Department:
Environmental Affairs
REPUBLIC OF SOUTH AFRICA

APPLICATION FORM FOR ENVIRONMENTAL AUTHORISATION

	(For official use only)
File Reference Number:	
NEAS Reference Number:	DEA/EIA/
Date Received:	

Application for authorisation in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), (the Act) and the Environmental Impact Assessment Regulations, 2010 (the Regulations)

PROJECT TITLE

BIGTREE-REFILWE-PELLY ESKOM 132KV POWERLINE

Kindly note that:

1. This application form is current as of 1 August 2014. It is the responsibility of the applicant to ascertain whether subsequent versions of the form have been published or produced by the competent authority.
2. The application must be typed within the spaces provided in the form. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. Spaces are provided in tabular format and will extend automatically when each space is filled with typing.
3. Where applicable **black out** the boxes that are not applicable in the form.
4. Incomplete applications will be rejected in terms of Regulation 13(2) of GN R. 543 and returned to the applicant for revision and resubmission.
5. The use of the phrase "not applicable" in the form must be done with circumspection. Should it be done in respect of material information required by the competent authority for assessing the application, it may result in the rejection of the application as provided for in the Regulations.
6. This application must be handed in at the offices of the relevant competent authority as determined by the Act and Regulations.
7. No faxed or e-mailed applications will be accepted. An electronic copy of the signed application form must be submitted together with two hardcopies (one of which must contain the original signatures).
8. Unless protected by law, all information filled in on this application form will become public information on receipt by the competent authority. Any interested and affected party should and shall be provided with the information contained in this application on request, during any stage of the application process.

9. Should a specialist report or report on a specialised process be submitted at any stage for any part of this application, the terms of reference for such report and declaration of interest of the specialist must also be submitted.
10. Proof of payment must accompany this application. The application will not be processed without proof of payment unless one of the exclusions provided for the Fee Regulations (Fees for consideration and processing of applications for environmental authorisations and amendments thereto Government Notice No.141, published on 28 February 2014) is applicable AND such information in section 1 of this application form has been confirmed by this Department.

Departmental Details

The application must be addressed to the Chief Directorate: Integrated Environmental Authorisations at:

Postal address:

Department of Environmental Affairs
Attention: Director: Integrated Environmental Authorisations
Private Bag X447
Pretoria
0001

Physical address:

Department of Environmental Affairs
Attention: Director: Integrated Environmental Authorisations
Environment House
473 Steve Biko Road
Arcadia
Pretoria

Queries must be addressed to the contact below:

Tel: 012 399 9372

E-mail: EIAAdmin@environment.gov.za

Please note that this form must be copied to the relevant provincial environmental department/s.

View the Department's website at <http://www.environment.gov.za/> for the latest version of the documents.

1. **PROOF OF PAYMENT**

Applicants are required to tick the appropriate box below to indicate that either proof of payment is attached or that, in the applicant's view, an exclusion applies. Proof and a motivation for exclusions must be attached to this application form in **Appendix 1**.

Proof of payment attached as **Appendix 1**

Exclusion applies

An applicant is excluded from paying fees if:

The activity is a community based project funded by a government grant; or
The applicant is an organ of state.

TYPE OF EXCLUSION	Tick where applicable. Proper motivation must be attached to the application
The activity is a community based project funded by a government grant	N/A
The applicant is an organ of state	X

FEE AMOUNT	Fee
Application for an environmental authorisation for which basic assessment is required in terms of the Environmental Impact Assessment Regulations	R2 000
Application for an environmental authorisation, for which S&EIR is required in terms of the Environmental Impact Assessment Regulations	R10 000

Department of Environmental Affairs' details for the payment of application fees:

<p>Payment Enquiries: Tel: 012 399 9119 Email: eiafee@environment.gov.za</p> <p>Banking details: ABSA Bank Branch code: 632005 Account number: 1044 2400 72 Current account Reference number : Reference number to be provided in the specific format indicating centre point coordinates of site in decimal degrees to 5 or 6 decimal places: latitude/longitude eg. -33.918861/18.423300</p> <p>Proof of payment must accompany the application form: Indicate reference number below.</p> <p>Tax exemption status: Status: Tax exempted</p> <p>Reference number:</p>
--

2. PROJECT DESCRIPTION

Please provide a **detailed** description of the project.

GIBB (Pty) Ltd (GIBB) has been appointed by Eskom SOC Ltd – Gauteng Operating Unit (Eskom) to undertake an environmental authorisation process in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) as amended (NEMA) and the Environmental Impact Assessment Regulations of 2010 for the construction of the proposed 132kV powerline connecting from the existing Bigtree substation to the newly proposed Refilwe substation, connecting to the existing Pelly 132kV powerline, Gauteng Province (locality map attached in **Appendix 6**). A 500m corridor will be assessed along each of the proposed routes (250m on either side of the routes) to determine the environmental impacts and significance of these impacts associated with the proposed development.

Study Area:

At a regional level, the study area falls within the Gauteng Province and is situated within the City of Tshwane Metropolitan Municipality. The development has been split into three (3) sections in order to simplify the descriptions of the powerline alignments and associated substation location. These sections are outlined below:

1. Bigtree-Refilwe 132kV powerline;
2. Refilwe newly proposed substation; and
3. Refilwe-Pelly 132kV powerline

Section 1:

Three (3) route alternatives exist for the proposed 132kV powerline alignment connecting from the existing Bigtree substation to the newly proposed Refilwe substation with a total distance of approximately 34km. The three (3) route alternatives from the existing Bigtree substation to newly proposed Refilwe substation follow similar alignments with small deviations indicating the respective connections to each of the substation locations. Alternative 1 (preferred), 2 and 3 follow the same alignment for approximately 30km, where after they deviate from one another with **Alternative 1 (preferred)** extending in a south-westerly direction for a further 4km to connect to *Refilwe substation Alternative 1*. **Alternative 2** extends in a north-westerly direction for a further 800m to connect to the *Refilwe substation Alternative 2*. Lastly, **Alternative 3** extends in a south-easterly direction for a further 800m to connect to the *Refilwe substation Alternative 3*.

Section 2:

Three alternatives exist for the proposed location of the Refilwe 132kV substation. The three substation alternatives are located along the proposed powerline alignments for the connection from the existing Bigtree substation to the 132kV Pelly powerline. Alternative 1 (preferred) constitutes an approximate size of 1,5Ha, Alternative 2 an approximate size of 1,5Ha and Alternative 3 an approximate size of 1,5Ha. The proposed Refilwe substation will be located adjacent to the Refilwe Township and will be used to split the Zonderwater-Kraal feeder line due to potential capacity constraints envisaged for the future. It is important to note that the location of the proposed Refilwe substation is dependent on the proposed alignment of the connection from the existing Bigtree substation to the 132kV Pelly powerline.

Section 3:

Three (3) route alternatives exist for the proposed 132kV powerline alignment connecting from the existing 132kV Pelly powerline to the newly proposed Refilwe substation with a total distance of approximately 10km. The three (3) route alternatives from the existing 132kV Pelly powerline to newly proposed Refilwe substation follow similar alignments with small deviations indicating the respective connections to each of the substation locations. Alternative 1 (preferred) 2 and 3 follows the same alignment for approximately 4.8km, where after they deviate from one another with **Alternative 1 (preferred)** extending in a north-

easterly direction for a further 1.6km to connect to *Refilwe substation Alternative 1*. **Alternative 2** extends in a north-north-easterly direction for a further 4.8km to connect to the *Refilwe substation Alternative 2*. Lastly, **Alternative 3** extends in an easterly direction for a further 4.2km to connect to the *Refilwe substation Alternative 3*.

It should be noted that the main purpose of the proposed powerline connection is to strengthen the existing electricity supply in the area, and as such provide the area with adequate and reliable power supply to meet current and future demands.

Does the project form part of any of the Strategic Infrastructure Projects (SIPs) as described in the National Development Plan, 2011?	YES X	
--	------------------------	--

If YES, please indicate which SIPs are applicable in **Appendix 2**. You are also required to provide confirmation of SIP applications from the relevant sector representative which must be attached in **Appendix 2**

Please indicate which sector the project falls under by crossing out the relevant block in the table below:

Table 1

Green economy + "Green" and energy-saving industries		Greenfield transformation to urban or industrial form (including mining)	
Infrastructure – electricity (generation, transmission & distribution)	X	Biodiversity or sensitive area related activities	
Oil and gas		Mining value chain	
Biofuels		Potential of metal fabrication capital & transport equipment – arising from large public investments	
Nuclear		Boat building	
Basic services (local government) – electricity and electrification	X	Manufacturing – automotive products and components, and medium and heavy commercial vehicles	
Basic services (local government) – area lighting		Manufacturing – plastics, pharmaceuticals and chemicals	
Infrastructure – transport (ports, rail and road)		Manufacturing – clothing textiles, footwear and leather	
Basic services (local government access roads)		Forestry, paper, pulp and furniture	
Basic services (local government) – public transport		Business process servicing	
Infrastructure – water (bulk and reticulation)		Advanced materials	
Basic services (local government) – sanitation		Aerospace	
Basic services (local government) – waste management		Basic services (local government) - education	
Basic services (local government) water		Basic services (local government) - health	
Agricultural value chain + agro-processing (linked to food security and food pricing imperatives)		Basic services (local government) - housing	
Infrastructure – information and communication technology		Basic services (local government) security of tenure	

Tourism + strengthening linkages between cultural industries and tourism		Other	
Basic services (local government) – public open spaces and recreational facilities			

Table 2

Does the listed activity/ies applied for form part of a larger project which is not a listed activity itself e.g. a road that is a listed activity that is needed to access a drilling site where the drilling does not constitute a listed activity.		NO X
If indicated yes above, please provide a brief description on how the activity/ies relate to the larger project that forms part there of:		

4. GENERAL INFORMATION

Applicant name:	Eskom Holdings SOC Limited, registration 2002/015527/30 : Distribution Gauteng		
Registration number (if applicant is a company)	2002/015527/06		
Trading name (if any)	Eskom SOC Limited, registration number 2002/015527/30		
Responsible person name (If the applicant is a company):	Charmaine Mare		
Applicant/ Responsible person ID number:	7707160036086		
Responsible position, e.g. Director, CEO, etc.:	Environmental and Quality Officer		
Physical address:	Menlyn 4 Level, Gobie Street, Extension 1, Newlands, 0081		
Postal address:	P.O. Box 36099 Menlo Park		
Postal code:	0102	Cell:	083 556 6257
Telephone:	012 484 5141	Fax:	086 667 3961
E-mail:	marecc@eskom.co.za	BBBEE status	Level 3
Provincial Authority:	Gauteng Department, Agriculture and Rural Development		
Contact person:	Justine Chan		
Postal address:	Ground Floor, Diamond Building, 11 Diagonal Street Johannesburg		
Postal code:	2000	Cell:	--
Telephone:	011 240 3053	Fax:	011 240 2700
E-mail:	justine.chan@gauteng.gov.za		
Local municipality	City of Tshwane Metropolitan Municipality		
Contact person:	Lebo Mokwane		
Postal address:	P.O. Box 403, Pretoria Gauteng		
Postal code:	0002	Cell:	--
Telephone:	012 358 4904	Fax:	012 358 1112
E-mail:	lebomk@tshwane.gov.za		

In instances where there is more than one local authority involved, please attach a list of those local authorities with their contact details as **Appendix 3**.

Landowner:	PLEASE REFER TO APPENDIX 4 FOR A FULL LIST OF LANDOWNER DETAILS		
Contact person:			
Postal address:			
Postal code:		Cell:	
Telephone:		Fax:	
E-mail:			

In instances where there is more than one landowner, please attach a list of those landowners with their contact details as **Appendix 4**. If the applicant is not the owner or person in control of the land, proof of notice to the landowner or person in control of the land on which the activity is to be undertaken must be submitted in **Appendix 4**.

Identified Competent Authority to consider the application:	National Department of Environmental Affairs
Reason(s) in terms of S 24C of NEMA 1998 as amended	Eskom is a State Owned Company, registration number: 2002/015527/30

5. ENVIRONMENTAL ASSESSMENT PRACTITIONER (EAP) INFORMATION

EAP:	Ms Umeshree Naicker		
Professional affiliation/registration:	International Association for Impact Assessment – South African Charter		
Contact person (if different from EAP):	---		
Company:	GIBB (Pty) Ltd		
Physical address:	14 Eglin Road, Sunninghill, 2191		
Postal address:	P.O. Box 2700, Rivonia		
Postal code:	2128	Cell:	072 334 2859
Telephone:	011 519 4701	Fax:	011 807 5670
E-mail:	unaicker@gibb.co.za		

If an EAP has not been appointed please ensure that an independent EAP is appointed as stipulated by Regulation 16 of GN R.543, dated June 2010, prior to the commencement of the process.

The declaration of independence and the Curriculum Vitae (indicating the experience with environmental impact assessment and the relevant application processes) of the EAP must also be submitted to the Department.

6. SITE DESCRIPTION

Provide a detailed description of the site involved in the application.

Province	Gauteng Province
District Municipality	City of Tshwane Metropolitan Municipality
Local Municipality	City of Tshwane Metropolitan Municipality
Ward number(s)	73
Nearest town(s)	Hammanskraal
Farm name(s) and number(s)	Please refer to Appendix 4 for a full list of farm names and numbers that will be affected by the proposed project.
Portion number(s)	Please refer to Appendix 4 for a full list of farm names and numbers that will be affected by the proposed project.

SG 21 Digit Code(s)

(If there are more than 4, please attach a list with the rest of the codes as **Appendix 5**)

PLEASE REFER TO APPENDIX 5 FOR THE FULL LIST OF PROPERTY SG 21 DIGIT CODES

Are there any other applications for Environmental Authorisation on the same property?	<input checked="" type="checkbox"/>	NO
		X
If YES, please indicate the following:		
Competent Authority		
Reference Number		
Project Name		
Please provide details of the steps taken to ascertain this information:		

7. ACTIVITIES TO BE AUTHORISED

For an application for authorisation that involves more than one listed activity that, together, make up one development proposal, all the listed activities pertaining to this application must be indicated.

Detailed description of listed activities associated with the project	
Listed activity as described in GN R.544, 545 and 546	Description of project activity that triggers listed activity – if activities in GN R. 546 are triggered, indicate the triggering criteria as described in the second column of GN R. 543
<p>GN R.544 Item 10(i): The construction of facilities or infrastructure for the transmission and distribution of electricity –</p> <p>(i) Outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts;-</p>	<p>The proposed distribution line for the Bigtree-Refilwe and Pelly-Refilwe 132kV powerlines will be 132kV.</p>
<p>GN R.544 Item 11(xi): The construction of:</p> <p>(xi) infrastructure or structures covering 50 square metres or more</p> <p>Where such construction occurs within a watercourse or within 32 metres of watercourse, measured from the edge of a watercourse, excluding where such construction will occur behind the development setback line.</p>	<p>Several watercourses may be crossed along the powerline route, and as such pylons may be constructed within 32 metres of the watercourse.</p>
<p>GN R.544 Item 22(ii): The construction of a road, outside urban areas,</p> <p>(ii) Where no reserve exists where the road is wider than 8 metres.</p>	<p>Access road may be required at certain sections to access the powerline.</p>
<p>GN R.544 Item 23(ii): The transformation of undeveloped, vacant or derelict land to-</p> <p>(ii) residential, retail, commercial, recreational, industrial or institutional use, outside an urban area and where the total area to be transformed is bigger than 1 hectare but less than 20 hectares.</p>	<p>The proposed Refilwe substation is located outside the urban edge and size of the proposed substation will be approximately 1,5 hectares.</p>
<p>GN R.546 Item 4(b)(i)(iii)(viii): The construction of a road wider than 4 metres with a reserve less than 13,5 metres.</p> <p>(b) In Gauteng:</p> <p>(i) A protected area identified in terms of NEMPAA, excluding conservancies;</p> <p>(iii) Sensitive areas as identified in an</p>	<p>Access roads, no wider than 6m in width and 500m in length will be required to access the Refilwe substation.</p> <p>Roads no wider than 6m along certain sections of the proposed route to access the powerline within Gauteng, where such roads and powerline alignments may extend through sensitive and protected areas.</p>

<p>environmental management framework as contemplated in chapter 5 of the Act and as adopted by the competent authority;</p> <p>(viii) Any declared protected area including Municipal or provincial Nature Reserves as contemplated by the Environment Conservation Act, 1989 (Act No. 73 of 1989) and the Nature Conservation Ordinance (Ordinance 12 of 1983);</p>	
<p>GN R.546 Item 12(b):</p> <p>The clearance of an area of 300 square metres or more of vegetation where 75% or more of the vegetative cover constitutes indigenous vegetation.</p> <p>(b) Within a critical biodiversity areas identified in bioregional plans;</p>	<p>Vegetation clearance would be required for the proposed construction of the 1,5 hectare Refilwe Substation and Bigtree-Refilwe and Pelly-Refilwe 132kV powerlines, which extends through an identified Critical Biodiversity Area.</p>
<p>GN R.546 Item 14(a)(i):</p> <p>The clearance of an area of 5 hectares or more of vegetation where 75% or more of the vegetative cover constitutes indigenous vegetation, except where such removal of vegetation is required for:</p> <ol style="list-style-type: none"> (1) purposes of agriculture or afforestation inside areas identified in spatial instruments adopted by the competent authority for agriculture or afforestation purposes; (2) the undertaking of a process or activity included in the list of waste management activities published in terms of section 19 of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) in which case the activity is regarded to be excluded from this list; (3) the undertaking of a linear activity falling below the thresholds in Notice 544 of 2010. <p>(a) In Eastern Cape, Free State, KwaZulu-Natal, Gauteng, Limpopo, Mpumalanga, Northern Cape, Northwest and Western Cape:</p> <p>(i) All areas outside urban areas.</p>	<p>Vegetation will be cleared to allow for the erection of the pylons. Bush clearing of approximately 16m wide (8m on either side of the powerline) will be required for the 132kV powerline.</p>

Please note that any authorisation that may result from this application will only cover activities specifically applied for. Co-ordinate points indicating the location of each listed activity must be provided with the relevant report (i.e. either BAR or EIR).

Please provide a project map indicating any sensitive areas (e.g. critical biodiversity area, World Heritage Site, etc.) overlaid by the study area in **Appendix 6**.

A project schedule, indicating the different phases and timelines of the project, must be attached as **Appendix 7**.

8. PUBLIC PARTICIPATION

Provide details of the public participation process proposed for the application as required by Regulation 54(2) of GN R. 543, dated June 2010.

As part of the public participation process proposed for the application, directly affected landowners have been notified of the proposed development and provided with all relevant and available information at this point in time. The notification letters distributed to all identified landowners providing information on the project also contains contact information of the GIBB Public Participation Office by means of which they will be able to provide any comments and/ or request additional information.

The project and the availability of the Draft BAR will be advertised in English and I&AP's will be afforded a 40 day commenting period. A public meeting is proposed to be held during this period. Thereafter, all comments received during the commenting period will be captured and responded to in a Comments and Response Report (CRR), which will form part of the Final BAR. The Final BAR will be submitted to the DEA for decision making and simultaneously made available for registered I&AP's to review.

Proof of landowner notification has been attached in **Appendix 4**.

Pretoria

Dear Madam / Sir

**MOTIVATION FOR EXCLUSION FROM FEES PAYABLE FOR THE ENVIRONMENTAL
AUTHORISATION APPLICATION IN CONNECTION WITH THE PROPOSED CONSTRUCTION OF
THE BIGTREE-REFILWE-PELLY SUBSTATIONS AND 132KV POWERLINE, GAUTENG
PROVINCE**

As outlined in Section 239 of the Constitution, 1996 (No. 108 of 1996), an entity is considered to be an organ of state should it comprise any national legislative, executive and/ or judicial bodies, department of state and/ or provincial or local government.

Eskom (SOC) Ltd (Eskom) has been identified as an organ of state and as such should be exempted from the application fee payable.

Please do not hesitate to contact me should you require any further information.

Kind Regards

Umeshree Naicker
For GIBB (PTY) Ltd
Senior Environmental Scientist

**APPENDIX 2
STRATEGIC INFRASTRUCTURE PROJECTS**

<p>SIP 1: Unlocking the northern mineral belt with Waterberg as the catalyst</p> <ul style="list-style-type: none"> • Unlock mineral resources • Rail, water pipelines, energy generation and transmission infrastructure • Thousands of direct jobs across the areas unlocked • Urban development in Waterberg - first major post-apartheid new urban centre will be a “green” development project • Rail capacity to Mpumalanga and Richards Bay • Shift from road to rail in Mpumalanga • Logistics corridor to connect Mpumalanga and Gauteng. 	
<p>SIP 2: Durban-Free State-Gauteng logistics and industrial corridor</p> <ul style="list-style-type: none"> • Strengthen the logistics and transport corridor between SA’s main industrial hubs • Improve access to Durban’s export and import facilities • Integrate Free State Industrial Strategy activities into the corridor • New port in Durban • Aerotropolis around OR Tambo International Airport. 	
<p>SIP 3: South-Eastern node & corridor development</p> <ul style="list-style-type: none"> • New dam at Mzimvubu with irrigation systems • N2-Wild Coast Highway which improves access into KwaZulu-Natal and national supply chains • Strengthen economic development in Port Elizabeth through a manganese rail capacity from Northern Cape • A manganese sinter (Northern Cape) and smelter (Eastern Cape) • Possible Mthombo refinery (Coega) and transshipment hub at Ngqura and port and rail upgrades to improve industrial capacity and performance of the automotive sector. 	
<p>SIP 4: Unlocking the economic opportunities in North West Province</p> <ul style="list-style-type: none"> • Acceleration of investments in road, rail, bulk water, water treatment and transmission infrastructure • Enabling reliable supply and basic service delivery • Facilitate development of mining, agricultural activities and tourism opportunities • Open up beneficiation opportunities in North West Province. 	
<p>SIP 5: Saldanha-Northern Cape development corridor</p> <ul style="list-style-type: none"> • Integrated rail and port expansion • Back-of-port industrial capacity (including an IDZ) • Strengthening maritime support capacity for oil and gas along African West Coast • Expansion of iron ore mining production and beneficiation. 	
<p>SIP 6: Integrated municipal infrastructure project</p> <p>Develop national capacity to assist the 23 least resourced districts (19 million people) to address all the maintenance backlogs and upgrades required in water, electricity and sanitation bulk infrastructure. The road maintenance programme will enhance service delivery capacity thereby impacting positively on the population.</p>	
<p>SIP 7: Integrated urban space and public transport programme</p> <p>Coordinate planning and implementation of public transport, human settlement, economic and social infrastructure and location decisions into sustainable urban settlements connected by densified transport corridors. This will focus on the 12 largest urban centres of the country, including all the metros in South Africa. Significant work is underway on urban transport integration.</p>	

<p>SIP 8: Green energy in support of the South African economy Support sustainable green energy initiatives on a national scale through a diverse range of clean energy options as envisaged in the Integrated Resource Plan (IRP2010) and support bio-fuel production facilities.</p> <p><i>Indicate capacity in MW:</i></p>	
<p>SIP 9: Electricity generation to support socioeconomic development Accelerate the construction of new electricity generation capacity in accordance with the IRP2010 to meet the needs of the economy and address historical imbalances. Monitor implementation of major projects such as new power stations: Medupi, Kusile and Ingula.</p> <p><i>Indicate capacity in MW:</i></p>	
<p>SIP 10: Electricity transmission and distribution for all Expand the transmission and distribution network to address historical imbalances, provide access to electricity for all and support economic development. Align the 10-year transmission plan, the services backlog, the national broadband roll-out and the freight rail line development to leverage off regulatory approvals, supply chain and project development capacity.</p>	X
<p>SIP 11: Agri-logistics and rural infrastructure Improve investment in agricultural and rural infrastructure that supports expansion of production and employment, small-scale farming and rural development, including facilities for storage (silos, fresh-produce facilities, packing houses); transport links to main networks (rural roads, branch train-line, ports), fencing of farms, irrigation schemes to poor areas, improved R&D on rural issues (including expansion of agricultural colleges), processing facilities (abattoirs, dairy infrastructure), aquaculture incubation schemes and rural tourism infrastructure.</p>	
<p>SIP 12: Revitalisation of public hospitals and other health facilities Build and refurbish hospitals, other public health facilities and revamp 122 nursing colleges. Extensive capital expenditure to prepare the public healthcare system to meet the requirements of the National Health Insurance (NHI) system. The SIP contains major builds for 6 hospitals.</p>	
<p>SIP 13: National school build programme A national school build programme driven by uniformity in planning, procurement, contract management and provision of basic services. Replace inappropriate school structures and address basic service backlog and provision of basic services under the Accelerated School Infrastructure Delivery Initiative (ASIDI). In addition, address national backlogs in classrooms, libraries, computer labs and admin buildings. Improving the learning environment will strengthen outcomes especially in rural schools, as well as reduce overcrowding.</p>	
<p>SIP 14: Higher education infrastructure Infrastructure development for higher education, focusing on lecture rooms, student accommodation, libraries and laboratories, as well as ICT connectivity. Development of university towns with a combination of facilities from residence, retail to recreation and transport. Potential to ensure shared infrastructure such as libraries by universities, FETs and other educational institutions. Two new universities will be built - in Northern Cape and Mpumalanga.</p>	
<p>SIP 15: Expanding access to communication technology Provide for broadband coverage to all households by 2020 by establishing core Points of Presence (POPs) in district municipalities, extend new Infracore fibre networks across provinces linking districts, establish POPs and fibre connectivity at local level, and further penetrate the network into deep rural areas. While the private sector will invest in ICT infrastructure for urban and corporate networks, government will co-invest for township and rural access, as well as for e-government, school and health connectivity.</p>	

<p>The school roll-out focus is initially on the 125 Dinaledi (science and maths-focussed) schools and 1525 district schools. Part of digital access to all South Africans includes TV migration nationally from analogue to digital broadcasting.</p>	
<p>SIP 16: SKA & Meerkat SKA is a global mega-science project, building an advanced radio-telescope facility linked to research infrastructure and high-speed ICT capacity and provides an opportunity for Africa and South Africa to contribute towards global advanced science projects.</p>	
<p>SIP 17: Regional integration for African cooperation and development Participate in mutually beneficial infrastructure projects to unlock long-term socio-economic benefits by partnering with fast growing African economies with projected growth ranging between 3% and 10%. The projects involving transport, water and energy also provide competitively-priced, diversified, short and medium to long-term options for the South African economy where, for example, electricity transmission in Mozambique (Cesul) could assist in providing cheap, clean power in the short-term whilst Grand Inga in the DRC is long-term. All these projects complement the Free Trade Area (FTA) discussions to create a market of 600 million people in South, Central and East Africa.</p>	
<p>SIP 18: Water and sanitation infrastructure A 10-year plan to address the estimated backlog of adequate water to supply 1.4m households and 2.1m households to basic sanitation. The project will involve provision of sustainable supply of water to meet social needs and support economic growth. Projects will provide for new infrastructure, rehabilitation and upgrading of existing infrastructure, as well as improve management of water infrastructure.</p>	

Mr Ishaam Abader
Deputy Director General
Department of Environmental Affairs

Dear Mr Abader

RE: SIP 10 Project Confirmation Cullinan – Capacity Upgrade, Network Strengthening and Reliability Improvement

Scope of Work

1. Bigtree Refilwe Pelly application

- Establish new Refilwe Substation 132/22kV 2x20MVA. (Refilwe SS Site Servitude)
- Loop in loop out on the Bynes-Pelly 132kV Line, to Refilwe Substation.(Refilwe - Pelly Line Servitude)
- New Refilwe-BigTree 132kV line (Refilwe - Bigtree Line Servitude)

2. Pelly Fairfield application

- Pelly-Fairfield Line (from Pelly to the Fairfield Tee-off) (Pelly - Fairfield Line Servitude)

3. Diamon Byness application

- Establish new Diamond Substation 132/11kV 2x20MVA. (Diamond SS Site Servitude)
- From Diamond Loop in Loop out from Esselen-Bynes 132kV Line. (Diamond - Bynes Line Servitude)

- There is significant load growth expected in the area due to developments, electrification and growth of the existing load. Consequently, the existing network is unable to accommodate the load growth and will require strengthening.
- From a network reliability point of view, there are several feeders in the area that do not conform to reliability guidelines i.e. Feeders have more than 3000 customers, are longer than 120km and do not have 100% back feeding. Lastly the area has several feeders that are poorly performing in terms of SAIDI performance i.e. they exceed their SAIDI targets.

We confirm that this is a project that is part of the SIP 10 programme.
If any further clarification is required you are welcome to contact this office.

Yours sincerely

LANDOWNER NOTIFICATION FOR THE PROPOSED CONSTRUCTION OF THE 132KV BIGTREE-REFILWE AND REFILWE-PELLY POWERLINE IN THE CITY OF TSHWANE METROPOLITAN MUNICIPALITY, GAUTENG PROVINCE

Eskom Holdings (SOC) Limited: Eskom – Gauteng Cape Operating Unit (Eskom) has applied for Environmental Authorisation from the National Department of Environmental Affairs (DEA) in terms of the National Environmental Management Act, 1998 (Act No 107 of 1998) as amended (NEMA) and Environmental Impact Assessment (EIA) Regulations, 2010; for the proposed construction of the 132kV Bigtree-Refilwe and Refilwe-Pelly powerline in the City of Tshwane Metropolitan Municipality, Gauteng Province.

The Application for Environmental Authorisation is conducted in accordance with the following legislation:

- Environmental Authorisation from the National Department of Environmental Affairs (DEA) in terms of the National Environmental Management Act, 1998 (Act No 107 of 1998) (NEMA) and associated Environmental Impact Assessment (EIA) Regulations (GNR 544, 18 June 2010). (requiring a BA process),
 - GN544 (Listing Notice 1), Listed Activity no 10(i), 11(xi), 22(ii) and 23(ii).
 - GN546 (Listing Notice 3), Listed Activity no 4(b)(i)(iii)(viii), 12(b) and 14(a)(i).
- In terms of the National Water Act, 1998 (Act No. 36 of 1998), a Water Use License application will be compiled for the various water crossings along the Eskom Bigtree-Refilwe and Refilwe-Pelly 132 kV powerline route. The WULA is for the following activities:
 - C: impeding or diverting the flow of water in a watercourse; and
 - I: altering the bed, banks, course or characteristics of a watercourse.

GIBB (Pty) Ltd (GIBB) has been appointed by Eskom to undertake an environmental authorisation process (Basic Assessment – BA) and associated public participation process in support of the above application.

You have been identified as a potentially affected Landowner for the above mentioned project. Further information relating to the proposed development is provided in the sections below.

STUDY AREA & PROPOSED DEVELOPMENT:

At a regional level, the study area falls within the Gauteng Province and is situated within the City of Tshwane Metropolitan Municipality. The development has been split into three (3) sections in order to simplify the descriptions of the powerline alignments and associated substation location. These sections are outlined below:

1. Bigtree-Refilwe 132kV powerline;
2. Refilwe newly proposed substation; and
3. Refilwe-Pelly 132kV powerline

The main purpose of the proposed powerline is to strengthen the existing electricity supply in the area, and as such provide the area with adequate and reliable power supply to meet current and future demands.

PROJECT ALTERNATIVES:

Section 1:

Three (3) route alternatives exist for the proposed 132kV powerline alignment connecting from the existing Bigtree substation to the newly proposed Refilwe substation with a total distance of approximately 34km. The three (3) route alternatives from the existing Bigtree substation to newly proposed Refilwe substation follow similar alignments with small deviations indicating the respective connections to each of the substation locations. Alternative 1 (preferred), 2 and 3 follow the same alignment for approximately 30km, where after they deviate from one another with **Alternative 1 (preferred)** extending in a south-westerly direction for a further 4km to connect to *Refilwe substation Alternative 1*. **Alternative 2** extends in a north-westerly direction for a further 800m to connect to the *Refilwe substation Alternative 2*. Lastly, **Alternative 3** extends in a south-easterly direction for a further 800m to connect to the *Refilwe substation Alternative 3*.

Section 2:

Three alternatives exist for the proposed location of the Refilwe substation. The three substation alternatives are located along the proposed powerline alignments for the connection from the existing Bigtree substation to the 132kV Pelly powerline. Alternative 1 (preferred) constitutes an approximate size of 3ha, Alternative 2 an approximate size of 10ha and Alternative 3 an approximate size of 2ha. The proposed Refilwe substation will be located adjacent to the Refilwe Township and will be used to split the Zonderwater-Kraal feeder line due to potential capacity constraints envisaged for the future. It is important to note that the location of the proposed Refilwe substation is dependent on the proposed alignment of the connection from the existing Bigtree substation to the 132kV Pelly powerline.

Section 3:

Three (3) route alternatives exist for the proposed 132kV powerline alignment connecting from the existing 132kV Pelly powerline to the newly proposed Refilwe substation with a total distance of approximately 10km. The three (3) route alternatives from the existing 132kV Pelly powerline to newly proposed Refilwe substation follow similar alignments with small deviations indicating the respective connections to each of the substation locations. Alternative 1 (preferred) 2 and 3 follows the same alignment for approximately 4.8km, where after they deviate from one another with **Alternative 1 (preferred)** extending in a north-easterly direction for a further 1.6km to connect to *Refilwe substation Alternative 1*. **Alternative 2** extends in a north-north-easterly direction for a further 4.8km to connect to the *Refilwe substation Alternative 2*. Lastly, **Alternative 3** extends in an easterly direction for a further 4.2km to connect to the *Refilwe substation Alternative 3*.

**Please refer to Figure 1 for the Locality Map indicating alternative 1(preferred), 2 and alternative 3 of the proposed route alignments of the Bigtree-Refilwe and Refilwe-Pelly 132 kV powerline.*

SPECIALIST STUDIES:

The following specialist studies will be conducted as part of the BA process:

- Heritage Impact Assessment;
- Wetland Impact Assessment;
- Avifaunal Impact Assessment; and
- Ecological Impact Assessment.

PUBLIC INVOLVEMENT:

All Interested and/or Affected Parties (I&APs) are invited to participate by: Registering written comments on the abovementioned project to the GIBB Public Participation Office.

Comments should include the I&AP's name, organisation, telephone and fax numbers, physical and postal address, email address, your comment and/or interest in the project, and can be submitted by post, fax or email to the Public Participation Office (details provided below).

<p>Att: Alecia Barnard The Public Participation Office Email: publicparticipation@gibb.co.za Tel: 012 348 5880 Fax: 012 348 5878 Post: P O Box 35007, Menlo Park, 0102</p>
--

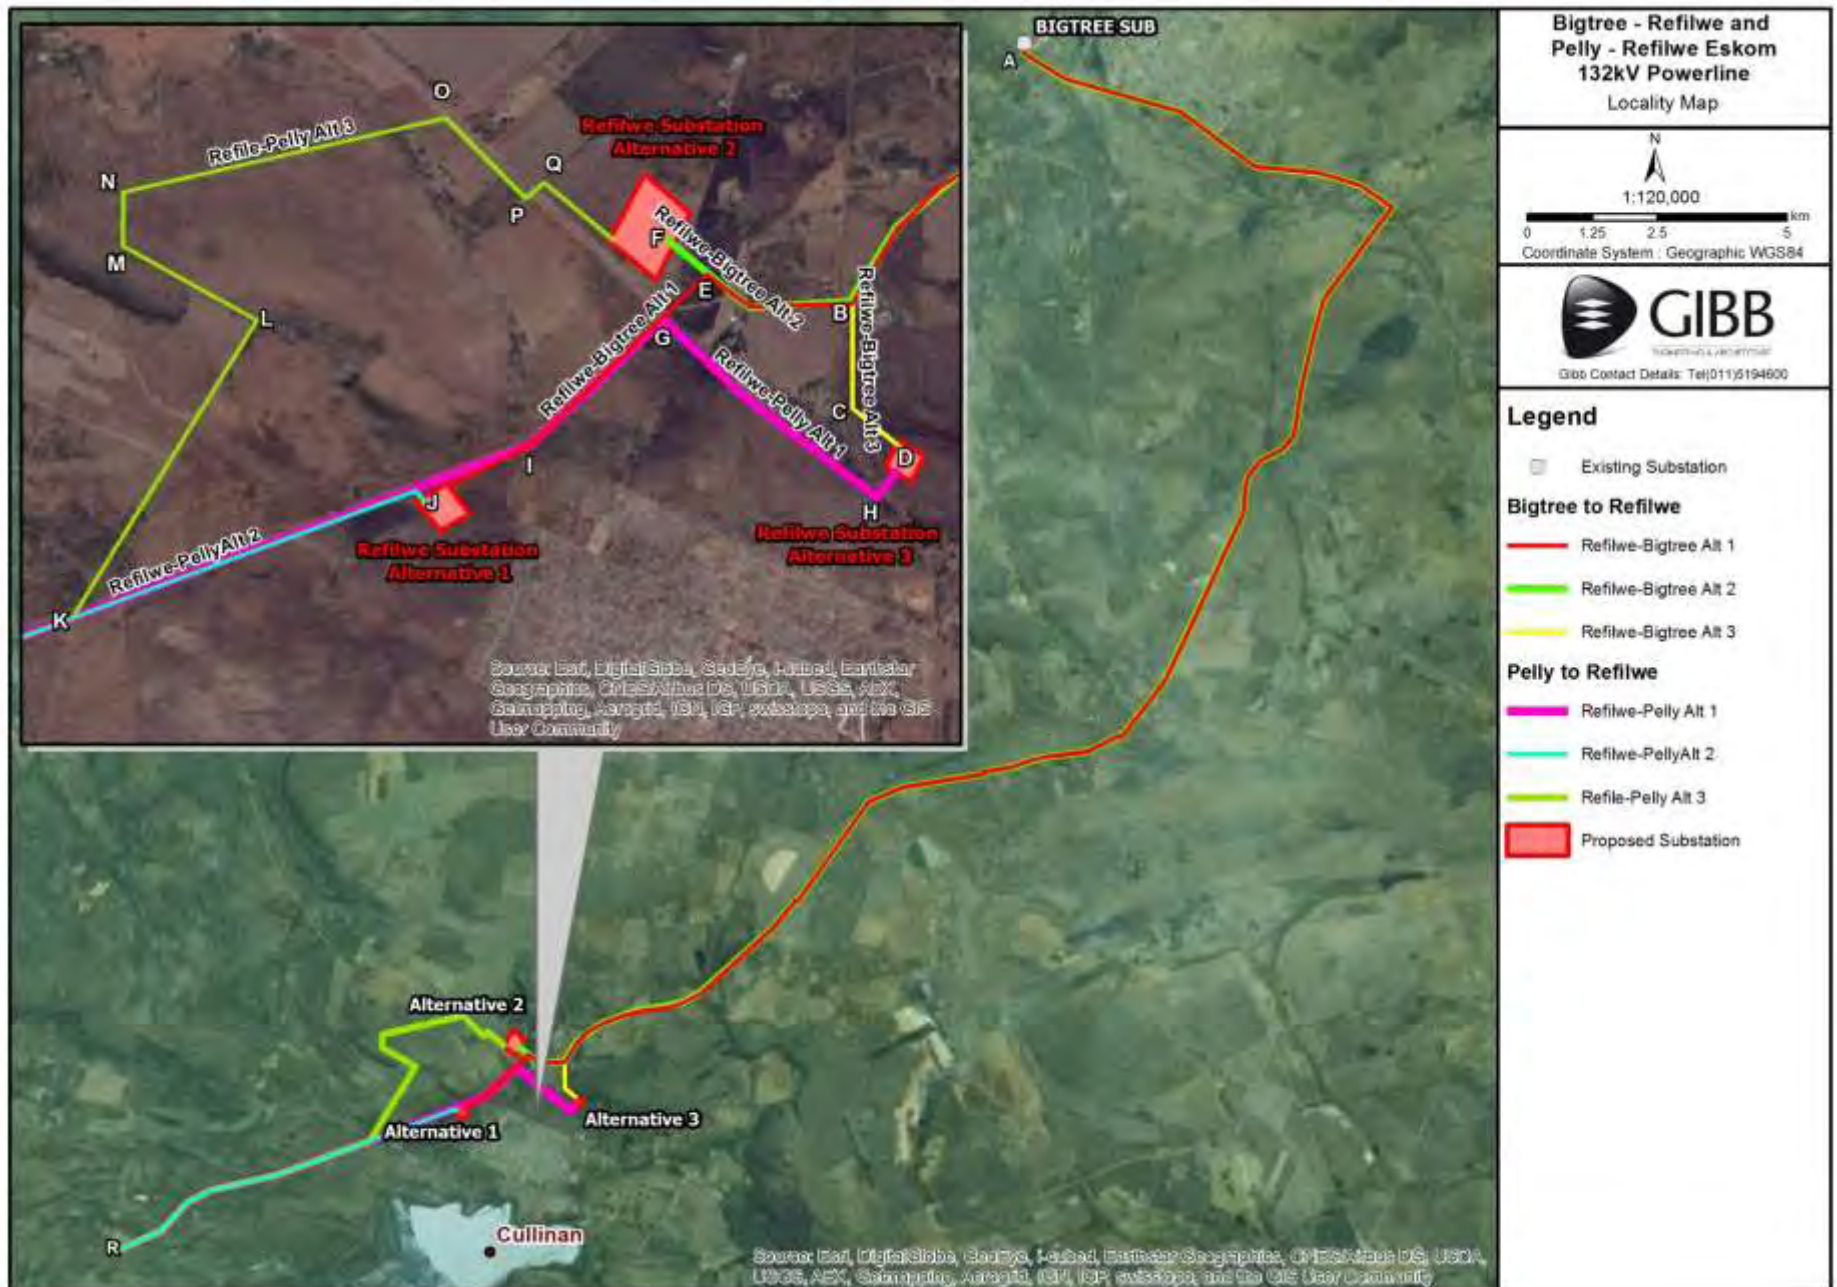

Figure 1: Locality map for the proposed route alignments of the Bigtree-Refilwe and Refilwe-Pelly 132 kV powerline

GIBB will distribute further information and correspondence on the project and associated Basic Assessment process to all registered Interested and Affected Parties and provide further opportunities for comments throughout the EIA process.

Should you require further information, please do not hesitate to contact us.

Yours faithfully
On behalf of GIBB (Pty) Ltd

Umeshree Naicker
Senior Environmental Scientist

INTERESTED AND AFFECTED PARTY CONTACT DETAILS

Name	
Organisation	
Telephone number	
Physical address	
Postal address	
Fax number	
Email address	

Please state your interest (i.e. direct business, financial, personal or other interest) within respect to the approval or refusal of the application for the proposed Bigtree-Refilwe and Refilwe-Pelly 132kV Powerline, Gauteng Province.

Please state any concerns, suggestions and/or potential impacts that should be investigated during the BA process:

All comments must be submitted to GIBB by means of the contact details provided below.

Contact details:

**APPENDIX 8
DECLARATION OF THE APPLICANT**

I, Charmaine Mavé declare that I -

- am, or represent¹, the applicant in this application;
- have appointed ~~/will appoint~~ (delete that which is not applicable) an environmental assessment practitioner to act as the independent environmental assessment practitioner for this application / will obtain exemption from the requirement to obtain an environmental assessment practitioner²;
- will provide the environmental assessment practitioner and the competent authority with access to all information at my disposal that is relevant to the application;
- will be responsible for the costs incurred in complying with the Regulations, including but not limited to –
 - costs incurred in connection with the appointment of the environmental assessment practitioner or any person contracted by the environmental assessment practitioner;
 - costs incurred in respect of the undertaking of any process required in terms of the Regulations;
 - costs in respect of any fee prescribed by the Minister or MEC in respect of the Regulations;
 - costs in respect of specialist reviews, if the competent authority decides to recover costs; and
 - the provision of security to ensure compliance with conditions attached to an environmental authorisation, should it be required by the competent authority;
- will ensure that the environmental assessment practitioner is competent to comply with the requirements of the Regulations and will take reasonable steps to verify that the EAP
 - know the Act and the regulations, and how they apply to the proposed development
 - know any applicable guidelines
 - perform the work objectively, even if the findings do not favour the applicant
 - disclose all information which is important to the application and the proposed development
 - have expertise in conducting environmental impact assessments
 - complies with the Regulations
- will inform all registered interested and affected parties of any suspension of the application as well as of any decisions taken by the competent authority in this regard;
- am responsible for complying with the conditions of any environmental authorisation issued by the competent authority;
- hereby indemnify the Government of the Republic, the competent authority and all its officers, agents and employees, from any liability arising out of the content of any report, any procedure or any action which the applicant or environmental assessment practitioner is responsible for in terms of these Regulations;
- will not hold the competent authority responsible for any costs that may be incurred by the applicant in proceeding with an activity prior to obtaining an environmental authorisation or prior to an appeal being decided in terms of these Regulations;
- will perform all other obligations as expected from an applicant in terms of the Regulations;
- all the particulars furnished by me in this form are true and correct; and
- I realise that a false declaration is an offence in terms of regulation 71 and is punishable in terms of section 24F of the Act.

¹ If this is signed on behalf of the applicant, proof of such authority from the applicant must be attached.

² If exemption is obtained from appointing an EAP, the responsibilities of an EAP will automatically apply to the person conducting the environmental impact assessment in terms of the Regulations.

lhare'

Signature³ of the applicant⁴/ Signature on behalf of the applicant:

Estom SOC Ltd

Name of company (if applicable):

08/12/2014

Date:

³ Only original signatures will be accepted. No scanned, copied or faxed signatures will be accepted.

⁴ If the applicant is a juristic person, a signature on behalf of the applicant is required as well as proof of such authority. An EAP may not sign on behalf of an applicant.

**APPENDIX 9
DECLARATION OF THE EAP**

I, Umeshree Naicker declare that –

General declaration:

- I act as the independent environmental practitioner in this application
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant
- I declare that there are no circumstances that may compromise my objectivity in performing such work;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, Regulations and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, Regulations and all other applicable legislation;
- I will take into account, to the extent possible, the matters listed in regulation 8 of the Regulations when preparing the application and any report relating to the application;
- I have no, and will not engage in, conflicting interests in the undertaking of the activity;
- I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing - any decision to be taken with respect to the application by the competent authority; and - the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;
- I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;
- I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;
- I will keep a register of all interested and affected parties that participated in a public participation process; and
- I will provide the competent authority with access to all information at my disposal regarding the application, whether such information is favourable to the applicant or not
- all the particulars furnished by me in this form are true and correct;
- will perform all other obligations as expected from an environmental assessment practitioner in terms of the Regulations; and
- I realise that a false declaration is an offence in terms of regulation 71 of the Regulations and is punishable in terms of section 24F of the Act.

Disclosure of Vested Interest (delete whichever is not applicable)

- I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Regulations;
