Dear Ms Van Gensen

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 27 JULY 2015 FOR THE CONSTRUCTION OF 132KV DISTRIBUTION LINES FROM THE FERRUM SUBSTATION TO THE SEKGAME SWITCHING STATION AS PART OF THE SEKGAME ELECTRICITY DISTRIBUTION INFRASTRUCTURE WITHIN THE GAMAGARA LOCAL MUNICIPALITY IN THE NORTHERN CAPE PROVINCE

The Environmental Authorisation (EA) issued for the above application by this Department on 27 July 2015, the amendments to the EA issued on 06 May 2016 and 08 January 2018 respectively, your application for an amendment to the EA received by this Department on 23 June 2020 and the acknowledgment email dated 03 July 2020, refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, has decided to amend the EA dated 27 July 2015 as amended as follows:

Amendment 1: To extend the validity of the EA

The activity must commence within a period of five (05) years from the date of expiry of the EA issued on 27 July 2015 (i.e. the EA lapses on 27 July 2025). If commencement of the activity does not occur within that period, the authorisation lapses and a new application for EA must be made in order for the activity to be undertaken.

The Department is aware that the environment changes constantly, as a result it might be significantly different from the one that existed at the time of the issuing of this EA, hence the validity of the EA cannot exceed a maximum period of 10 years. Failure to commence with construction activities within the maximum 10 year period, your EA will be deemed to have lapsed and a new application for EA will have to be lodged.

The reason for this amendment provided by the holder of the EA is that due to limited funds available the applicant will be unable to start construction before the EA lapses.

This amendment letter must be read in conjunction with the EA dated 27 July 2015, as amended.

M.S
