor te dra. Die voorgestelde Pluto – Mahikeng 400kV kraglyn (aparte OIA Proses) wat deel vorm van die omvang van die netwerkstelsel in sy geheel, sal die betroubaarheid van die Watershed Substasie, wat onvoldoende is om die groei in die aanvraag in Mahikeng te ondersteun en te voorsien, verbeter. (Figuur 2)

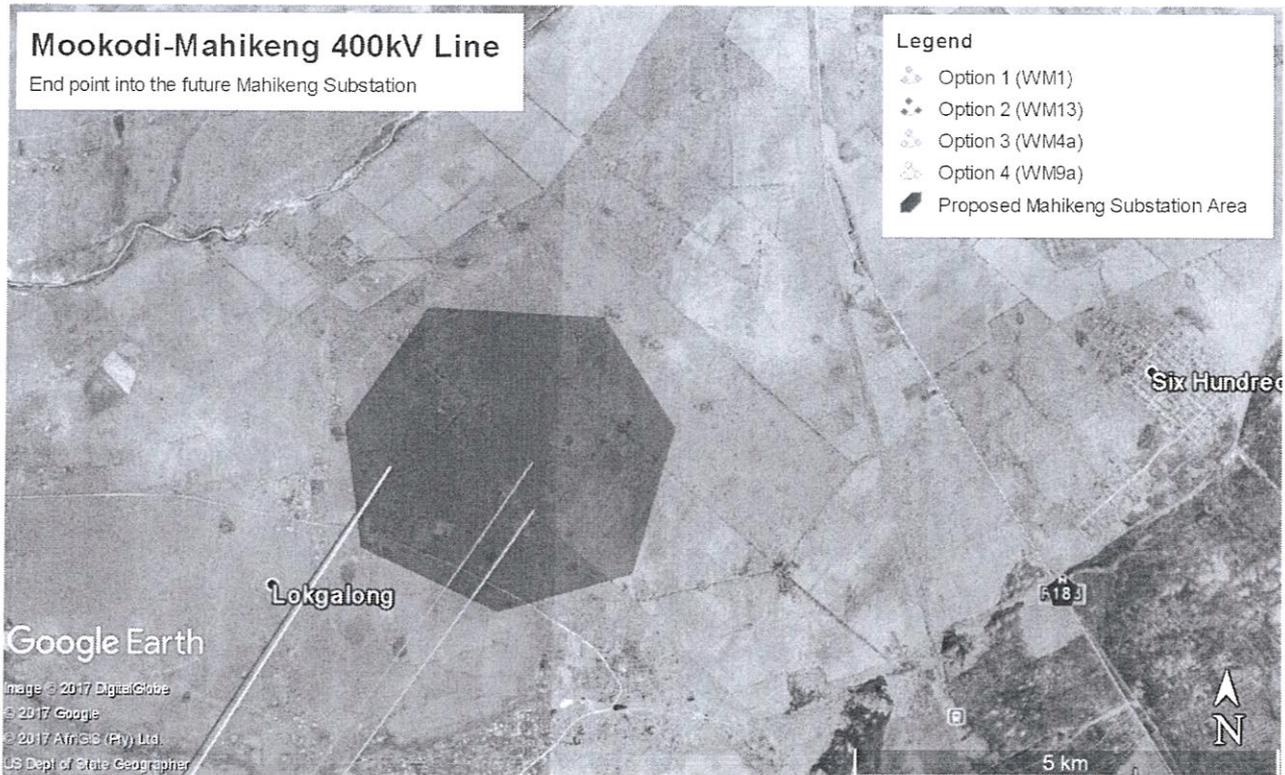

Die studie is afhanklik van die die voorgestelde Mookodi en Ngwedi substasies wat die Watershed vraag met ongeveer 180MW teen die jaar 2021 sal verminder, waarvan 100MW na Mookodi en 80MW na Ngwedi substasie sal gaan. Hierdie vragverskuiwings van Watershed sal verligting bring, hoewel dit onvoldoende is om die vaste kapasiteit in die 20 jaar beplande horison, te herstel. Daar is egter 'n projek om 'n 250MVA 275/132kV transformator en kapasitor banke op die 88kV en 132kV bus teen 2021 te installeer wat in die korttermyn Watershed se vaste kapasiteit sal verbeter. Die groei in aanvraag in Mahikeng en die tekortkominge van die bestaande Watershed substasie veroorsaak die behoefte aan die nuwe transmissie insputting wat by die vragentrum gevestig sal word om die nuwe vrag te akkommodeer, Watershed se vrag te verminder en in lyn te bring met die langtermyn strategiese siening vir plaaslike handel.

4.2 SCOPE OF WORK

Die voorgestelde ontwikkeling sluit 'n ongeveer 180km transmissiellyn vanaf die bestaande Mookodi substasie in Vryburg (Figuur 3) na die noordoostelike eindpunt naby Mahikeng by die voorgestelde Mahikeng substasie terrein in (Figuur 4). 'n 2km serwituuat vir elke roete is van toepassing (1km aan albei kante). Hierdie uitgebreide studie-area maak voorsiening vir enige afwykings van die voorgestelde belying van die kraglyne in hierdie gang, wat nodig mag wees as gevolg van bevindings van die Spesialisstudies, uitkoms van Eskom samesprekings met grondeienaars en tegniese vereistes.

Die volgende sal gebruik word as 'n standaard vir die verwydering van plantegroei vir die nuwe kraglyne met 'n nominale spanning van 220 tot 765 kV vir toegangsdoeleindes (inspeksies, herstel en instandhouding), veiligheidsdoeleindes en vir die voorkoming van veldbrande in serwitute en gebruiksregte:

- Serwituuat boubeperking wydtes (gemeet vanaf die middel van die kraglyn) is 22m tot 40m.
- Skoongemaak vanaf die middel van die kraglyn tot by die buitenste geleier, plus 'n addisionele 10 meter aan albei kante.

Figuur 4: Eindpunt by Voorgestelde Mahikeng Substasie

Daar is drie hoof toring tipes wat vir 400kV lyne gebryk word:

1. Guyed-v (Figuur 5)
2. Cross- rope (Figuur 6)
3. Bend/Strain (Figuur 7)

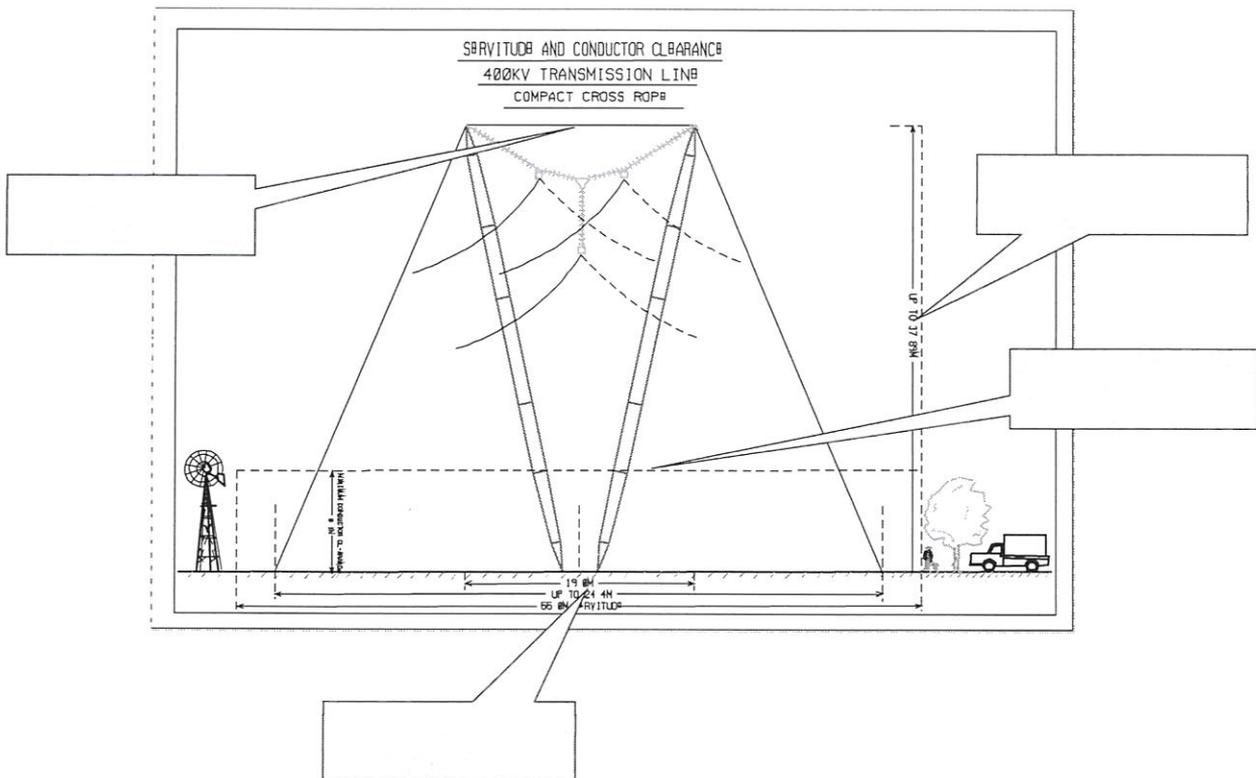

Figure 5: Geankerde "Guyed-v" Tipe Toring

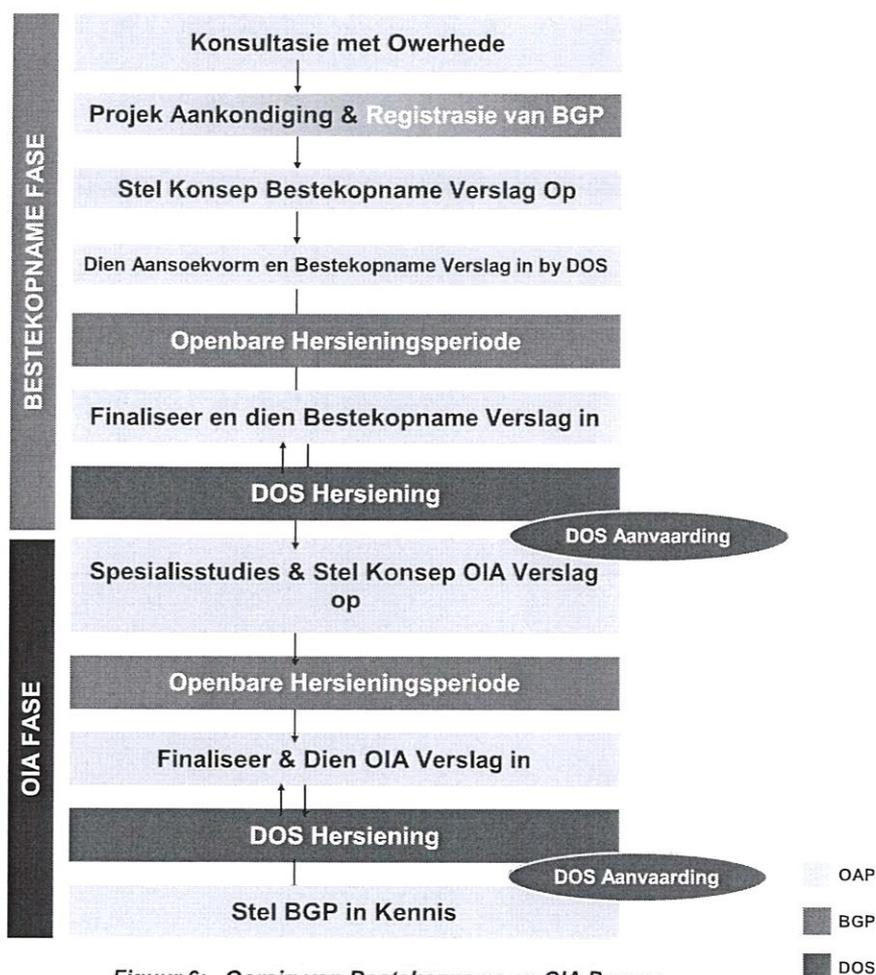

5. OMGEWINGS ASSESSERING

5.1 OIA INISIEËRDERS

Die voorgestelde projek vereis omgewingsgoedkeuring in terme van die OIA Regulasies van 2014 (soos aangepas) wat gepromulgeer is in terme van die Nasionale Omgewings Bestuurswet (NOBW), 1998 (Wet Nr. 107 van 1998). Bestekopname en Omgewingsevalueringsproses, geïnisieer deur regeringskennisgewings (SK) Nr. R. 983, 984 en 985 word geassosieer met hierdie projek. Die gedetailleerde lys van aktiwiteite sal ingesluit word by die aansoekvorm en bestekopname verslag.

5.2 OIA PROSES

In terme van die Nasionale Omgewings Bestuurswet, is die hoof besluitnemingsgesag vir hierdie omgewings impakassessering die Departement van Omgewingsake (DOS) aangesien die projek voorsteller (Eskom) ten volle deur die Suid-Afrikaanse regering besit word. Nemaï Consulting is deur Eskom aangestel om op te tree as die Onafhanklike Omgewingsassessor Praktisyn (OAP) om die vereiste OIA Proses vir die projek te bestuur, in ooreenstemming met SK Nr. 982 van die 2014 OIA Regulasies (soos aangepas). Gebaseer op die gelyste aktiwiteite wat deur die projek veroorsaak word, sal 'n Bestekopname en Omgewings evalueringsproses uitgevoer word (soos voorsien in **Figuur 6** hieronder).

Figuur 6: Oorsig van Bestekopname en OIA Proses

5.3 SPESIALISSTUDIES

Die aard en omvang van die spesialisstudies wat uitgevoer sal word vir die doel van die OIA sal tydens die Bestekopname fase bepaal word. Op hierdie stadium is die volgende spesialisstudies geïdentifiseer:

- Terrestriele Ekologiese Assessering
- Erfenis Impak Assessering
- Water en Vleiland Assessering
- Landbou Impak Assessering
- Visuele Impak Assessering
- Sosiale Impak Assessering
- Ekonomiese Impak Assessering
- Voëllewe Impak Assessering

Addisionele studies kan geïdentifiseer word soos die OIA Proses verloop. Verskeie tegniese studies sal ook onderneem word.

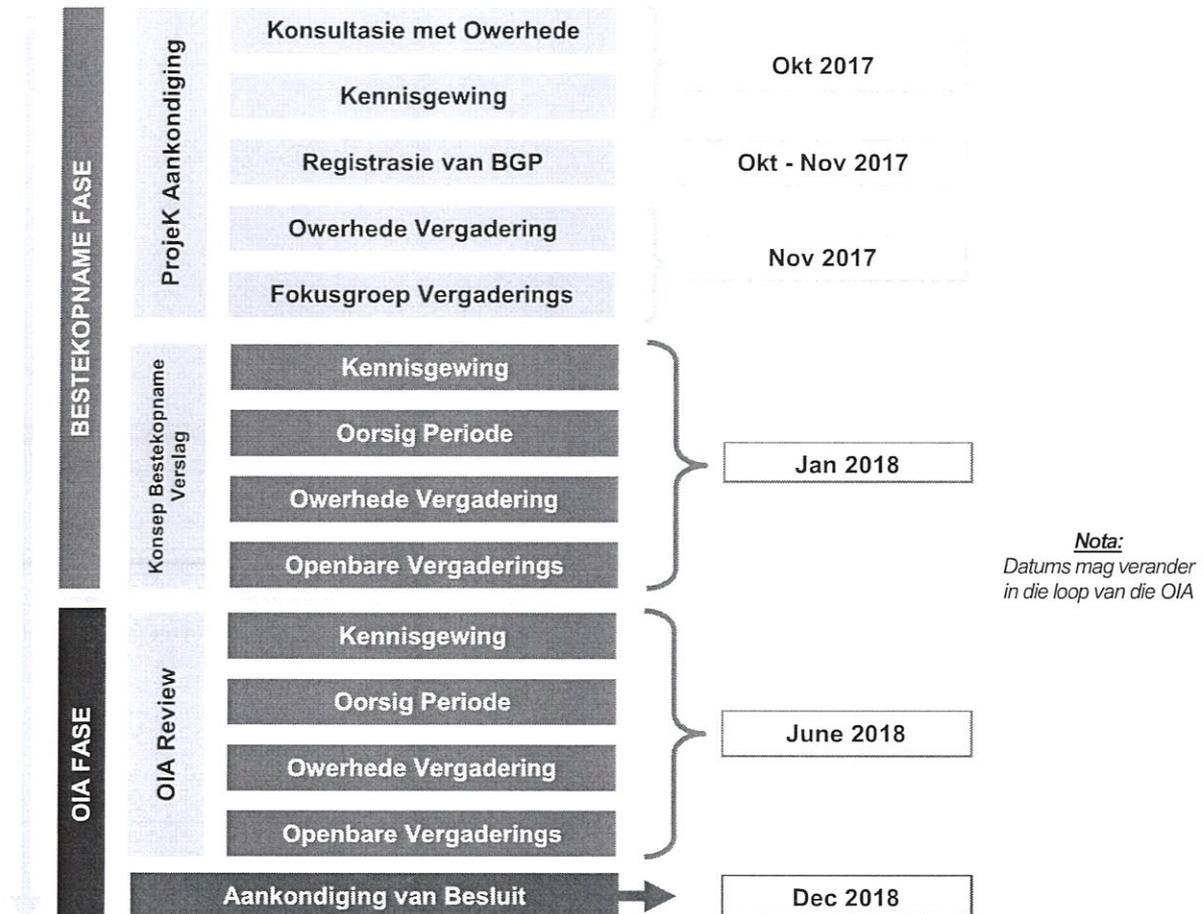

5.4 ALTERNATIEWE

Vier alternatiewe roetes sal in ag geneem word as deel van die Bestekopname- en Omgewings impakassessering proses naamlik: (1) Opsie 1 (WM1), opsie 2 (WM13), Opsie 3 (WM4a) en Opsie 4 (WM9a).

5.5 HOE KAN JY BETROKKE RAAK?

5.5.1. Oorsig van die openbare deelname proses:

Die onderstaande diagram gee 'n uiteensetting van die openbare deelname proses as deel van die Bestekopname- en Impakstudie fases:

Figuur 7: Oorsig van Openbare Deelname Proses

5.5.2. Registrasie as 'n Belanghebbende en Geaffekteerde Party (BGP)

Om as 'n belanghebbende en geaffekteerde party te registreer en om enige kommentaar of bekommernisse te opper, voltooi asseblief die aangehegte antwoordstrokie en stuur dit aan Nemaï Consulting.

5.5.3. Openbare Vergaderings

'n Reeks Fokusgroep en openbare vergaderings sal georganiseer word en geregistreerde belanghebbende en geaffekteerde partye sal na die vergaderings uitgenooi word.

6. KONTAKBESONDERHEDE

Vir enige navrae in verband met die projek, kontak asseblief die onderstaande Omgewingsassessor Praktisyn:

Re: Fw: 10645-Mookodi-Mahikeng 400kV Powerline: Landowner Maps

To: Kristy Robertson

You replied to this message on 08/03/2018 12:18 PM.

Hallo Kristy.

My wife's e-mail: mvosser@lantic.net

My e-mail: jannie.vosser1@gmail.com

Thanks for sending us the maps, it helps.

It is , however , far from adequate.

We need a total overview of all 4 options relative to farm portions , to be of any help in informing neighbours and acquaintances that will be affected.

As was stated today , a high resolution map , that one can enlarge adequately to see the farm portions , will suffice.

Regards,

Jannie Vosser.

Proposed Eskom power line

To Kristy Robertson

You replied to this message on 08/03/2018 12:46 PM.

Hi Kristy

Just to confirm. My property's official name is : portion 6 of Portion 1 of the farm Rependal 581. In Eskom records you shall find the name Boston (no idea where that came from) We call it Tuiskoms. It is located 7km on the lefthand side of the Beeso road – the dirt road. I.e. bout 11km from town (4km tar and 7km dirt)

Please let me have a map or something showing where the proposed line goes in relation to my place. I have only one borehole that serves the whole place.

Regards

Anton Vercueil

Hi Kirsty
Thank you but I understand absolutely nothing of it. Which of the funny lines are power lines? Why so many different lines? (Green ones, black ones, others that look like ropes). Which of the four options is this? Please let me know what is what

PER MAIL / E-MAIL

Dear Ms Robertson

COMMENTS ON THE DRAFT SCOPING REPORT FOR THE PROPOSED DEVELOPMENT OF THE MOOKODI-MAHIKENG 400KV POWERLINE, WITHIN THE NORTH WEST PROVINCE.

The draft Scoping Report (SR) dated February 2018 and received by the Department on 08 February 2018, and the acknowledgement letter of the application form and the draft SR issued by this Department on 09 February 2018 refer.

This Department has the following comments on the abovementioned application:

- a) Listed activities
- Activity 12 and 14 of GN R.985 (as amended): The activity is quoted incorrectly on the application form, as GN R.984. The project activity description must be amended to correct the error.
 - Activity 12 of GN R.983 (as amended) and 14 of GN R.985 (as amended): The size of the tower footings that will be within the watercourses must be determined and the project activity description must be amended to include the total threshold in square metres.
 - Please submit an amended application form with the changes indicated above.
- b) Comments and Response Report
- Where possible, please indicate the transmission route alternative(s) the Interested and Affected Parties (I&APs) are referring to, when commenting.

c) Public Participation Process

- Please include the South African Heritage Resource Authority (SAHRA) on the list of Interested and Affected Parties (I&APs), as they have jurisdiction in respect of the proposed activity, as an organ of state, and must be given an opportunity to comment.
- Proof of submission of the draft SR to all organs of state which have jurisdiction in respect of the proposed activity must be included in the final SR.
- Please ensure that copies of original comments received from I&APs and organs of state, which have jurisdiction in respect of the proposed activity are submitted to the Department with the final SR. Should you be unable to obtain such comments, proof should be submitted to the Department of the attempts that were made to obtain the comments;
- All issues raised and comments received during the circulation of the draft SR from I&APs and organs of state which have jurisdiction in respect of the proposed activity are to be adequately addressed in the final SR, including comments from this Department, and must be incorporated into the Comments and Response Report;

General

You are further reminded that the final SR to be submitted to this Department must comply with all the requirements in terms of the scope of assessment and content of Scoping reports in accordance with Appendix 2 and Regulation 21(1) of the EIA Regulations, 2014, as amended.

Further note that in terms of Regulation 45 of the EIA Regulations 2014, as amended, this application will lapse if the applicant fails to meet any of the timeframes prescribed in terms of these Regulations, unless an extension has been granted in terms of Regulation 3 (7).

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No 107 of 1998, as amended, that no activity may commence prior to an environmental authorisation being granted by the Department.

Yours faithfully

Mr Sabelo Malaza

RE: Proposed Eskom power line

To: Kristy Robertson

Hi Kristy

Thank you. I cannot accept that my whole property is taken up.

Regards

Anton Vercueil

From: Kristy Robertson [mailto:KristyR@nemai.co.za]

Sent: Thursday, 08 March 2018 4:14 PM

To: A H VERCUEIL <avercueil@megadial.com>

Subject: RE: Proposed Eskom power line

Hi Anton

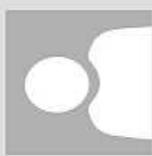

The red block is your property (Portion 6). The Green line is the centre line of the powerline. The green shaded area is the 2km corridor of the powerline. The grey lines (rope lines) are the farm properties.

This is powerline Option 3 (in green on the legend).

Please let me know if I can explain anything else.

Kind Regards,

RE: Proposed Eskom power line

To: Kristy Robertson

You replied to this message on 09/03/2018 12:16 PM.

Hi Kirsty

For me it remains very bad. My property is very small and this has a huge impact irrespective of where it moves within the proposed 2km zone – it remains very bad and unacceptable.

Regards

Anton

Re: Fw: 10645-Mookodi-Mahikeng 400kV Powerline: Landowner Maps

To: Kristy Robertson

You replied to this message on 13/03/2018 02:33 PM.

Hallo Kristy.

Thanks for the maps , it does help.

I could now see that another two of our properties will also be affected by Option 4!

As was stated in the meeting , there are two agricultural unions involved: Agri SA and TAU SA.

We understood from the meeting that a second pair of hard copies of the maps would also be sent to me , as representative of TAU SA .

I undertake to display them for public perusal either at "Stella Suidwes Koop" or at "Stella Diereklieniek" , where most of the farmers in the vicinity visit.

Postal address: DR. MG VOSSER ; STELLA DIEREKLINEK ; STELLA ; 8650.

Physical address: DR. MG VOSSER ; STELLA DIEREKLINEK ; corner of STELLA and PARK STREET (across SUIDWES LANDBOU KOOP) ; STELLA.

Regards

Jannie Vosser.

2.1 Potential issues of concern associated with the project

As duly authorised EJ Mollentze Site No 14/674 and owner of Bernau 14/674, we strongly object to the proposed Mookodi-Mahikeng 400kV power line being constructed in terms of both alternative routes: *Option 2 (WM13) and Option 4 (WM9a) as per the Background Information Document, Figure 1: Locality Map.*

Both these proposed routes dissect the subject property in a very compromising way, constituting a major visual and physical intrusion. The property is not currently fully developed and is being used as a feedlot and residential accommodation for employees of the feedlot. The proposed power line will however severely restrict future development options as it separates the property into two smaller physical portions, while a substantial percentage of current developable land is lost.

The above impact will inevitably reduce the current production and residential value of the property while largely destroying its 'sense of place'.

The inevitable servitudes over the property and adjacent properties to allow access for maintenance and inspections, will further exacerbate the privacy and possibly security of the owner and neighbours.

2.2

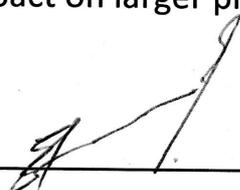

Please keep us informed of progress and the ongoing process.

2.3 Key stakeholders.

Mrs E. J. Mollentze

2.4. General Comments

It is proposed that further investigations be done with the aim of positioning the power line along the **N14**, until it is out of the small holdings area and where the impact on larger properties will be less.

Re: 10645-Mookodi-Mahikeng 400kV Powerline

To: Kirsty Robertson

You replied to this message on 20/03/2018 03:28 PM.

Hi Kirsty

I thank you for your email - sorry for this late reply, but I experienced huge problems with my email and lost alot of info. It appears that all the bugs and issues have been sorted and they managed to recover most of my saved mails.

It would be great if you could make the maps of the 2 properties mentioned below.

Could you please also check if the following properties are affected:

- Portion 12 (Floda) of Ringvlakte 578
- Portion 3 (Martina) of Ringvlakte 578
- Portion 7 (Klippan) of Ringvlakte 578

These properties are neighbouring the bottom 2 properties.

Thanks again for your help and hard work.

Kind regards
 Debre van Dyk

Dear Madam

COMMENTS ON THE DRAFT SCOPING REPORT FOR THE PROPOSED MOOKODI-MAHIKENG 400KV POWERLINE, DR RUTH SEGOMOTSI MOMPATI AND NGAKA MODIRI MOLEMA DISTRICT MUNICIPALITIES, NORTH WEST PROVINCE

1. The Draft Scoping Report (SR) submitted for comments in respect of the above-mentioned proposed Mookodi-Mahikeng 400KV powerline and received by this Department on 07 February 2018 has reference.
2. Following the review of the Draft Scoping report, the Department **does not object to the approval of Scoping Report and plan of study for Environmental Impact Assessment (EIA)** submitted in respect of the above mentioned proposed development. In this regard, this Department recommends that:-
 - a) **All Alternatives** to be equally assessed and the best option to be considered based on the fact that the route has the least impact on any sensitive areas or watercourses.
 - b) No development must take place within the 1:100 year floodline or near any wetland, water pond, stream and any temporary/ permanent water course.
 - c) The poles should be fitted with bird perches on top of the poles to draw birds, particularly vultures, away from potentially risky insulators.
 - d) A draft Environmental Impact Assessment Report which includes all specialist studies undertaken must be submitted to this Department for comments.

It must be stressed to the applicant that construction activities on site must not commence until an Environmental Authorization has been issued.

Please contact this office if you have queries regarding this correspondence.

Yours Faithfully

Ms. Portia Krisjan

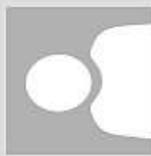

Director: Environmental Quality Management

North West Department of Rural, Environment and Agricultural Development

Geagte Meneer,

i/s: VOORGESTELDE MOOKODI- MAHIKENG 400 KV KRAGLYN, NOORDWES
ONS KLIËNTE: A C HÖLL; OWEN TAUTE; S T WORNER [WALKER
FARMING TRUST]; LAMBRECHT BOERDERY TRUST en MARDALENA
SWANEPOEL

Ons rig hierdie skrywe aan u in opdrag van ons bovermelde kliënte wat plase het tussen ongeveer 10- en 40 kilometer in 'n Noordwestelike rigting vanaf Vryburg.

Volgens die inligting waaroor ons kliënte beskik, is daar 'n moontlikheid dat hulle eiendomme geaffekteer kan word deur die kraglyn en daarom wil hulle registreer as belanghebbende en moontlik geaffekteerde partye.

Volgens ons opdrag is verskillende opsies onder oorweging en sal ons kliënte slegs geaffekteer word indien besluit word op opsie 1. Volgens ons kliënte is opsie 1 weens verskeie logiese redes 'n onwaarskynlike opsie en sal hulle eiendomme heel waarskynlik nie geaffekteer word nie.

Vir ingeval besluit word op opsie 1 en ons kliënte se eiendomme geaffekteer word, is ons kliënte se standpunt dat die serwituut vir die oprigting van die kraglyn geregistreer moet word langs 'n bestaande grens en in verskeie gevalle langs 'n spesifieke bestaande grens. Wat betref mnr A C Höll, me M Swanepoel, mnr O P Taute en Lambrecht Boerdery Trust is dit ons kliënte se

standpunt dat hulle om verskeie redes onherstelbare skade sal ly indien die serwituut nie geregistreer word langs die oostelike grens van hulle eiendomme nie. Vir ingeval beplan word om die serwituut te registreer nie langs 'n grens nie en in die gevalle hierbo genoem nie langs die oostelike grens van die eiendomme nie, behou ons kliënte die reg voor om hulle standpunt hieromtrent volledig te motiveer.

Geliewe ontvangs te erken en ons op hoogte te hou met verdere verwikkelinge.

**Die uwe
VENTER BOOYSEN & FERREIRA**
