

Impact Phase

## Resubmission Notification

Sent to all Organs of State on  
project database

19 February 2019

Dear Stakeholder,

---

**PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED  
INFRASTRUCTURE NEAR RICHARDS BAY, KWAZULU NATAL PROVINCE**  
**DEA REF: To be Issued**  
**NOTIFICATION OF RE-SUBMISSION OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION**

---

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

As a registered Interested and Affected Party (RI&AP) you and/or the organization which you represent, would have received notification in June 2018 regarding the status of the Environmental Authorisation (EA) application for the above-mentioned project, as follows:

- that the Scoping Report and Plan of Study for Environmental Impact Assessment (EIA) was submitted to the Department of Environmental Affairs (DEA) in October 2017;
- that the Scoping Report was accepted and the Plan of Study for EIA was approved by the DEA in November 2017;
- that a study for an Offset Strategy for biodiversity and wetlands was initiated by independent specialists;
- as a result of the above-mentioned study, a request for an extension of the EIA timeframe accordance with Section 3(7) of the EIA Regulations, 2014, as amended was submitted to the DEA; and
- the DEA did not approve an extension, and therefore, the application lapsed in March 2018.

In light of the above, as a RI&AP, you and/or the organization which you represent, are hereby notified that it is the intention of Eskom to resubmit the application to continue at the initiation of the Environmental Impact Assessment Phase, in accordance with Regulation 21(2)(a) of the EIA Regulations 2014, as amended, since the findings of the scoping report remain valid and the environmental context has not changed.

The release of the draft EIAr (DEIAR) will be communicated to you and/or the organization that you represent in due course and we look forward to your participation in this proposed project.

Kind regards,

**Nicolene Venter**

**Public Participation and Social Consultant**

Dear Stakeholder,

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province.

This e-mail serves to inform you as a registered Interested and Affected Party (RI&AP) and/or the organisation which you represent, that it is Eskom's intent to re-submit the application for Environmental Authorisation to continue at the initiation of the Environmental Impact Assessment Phase.

The attached letter will provide you with more information regarding the re-submission of the application for Environmental Authorisation.

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards,

**Nicolene Venter**

INVITATION TO KEY STAKEHOLDER WORKSHOP  
and  
NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL  
IMPACT ASSESSMENT REPORT FOR REVIEW AND  
COMMENT

Sent to all Organs of State and Key Stakeholders on project database

18 March 2019

Dear Stakeholder,

**PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED  
INFRASTRUCTURE NEAR RICHARDS BAY, KWAZULU NATAL PROVINCE  
DEA REF: To be Issued**

---

**INVITATION TO KEY STAKEHOLDER WORKSHOP and NOTIFICATION OF AVAILABILITY OF THE DRAFT  
ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**

---

This letter serves to cordially invite you to attend the Key Stakeholder Workshops to be held on:

**DATE:** Tuesday, 26 March 2019

**TIME:** 10h00–12h00  
(Registration from 09:30 - 10:00)

**VENUE:** Richards Bay Environmental Committee Conference Room, 4 Harbour Arterial Road, Old Bayside Smelter (South 32), Richards Bay Industrial Development Zone, Richards Bay

The Key Stakeholder Workshop (KSW) is part of the Environmental Impact Assessment (EIA) process being undertaken by Savannah Environmental for the proposed development of the Richards Bay Combined Cycle Power Plant (CCPP) Project in Richards Bay.

The purpose of the KSW is to provide you, as a key stakeholder, with:

- a brief background of the proposed project;
- an overview of the Impact Assessment process followed;
- feedback on the key environmental findings as documented in the Draft Environmental Impact Assessment Report (DEIAR);
- an opportunity to raise any additional comments and/or concerns not yet raised; and
- an opportunity to liaise with the project team members.

Savannah Environmental believes that this Workshop has value in allowing you to hear other stakeholders' views and issues in context with your own, thus allowing for a more integrated assessment approach.

To ensure that sufficient seating is provided, we kindly request you to please complete the attached registration form (Appendix A) and submit it to the public participation office at the e-mail address provided below, before or on **Friday, 22 March 2019.**

We encourage you to attend the Key Stakeholder Workshop and to participate in the Public Participation Process during the impact phase of the EIA and would like to thank you in anticipation of your active and meaningful contribution to the EIA process.

**NOTIFICATION OF AVAILABILITY OF DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**

We herewith inform you that the draft Environmental Impact Assessment Report (DEIAR) will be available for your review and comment from **Sunday, 24 March 2019** to **Friday, 26 April 2019** at the following public places:

<b>VENUE</b>	<b>ADDRESS</b>	<b>CONTACT DETAILS</b>
Richards Bay Public Library	No 5 Kruger Rand Road, Richards Bay	035 907 5846
Empangeni Public Library	Cnr Union & Maxwell Streets, Empangeni	035 907 5592

The report will also be available for downloading from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>) and Eskom website (<http://www.eskom.co.za/OurCompany/SustainableDevelopment/EnvironmentallmpactAssessments/RichardsBayCCPP/Pages/default.aspx>). The due date for written comment is **Friday, 26 April 2019.**

Please do not hesitate to contact us should you require any additional information at this stage of the EIA process.

Kind regards,

**Nicolene Venter**

NEAR RICHARDS BAY, KWAZULU NATAL PROVINCE  
(DEA REF: To be Issued)**

---

**NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT  
FOR REVIEW AND COMMENT**

---

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for Air Traffic and Navigation Service's (ATNS) review and written comments, and a CD containing the EIAR is included in this envelope.

Please note that EIAR review period is from **Sunday, 24 March to Friday, 26 April 2019** and we are looking forward receiving the ATN's written comment/s on the EIAR within the 30-day review period but not later than the closing date of the review period, i.e. **Friday, 26 April 2019**.

Kind regards

**Nicolene Venter**

**NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT  
FOR REVIEW AND COMMENT**

---

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for the Department of Agriculture Forestry and Fisheries' (DAFF) review and written comments, and a CD containing the EIAR is included in this envelope.

Please note that EIAR review period is from **Sunday, 24 March to Friday, 26 April 2019** and we are looking forward receiving the DAFF's written comment/s on the EIAR within the 30-day review period but not later than the closing date of the review period, i.e. **Friday, 26 April 2019**.

Hi Nicolene,

We were able to download the documentation.

From our side we will only comment on issues related to Land Reform.  
It is important to note that a land claim was lodged against the property.  
We are looking into the status of this claim and will provide additional information shortly.

We trust the above to be in order but should you require any further information please do not hesitate to contact our offices on (033) 264 1401 or (033) 264 1419.

**NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT  
FOR REVIEW AND COMMENT**

---

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for your Department's review and written comments, and a CD containing the EIAR is included in this envelope.

Please note that EIAR review period is from **Sunday, 24 March to Friday, 26 April 2019** and we are looking forward receiving your Department's written comment/s on the EIAR within the 30-day review period but not later than the closing date of the review period, i.e. **Friday, 26 April 2019**.

Kind regards

**Nicolene Venter**

### **PER EMAIL / MAIL**

Dear Sir/Madam

### **ACKNOWLEDGEMENT OF RECEIPT OF THE NEW APPLICATION FOR ENVIRONMENTAL AUTHORISATION (ENVIRONMENTAL IMPACT ASSESSMENT PROCESS) AND ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR THE PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE NEAR RICHARDS BAY WITHIN THE KWAZULU NATAL PROVINCE**

The Department confirms having received the Application form and draft Environmental Impact Assessment Report for Environmental Authorisation for the abovementioned project on 22 March 2019. We further confirm that you have submitted these documents to comply with the National Environmental Management Act, 1998 (Act No. 107 of 1998) Environmental Impact Assessment Regulations, 2014 published under Government Notice R982 in Government Gazette No. 38282 dated 04 December 2014, as amended ('the EIA Regulations, 2014').

Please take note of Regulation 40(3) of the EIA Regulations, 2014 which states that potential Interested & Affected Parties, including the Competent Authority, may be provided with an opportunity to comment on reports and plans contemplated in Regulation 40(1) of the EIA Regulations, 2014, prior to the submission of an application but must be provided an opportunity to comment on such reports once an application has been submitted to the Competent Authority.

**Note that in terms of Regulation 45 of the EIA Regulations, 2014 this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted by the Department in terms of Regulation 3(7) of the EIA Regulations, 2014.**

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Office Hours which is visible on the Departmental gate. EIA related documents (includes application forms, reports or any EIA related submissions) that are faxed; emailed; delivered to Security or placed in the Departmental Tender Box will not be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

**Mr Sabelo Malaza**

**NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT  
FOR REVIEW AND COMMENT**

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for Eskom Holdings SOC Ltd (Eskom) review and written comments, and a CD containing the EIAR is included in this envelope.

Please note that EIAR review period is from **Sunday, 24 March to Friday, 26 April 2019** and we are looking forward receiving the Eskom's written comment/s on the EIAR within the 30-day review period but not later that the closing date of the review period, i.e. **Friday, 26 April 2019**.

Kind regards

Dear Ms Pawandiwa

**PROPOSED RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND ASSOCIATED INFRASTRUCTURE  
NEAR RICHARDS BAY, KWAZULU NATAL PROVINCE  
(DEA REF: To be Issued)**

---

**NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORT  
FOR REVIEW AND COMMENT**

---

The development of the Richards Bay CCPP project requires that an Application for Environmental Authorisation (EA) be submitted to the National Department of Environmental Affairs (DEA) as the Competent Authority (CA), in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327. In terms of the EIA Regulations 2014, as amended in April 2017, a Scoping and EIA study is required to be undertaken for the project.

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Environmental Impact Assessment Report (EIAR) is available for AMAFA's review and written comments, and a CD containing the EIAR is included in this envelope.

Please note that EIAR review period is from **Sunday, 24 March to Friday, 26 April 2019** and we are looking forward receiving the AMAFA's written comment/s on the EIAR within the 30-day review period but not later than the closing date of the review period, i.e. **Friday, 26 April 2019**.

Kind regards

**Nicolene Venter**

DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND  
ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY,  
KWAZULU-NATAL PROVINCE**

---

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

---

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. These hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity.

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

The department and/or the organisation which you represent has been identified as a commenting authority for the proposed project. In this regard, please can you provide us with the name and contact details of the relevant contact person at your department who we would liaise with regarding this project. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the EIA process.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Gabriele Stein

Dear Vuyo Keswa

Thank you for responding to my email request. As discussed Savannah Environmental would like to meet with you to discuss the Richards Bay infrastructure. I will send a separate meeting invitation as discussed. Further information on the project is provided below.

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a gas engine (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation capacity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water.

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (NDEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (NEMA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for the environmental assessment associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Assessment Report (EAR) to be actively involved through the public participation process. Please refer to the attached notification letter and background information I&AP on the project's database.

Please do not hesitate to contact me if you have any queries in this regard.

Kind regards,

**NOTICE OF AVAILABILITY OF THE SCOPING REPORT FOR PUBLIC REVIEW  
AND INVITATION TO THE PUBLIC MEETING**

---

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

## **AVAILABILITY OF THE SCOPING REPORT AND INVITATION TO THE PUBLIC MEETING**

A Scoping Report is available for review and comment. The report can be viewed at the Richards Bay Public Library, Civic Centre, 05 Mark Strasse, from **21 August 2017 – 20 September 2017**. The report is also available for download on [www.savannahsa.com/projects](http://www.savannahsa.com/projects). The due date for written comment is **20 September 2017**. Comments must be made as written submission via fax, post or email.

All interested and affected parties are invited to attend a public meeting on one of the following days:

<b>Public Meeting 1:</b>	<b>Date: Wednesday 30 August 2017</b> <b>Time: 18:00</b> <b>Venue: New Life Church, 2 Hedge Hunt Rd, Brackenham, Richards Bay</b>
<b>Public Meeting 2:</b>	<b>Date: Thursday 31 August 2017</b> <b>Time: 09:00</b> <b>Venue: Richards Bay Public Library, 03 Krugerrand Grove, Richards Bay</b>

Our team welcomes your participation and looks forward to your involvement throughout this process.

Subject: EIA PROCESS - RICHARDS BAY COMBINED CYCLE POWER PLANT, KZN - NOTIFICATION OF AVAILABILITY OF SCOPING REPORT FOR REVIEW AND INVITATION TO PUBLIC MEETING

Body: Dear Stakeholder

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

A Scoping Report is available for review and comment. The report can be viewed at the Richards Bay Public Library, Civic Centre, 05 Mark Strasse, from **21 August 2017 – 20 September 2017**. Please refer to the attached letter for details regarding the availability of the Scoping Report for review and comment and the public meetings details.

Please do not hesitate to contact me if you have any queries in this regard.

Kind regards,

**Gabriele Stein**

DEVELOPMENT OF THE RICHARDS BAY COMBINED CYCLE POWER PLANT (CCPP) AND  
ASSOCIATED INFRASTRUCTURE ON A SITE NEAR RICHARDS BAY,  
KWAZULU-NATAL PROVINCE**

---

**NOTICE OF AVAILABILITY OF THE SCOPING REPORT FOR PUBLIC REVIEW  
AND INVITATION TO THE PUBLIC MEETING**

---

Dear Sharin Govender

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlathuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

## **AVAILABILITY OF THE SCOPING REPORT AND INVITATION TO THE PUBLIC MEETING**

Dear Thulie N Khumalo

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

## **AVAILABILITY OF THE SCOPING REPORT AND INVITATION TO THE PUBLIC MEETING**

A Scoping Report is available for review and comment. The report can be viewed at the Richards Bay Public Library, Civic Centre, 05 Mark Strasse, from **21 August 2017 – 20 September 2017**. The report is also available for download on [www.savannahsa.com/projects](http://www.savannahsa.com/projects). The due date for written comment is **20 September 2017**. Comments must be made as written submission via fax, post or email.

All interested and affected parties are invited to attend a public meeting on one of the following days:

<b>Public Meeting 1:</b>	<b>Date: Wednesday 30 August 2017</b> <b>Time: 18:00</b> <b>Venue: New Life Church, 2 Hedge Hunt Rd, Brackenham, Richards Bay</b>
<b>Public Meeting 2:</b>	<b>Date: Thursday 31 August 2017</b> <b>Time: 09:00</b> <b>Venue: Richards Bay Public Library, 05 Mark Strasse, Richards Bay</b>

Our team welcomes your participation and looks forward to your involvement throughout this process.

Dear Deborah Ramalope

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Dear P. H Mans

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). ---

Dear Musi Mdamba

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

## **AVAILABILITY OF THE SCOPING REPORT AND INVITATION TO THE PUBLIC MEETING**

A Scoping Report is available for review and comment. The report can be viewed at the Richards Bay Public Library, Civic Centre, 05 Mark Strasse, from **21 August 2017 – 20 September 2017**. The report is also available for download on [www.savannahsa.com/projects](http://www.savannahsa.com/projects). The due date for written comment is **20 September 2017**. Comments must be made as written submission via fax, post or email.

All interested and affected parties are invited to attend a public meeting on one of the following days:

<b>Public Meeting 1:</b>	<b>Date: Wednesday 30 August 2017</b> <b>Time: 18:00</b> <b>Venue: New Life Church, 2 Hedge Hunt Rd, Brackenham, Richards Bay</b>
<b>Public Meeting 2:</b>	<b>Date: Thursday 31 August 2017</b> <b>Time: 09:00</b> <b>Venue: Richards Bay Public Library, 05 Mark Strasse, Richards Bay</b>

Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

Gabriele Stein

AND INVITATION TO THE PUBLIC MEETING**

---

Dear Ishaan Ramklown

Eskom Holdings SoC Ltd (Eskom) proposes to develop a Combined Cycle Power Plant (CCPP) and associated infrastructure with a generating capacity of up to 3000MW. The proposed project is to be known as the Richards Bay Combined Cycle Power Plant (CCPP). The Project site is to be located on Portion 2 and Portion 4 of Erf 11376 in the Richards Bay Industrial Development Zone (IDZ) Phase 1D, approximately 6km south west of Richards Bay and 4km south west of Alton which falls within the jurisdiction of the City of uMhlatuze Local Municipality and the King Cetshwayo District Municipality, KwaZulu-Natal Province. The Richards Bay CCPP is approximately 71ha in extent.

The purpose of the project is to reduce transmission losses from generation facilities supplying KwaZulu-Natal, by having a generation centre in KwaZulu-Natal. In addition, the project is planned to aid in reducing Eskom's carbon footprint per Unit of electricity produced, as power plants using natural gas emit approximately half the carbon of coal-fired power plants while using considerably less water, thus supporting Government's commitment to reduce carbon emissions.

A CCPP uses a gas turbine generator to generate electricity and the waste heat is used to make steam to generate additional electricity via a steam turbine. The CCPP is one of the most efficient power generating facilities to convert either gas or diesel fuel to mechanical power or electricity. In other words gas or diesel is burnt in a gas turbine producing both electrical power via a coupled generator and fairly hot exhaust gases. Hot exhaust gases pass through a water-cooled heat exchanger to produce steam, which can be turned into electric power with a coupled steam turbine and generator.

The main infrastructure associated with the Richards Bay CCPP includes the following:

- » Gas turbines for the generation of electricity through the use of natural gas or diesel.
- » Heat recovery steam generators (HRSG) to produce steam.
- » Steam turbines for the generation of additional electricity through the use of steam generated by the HRSG.
- » Condensers for the conversion of steam back to water.
- » Bypass stacks associated with each gas turbine.
- » Exhaust stacks.
- » A water treatment plant for the treatment of potable water and the production of demineralised water.
- » A water pipeline and water tank.
- » Dry-cooled system or Once-Through-Cooling system technology.
- » Closed Fin-fan coolers to cool lubrication oil for the gas and steam turbines.
- » A gas pipeline and a gas pipeline supply conditioning process facility.
- » Diesel off-loading facility and storage tanks.
- » Ancillary infrastructure including access roads, warehousing and buildings, storage facilities, generators and 132kV and 400kV switchyards.
- » A power line to connect the Richards Bay CCPP to the national grid for the evacuation of the generated electricity (the power line will be assessed as part of a separate EIA process).

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

The development of the Richards Bay CCPP requires that Environmental Authorisation (EA) be obtained from the National Department of Environmental Affairs (DEA), the Competent Authority (CA), in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA), the Local Commenting Authority, in accordance with the National Environmental Management Act (No. 107 of 1998) (NEMA) and the provisions of the 2014 Environmental Impact Assessment (EIA) Regulations, as amended on 07 April 2017, published in GNR 324 to GNR 327.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Assessment Practitioner (EAP), responsible for undertaking an Impact Assessment process (Scoping and EIA) to identify and assess all potential environmental impacts associated with the project for the area as identified, and propose appropriate mitigation and management measures in an Environmental Management Programme (EMPr). As part of these environmental studies, Interested and/or Affected Parties (I&APs) will be actively involved through the public participation process.

## **AVAILABILITY OF THE SCOPING REPORT AND INVITATION TO THE PUBLIC MEETING**

**Attachments:** DEA Biodiversity & Conservation POD 22.08.2017.pdf; DEA Air Quality Management POD 22.08.2017.pdf; 12. DEA Comment 15.09.2017.pdf

Dear Olga Chauke and Kent Buchanan

The EIA process being undertaken for the construction of the Richards Bay Combined Cycle Power Plant (CCPP) project has reference (DEA Ref: 14/12/16/3/3/2/1027). Savannah Environmental has been instructed to obtain comments from the DEA's Biodiversity Section and Air Quality Section to include in the final Scoping Report. Copies of the draft Scoping Report were submitted to Wilma Lutch (Biodiversity and Conservation Directorate) and Thulie Khumalo (Air Quality Management) at the onset of the 30-day review period on 21 August 2017 (please refer to attached delivery memos as proof of submission).

Please could you submit your comments on this application to the undersigned at your earliest convenience.

Please do not hesitate to contact me if you have any queries in this regard.

Kind regards,  
Gabriele Stein
