NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

PUBLIC PARTICIPATION PROCESS

DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY, KWAZULU- NATAL PROVINCE

Project Name:

- » Richards Bay Combined Cycle Power Plant (CCPP)

Applicant:

- » Eskom Holdings SoC Ltd (Eskom)

Proposed Activity: The development of a Combined Power Plant (CCPP) with a generating capacity of up to 3000MW. The power plant will operate as a baseload and mid-merit system and will include the following main infrastructure:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.

Location: The development is proposed on Portion 2 and Portion 4 of Erf 11376 which is situated within Phase 1D of the Richards Bay Industrial Development Zone (RIDZ) located approximately 6km south west of Richards Bay and 4km south west of Alton. The project site is situated in the City of uMhlatuze Local Municipality which falls within jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province.

Application for Environmental Authorisation: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations (2014), as amended on 07 April 2017, of GN R324 to GN R327, a Scoping and EIA is required to be undertaken for the proposed project.

Public Involvement Process: Savannah Environmental is undertaking the required environmental assessment and public participation process. To obtain further information and register on the project database, please submit your name, contact information and interest in the project, in writing, to Savannah Environmental:

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS AND AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY, KWAZULU-NATAL PROVINCE (DEA Ref. No.: To be Issued)

Project Name: Richards Bay Combined Cycle Power Plant (RB CCPP)
Applicant: Eskom Holdings SoC Ltd (Eskom)
Location: The development is proposed on Portion 2 and Portion 4 of Erf 11376 which is situated within Phase 1D of the Richards Bay Industrial Development Zone (RIDZ) located approximately 6km south west of Richards Bay and 4km south west of Alton. The project site is situated in the City of uMhlathuze Local Municipality which falls within jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province.
Proposed Activity: The development of a Combined Cycle Power Plant (CCPP) with a generating capacity of up to 3 000MW on a project site with an extent of 71ha. The development area will be up to 71ha in extent.
Environmental Impact Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations (2014), as amended on 07 April 2017, of GN R324 to GN R327, a Scoping and EIA is required to be undertaken for the proposed project. The Scoping Report was accepted in November 2017 and the application subsequently lapsed. Eskom has resubmitted the application to continue at the initiation of the Environmental Impact Assessment Phase, in accordance with Regulation 21(2)(a) of the EIA Regulations 2014, as amended, since the findings of the scoping report remain valid and the environmental context has not changed.
Environmental Impact Assessment Report Available for Review: The EIA Report is available for review and comment. The report can be viewed at the following public places:

VENUE	ADDRESS	CONTACT DETAILS
Richards Bay Public Library	No. 5 Kruger Rand Road, Richards Bay	035 907 5846
Empangeni Public Library	Cnr Union & Maxwell Streets, Empangeni	035 907 5592

The review and comment period of the EIA Report is from **Sunday, 24 March to Friday, 26 April 2019**. The report is also available for download from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>) and Eskom website (<http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/RichardsBayCCPP/Pages/default.aspx>). The due date for written comment is **Friday, 26 April 2019**.

WINNERS of the 2019 Port Natal Pro10 championship John Barry and Colin Best from Parkhill Bowling Club.

Best and Barry quickest on the Pro10 draw

CHERYL WATERMAN
wentworthbowls@gmail.com

LAST weekend saw the 18 section winners in the Pro10 tournament play through to the final at Amanzimtoti Bowling Club.

The whole idea of the Pro10 system is to break from tradition and introduce a fast, fun-filled format that encourages players to draw with the two bowls they play each end over 10 ends. With the first four bowls counting, a total score of 10 points is up for grabs each end, amounting to a possible 100 points per game.

In much the same way as T20 has changed the face of cricket, the Pro10 is very much a quick adventure and if you blink, the game is over. Strategy and tactics are critical and drawing skills are vital. Whilst the temptation might be there for a running shot, the impact of missing effectively reduces your team's chances by 25 percent, so bowlers think carefully before they attempt the bold shot.

The final was contested between Colin Best and John Barry from Parkhill Bowling Club and

Louise Larkin and Glenda Matthews from Stella Park Bowling Club. In a game that went to the wire, the gap in score was always minimal, but in the 10th end Best and Barry drew the crucial shots to take the game 51-49 and have their names etched on the trophy for 2019.

From tomorrow to Sunday, the upper echelon of Port Natal bowlers will compete in the Open and Senior Masters tournaments to determine the ultimate singles champions in the district.

The men's open and senior players will compete at Stella Park BC and the women's sections at Parkhill Bowling Club.

Competition at this level is fierce and spectators are assured of some hard-fought games as competitors approach each game with victory in mind.

While lawns bowls has traditionally been a sport favoured by our more "mature" citizens, this is now a thing of the past.

With the nationwide drive initiated by Bowls South Africa through their Sport4Life campaign, bowls has recently enjoyed a surge of popularity among people of all ages and has become far more accessible.

In keeping with the ethos of the campaign, Durban Bowling Club is hosting a 'Teacher's Day' starting at 2.30pm tomorrow. The object is to expose teachers to the physical and mental benefits of the game and thereby have them encourage their learners to participate in the healthy pursuit. Interested schools can contact Brian King on 083 2587081.

Participants will find the game improves heart and respiratory fitness, strengthens and conditions arms, shoulder, chest and leg muscles, and increases endurance while maintaining bone density. Amazingly, a lawn bowler will utilize 134 muscles during their step forward and delivery of the bowl and burn roughly 240 calories every hour of play.

The Junior Masters tournament will take place on August 31 and September 1 at Westville Bowling Club and not at Westville Country Club as previously reported.

Cyclists race in honour of Mandela

TIM WHITFIELD

MOUNTAIN bikers will have their annual opportunity to celebrate the life of the father of the nation when the Mandela Day Marathon MTB Dash takes place on Saturday, August 24 at the Mandela Capture Site near Howick.

The mountain bike races are part of the weekend of events that include a road running marathon, trail runs, a fun run and a triathlon, all taking place in honour of Nelson Mandela.

Mountain bikers have the choice of a 42km race, a 21km event or a 10km fun ride.

This year all three events have been opened up to E-Bikes which will allow the growing band of power-assisted riders to be part of the celebration.

The prizes for the top riders are R10 000 each for the winning male and female elite riders.

Last year Matthys Beukes, who earlier this year won the Queen stage of the Absa Cape Epic, fought a race-long battle with Howick local Stuart Marais before making the race-winning break on a short climb 2km from the finish of the 42km race.

After last year's race, Beukes summed up what the Mandela Day MTB Dash means to the mountain biking community: "Riding a race with the Mandela name means a lot to me. I was inspired enough to make the effort of driving from George to Cape Town and sleep over for a night there before flying to Durban and then on to Howick to do an event I have never raced before."

Former Pietermaritzburg resident Candice Lill, who has recently been notching up great results on the international World Cup circuit, was in a class of her own last year as she secured a big win over the experience Jeannie Dreyer, with schoolgirl Tiffany Keep third.

All the Mandela Day MTB Dash events start and finish at the capture site in Lions River.

"The Mandela Day Marathon MTB Dash provides mountain bikers with a perfect opportunity to honour one of South Africa's greatest international icons, while also enjoying a superb day of riding," said race director Alec Lenferna from KZN Cycling.

The Mercury Hibberdene Children's Holiday Home invites you to the
A 99 YEAR HERITAGE
ELAN GOLD CUP
Join us for a scrumptious lunch by Eat Greek, afternoon snacks, live entertainment, lucky draws and goodie bags for all.
Date: Saturday, 27 July | Time: 11am
Venue: Sea Cottage Room, Greyville Racecourse
Dress: Black and white with a touch of gold
Price: 650pp
STARTER PLATTERS - On each table: Tiropites, Greek three cheese puffs, tikka chicken kebabs, dainty meatballs with a light yoghurt cucumber, mint dip, delicate spinach and feta phyllo triangles, caramelised onion hummus with skinny bruchetta herbed toasts
MAIN COURSE, buffet style: Butter chicken curry with an array of sambals, toasted coconut pappadums and a banana cream sambal, tender lamb & feta capped with crispy phyllo rosettes, moroccan vegetable phyllo parcel with hummus & cranberries topped with a honey drizzle and crushed pistachio nuts
DESSERT BUFFET: Bougatsa, baklava bites, fresh fruit kebabs, dainty macaroons, mini croquemouche, a tower of assorted éclair puffs
Cash bar available
All proceeds go to The Mercury Hibberdene Children's Holiday Home
For bookings contact:
Zubenathi Majiba on 031 308 2578 or zubenathi.majiba@inl.co.za
There will be an exclusive draw to win a weekend away for two at Sibaya

Reg. No. 1989/004672/07

**NOTICE OF AVAILABILITY OF THE REVISED ENVIRONMENTAL
IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**
**DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE
POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE
ON A SITE NEAR RICHARDS BAY, KWAZULU-NATAL PROVINCE**
(DEA Ref. No.: 14/12/16/3/3/2/1123)

Project Name: Richards Bay Combined Cycle Power Plant (RB CCPP)

Applicant: Eskom Holdings SoC Ltd (Eskom)

Proposed Activity: The development of a Combined Cycle Power Plant (CCPP) with a generating capacity of up to 3 000MW on a project site with an extent of 71ha. The development footprint will be up to 52ha in extent.

Location: The development is proposed on Portion 2 and Portion 4 of Erf 11376 which is situated within Phase 1D of the Richards Bay Industrial Development Zone (RIDZ) located approximately 6km south west of Richards Bay and 4km south west of Alton. The project site is situated in the City of uMhlathuze Local Municipality which falls within the jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province.

Environmental Impact Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations (2014), as amended on 07 April 2017, of GN R324 to GN R327, a Scoping and EIA is required to be undertaken for the proposed project.

Subsequent to the release of the EIA Report in March 2019 (the review period was from Sunday, 24 March to Friday, 10 May 2019), the EIA Report has been updated with additional information. This updated report is the revised EIA Report.

Availability of the revised Environmental Impact Assessment Report for Review and Comment: The revised EIA Report is available for review and comment from **Wednesday 24 July 2019 to Monday, 26 August 2019**. The revised EIA Report is also available for download from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>) and the Eskom website (<http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/RichardsBayCCPP/Pages/default.aspx>). The due date for written comment is **Monday, 26 August 2019**.

To submit written comments, obtain further information or register on the project database please submit to the contact person below.

• VACANCIES •

VACANCY
CONDITION MONITORING TECHNICIAN – C3

Applications are invited from suitably qualified applicants. Reporting to the Reliability Engineer, the successful incumbent will be responsible for the following:

Responsibilities and Duties:

During season:

- Takes vibration readings of rotation machinery within the factory, with particular emphasis paid to machinery that will stop production, with the aid of a vibration analyser which is able to store vibration data so the data can be analysed at a later stage
- Analyse the stored vibration readings by downloading the captured vibration data to P.C. which contains a programme to assist with the analysis of the stored vibration spectrum
- Issues Work Orders to First Line Managers, after the vibration readings have been analysed, highlighted any abnormalities of rotating machinery in their sections. The First Line Managers can then plan to investigate and repair any reported problems
- Compiles weekly reports for the machines that have been monitored during that week, stating the presumed faults associated with the machinery and the outstanding machinery problems
- Balances fans and other rotating machinery that may be unbalanced, with the aid of a balancing programme contained within the vibration analyser
- Carries out alignment to critical rotating machinery, with the aid of the laser alignment instrument
- Ensures that the oil analysis representative is booked on a monthly basis during the Crushing season and liaises with him to ensure that the correct oil samples are taken in the correct manner
- Carries out Root causes Analysis on equipment failures in the Factory.

During Off Crop:

- Co-ordinates the thickness testing results of vessels tested with the thickness tester and compiles and files the results of these tests
- Balances fans and other rotating machinery within the factory prior to start-up, after these machines have been refurbished
- Carries out laser alignment to critical machinery once they have been refurbished
- Review Condition Based maintenance related work identified prior to Off-Crop and trouble shoot failures with equipment suppliers
- Interacts with 3rd party Condition Based Maintenance consultants and ensures their records are captured and filed in the correct manner.

Ideal Requirements:

- N3 Mechanical Trade Test
- Recognised CMMS programmes
- Basic Computer literacy
- Preferably Sugar Industry knowledge and 5-10 years' plant experience
- At least 5 years Mechanical Maintenance experience
- Electrical Maintenance experience will be an added advantage.

Applications should be forwarded to: Human Resources Department: E-mail: mvilakazi@gledhow.co.za

CLOSING DATE: 30 July 2019

Should you not receive any response within one month of this closing date, please consider your application as having been unsuccessful.

Lag dat die trane loop – miljoene kere per dag

Gebruikers van sosiale media kan nou kies uit meer as 2 800 emoji's om in teksboodskappe te gebruik nadat 157 nuwe emoji's verlede jaar by die rits oulike, kleurrike ikone gevoeg is.

As deel van Internasionale Emoji-dag – wat sedert 2014 jaarliks op 17 Julie gevier word – is 2018 se beste nuwe emoji aangewys. Dis dié van 'n karakter wie se kop ontplof. Die Emoji van die Jaar is die denker-gesiggie. Onder 2018 se nuwe emoji's is rooikoppe, 'n kangaroo en 'n kreef. Gebruikers van sosiale media kan deur emoji's wys hulle is bly, verstom, eet pizza, of dit sneeu of reën. Daar is selfs ikone vir satelliet-antennas, Japannese poppies, handeroombottels, doekspelde en blikkieskos.

Sover bekend is die eerste emoji's in 1999 geskep, maar dit word eers sedert 2011 algemeen gebruik. Vandag word 5 miljard emoji's daagliks net via Facebook Messenger gestuur.

Twitter-statistieke wys 86% van emoji-gebruikers is jonger as 24 jaar en 57% is vroue. Internasionale Emoji-dag is die geesteskind van Jeremy Burge, die skepper van Emojipedia ('n ver wysings-webblad waar die betekenis van die ikone verduidelik word). Hy het met die idee vorendag gekom omdat die kalender-emoji op iPhones die datum "17 Julie" wys, het *The New York Times* berig. **Saamgestel uit Time-webblad**

Daar is 'n emoji vir enigiets – selfs vir Emoji-dag

Sedert 2014 word die gebruik van die skattige prentjies in boodskappe op sosiale media op 17 Julie gevier. Daar is meer as 2 800 emoji's om van te kies.

Die gewildste emoji op Twitter is "Face with Tears of Joy"

10 gewildste emoji's op Apple (2017)

Bronne: www.worldemojiday.com, www.macrumors.com, blog.getemoji.com

Meer as 900 miljoen emoji's sonder teks word elke dag via Facebook Messenger gestuur

Meer as 700 miljoen emoji's word elke dag op Facebook geplaas

Van 2018 se nuwe emoji's

2018 se beste nuwe emoji: "Exploding Head"

2018 se emoji van die jaar: "Thinking Face"

THEUNIS KRUGER, Grafika24

Riana de Lange

Die regte plastiekverpakking kan die raklewe van beesvleis met tot ses dae verleng, en slegs 1,5 g se kleefplastiek kan 'n komkommer vir 14 dae vars hou, pleks van drie dae daarsonder.

Internasionale navorsing toon ook 27% minder appels word weggegooi as dit in 'n plastiek-vrugteskinkbord verpak word as wanneer dit los verkoop word.

Omgewingsbewustes en organisasies soos die Wêreldnatuurfonds waarsku egter dat plastiekbesoedeling so erg is dat daar teen 2050 meer plastiek (volgens gewig) in die see kan wees as vis.

'n Geraamde 3% van die wêreld se plastiekafval beland elke jaar in die see. In 2010 het die plastiek in die see reeds sowat 8 miljoen ton beloop, luidens ourworldindata.org.

Kennerse egter plastiekverpakking is noodsaaklik vir voedselbewaring. Eie om weg te doen met alle plastiekverpakking vir kos om die omgewing te bewaar, moet dus omsigtig benader word.

Dr. Suzan Oelofse, 'n WNNR-navorsers oor voedselvermorsing, sê 'n geraamde 10 miljoen ton eetbare kos word jaarliks in Suid-Afrika vermor.

Die plastiekverpakking van piesangs absorbeer etileen (die verouderings-hormoon) om die raklewe te verleng en is een voorbeeld van hoe verpak-

Plastiek is toe nie nét sleg nie

Navorsing wys dit verleng kos se lewe, keer vermorsing

'n Man kyk op 30 Junie vanjaar na die plastiekrommel wat ná 'n groot storm op die Juhu-strand in Mumbai, Indië, uitgespoel het. | FOTO: GETTY IMAGES

king 'n groot rol speel in die beskerming van voedsel tydens verspreiding en uitstalling, sê sy. Plasties SA, wat alle sektore van die

plaaslike plastiekbedryf verteenwoordig, sê benewens dat plastiek help om talle produkte langer vars te hou, beskerm dit produkte tydens die vervoer-

en-stoorproses, en teen bakterieë en temperatuurveranderinge. Volgens Plasties SA is plastiekverpakking verantwoordelik vir net 0,6% van verbruikers se gemiddelde koelstofvoetspoor.

Monya Vermaak, woordvoerder van Plasties SA, sê die wetenskaplike feite oor plastiek is belangrik omdat sommige anti-plastiek-aansprake nie op geloofwaardige navorsing gegronde is nie, maar paniek probeer stook.

Plastics Europe het in 2018 bevind die regte plastiekverpakking kan die raklewe van vars produkte in baie gevalle verdriedubbel. So is die verlies in die winkel aan druive en bessies wat in plastiek-vrugteskinkbode of sakkies verkoop word, 20% minder as wanneer dit los verkoop word.

Die breekskade van eiers in plastiekhouers is 80% laer as met alternatiewe

verpakkingsmateriaal.

Vermaak sê omdat plastiek dieselfde chemiese samestelling het ongeag waar in die wêreld dit gebruik of vervaardig word, is die data ewe toepaslik vir Suid-Afrika. Plaaslik werk Plasties SA saam met die WNNR om navorsing op kleiner skaal te doen.

Oelofse sê plaaslike studies wys meer as 50% van kosvermorsing vind in huishoudings plaas en sowat 20% gedurende die verwerkingsproses. Dit is hier waar plastiekverpakking 'n belangrike rol kan speel.

Baie anti-plastiek-kampvegters sê kos wat hul eie natuurlike beskerming het, kan maklik vervoer word sonder die nodigheid vir enkelgebruik-plastiekverpakking.

Oelofse sê navorsing wys egter dís net in gevalle waar vars produkte nie ver vervoer moet word nie en waar daar min tussengangers is.

Hoewel boeremarkte, gemeenskaps-gegronde producente en mandjie-aflerings help om vars, onverpakte produkte te verbruikers te kry, is die uitdaging om dit op 'n groot skaal en steeds ekonomies lewensvatbaar te doen, sê Oelofse.

Die Europese navorsing toon ook die verpakking van kos in enigiets anders as plastiek maak dit tot 360% swaarder.

Dit lei dus tot hoër energieverbruik en die vrystelling van meer kweekhuisgasse in die vervoer daarvan.

Trump en Huawei: 'SA kan erg skade ly'

Johan Eybers

Suid-Afrika se ekonomie kan groot skade ly as die land voldoen aan Amerika se eise om die gebruik van Huawei se tegnologie hier te verbied. Huawei is die wêreld se grootste verskaffer van netwerktoerusting aan die telekommunikasiebedryf en al Suid-Afrika se selfoonnetwerke gebruik Huawei-tegnologie.

Huawei is steeds op die Amerikaanse handelsdepartement se ampelike "swartlys", al het pres. Donald Trump sy aanvanklike algehele verbod op enige handel met dié maatskappy teruggetrek. Soos dit nou staan, mag Amerikaanse maatskappye nie Huawei se netwerktoerusting gebruik nie. 'n Paar van Amerika se bondgenote soos Australië en Japan het soortgelyke beperkings teen Huawei ingestel, nadat die Amerikaanse intelligensiediens dreig het om nie intelligensie met lande te deel wat Huawei se netwerktoerusting gebruik nie.

ander lande soos Duitsland en Brittanje weeg steeds die geopolitieke implikasies hiervan op, terwyl lande soos Thailand en Suid-Korea nes Suid-Afrika weier om gehoor te gee aan Amerika se versoek. Pres. Cyril Ramaphosa het twee weke gelede Amerika se verbod as blote jaloesie bestempel omdat Huawei glo die res van die wêreld ver voor is met die uitbreiding van 5G-netwerke oor die wêreld heen. "Suid-Afrika sal Huawei ondersteun as die maatskappy help om Suid-Afrika na beter tegnologie te neem - en dit is 5G," het Ramaphosa gesê.

Huawei se betrokkenheid by die ontplooiing van 5G-tegnologie stel die Chinese regering in staat om dié nuwegerasietegnologie te oorheers. 5G-tegnologie verskerk dat data blitsvinnig en koordloos oor die internet gestuur kan word. Dit is ondermeer noodsaaklik vir die ontwikkeling van kunsmatige intelligensie en vir bestuurlose motors. Plaaslike selfoonnetwerke het in 'n brief aan Ramaphosa gewaarsku dat dit nadelig vir die ekonomie sal wees as Suid-Afrika Huawei boikot.

Baie van Vodacom, MTN, Cell C en Tel-

kom se netwerke is met Huawei se netwerktoerusting opgerig. Dit verteenwoordig beleggings van miljarde rande.

Huawei verskaf ook netwerktoerusting aan dié operateurs om 5G-netwerke in Suid-Afrika op te rig.

Rain, 'n plaaslike netwerkoepereerder wat slegs data kommersieel verkoop, is een van die eerste netwerke ter wêreld wat sy eie 5G-netwerk op die been gebring het met tegnologie wat deur Huawei verskaf is. Rain maak van Huawei se tegnologie gebruik om 5G-dienste op sy bestaande 4G/LTE-netwerk te lewer.

Arthur Goldstuck, tegnologiekenner en besturende direkteur van World Wide

Worx, sê die Amerikaners is met rede bekommerd oor China se groeiende rol in wêreldwye telekommunikasienetwerke omdat dit hulle moontlik in staat stel om op lande te spioeneer wat hulle as mededingend beskou.

Hy glo egter nie dat die Amerikaners dit sal regkry om ander lande te keer om met Huawei sake te doen nie. "As die Amerikaners van ons verweg om ons bestaande netwerke af te breek wat miljarde rande gekos het, sal dit as die ergste vorm van imperialisme beskou word. Hulle kan daarom ook nie aan die res van die wêreld voorskryf met wille mag sake doen nie."

Goldstuck sê plaaslike maatskappye wat sake doen met Amerika is wel bekommerd oor hoe pres. Trump die kwessie hanteer. "Die Amerikaners is een van ons grootste en belangrikste handelsvennote en ons kan hulle nie bloot ignoreer nie."

Hy sê Suid-Afrika en ander lande se grootste vrees is dat Trump nie omgee oor die onbedoelde skade wat aangerig sal word as hy sou besluit om lande te boikot wat bande met Huawei het nie.

Lumkile Mondli, senior lektor aan die Universiteit van die Witwatersrand se skool vir ekonomiese en sakewetenskap, sê Suid-Afrika kan erg benadeel word indien hy Amerika omkrap omdat hy toegang tot Amerikaanse markte en landbouprodukte en Agoa (die Amerikaanse Wet op Groei en Geleentheid vir Afrika) kan verloor. Handel tussen Suid-Afrika en Amerika het verlede jaar \$18,9 miljard beloop.

'Die Amerikaners is een van ons grootste handelsvennote.'

NOTICE OF AVAILABILITY OF THE REVISED ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY, KWAZULU-NATAL PROVINCE (DEA Ref. No.: 14/12/16/3/3/2/1123)

Project Name: Richards Bay Combined Cycle Power Plant (RB CCPP)
Applicant: Eskom Holdings SoC Ltd (Eskom)

Proposed Activity: The development of a Combined Cycle Power Plant (CCPP) with a generating capacity of up to 3 000MW on a project site with an extent of 71ha. The development footprint will be up to 52ha in extent.

Location: The development is proposed on Portion 2 and Portion 4 of Erf 11376 which is situated within Phase 1D of the Richards Bay Industrial Development Zone (RIDZ) located approximately 6km south west of Richards Bay and 4km south west of Alton. The project site is situated in the City of uMhlatuze Local Municipality which falls within the jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province.

Environmental Impact Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations (2014), as amended on 07 April 2017, of GN R324 to GN R327, a Scoping and EIA is required to be undertaken for the proposed project.

Subsequent to the release of the EIA Report in March 2019 (the review period was from Sunday, 24 March to Friday, 10 May 2019), the EIA Report has been updated with additional information. This updated report is the revised EIA Report.

Availability of the revised Environmental Impact Assessment Report for Review and Comment: The revised EIA Report is available for review and comment from **Wednesday 24 July 2019 to Monday, 26 August 2019**. The revised EIA Report is also available for download from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>) and the Eskom website (<http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/RichardsBayCCPP/Pages/default.aspx>). The due date for written comment is **Monday, 26 August 2019**.

To submit written comments, obtain further information or register on the project database please submit to the contact person below.

Tackling the AI threat head-on

Musk makes good on his concerns over risk of artificial intelligence

By HASAN CHOWDHURY and HANNAH BOLAND

● If you can't beat them, join them. Or if you're Elon Musk, the billionaire boss of private rocket outfit SpaceX and electric vehicle firm Tesla, why not just become them?

The tech mogul unveiled plans this week to implant human brains with computer chips in an effort to merge man with machine, the start of a quest to prevent Silicon Valley's most feared scenario: society's demise at the hands of artificial intelligence.

Musk has long sounded the alarm on AI, claiming that rapid advances in machine learning risk "summoning a demon" that leaves humans in the dust as super-intelligent systems outmanoeuvre our species.

"At least when there's an evil dictator, that human is going to die. But for an AI, there would be no death. You'd have an immortal dictator from which we can never escape," he has warned.

Musk told an audience at the California Academy of Sciences that Neuralink, the private vehicle for this vision, has been testing its "brain-computer interface" on monkeys and rats, and is expected to begin trials on humans by the end of 2020.

The prize at hand is clear, with Neuralink setting its sights on not just competing with AI by accelerating humanity's path towards a future of super-intelligence, but also on solving complex neurological disorders.

Investors are starting to support the vision, with Neuralink, whose technology has barely been tested, raising \$150m (R2.1bn) since its founding in 2016, including \$100m from Musk himself. It has also attracted some of the brightest minds in science.

But others are less convinced. Even for Musk, the task of solving brain disorders and advancing human intelligence is a tall order.

The first hurdle is likely to be a regulatory one. Daniel Mansson, a clinical psychologist, has been working on a "brain stimulation technique" to treat depression with his medical device startup, Flow, and has seen how long the regulatory process can take for

Elon Musk explains his latest project, to implant human brains with computer chips. Picture: Vice

Elon Musk
SA-born technology entrepreneur

something that is non-invasive.

Neuralink's technology is more complex and intrusive. The startup has devised a 4mmx4mm chip that connects to a thousand microscopic threads entering the brain through four holes drilled in the skull.

The threads, tagged with electrodes, could theoretically detect electrical impulses in the brain to track activity in the body's pri-

mary nerve centre, which would then feed back as data on a smartphone. The prospect of human trials by 2020 is likely to be a stretch when the US Food and Drug Administration stands in the way.

The challenge has been acknowledged by Neuralink's president, Max Hodak, who said the company was "under no illusion" about achieving its goal alone and would require help from others. It is unclear, too, how Musk plans on using the chips to enhance human intelligence and solve brain disorders, with no real data presented as yet.

"I think the possibilities for application of the Neuralink technology are pretty limited – it's not going to make us smarter," says David Curtis, a specialist in genetics and psychiatry at University College London.

What is more plausible, Curtis says, is an application in which the brain implants allow patients with things such as locked-in syndrome to "communicate with the outside world", and possibly for people with motor neuron disease to gain better control of arti-

ficial body parts.

A primary driver for Musk has been the "democratisation of intelligence" to ensure humanity is on equal pegging with AI, but not everyone is convinced of a doomsday case – or even the idea that humans and AI will be in direct opposition.

"Fears about an AI takeover are not justified by any research or evidence... the idea of implanting stuff in our brains to keep up with AI is just nonsense," says Noel Sharkey, emeritus professor of AI and robotics at the University of Sheffield.

Alan Turing, the mathematician widely considered a founding father of AI, suggested almost 70 years ago that there is no known reason a computer can't do everything a human brain does. But he also suggested that if machines did eventually compete with people, where would they start?

It is for this reason that Musk's dreams of a "symbiosis" with AI may not be necessary and remain, for now, just a distant possibility. — © The Daily Telegraph

Turning social media into the next mobile banking outlet

Ask anyone in the financial services industry which country has the highest penetration of digital or mobile financial services, and they will typically point to Kenya. The economy of the East African country has been transformed by M-Pesa, launched by mobile network operator Safaricom in 2007. Since then, it has taken financial inclusion in that country from below 10% to well above 70% of the adult population.

But Kenya is not the digital money leader on the continent. Nor is SA. The startling answer is: Zimbabwe. That country's central bank reported in its National Payments System report for the first quarter of this year that a staggering 99.15% of the country's transaction volume for the period was digital.

"The reason is simple," says Brian Richardson, co-founder of branchless banking service Wizzit. "In Zimbabwe, there is almost no cash. The only way you can pay for goods and services is digitally, not because customers want it that way, but out of necessity. There is no choice."

"If cash suddenly became widely available again, would they go back to cash? Once a person has a sense of the convenience of mobile banking, but more importantly the safety, they don't want to go back. I did not find one person who said they would go back to cash."

Wizzit was established in SA in 2004, before the smartphone era began, to provide banking services using short codes, or USSD (unstructured supplementary service data), which even the most basic phones can access. It partners with financial institutions on three continents.

In Zimbabwe, the dominant player is

Arthur Goldstuck

'We believe that the next major wave of payments is in chat banking'

Ecocash, from network operator Econet Wireless. If Richardson has his way, however, Wizzit will be at the heart of the next mobile banking revolution.

"We believe the next major wave of payments is in chat banking. The reason is that people are spending between two and five hours a day on social media and instant-messaging platforms. If you're spending that much time on WhatsApp, doesn't it make sense that you can do basic transactions, where you spend money just by sending a message?"

"Social media is... very much about business. Banks' tech support teams have groups on WhatsApp. They are using social media as a business tool."

The problem is that instant messaging was never designed to be a bearer of sensitive financial information. Efforts to retrofit security to existing channels tend to fail, as most methods of authentication are too complex to provide a seamless user experience.

"If you look at Zimbabwe, why does mobile money work? Because it works with something people understand: a simple PIN entry. We used that principle to develop Authenticator, a PIN-based security tool for chat transactions that satisfies the most stringent compliance demands of any bank," says Richardson.

Wizzit has received a global patent for the system, which allows all debit cards to be used for transactions via chat. That means as many as 18-million South Africans would potentially have access. It may not be enough to replace cash, but it is one step – or chat – closer.

Request for proposal

Request for proposal for prospective service providers to conduct a feasibility study to explore an alternative coin denomination mix for South Africa

Ref. no.: MN01/2019

The South African Reserve Bank (SARB) hereby seeks to appoint a suitable service provider to conduct a feasibility study to explore an alternative coin denomination mix for South Africa.

The request for proposal (RFP) document is accessible on the SARB's website, www.resbank.co.za, under the heading "Procurement@SARB >Open Tenders".

A non-compulsory briefing session will be held at:
The SARB Head Office Building,
370 Helen Joseph Street (previously Church Street),
Pretoria on 31 July 2019.
Time: 13:00pm - 15:00pm.

Closing date and time: 20 August 2019 at 11:30 South African Standard Time (GMT+2).

All enquiries can be addressed to:
Ms Mamokete Nkgau,
Strategic Sourcing Consultant: Operations
Email: Mamokete.Nkgau@resbank.co.za

Electronic Toll Collection

REQUEST FOR BIDS

BIDS ARE HEREBY INVITED FOR THE PROVISION OF ELECTRONIC WORKS MAINTENANCE – CCTV

BID REFERENCE NO: 382-QAS-05-TEN-907467
Electronic Toll Collection (Pty) Ltd Reg No: 2005/003404/07 VAT: 4590223915

THE ELECTRONIC TOLL COLLECTION (PTY) LTD INVITES SUITABLY QUALIFIED BIDDERS TO SUBMIT BIDS FOR THE ABOVE-MENTIONED SERVICE

COLLECTION OF BID DOCUMENTS:
Bid documents can be obtained electronically by sending a request to tenders@etsolutions.co.za or by the compulsory briefing date.

MANDATORY ADMINISTRATION CRITERIA:
• Bidders must be compliant in terms of B-BBEE.
• Bidders must accept ETC's Terms and Conditions.
• Bidders must attend the Compulsory Briefing Session.
• Bidders Tax Matters must be declared in order by SARS.
• Bidders must provide proof of Central Supplier Database (CSD) Registration, and
• Bidders must be registered with PSIRA (Private Security Industry Regulatory Authority) and provide valid proof thereof.

EVALUATION PHASES: Bids will be evaluated in a three (3) phase approach.
Phase 1: Bidders must satisfy the Mandatory Administration Criteria for them to be evaluated further. Bidders who do not meet this criteria will be disqualified and will not be eligible for further evaluation.
Phase 2: Functionality. This is a threshold phase which will disqualify bidders not meeting the minimum threshold per functionality element as indicated in the bid document.
Phase 3: Price and B-BBEE. This phase is based on the 80/20 Preferential Point System as per the Preferential Procurement Policy Framework Act, with 80 points reflecting Price Points and 20 points representing B-BBEE Recognition. ETC will only accept the Department of Trade and Industry criteria as proof of B-BBEE status.

Electronic Toll Collection (Pty) Ltd reserves the right to withdraw, cancel or not award any issued bid

All enquiries regarding this bid are to be directed via e-mail to: tenders@etsolutions.co.za
Enquiries for clarity will close on the 12th August 2019 at 16h00

Electronic Toll Collection (Pty) Ltd urges its clients, suppliers and the public to report any fraudulent or corrupt activity, to:
Free call: 0800 204 558 • E-mail: etoli@sanral.co.za

cbt CLAREMONT BENEFICIARY TRUST

EXPRESSION OF INTEREST

DEVELOPMENT OF ERF 177827 MEASURING 11614.6m² IN EXTENT FOR THE CLAREMONT BENEFICIARY TRUST, IN THE CITY OF CAPE TOWN METRO, CITY OF CAPE TOWN, WESTERN CAPE.

The Claremont Beneficiary Trust owns the above mentioned property which is located on the corner of Herschel Close and Bowwood Road, Claremont. This is a restitution land claim. The Claremont Beneficiary Trust hereby invites developers to express their interest in the development of the above-mentioned land in the City of Cape Town Metro, City of Cape Town, Western Cape.

A Request for Proposal will be forwarded to the interested parties at a later date. The closing date for submission for the expression of interest is **30 August 2019 @ 12h00. A Company Profile and project portfolio with contactable references is required.**
A Register will need to be signed noting that an expression of interest has been received.

The expression of interest must be delivered to:
AB Dramat | Unit B1, Clairview Business Park, 236 Imam Haron Rd, Claremont, Cape Town, 7708

For further information, please contact the following people:
Ms Nafeesa Karbary | Mobile no. +2772 074 8046
nafeesakarbary@yahoo.co.uk

Mrs Arlene Anyster | Mobile no. +27745226009
arleneanyster@gmail.com

REQUEST FOR BID

The Auditor-General of South Africa (AGSA) has a constitutional mandate and, as the Supreme Audit Institution (SAI) of South Africa, exists to strengthen our constitutional democracy by enabling oversight, accountability and governance in the public sector through auditing, thereby building public confidence.

The AGSA invites bids for the following requirements:

Bid Number	Bid Description	Office	Briefing Session	Closing Date and Time
AGSA/11/2019	Appointment of experts to establish a panel to acquire intellectual and advisory services on as and when needed basis for a period of three (3) years	National	N/A	12 August 2019 at 15h00
AGSA/12/2019	Appointment of a suitably qualified and experienced service provider to conduct an information management and information security assessment for a period of six (6) months	Head Office, Pretoria	NON-COMPULSORY Date: 31 July 2019 Venue: Auditorium, Lefika House, 300 Middel Street, New Muckleneuk, Brooklyn, Pretoria Time: 10h00 to 12h00 COMPULSORY Date: 31 July 2019 Venue: Auditorium, Lefika House, 300 Middel Street, New Muckleneuk, Brooklyn, Pretoria Time: 13h00 to 15h00	16 August 2019 at 15h00
AGSA/13/2019	Appointment of a service provider for rental of Multifunction Printing Services (MPS) equipment for a period of three (3) years, with an option to renew by a further two (2) years	Head Office, Pretoria		

NB: In respect of bid AGSA/11/2019, the AGSA gives notice of extension of the bid closing date to 12 August 2019 at 15h00. All other conditions of the bid remain the same.

Please note that this advertisement, bid documents, briefing session details and the specifications can be downloaded as from Tuesday, 16 July 2019 from our website: www.agasa.co.za by clicking on the Tenders link.

For general enquiries, please email Ms Cella Mabusela on MabuselaC@agasa.co.za. Only written enquiries will be responded to.

DBSA

TENDER NOTICE AND INVITATION TO TENDER

DEVELOPMENT BANK OF SOUTHERN AFRICA
INFRASTRUCTURE DELIVERY DIVISION

The Development Bank of Southern Africa invites tenders to submit tenders for **RFP153/2019 APPOINTMENT OF PROFESSIONAL SERVICE PROVIDER FOR THE PROVISION OF TECHNICAL SUPPORT TO THE FISCAL AND GOVERNANCE COMPONENT OF THE CITIES SUPPORT PROGRAMME PHASE2** under the NATIONAL TREASURY – CITIES SUPPORT PROGRAMME.

The Tender Documents are available free of charge from the DBSA website (www.dbsa.org) from 22 July 2019.

Queries may be addressed to:
Technical: Xoliswa Thobela, AndaniM@dbsa.org
Commercial: Andani Mugabi, AndaniM@dbsa.org

The cut-off date for tender enquiries is **three (3) working days** before tender closing date.

Non-Compulsory tender briefing will take place on 29 July 2019 starting at 12h00 at DBSA offices in Midrand.

Tenders may only be submitted on the tender documentation that has been issued. The closing time for receipt of tenders is **11h00 (Telkom time) on 13 August 2019 at the Tender Box at:**
DBSA Welcome Centre located at the following address: **1258 Lever Road, Headway Hill, Midrand, Gauteng Province.**

The Tender Box is open during office hours (08:00 – 16:30) Monday to Friday.

Bidders should ensure that Bids are delivered timely and to the correct address (reflected on the cover page of this document). If the Bid is late, or not submitted in the tender box it will not be considered for evaluation.

Requirements for sealing, addressing, delivery, opening and assessment of submissions are stated in the Tender Data. Telegraphic, telephonic, telex, facsimile and late tenders will not be accepted.

NOTICE OF AVAILABILITY OF THE REVISED ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT

DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY, KWAZULU-NATAL PROVINCE (DEA Ref. No.: 14/12/16/3/3/2/1123)

Project Name: Richards Bay Combined Cycle Power Plant (RB CCPP)

Applicant: Eskom Holdings SoC Ltd (Eskom)

Proposed Activity: The development of a Combined Cycle Power Plant (CCPP) with a generating capacity of up to 3 000MW on a project site with an extent of 71ha. The development footprint will be up to 52ha in extent.

Location: The development is proposed on Portion 2 and Portion 4 of Erf 11376 which is situated within Phase 1D of the Richards Bay Industrial Development Zone (RIDZ) located approximately 6km south west of Richards Bay and 4km south west of Alton. The project site is situated in the City of uMhlatuze Local Municipality which falls within the jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province.

Environmental Impact Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations (2014), as amended on 07 April 2017, of GN R324 to GN R327, a Scoping and EIA is required to be undertaken for the proposed project.

Subsequent to the release of the EIA Report in March 2019 (the review period was from Sunday, 24 March to Friday, 10 May 2019), the EIA Report has been updated with additional information. This updated report is the revised EIA Report.

Availability of the revised Environmental Impact Assessment Report for Review and Comment: The revised EIA Report is available for review and comment from **Wednesday 24 July 2019 to Monday, 26 August 2019**. The revised EIA Report is also available for download from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>) and the Eskom website (<http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentalImpactAssessments/RichardsBayCCPP/Pages/default.aspx>). The due date for written comment is **Monday, 26 August 2019**.

To submit written comments, obtain further information or register on the project database please submit to the contact person below.
